DISCUSSION

Retirement Boards (5)

Each year the new Chair appoints the Management members of the RT Retirement Boards. The prior year’s members of these Boards were Director Miller, General Manager/CEO Wiley, and alternate Director Fong. Each Retirement Board (ATU, IBEW, AEA, AFSCME, and MCEG) consists of 2 members and an alternate from the Labor side, and two members and an alternate from the Management side. Each Retirement Board will meet once each quarter to review the performance of all RT’s investments; retirement fund managers; and occasionally, to approve disability retirements. The meetings are held at 9:00 a.m. in the Regional Transit Auditorium/Board Room.

The RT Board Chair needs to appoint 2 management members and an alternate to each of the Retirement Boards. The RT Board Chair may appoint the same members to each Retirement Board. A Management member is defined as a Board member or a member of RT’s Management staff.

The Executive Committee

This committee will provide policy direction to RT Staff for consideration of items related to human resources, collective bargaining, audits and financial matters, general administration (i.e., management information systems), transit service planning and development (including Regional Transit’s major investment projects), real estate (including transit oriented development) and transit operations. The meetings will be scheduled on an “as needed” basis. The members of this committee will be comprised of the Chair and Vice-Chair, and all other Board members.

Capitol Corridor Joint Powers Authority (CCJPA)

The CCJPA is a partnership among six local transportation agencies and was formed for the purpose of administering and managing the operation of the Capital Corridor Rail Service as part of the California intercity passenger rail system. The prior year’s members of this Board were Director Cohn, Director Serna, and alternate Director Ashby. The Board normally meets on the third Wednesday of February, April, June, September and November at 10:00 a.m. in various locations. Two Board members and an alternate are needed to continue to represent RT on the CCJPA. RT Board members, or their jurisdiction, who serve on this Board are compensated at a rate of \$100 per meeting, plus applicable expenses.

Sacramento-Placerville Transportation Corridor Joint Powers Authority (SPTCJPA)

The SPTCJPA was formed to serve the mutual interest of member agencies to preserve the Southern Pacific Placerville Railroad right of way as a transportation corridor. Director Sander currently serves as the Representative on this Authority. Chair Nottoli currently serves as alternate on this Authority. There are no term limits to this appointment. The JPA Agreement

Subject: Appointments to Boards/Committees

requires that “one director and one alternate shall be current members of the District Board of Directors”. However, the RT Board may change these appointments at this time. This Authority meets 4 times per year (February, May, August and November). A Director and an alternate are needed to continue to represent RT on the SPTCJPA Board. The Board meets quarterly and RT’s representative, or their appointing jurisdiction receives \$100 per meeting.

Paratransit Board of Directors

The Paratransit Board of Directors is the governing Board of Paratransit Inc. Paratransit Inc. provides specialized transportation services to senior and disabled persons within the RT District. The prior year’s members of this Board were Directors Pannell and Sander. Each representative serves a three year term, however there are no term limits to this appointment and the incumbent may continue to serve. Two representatives are needed to continue to represent RT on the Paratransit Board of Directors. The Board meets bi-monthly and RT’s Board member representatives, or their appointing jurisdiction, receive \$100 per meeting.

Downtown/Riverfront Streetcar Policy Steering Committee

The Policy Steering Committee was formed to oversee the work of the consultants working on the Downtown/Riverfront Streetcar Project. The Project is administered by the City of West Sacramento. The prior year’s members of this committee were Director Serna, who served as the Representative, and Director Pannell, who served as alternate. One Director and one Director alternate are needed to continue to represent RT on this committee.

Regional Rail Central Valley Working Group

The Regional Rail Central Valley Working Group collaborates with the California High Speed Rail Authority to plan and develop improved passenger rail transportation in the Sacramento/Merced Corridor. Director Cohn serves as the Representative on the Regional Rail Central Valley Working Group and Director Hume as alternate. Mike Wiley serves as the RT staff member on this committee. The RT Board may change these appointments at any time. One Director, one Director alternate, and one RT staff member are needed to continue to represent RT on this committee.
