Subject: Resolution of Necessity to Acquire Certain Property or Interest in Real Property by Eminent Domain for the Sacramento Regional Transit District's South Sacramento Corridor Phase 2 (SSCP2) Light Rail Extension Project - Lewis Property

## ISSUE

Whether to adopt a Resolution of Necessity for the acquisition of certain real property for the Sacramento Regional Transit District's South Sacramento Corridor Phase 2 Light Rail Extension Project ("Project"). (See Attachment A)

Adoption of a Resolution of Necessity is a prerequisite to the acquisition of property by eminent domain. State law requires RT to hold a public hearing regarding the intent to adopt a Resolution of Necessity. The purpose of the public hearing is to hear testimony on the proposed Resolution of Necessity, to consider any relevant evidence, and to make findings about the following four issues set forth in the Eminent Domain Law:

1. The public interest and necessity to require the Project;
2. The Project is planned or located in a manner that would be most compatible with the greatest public good and the least private injury;
3. The property to be acquired is necessary for the Project, and;
4. The owner of record has received an offer for the fair market value of the property Pursuant to Government Code Section 7267.2.

## RECOMMENDED ACTION

Adopt Resolution No. 12-08-\_\_\_\_\_, Resolution of Necessity to Acquire Certain Real Property Interests by Eminent Domain for the South Sacramento Corridor Phase 2 Light Rail Extension Project – Redrick Lewis Property.

Subject: Resolution of Necessity to Acquire Certain Property or Interest in Real Property by Eminent Domain for the Sacramento Regional Transit District's South Sacramento Corridor Phase 2 (SSCP2) Light Rail Extension Project - Lewis Property

## DISCUSSION

The Project will extend service on RT's light rail system 4.3 miles from Meadowview Road to Cosumnes River College. Four new stations will be built as part of this extension. Additional improvements necessary for the Project include two aerial structures, four Traction Power Substations and a 2000-space parking structure at Cosumnes River College.

### 1. The Public Interest And Necessity Require The Project.

The Board has endorsed and approved the development of the Project as a part of the region's overall transportation network through numerous Board actions, including the certification of relevant environmental documents identifying the need for the Project, as well as approval of the acquisition of various property interests along the planned alignment. In addition, other local, regional, and federal agencies (including SACOG, STA, and FTA) have taken action regarding the Project, which further substantiate the public interest and necessity for its construction.

The Project goals are aligned with the public interest in accommodating the growing need for public transit and improved mobility in the region. The Project will improve and expand public transit service in the southern region of the City and County of Sacramento, enhance regional connectivity, and accommodate future travel demands through increased, interconnected rapid transit options. The Project will alleviate traffic congestion on area highways and roads; improve regional air quality by reducing auto emissions; improve mobility for corridor residents, in particular low income, youth, elderly, disabled and ethnic minority populations, to employment, education, and medical centers; and support local economic, land use, and transportation plans and goals for the Region.

### 2. The Project As Planned Is Most Compatible With The Greatest Public Good And The Least Private Injury.

The proposed alignment for the Project requires RT to acquire existing rail corridor property, two full residential properties, portions of residential properties, unimproved property, buffer lands, and other public lands. The current alignment was designed and approved because, it provides for the most direct connection from current light rail terminus to the desired terminus at Cosumnes River College with the least disruption to surrounding areas. Further, there is a substantial concentration of potential riders in the vicinity, whose use of the Project should relieve congestion on nearby highways and arterial surface streets. As set forth in related environmental analyses and reports, the environmental impacts of the Project's current alignment may be mitigated. The Project will also provide a cost-effective means to provide light rail service such that provides the greatest public benefit as compared to various other options initially considered. Similarly, by positioning the Project's current alignment along an existing rail corridor and by limiting residential property takes as much as possible, the Project minimizes private injury.

Subject: Resolution of Necessity to Acquire Certain Property or Interest in Real Property by Eminent Domain for the Sacramento Regional Transit District's South Sacramento Corridor Phase 2 (SSCP2) Light Rail Extension Project - Lewis Property

3. The Specific Property To Be Acquired Is Necessary For The Project.

The real property that the District must acquire is a 2,119 square foot portion of the tract of land ---  
 - The property is located at 3425 Jola Circle, Sacramento, California and is further identified by Assessor Parcel Number 053-0053-010 ("Property") (See Attachment B.) The Property is owned by Redrick Lewis.

The northernmost section of the Project is relevant to this Resolution of Necessity. That section will begin at Meadowview Road at the Union Pacific Railroad grade crossing, extend southward along the existing UPRR right of way to Morrison Creek, then turn west and follow along the Creek's westerly bank to Union House Creek.

The Lewis Property is situated near the western turn along Morrison Creek. As such, the Property is necessary for the Project in order to build retaining walls, to distance track construction from the existing SAFCA levee and satisfy local setback requirements, to allow for future levee construction and maintenance, and to provide access to this portion of the rail corridor for operation and maintenance.

4. The Owner of Record Has Received An Offer For The Fair Market Value Of The Property Pursuant To Government Code Section 7267.2.

On May 11, 2012, the District made a formal offer to the owner of record in the amount of its approved appraisal to purchase a portion of the Property pursuant to Government Code Section 7267.2 (See Attachment C). Negotiation with the owner was unsuccessful. Subsequent attempts to contact the owner of record have been unsuccessful.

If the Board makes these findings and adopts the Resolution of Necessity, the District has six months within which to commence court action in eminent domain. Staff recommends that the Board adopt the accompanying Resolution of Necessity, which must be adopted with a two-thirds affirmative vote.

RE: South Sacramento Corridor Project Phase 2  
APN: 053-0053-010

Dear Mr. Lewis:

Sacramento Regional Transit District ("RT") is expanding its light rail transit system with the design and construction of the South Sacramento Corridor Project Phase 2 (the "Project"). RT has determined that a portion of your property, referenced above, is needed to complete the Project.

This letter, the enclosed Informational Pamphlet, Appraisal Summary Statement, Purchase and Sale Agreement, Grant Deed, and Grant of Temporary Construction Easement (TCE) represent RT's offer to acquire a fee interest in a portion of your property, as well as to purchase an easement interest in your property, for \$21,200.00. Please note that to the extent there are liens, assessments or other interests recorded against the property, agreement must be reached with the individuals or entities holding such interests to satisfy them before funds can be released to you.

As you can see from the enclosed Appraisal Summary Statement, RT is offering to purchase your property for the fair market value as determined by a private appraiser hired by RT. This value includes compensation for the permanent and temporary interests in the land and any existing improvements.

You may choose to have your own appraisal done, and if you do so, you will be eligible to receive reimbursement from RT of up to \$5,000 for reasonable costs of an independent appraisal (Pursuant to California Civil Code of Procedure § 1263.025(a)). To receive reimbursement, you must hire an appraiser licensed by California's Office of Real Estate Appraisers who is experienced in eminent domain acquisition.

This offer will remain valid until revoked in writing by RT. If you wish to accept this offer, please sign the enclosed Purchase and Sale Agreement, Grant Deed, and Grant of TCE and return them to RT. Please note that the Grant Deed and Grant of TCE must be signed before a Notary Public.

RT welcomes your questions and comments regarding any aspect of this transaction. You may contact Pam Samms, Paragon Partners, Ltd., at (916) 565-1174 to further discuss. We look forward to working with you on this transaction.

Sincerely,

Michael R. Wiley

### BASIS OF VALUATION

The just compensation being offered by RT is not less than the approved appraisal of the fair market value of the property. The fair market value of the property proposed for acquisition is based on a fair market value appraisal prepared according to accepted appraisal procedures. Where appropriate, sales of comparable properties and income data are utilized. Principal transactions of comparable properties, where evaluated, are included herein (Page 3). The appraiser has given full and careful consideration to the highest and best use for development of the property and to all features inherent in the property, including, but not limited to, zoning, development potential and the income the property is capable of producing.

Note: The appraisers were unable to inspect the subject property, and thus, this appraisal was prepared under the extraordinary assumption that the residence is in average condition, and has no major defects that would have an adverse affect on the market value of the property.

California Code of Civil Procedure Section 1263.320 defines fair market value as follows:

- a.) Fair market value is defined as the highest price that would be agreed to by a seller, being willing to sell but under no particular or urgent necessity for doing so, nor obliged to sell, and a buyer, being ready, willing and able to buy but under no particular necessity for doing so, each dealing with the other with full knowledge of all the uses and purposes for which the property is reasonably adaptable and available.
  - b.) The fair market value of property taken for which there is no relevant market is its value on the date of valuation as determined by any method of valuation that is just and equitable.

Severance Damages®: \$ 11,977.01

In addition to determining the market value of the parcel(s) sought to be acquired severance damages were considered. Severance damages are determined based on whether or not the remainder would be diminished in value by reason of the proposed acquisition and/or by the construction of the improvement in the manner proposed. Some severance damage may be mitigated or entirely eliminated by estimating the cost to cure the damage. Where severance damages are found, offsetting benefits are determined. (See Page 4 – Benefits defined.) Under California law, benefits can only be offset against severance damages. If no severance damages are found, there is no application of offsetting benefits.

The appraisers valued the subject property in the before condition, under the hypothetical condition that the proposed project does not exist, and in the after condition, under the hypothetical condition that the proposed project had been completed in the manner proposed. The estimated value in the before condition is \$77,500. The estimated value in the after condition is \$57,500. This loss in value of \$20,000 is greater than the compensation for the area to be acquired and improvements pertaining to the realty, and results in a net severance damage of \$11,977.01.

Benefits®: It is the appraisers opinion that the proposed project does not benefit the subject property. \$ -0-

**SUMMARY OF THE BASIS FOR JUST COMPENSATION**  
**Narrative summary of the valuation process supporting compensation:**

The market value for the property to be acquired by RT is based upon an appraisal which was prepared in accordance with accepted appraisal principles and procedures. Recent sales of comparable properties and cost data were utilized as appropriate. Full consideration was given to zoning, development potential and the income the property is capable of producing. The sales comparison approach was the only approach utilized in estimating the market value of the site. The cost and income approaches were not considered applicable in the site valuation and thus were not utilized. Damages and benefits to the remainder were analyzed and it was determined that there was a loss in value to the remainder as a result of the proposed acquisition and construction of the project in the manner proposed. Both the sales comparison approach and income approach were utilized in estimating the market value of the entire property in the before and after condition.

The comparables used in the Site Valuation are listed below:

The subject is a 1,350 square foot, 4 bedroom, 2 bath residence, similar in most aspects to the above recent sales, all in the same area as the subject. Adjustments were made for conditions of sale (bank sale, etc.), site size and location, condition of improvement, bedrooms/baths, and heating/cooling systems. After the application of adjustments to the data, the overall market value of the subject in the before condition was estimated to be \$77,500. The appraisers analyzed the property in the after condition, considering the proposed acquisition and construction of the project in the manner proposed. Using both the above sales, and the Income Approach, the appraisers concluded that the market value in the after condition, under the hypothetical condition that the project was completed in the manner proposed, is \$57,500.

**DEFINITIONS\***

① Highest and Best Use Analysis

*Highest and best use* is defined as the reasonably probable use of land which is legally permissible, physically possible, and financially feasible that results in the highest value. Highest and best use analysis is used in the appraisal process to identify comparable properties and, where applicable, to determine whether the existing improvements should be retained, renovated, or demolished.

② Improvements Pertaining to the Realty (if any)

Machinery, Fixtures and Equipment identified here were separately valued as improvements pertaining to the realty. Prior to escrow close, owner and lessee must agree (and confirm in writing) as to ownership of said improvements pertaining to the realty, a list of which is attached to the Purchase Agreement as Exhibit “\_\_” and delivered contemporaneously with this valuation summary statement.

③ Severance Damages (Applies to Proposed Partial Acquisitions)

The appraisal also determines whether or not the District’s proposed acquisition results in damages to the remaining property. The basis for this determination is whether or not the value of the remainder is diminished by reason of the anticipated acquisition of the property interest being acquired and the

### 3. POSSESSION

Notwithstanding any other provision in this Agreement, the parties agree that RT may obtain the right of possession and use of the Subject Property described in Article 1 of this Agreement, including the right to remove and dispose of improvements at any time on or after the date the Purchase Price is deposited into escrow. If RT desires to obtain possession and use of the Subject Property, RT will provide written notice to Seller in the manner described in the Article included herein titled "Notices" expressly stating the effective date of such right of possession and use of the Subject Property. If RT does not provide notice of early possession, Seller must provide possession of the Subject Property at close of escrow. RT and Seller will each deliver signed instructions to Escrow Holder at least three business days prior to close of escrow. The instructions will be consistent with the terms of this Agreement and any amendments. Prior to close of escrow, Seller will each provide Escrow Holder with a Seller's Affidavit of non-foreign status as required by the Internal Revenue Code Section 1445 and a Seller's Affidavit under California Revenue and Taxation Code Section 18662. Escrow will close within 90 calendar days after execution of this Agreement, unless otherwise agreed to in writing by RT and Seller. Prior to close of escrow, Seller must provide RT with a Statement of Identity to assist RT in establishing clear title to the Property and obtaining title insurance.

RESOLUTION NO. 12-08-\_\_\_\_\_

Adopted by the Board of Directors of the Sacramento Regional Transit District on this date:

August 13, 2012

**RESOLUTION OF NECESSITY TO ACQUIRE CERTAIN REAL PROPERTY  
INTERESTS BY EMINENT DOMAIN FOR THE SOUTH  
SACRAMENTO CORRIDOR PHASE 2  
LIGHT RAIL EXTENSION PROJECT  
REDRICK LEWIS PROPERTY**

BE IT HEREBY RESOLVED BY THE BOARD OF DIRECTORS OF THE SACRAMENTO REGIONAL TRANSIT DISTRICT AS FOLLOWS:

1. As part of the South Sacramento Corridor Phase 2 Light Rail Extension Project, the Sacramento Regional Transit District (RT) is extending service from its Meadowview Light Rail Station to Cosumnes River College, which will add approximately 4.3 miles of track from Meadowview Road to Cosumnes River College, four new stations beyond Meadowview, including Morrison Creek, Franklin Boulevard, Center Parkway, and Cosumnes River College, two flyovers structures, four Traction Power Substation sites, tail tracks, and a parking structure.
2. The Project requires the acquisition of the real property identified as Assessors Parcel Number 053-0053-010, and more fully described in Exhibit A and depicted in Exhibit B, which are incorporated herein by reference (the "Property").
3. RT has complied with all the requirements of the California Environmental Quality Act and the National Environmental Policy Act for the Project.
4. The Property is to be acquired for public use, to wit the construction of light rail tracks and related improvements, as part of the Project. Under Public Utilities Code Sections 102240 through 102243, inclusive, Article I, Section 19 of the California Constitution, and Code of Civil Procedure Sections 1230.010 et seq., the District is authorized to acquire the property by eminent domain.
5. RT will acquire a fee simple interest in the Property as described in Exhibit A.
6. To the extent the Property is being put to public use, the Property is being acquired for a compatible public use under Code of Civil Procedure Section 1240.510 in that RT's use of the Property will not interfere with or impair the continued public use as it now exists or may reasonably be expected to exist in the future or in the alternative, for a more necessary public use under Code of Civil Procedure Section 1240.610 in that RT's use of the Property is a more necessary public use than the use to which the Property is appropriated.
7. Written notice of intent to adopt this Resolution of Necessity was duly given to the Property owners of record.
8. RT has calendared this item on the Agenda and invited public comment prior to the meeting when this Resolution was considered for adoption.

9. After giving due consideration to all oral and documentary evidence presented, the Board has found and determined each of the following to be true:
  - a. The public interest and necessity require the construction of light rail service from the Meadowview Station to Cosumnes River College as outlined in the South Sacramento Corridor Phase 2 Light Rail Extension Project; and
  - b. The proposed Project is planned and located in the manner that will be the most compatible with the greatest public good and the least private injury; and
  - c. The Property is necessary for the Project; and
  - d. The offer required by Government Code Section 7267.2 has been made to the owners of record of the Property.
10. The Chief Counsel or his designee is hereby authorized to commence and prosecute an eminent domain action in the appropriate court on behalf of RT to acquire the Property, to deposit the amount of probable compensation pursuant to Code of Civil Procedure Section 1255.010, and to obtain an order for immediate possession as may be necessary for the Project.

The foregoing Resolution was introduced at a regular meeting of the Board of Directors of the Sacramento Regional Transit District held on August 13, 2012 by Director \_\_\_\_\_, who moved its adoption. The motion was seconded by Director \_\_\_\_\_, and a poll was taken, recorded as follows:
