Subject: Revisions to the FY 2016 Operating Budget and Revisions to the FY 2017 Capital and Operating Budgets

#### **ISSUE**

Whether or not to approve necessary amendments to the FY 2017 Capital Budget, the FY 2017 Operating Budget, and the FY 2016 Operating Budget to comply with the budget procedures required by Title VI of the RT Administrative Code.

#### **RECOMMENDED ACTION**

Adopt Resolution 17-07- \_\_\_\_\_, Approving Amendments to the FY 2017 Capital Budget, the FY 2017 Operating Budget, and the FY 2016 Operating Budget.

#### FISCAL IMPACT

The proposed changes decrease the FY 2017 Capital Budget revenues by \$29,849,325, increase the FY 2017 Operating Budget revenues by \$263,839, and increase the FY 2016 Operating Budget revenues by \$2,999.

#### **DISCUSSION**

SacRT's annual budgeting process includes Board adoption of budgets that reflect SacRT's expected funding at the time of preparation. Periodically, changes to funding require revisions to the project budgets after the Capital Budget is adopted. Staff has identified such necessary revisions due to recent funding authorizations, grant awards, or developments on various projects for either SacRT or SacRT subrecipients. Board approval is required to amend the changes to both the FY 2017 Operating and Capital Budgets and the FY 2016 Operating Budget. Per Title VI, Chapter 2, Article 1, § 6.2.1.03 of the Administrative Code changes to the total amount of capital project budgets above certain percentages must be approved by the Board and per § 6.2.1.4 the addition or deletion of a capital project must be approved by the Board. In addition, grant applications with the Federal Transit Administration require a Resolution approving specific project budget amounts. The complete list of proposed changes is detailed on Exhibit A to the Resolution.

#### Capital Changes:

The purpose of this issue paper is to obtain Board approval to revise the capital project budgets to correct amounts for capital revenues for the following:

- Funding requested on Federal and State grant applications.
- Assignment of FY 2012 Revenue Bonds to capital projects.
- Assignment of developer fees to capital projects.
- Revenue transfers between capital projects.
- Transfer of revenues to the FY 2018 Capital Budget.

Agenda	Board Meeting	Open/Closed	Information/Action	Issue
Item No.	Date	Session	Item	Date
9	7/24/17	Open	Action	07/19/17

Subject: Revisions to the FY 2016 Operating Budget and Revisions to the FY 2017 Capital and Operating Budgets

The revenue transfers between capital projects included in Exhibit A result from either completion of projects with excess revenue being available for other projects, separation of one project into multiple projects, or assignment of a new project number that had not been determined at the time the FY 2017 budget was approved.

#### Summary of Capital changes:

- \$32.1M in additional revenues added to the FY 2017 budget. The revenues include \$13.0M in Traffic Congestion Relief Program (TCRP) funds.
- \$30M decrease in Transit and Intercity Rail Capital Program (TIRCP) funds. Those funds were budgeted for the Streetcar project in FY 2017 but were deducted and included in the Adopted FY18 budget instead. This was necessary due to the TIRCP funds being contingent upon execution of a Federal Small Starts Agreement which is expected in FY 2018.
- \$28M decrease in TIRCP funds in FY 2017 for the Sacramento Valley Station project. Staff anticipated that SacRT would apply for the \$28M in FY 2017. This application was not made due to the need to complete the project design which is anticipated to occur in FY 2018.
- \$1.8M decrease for the Dos Rios and Horn Light Rail Stations. Those funds were originally budgeted in FY 2017 but are now included in the FY 2018 Adopted budget.
- \$2.4M decrease in revenue for 11 additional projects.

#### Operating Changes:

Board approval is also needed for revisions to the FY 2017 and FY 2016 operating budgets. The additional revenue for the operating budget is due to: 1) Actual Federal Section 5307 allocations being higher than forecasted resulting in an increase in revenue for FY 2017 of \$86,688; and 2) Federal Congestion Mitigation and Air Quality (CMAQ) funds available due to a capital project being completed under budget and the revenue balance being transferred to fund Blue Line operating costs of \$177,151 for FY 2017 and costs of \$2,999 for FY 2016.

#### Subrecipient Changes:

The previously approved budget amounts for subrecipient capital projects for the City of Folsom and El Dorado Transit need to be increased due to allocations from the Federal Transit Administration being higher than originally budgeted.

The results of this action do not impact audited financial results. These revisions are only budget changes that are required per the Board approved Administrative Code. Staff recommends Board approval for the proposed capital and operating program changes as provided in Exhibit A.

Adopted b	y the Board of Directors of the	Sacramento Regional Transit 🛭	District on this date

July 24, 2017

# APPROVING AMENDMENTS TO THE FY 2017 CAPITAL BUDGET, THE FY 2017 OPERATING BUDGET, AND THE FY 2016 OPERATING BUDGET

BE IT HEREBY RESOLVED BY THE BOARD OF DIRECTORS OF THE SACRAMENTO REGIONAL TRANSIT DISTRICT AS FOLLOWS:

THAT, the FY 2017 Capital Budget is amended as detailed in Exhibit A.

THAT, the FY 2017 Operating Budget is amended as detailed in Exhibit A.

THAT, the FY 2016 Operating Budget is amended as detailed in Exhibit A.
