DISCUSSION

The California Department of Transportation (Caltrans) will be rehabilitating the bridge decks on both sides of Interstate Highway 50/80 (Camellia Viaduct Structures). The rehabilitation of these structures will occur directly over RT's existing facilities.

Caltrans will pay RT in accordance with the California Prompt Payment Act, codified in Government Code Section 927 et seq. The agreement allows RT to be completely reimbursed, in arrears, for design costs up to \$25,000, incurred in support of the Caltrans project. If RT's costs exceed the \$25,000 estimate, RT may stop work until Caltrans approves an amendment. This agreement is for preliminary engineering review only. A separate agreement will be prepared, and brought to the Board for future approval, that provides for any design/relocation/construction activities.

Staff recommends approval of the Service Contract with Caltrans to review the "Rehabilitation Bridge Decks" Project.
