

## **General Manager's Report June 27, 2016**

### **GOVERNMENT AFFAIRS UPDATE**

#### **FEDERAL AND STATE**

Nothing to report at this time.

### **SYSTEM-WIDE IMPROVEMENT INITIATIVES**

We are continuing to make progress on a number of system improvements. We are holding regular meetings with the City of Sacramento team responsible for updating the Transportation Management Plan for the Golden 1 Center, and are finalizing plans for customer wayfinding signage through that process. Construction related to system wide station improvements is moving forward on schedule. Environmental analysis work and demolition plans are in process for the 7<sup>th</sup> & K light rail station; we expect that the City of Sacramento will approve these plans in July. We are considering adding a request for wayfinding signage at 7<sup>th</sup> and K through the demolition plan approval process, and are discussing various options with the City. We are also releasing a request for proposals for additional security cameras and will be reviewing proposals this week for credit/debit enabled fare vending machines.

The project funded through the Congestion Mitigation and Air Quality (CMAQ) relief program to coordinate events and encourage the use of alternative modes for travel to the Golden 1 Center was approved by the Sacramento Area Council of Governments (SACOG) Board of Directors on Thursday, June 16. Therefore, SACOG staff has released a request for proposals for those services. RT will be a part of the selection team and we are looking forward to working with SACOG and other important partners, such as the City of Sacramento, the Kings, and the Downtown Sacramento Partnership, on this customer information and promotion campaign.

RT staff is working with ELERTS to create RT's new reporting app called Alert SacRT. The app will allow customers to report a safety or security issue or contact RT Police Services directly. Subsequent phases will incorporate facilities and general issues. ELERTS is completing the design phase and a prototype is expected within the next two weeks.

### **RT CALENDAR**

#### **Regional Transit Board Meeting**

July 25, 2016  
RT Auditorium  
5:30 P.M
