DISCUSSION

On March 8, 2010, the Board adopted Resolution No. 10-003-0024 delegating authority to the General Manager/CEO to execute the Detectable Warning Tile Improvement Agreement with the City of Sacramento. RT and City of Sacramento staff agreed that the funding of the DWT improvements should be on an equitable basis at locations where both jurisdictions have related facilities with all work being performed by the City of Sacramento or its contractor. The resolution required full project completion to occur no later than July 31, 2010 and Regional Transit's share of costs of installing detectable warning tile at grade crossings and light rail stations was not to exceed \$180,000.

RT staff received notification from the City of Sacramento that they could not complete all locations by July 31, 2010. The actual cost of RT's share for DWT improvements was revised to an amount not to exceed \$175,000 rather than \$180,000 which the Board authorized.
