Subject: Approving the Memorandum of Understanding with The City of Sacramento for Sharing of Fiber Optics Communications and Security Cameras

ISSUE

Whether or not to approve the Memorandum of Understanding (“MOU”) between the City of Sacramento and the Sacramento Regional Transit District regarding the sharing of communications networks.

RECOMMENDED ACTION

Adopt Resolution 10-08-_____, Approving the Memorandum of Understanding Between the City of Sacramento and the Sacramento Regional Transit District Regarding the Sharing of Communications Networks.

FISCAL IMPACT

None.

DISCUSSION

Both the City of Sacramento Police Department and RT have fiber optic networks that are located at the intersection of 29th and N Streets. RT and City staff have developed an MOU that provides for interconnecting these fiber networks for the purpose of sharing live surveillance video streams.

Under the MOU, the City agrees to allow RT staff view-only access to all surveillance cameras on the City network, and RT would provide reciprocal view-only use of RT’s surveillance cameras.

The physical fiber connection between the two networks was accomplished as part of a prior project, so there are no expected fiscal costs to RT to provide the requested network and camera access.

Staff believes the MOU provides for effective use of existing assets and infrastructure, saving both the City and RT money as well as enhancing each agency’s security and surveillance capabilities.

Staff recommends approving the MOU between the City of Sacramento and the Sacramento Regional Transit District regarding the sharing of communications networks and access to video surveillance cameras.
