Cost Cntr/GL Acct(s) or Capital Project #:	410.06.04.02.02	Total Amount:	\$	1,100,000
Total Budget:	\$ 1,100,000*			

\* This is an estimate only and does not include a temporary bridge RT is obligated to pay full actual cost to SMUD.

## DISCUSSION

The South Sacramento Corridor Phase 2 project (Project) will extend Sacramento Regional Transit District's (RT's) light rail service from its existing terminus at Meadowview Road south and east 4.3 miles to Cosumnes River College (CRC). The extension will link the fastest growing portion of Sacramento County, the South Corridor, with Downtown, the northeast Sacramento corridor and Rancho Cordova or Folsom in the east corridor. The project includes four stations located at Morrison Creek, Franklin Boulevard, Center Parkway, and Cosumnes River College. The current estimated project cost is \$270 million.

Within the Project limits, overhead utilities must be relocated to accommodate Project construction. The construction of the track and aerial structure will create conflicts with the Sacramento Municipal Utility District's (SMUD) electric facilities. Consequently, relocation of two 230kv poles and five 69kv poles is required.

Subject: Approving the Electric Utility Facilities Relocation Reimbursement with SMUD for SSCP2

The estimated cost for SMUD's relocation and reconstruction of its electric facilities for the Project is approximately \$1,100,000.

The agreement would obligate RT to pay 100% of SMUD's submitted costs for utility relocations under a limited reservation of rights to audit such costs.

Staff recommends approving the Agreement between the Sacramento Municipal Utility District and Sacramento Regional Transit District to relocate 230kv and 69kv facilities for the South Sacramento Corridor Phase 2 Project.
