Subject: Conditionally Awarding a Contract for Construction and Installation of the Arden/Del Paso Traction Power Substation

The Engineer's estimate for this project was \$1,195,540.00. Staff has evaluated the low bid and has determined it to be fair and reasonable.

Cal Electro, Inc. met the 25% SBE goal set for the project. Cal Electro, Inc. is a certified SBE firm and included approximately 95.5% SBE participation for the project. Because Cal Electro, Inc. met the SBE goal, no good faith effort was required.

Staff recommends award of construction and installation of the Arden/Del Paso Traction Power Substation to Cal Electro, Inc. in the amount of \$826,777.00, conditioned upon there not being a properly filed bid protest during the allocated 10-day bid protest period.
