

General Manager's Report March 14, 2011

GOVERNMENT AFFAIRS UPDATE

FEDERAL

Last week, as a stopgap budget measure to prevent the federal government from shutting down, President Obama signed a Fiscal Year 2011 Continuing Resolution (CR) that will extend the federal government's spending authority to March 18, 2011. Congress will now work on budget solutions to provide seven months funding for federal programs and agencies in Fiscal Year 2011.

Just as the Safe, Accountable, Flexible, Efficient Transportation Equity Act (SAFETEA-LU) was set to expire on March 4, 2011 House Resolution 662, a measure that provides a seven-month extension to SAFETEA-LU cleared both the House and Senate, and President Obama approved the seventh short-term extension in the measure to ensure federal funding of highway and transit programs at 2010 and 2009 levels. The surface transportation program will now be funded through September 30, 2011.

On March 14th, I will travel to Washington D.C. to participate in the New Starts Day on Capitol Hill scheduled for March 15, 2011. The Federal Transit Administration's (FTA) New Starts Program and the renewal of a multi-year surface transportation measure being major topics that will be discussed. In recent federal budget negotiations, the New Starts Program has been one of the federal programs targeted for an extreme budget cut to the point of elimination. The American Public Transportation Association (APTA) will be holding their annual 2011 Legislative Conference during this same week with many public transit advocates voicing their concerns on the timing of a surface transportation authorization measure and the appropriations process to fund federal programs related to public transit.

STATE

This week, just as full floor votes were expected before Governor Jerry Brown's state budget deadline of March 10, 2011, there was news of an apparent impasse on the 2011-12 state budget negotiations that may hinder Governor Brown's plan to put his tax extension measure on the June special election ballot. Our state lobbyist reports that both the Assembly and Senate are scheduled to move forward to bring budget action to both floors of the Legislature.

For the 2011-2012 Legislative Session, RT has been working with the District's lobbyists to move a legislative proposal to extend and improve RT's current Exclusion Policy authorized by Senate Bill 1561 (Chapter 528 Statutes of 2008). The District's exclusion policy, which addresses nuisance behavior and security, is scheduled to sunset in 2012. In response, Assemblymember Roger Dickinson introduced Assembly Bill 716 to extend the administrative provisions first approved under SB 1561. The measure is scheduled to be heard in the Assembly Transportation Committee on April 11, 2011 and the District is working to incorporate amendments to the current language being considered that will strengthen the law.

MONTHLY PERFORMANCE REPORT – (JANUARY 2011)

The January Monthly Performance Report is attached and will be reviewed during the Board meeting.

January 2011 FY 2011 - Key Performance Report

Management Notes:

Some of the metrics in this report have been readjusted¹ to reflect the District's amended Fiscal Year 2011 Operating and Capital Budget that the RT Board of Directors adopted on February 14, 2011. The adjusted¹ performance goals compliment the District's continued focus on cost containment. The District's Fiscal Year 2011 operating budget represents an approximate 30 percent reduction compared to Fiscal Year 2010, which was accomplished through significant cost containment efforts and implementing a 20 percent bus service reduction and a 9 percent light rail service reduction. Consequently, the implementation of service reductions in June resulted in a reduction of ridership and fare revenue. In the ensuing months, RT's systemwide ridership projections may be impacted by the region's double-digit unemployment rate and the State of California's continuation of state employee furloughs. In the month of January, the District was \$756 thousand over budget with the main contributing factor being higher labor costs which are customarily known to RT to be higher due to two paid holidays, and employees opting to cash out floating holiday and vacation time.

- RT's fare recovery ratio in the month of January was 23.8 percent and year-to-date it is 26.4 percent. Compared to the same period last year it has increased by 1.3 percent and 2.4 percent respectively. For the month of January, the District's fare revenue was \$2.3 million, below budget by \$124 thousand.
- Systemwide ridership for the month of January compared to the same period last year decreased by 5.71 percent, rail ridership decreased 5.12 percent and combined bus ridership decreased 6.29 percent. However, in relation to the District's established ridership goals for FY 2011, in January systemwide ridership was 2.3 percent above the established goal, rail ridership was 3.3 percent above the goal, bus ridership was 1.4 percent above the goal and CBS ridership was 5.7 percent below the goal. The District anticipated a decline in RT's ridership after fare increases in September 2009 and transit service reductions implemented before the beginning of FY 2011. RT's bus service has been reduced by 24 percent from a 4 percent service reduction in September 2009 and a 20 percent service reduction in June 2010. Currently, RT's rail ridership decline is greater than anticipated given the 9.3 percent service reduction in June 2010. Ridership estimates are based on visual counts from random route checks required by the Federal Transit Administration and until the District implements smart cards or installs automatic passenger counters on light rail vehicles, rail ridership numbers may have unpredictable fluctuations.
- Year to date, RT's cost per passenger for rail service was over the District's budget level at \$3.30 and the cost per passenger for bus service was over the District's budget level at \$4.97. RT's goals regarding cost per passenger have been adjusted to reflect the revised operating budget. RT's cost factors are greatly impacted by labor costs. RT's labor contract with ATU was recently arbitrated; the District received an interest arbitration award for the new contract that will reduce RT's labor cost over the next 2 years. In addition, labor costs are currently artificially inflated due to CBS vehicles being operated by regular/non-CBS bus operators; CBS operators were laid off in June 2010. In accordance with the ATU contract, the CBS routes are now being filled by regular/non-CBS bus operators which are compensated at a 35 – 40 percent higher wage rate than CBS operators. CBS costs for FY 2011 are expected to level within the next five month period through the standard operator attrition when the District will have the opportunity to call back CBS operators from layoff status.

- Year to date, RT's other cost factors (cost per hour/cost per mile) are within the District's budgeted levels. The District's performance goals in this area have been adjusted to reflect the revised budget.
- Year to date, RT's productivity (passengers per revenue mile) was above the District's goal by 0.6 percent for rail, and below the District's goal by 7.2 percent for bus and by 1.7 percent for CBS. The District's performance goals have also been adjusted to reflect the revised budget.
- RT monitors the overall performance of the fleet to evaluate potential failure trends. In the month of January, both rail and bus service exceeded the District's performance goals for mean distance between service calls. Rail service was reported at 64,156 miles between service calls and combined bus service was reported at 11,661. The high number for rail in January is due to a sharp decrease in CAF vehicle road calls.
- Year to date, RT's on-time performance for bus service was at 85.1 percent which is 0.1 percent above the District's goal. On-time departures for rail service were at 97.6 percent which is 0.6 percent higher than the District's goal. Completed trips for both rail and bus continue to meet the District's goal.
- The District's security statistics from RT's Police Services indicate a total of 43 reported crimes for the month of January with a passenger inspection rate of 11.01 percent. RT's Customer Advocacy department recorded 8 security related customer reports in the month of January.
- RT monitors factors that may influence operator absenteeism such as high levels of unscheduled operator overtime resulting from unfilled operator vacancies. Unscheduled operator overtime can increase the rate of operator absenteeism. There were 22.14 potential work days in the month of January with all RT recording a 6.87 percent rate of absenteeism equal to 1.52 unscheduled absentee days.

¹Adjustments reflect the District's Operating Budget amended February 14, 2011.

Operating Budget

The information in the summary table below corresponds with the District's newly revised FY 2011 Operating Budget. Preliminary results for the month of January 2011 indicate a \$1 million loss to the District's net fiscal result. In January, operating costs were over budget by \$756 thousand and revenues were below budget by \$312 thousand. Year-to-date, RT's net fiscal result shows a \$264 thousand loss, the District's revenues are below budget by \$364 thousand and operating costs are under budget by \$100 thousand.
