

### Sacramento Regional Transit District

# Agenda

Revised: Agenda Item 34

# COMBINED QUARTERLY MEETING OF THE RETIREMENT BOARDS FOR THE EMPLOYEES AND RETIREES OF THE SACRAMENTO REGIONAL TRANSIT DISTRICT 9:00 A.M., WEDNESDAY, MARCH 22, 2017 REGIONAL TRANSIT AUDITORIUM

|               | Website Address                                                                                                                                                                                                                                                                                                                                                                                                   | Station/Bus 38, 67, 68)                                                      |  |  |  |
|---------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------|--|--|--|
| MEETING NOTE: | This is a joint and concurrent meeting of the five independent Retirement Boards for the pension plans for the employees and retirees of the Sacramento Regional Transit District. This single, combined agenda designates which items will be subject to action by which board(s). Members of each board may be present for the other boards' discussions and actions, except during individual closed sessions. |                                                                              |  |  |  |
| ROLL CALL     | ATU Retirement Board:                                                                                                                                                                                                                                                                                                                                                                                             | Directors: Li, Morin, Niz, De La Torre<br>Alternates: Jennings, Muniz        |  |  |  |
|               | IBEW Retirement Board:                                                                                                                                                                                                                                                                                                                                                                                            | Directors: Li, Morin, Ohlson, Bibbs<br>Alternates: Jennings, Flanders        |  |  |  |
|               | AEA Retirement Board:                                                                                                                                                                                                                                                                                                                                                                                             | Directors: Li, Morin, Devorak, Robison<br>Alternates: Jennings, McGoldrick   |  |  |  |
|               | AFSCME Retirement Board:                                                                                                                                                                                                                                                                                                                                                                                          | Directors: Li, Morin, Mallonee, Hoslett<br>Alternates: Jennings              |  |  |  |
|               | MCEG Retirement Board:                                                                                                                                                                                                                                                                                                                                                                                            | Directors: Li, Morin, Lonergan, Thorn<br>Alternates: Jennings, Sanchez-Ochoa |  |  |  |

#### PUBLIC ADDRESSES BOARD ON MATTERS ON CONSENT AND MATTERS NOT ON THE AGENDA

At this time the public may address the Retirement Board(s) on subject matters pertaining to Retirement Board business listed on the Consent Calendar, any Closed Sessions or items not listed on the agenda. Remarks may be limited to 3 minutes subject to the discretion of the Common Chair. Members of the public wishing to address one or more of the Boards may submit a "Public Comment Speaker Card" to the Assistant Secretary. While the Retirement Boards encourage your comments, State law prevents the Boards from discussing items that are not set forth on this meeting agenda. The Boards and staff take your comments very seriously and, if appropriate, will follow up on them.

#### NOTICE TO THE PUBLIC

It is the policy of the Boards of Directors of the Sacramento Regional Transit District Retirement Plans to encourage participation in the meetings of the Boards of Directors. At each open meeting, members of the public shall be provided with an opportunity to directly address the Board on items of interest to the public that are within the subject matter jurisdiction of the Boards.

This agenda may be amended up to 72 hours prior to the meeting being held. An agenda, in final form, is located by the front door of Regional Transit's building at 1400 – 29<sup>th</sup> Street and posted to RT's website at www.sacrt.com.

Any person(s) requiring accessible formats of the agenda or assisted listening devices/sign language interpreters should contact the Human Resources Manager at 916-556-0280 or TDD 916/483-4327 at least 72 business hours in advance of the Board Meeting.

Copies of staff reports or other written documentation relating to each item of business referred to on the agenda are on file with the Human Resources Administrative Technician at 916-556-0298 and/or Clerk to the Board of Directors of the Sacramento Regional Transit District and are available for public inspection at 1400 29<sup>th</sup> Street, Sacramento, CA. Any person who has questions concerning any agenda item may call the Human Resources Administrative Technician of Sacramento Regional Transit District to make inquiry.

#### Sacramento Regional Transit District AEA Retirement Board Meeting Wednesday, December 14, 2016 MEETING SUMMARY

#### **ROLL CALL**

The Retirement Board was brought to order at 9:03 a.m. A quorum was present comprised as follows: Directors Li, Devorak, Robison and Alternate McGoldrick. Director Morin and Alternate Jennings were absent.

This meeting was held as a common meeting of the five Sacramento Regional Transit District Retirement Boards.

By AEA Resolution No. 16-02-170 for calendar year 2016, the Governing Board Member in attendance served as Common Chair of this Retirement Board meeting.

Legal Counsel Shayna van Hoften with Hanson Bridgett introduced Catherine Groves with Hanson Bridgett LLP to the Retirement Boards.

Donna Bonnel noted that a CALAPRS pension management training will take place on August 28-31 and requested that all new board members place the dates on their calendars. Scheduling for the training can be coordinated with Mariza Montung-Fuller.

#### **Consent Calendar:**

1. Motion: Approving the Minutes for the August 31, 2016 Special Retirement Board

Meeting (AEA). (Bonnel)

2. Motion: Approving the Minutes for the September 14, 2016 Quarterly Retirement

Board Meeting (AEA). (Bonnel)

3. Motion: Receive and File Administrative Reports for the Quarter Ended September

30, 2016 for the Salaried Pension Plan (AEA/AFSCME/MCEG).

(Bernegger)

Director Li moved to adopt AEA Retirement Board Items 1 through 3. Director Devorak seconded the motion. Items 1 through 3 were carried unanimously by roll call vote: Ayes: Directors Li, Devorak and Robison. Noes: None.

#### **New Business:**

16. Information: Investment Performance Review by Dimensional Fund Advisors (DFA) for

the ATU/IBEW and Salaried Employee Retirement Plans for the International Emerging Markets Asset Class for the Quarter Ended

September 30, 2016 (ALL). (Bernegger)

Jamie Adelman introduced Ted Simpson from DFA, who provided the performance results for the International Emerging Markets Asset Class for the quarter ended September 30, 2016 and to be available for questions. 17. Information:

Investment Performance Review of the S&P 500 Index and MSCI EAFE Funds by State Street Global Advisors (SSgA) for the ATU/IBEW and Salaried Employee Retirement Funds for the Quarter Ended September 30, 2016 (ALL). (Bernegger)

Jamie Adelman introduced Mark Levin from State Street Global Advisors, who presented the investment performance results of the S&P 500 Index and MSCI EAFE Funds for the quarter ended September 30, 2016 and to be available for questions.

18. Motion:

Receive and File the Investment Performance Reports for the ATU/IBEW and Salaried Employee Funds for Quarter Ended September 30, 2016 (ALL). (Bernegger)

Jamie Adelman introduced Uvan Tseng from Callan Associates, who provided a market overview for the Quarter Ended September 30, 2016 and to be available for questions.

Director Li moved to adopt Item 18. Director Devorak seconded the motion. Item 18 was carried unanimously by roll call vote: Ayes: Directors Li, Devorak and Robison. Noes: None.

20. Information: Update on Staff Roles and Responsibilities Related to Pension Administration (ALL). (Bonnel)

Donna Bonnel provided an update on the roles and responsibilities of various District staff members and Legal Counsel related to the administration of the Pension Plans.

19. Resolution: Selection of a Common Chair and Vice Chair for Retirement Board Meetings (ALL). (Bonnel)

Donna Bonnel presented Item 19 for approval.

Director Li moved to adopt the resolution approving Andy Morin as Common Chair and Henry Li as Common Vice Chair. Director Devorak seconded the motion. Item 19 was carried unanimously by roll call vote: Ayes: Directors Li, Devorak and Robison. Noes: None.

Donna Bonnel noted that it was mentioned on one of the Retirement Board Chair calls that the ATU Retirement Board might want to review the By-laws. Recently, two Retirement Boards have lost participants and the By-laws require a resignation from the person that was appointed. If the will of the Board(s) was to change the By-laws, the hope would be that all five Boards would adopt the change so we can continue to manage the five Boards with the same By-laws.

ATU Director Ralph Niz commented that the ATU has elections every three years and that they just completed elections. The election was as follows: Ralph Niz, President, Crystal Lee, Vice President and Corina De La Torre, Financial Secretary. He remarked that if a board member has elections within their bargaining unit and they don't retain their seat, they should be removed from their position on the Retirement Board to allow for educational opportunities for the newly elected officials.

Legal Counsel Shayna van Hoften noted that this item could be discussed in more depth with the Board Chairs to get a sense of how each of the entities works because every group does not work the same as the ATU.

Staff will bring this item back in March for more discussion.

The AEA, AFSCME, IBEW and MCEG Retirement Boards recessed at 9:43 a.m.

The AEA, AFSCME, IBEW and MCEG Retirement Boards returned to the room at 9:48 a.m.

#### **REPORTS FROM COMMITTEES**

#### **NEW BUSINESS (CONTINUED):**

21. Information: AB 1234 Ethical Standards Training (ALL). (Bonnel)

A 2-hour AB 1234-compliant local government ethics training was presented by Legal Counsel Shayna van Hoften and Catherine Groves.

The meeting was adjourned upon the departure of Dir. Li at 11:36.

The remainder of those directors present completed the training at 11:52.

#### Sacramento Regional Transit District AEA Special Retirement Board Meeting Wednesday, February 1, 2017 MEETING SUMMARY

#### **ROLL CALL**

The Retirement Board was brought to order at 9:02 a.m. A quorum was present comprised as follows: Directors Li, Morin, Devorak, Robison and Alternate McGoldrick. Alternate Jennings was absent.

This meeting was held as a common meeting of the five Sacramento Regional Transit District Retirement Boards.

By AEA Resolution No. 16-12-186 for calendar year 2017, the Governing Board Member in attendance served as Common Chair of this Retirement Board meeting.

Natalie Wilson of the Retirement Boards' counsel, Hanson Bridgett LLP, and Lance Kjeldgaard fiduciary counsel contracted through the board's Legal Counsel, were also present.

#### PUBLIC ADDRESSES BOARD ON MATTERS NOT ON THE AGENDA

None.

#### **Consent Calendar:**

None.

#### **New Business:**

The order of New Business items was adjusted to reverse items 1 and 2.

2. Information: Introduce the 2016 Actuarial Valuation Completed by Cheiron (ALL). (Bonnel)

Assistant Secretary Donna Bonnel introduced Graham Schmidt, from Cheiron, who introduced the Actuarial Valuation Study for Fiscal Year 2016 and was available for questions.

Jamie Adelman noted that Staff would be reaching out to members of the ATU and IBEW Retirement Boards to discuss the asset split. This needs to be done in order to finalize the valuation.

1. Resolution: Receive International Fund Manager Candidate Presentations and Select Replacement Fund Manager (ALL). (Bernegger)

Jamie Adelman introduced Andy Iseri and Uvan Tseng from Callan Associates, Inc. (Callan), who provided a detailed review of each manager candidate and provided background on staffing, returns, investment philosophy, risk and other attributes.

Andy Iseri introduced Kamila Kowalke and Daniel McDonagh from Pyrford International PLC to present their firm as an International Fund Manager candidate and to introduce the Pyrford International PLC's investment decision model and methodology.

Director Andy Morin thanked the presenters for their detailed and concise presentation.

Mr. Iseri introduced Michael Powers and George Sands from Lazard Asset Management to present their firm as an International Fund Manager candidate, and to introduce the Lazard Asset Management's investment decision model and methodology.

Brent Bernegger noted that Lazard's investment process area of focus seems to be in stock selection and relative to value. He asked how their investment process differs from an investment firm that does stock selection that is country specific, and about the advantages of this approach.

Mr. Powers noted that their starting point in the stock selection process is looking at an entire opportunity set of stocks and discuss the stocks merits from the "bottom up", as opposed to "top down" management style that utilizes a macro view.

Ms. Adelman asked if Lazard has an average duration for which they hold a stock. Mr. Powers noted that they hold a stock on an average of two to three years.

Director Morin thanked Mr. Powers and Mr. Sands for their time and presentation.

Director Li asked for additional details on the management fees.

Mr. Tseng indicated the options were as follows:

- A. Lazard Asset Management (Lazard) Maximum annual fee of 80 basis points (BP) or \$179,917.
- B. Pyrford International PLC (Pyrford) Equity only non-U.S. mutual fund maximum annual fee of 84 BP or \$188,912.
- C. Pyrford New Hampshire Investment Trust maximum annual fee of 70 BP or \$157,427.

Lance Kjeldgaard with Hanson Bridgett LLP noted the differences between the Pyrford New Hampshire Trust option and Lazard's mutual fund option. The New Hampshire Trust is governed by New Hampshire law. The mutual fund is governed by the Department of Labor and SCC. The mutual fund can be traded daily; the New Hampshire Trust can only be traded monthly.

Mr. Tseng noted that Pyrford is registered with the SEC and DOL, they are GIPS compliant and they have Arizona Mission insurance.

Mr. Bernegger asked for clarification on the holding periods for Pyrford and Lazard.

Mr. Iseri noted that Pyrford typically has a five to seven year holding period where as Lazard typically has a two to three year holding period.

Ms. Adelman noted that Staff is seeking direction from the Boards on how they would like to proceed.

Ms. Bonnel asked if the committee had a preference toward one of the two managers.

Ms. Adelman noted that the committee preferred Pyrford.

Ms. Bonnel asked what were JP Morgan's fees prior to the fee reduction.

Ms. Adelman noted that the fee prior to the fee reduction was 70 basis points.

Ms. Bonnel asked if the Boards were interested in retaining JP Morgan. The consensus of all Boards was in the negative.

Discussion ensued.

Director Morin moved to approve the following:

#### RECOMMENDED ACTION

C. Adopt Resolution 17-02-\_\_\_\_, Directing Staff to Negotiate a Contract with Pyrford International PLC to Provide International Large Cap Fund Manager Services within the New Hampshire Investment Trust and Authorizing the Sacramento Regional Transit District General Manager/CEO to Execute Said Contract, in a Form Acceptable to Legal Counsel

#### FISCAL IMPACT

C. Pyrford – New Hampshire Investment Trust maximum annual fee of 70 BP or \$157.427

Director Li seconded the motion. Item 1, option C. was carried unanimously by roll call vote: Ayes: Directors Devorak, Robison, Li and Morin. Noes: None

#### **REPORTS FROM COMMITTEES**

None.

#### REPORTS, IDEAS AND COMMUNICATIONS

Ms. Bonnel noted that the March 15 Quarterly Retirement Board meeting has been moved to March 22 at 9:00 a.m. The March 15 date will be utilized for new board member orientation.

None.

The meeting was adjourned by Assistant Secretary Bonnel at 11:10 a.m.

#### **DISCUSSION**

#### **Unaudited Financial Statements**

Attached hereto are unaudited financial statements for the quarter and the year-to-date ended December 31, 2016. The financial statements are presented on an accrual basis and consist of a Statement of Fiduciary Net Position (balance sheet) (Attachment 1), a Statement of Changes in Fiduciary Net Position (income statement) for the quarter ended December 31, 2016 (Attachment 2), and a year-to-date Statement of Changes in Fiduciary Net Position (Attachment 3).

The Statement of Fiduciary Net Position includes a summary of fund assets showing the amounts in the following categories: investments, prepaid assets, and other receivables. This statement also provides amounts due from/to the District and Total Fund Equity (net position).

The Statement of Changes in Fiduciary Net Position includes activities in the following categories: investment gains/losses, dividends, interest income, unrealized gains/losses, benefit contributions/payouts, and investment management and administrative expenses.

#### Asset Rebalancing

Pursuant to Section IV, <u>Asset Rebalancing Policy</u> of the Statement of Investment Objectives and Policy Guidelines for the ATU, IBEW and Salaried Employees' Retirement Funds, the Retirement Boards have delegated authority to manage pension plan assets in accordance with the approved rebalancing policy to the District's Director of Finance/Treasury. The

| Agenda   | Board Meeting | Open/Closed | Information/Action | Issue    |
|----------|---------------|-------------|--------------------|----------|
| Item No. | Date          | Session     | Item               | Date     |
| 3        | 03/22/17      | Retirement  | Action             | 02/11/17 |

Subject: Receive and File Administrative Reports for the Quarter Ended December 31, 2016 for the Salaried Pension Plan (AEA/AFSCME/MCEG). (Bernegger)

Director is required to report asset rebalancing activity to the Boards at their quarterly meetings. Rebalancing can occur for one or more of the following reasons:

- 1. The Pension Plan ended the month with an accounts receivable or payable balance due to the District. A payable or receivable net amount of the monthly required contribution (required contribution is the percentage of covered payroll determined by the annual actuarial valuation) less the Plan's actual expenses.
- 2. The Pension Plan hires or removes a Fund Manager, in which case securities must be moved to a new fund manager.
- 3. The Pension Plan investment mix is under or over the minimum or maximum asset allocation as defined in the Statement of Investment Objectives and Policy Guidelines.

Attached hereto as Attachment 4 is the Salaried Plan's Schedule of Cash Activities for the three months ended December 31, 2016. The schedule of cash activities includes a summary of Plan activities showing the amounts in the following categories: District's pension contributions to the Plan, payments to retirees, and the Pension Plan's cash expenditures paid. This schedule also lists the rebalancing activity that occurred for the three months ended December 31, 2016. The Salaried Plan reimbursed \$232,512.85 to the District as the result of the net cash activity between the pension plan expenses and the required pension contributions.

Attached hereto as Attachment 5 is the Salaried Plan's Asset Allocation as of December 31, 2016. This statement shows the Salaried Plan's asset allocation as compared to targeted allocation percentages as defined in the Statement of Investment Objectives and Policy Guidelines.

Attached hereto as Attachment 6 is a reconciliation between the Callan Performance Report and the ATU, IBEW and Salaried Pension Plans' unaudited financial statements. The reports differ in that the unaudited financial statements reflect <u>both</u> investment activities and the pension fund's inflows and outflows. Callan's report <u>only</u> reflects the investment activities. The "Net Difference" amounts shown are the results of Callan and State Street using different valuations for the same securities and/or litigation settlements received by the Plans.

Included also as Attachment 7 is a reconciliation between the Callan Performance Report and the Schedule of Cash Activities for payments made from/to the District. Callan's report classifies gains from trades and litigation income as "net new investments." Finance staff classifies gains from trades and litigation income in the Pension Plan's unaudited Statement of Changes in Fiduciary Net Position as "Other Income," which is combined in the category of "Interest, Dividend, & Other Inc".

Attached hereto as Attachment 8 is a schedule reflecting Fund Managers' quarterly investment returns and their investment fees. Additionally, the schedule reflects annual rates of return on investment net of investment fees for the one-year and three-year periods ended December 31, 2016 as compared to their benchmarks.

### REGIONAL TRANSIT ISSUE PAPER

Receive and File the Independent Auditor's Report for the Twelve Month Period Ended June 30, 2016 (ALL). (Bernegger)

#### RECOMMENDED ACTION

Motion: Receive and File the Independent Auditor's Report for the Twelve Month Period Ended June 30, 2016 (ALL). (Bernegger)

#### FISCAL IMPACT

None

#### DISCUSSION

In accordance with California Government Code Section 7504, the Retirement Plans are required to have an annual audit performed. Crowe Horwath LLC conducted the Plans' audit in accordance with generally accepted auditing standards. The standards require that the auditors plan and perform the audit to obtain reasonable assurance that the Plans' financial statements are free of material misstatements.

For the fiscal year ended June 30, 2016, the investment assets for the ATU, IBEW and Salaried Plans were combined into one commingled investment portfolio. The balance of investments owned by the ATU, IBEW and Salaried Plans are calculated based on a percentage of ownership as determined by the ATU, IBEW and Salaried Plans' custodian.

The financial results are shown on a comparative basis. As noted in the report (Attachment 1), the combined net position held in trust for pension benefits decreased \$3,350,315 or 1.38% from the beginning of year balance of \$246,702,354 to the end of year balance of \$243,352,039. The audit confirmed that the District made 100% of its actuarially determined contribution of \$18,024,056.

Please note that as of the balance sheet date of June 30, 2016 the ATU and IBEW Plans were still reported as a combined Plan. Beginning with fiscal year 2017 there will be separate reporting for the ATU and IBEW Plans.

Shayna M. van Hoften, Partner Anne C. Hydorn, Partner Hanson Bridgett

#### **Finance Department**

Brent Bernegger, Chief Financial Officer, Acting Jamie Adelman, Senior Accountant

#### **Human Resources Department**

Valerie Weekly, Pension and Retiree Services Administrator

#### INDEPENDENT AUDITOR'S REPORT

Members of the Retirement Board of Directors Sacramento Regional Transit District Sacramento, California

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the ATU/IBEW Plan and Salaried Plan for Sacramento Regional Transit District Employees (the Plans), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the Plans' basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plans' preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plans' internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective fiduciary net position of the ATU/IBEW Plan and the Salaried Plan for Sacramento Regional Transit District Employees as of June 30, 2016, and the respective changes in fiduciary net position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Schedules of Changes in the Net Pension Liability and Related Ratios, Schedules of District Contributions, and the Schedule of Investment Returns, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the Management's Discussion and Analysis that governmental accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

#### Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the ATU/IBEW Plan's and the Salaried Plan's basic financial statements. The accompanying supplemental Schedules of Investment and Administrative Expenses are presented for purposes of additional analysis and are not a required part of the financial statements.

The accompanying Schedules of Investment and Administrative Expenses are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedules of Investment and Administrative Expenses are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The accompanying notes to the financial statements are an integral part of these financial statements.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### 1. DESCRIPTION OF THE PLANS

#### **ATU/IBEW Plan**

The Retirement Plan for Sacramento Regional Transit District Employees who are Members of Amalgamated Transit Union (ATU) Local 256 and International Brotherhood of Electrical Workers (IBEW) Local 1245 (the ATU/IBEW Plan) is a single employer defined benefit pension plan covering contract employees of Sacramento Regional Transit District (the District). Participants should refer to their respective plan agreements for more complete information. The ATU Plan and the IBEW Plan are accounted for by the District as one Plan (collectively, the ATU/IBEW Plan). The ATU/IBEW Plan is reported as a pension trust fund in the District's financial statements.

#### **Salaried Plan**

The Retirement Plan for Sacramento Regional Transit District Salaried Employees (the Salaried Plan) is a single employer defined benefit pension plan covering full- or part-time employees in the following employee groups: Administrative Employees Association (AEA), Management and Confidential Employees Group (MCEG), and the American Federation of State, County & Municipal Employees, Local 146, AFL-CIO (AFSCME). AFSCME is further split into two groups AFSCME-Technical and AFSCME-Supervisors. Participants should refer to the Salaried Plan agreement for more complete information. The Salaried Plan is reported as a pension trust fund in the District's financial statements.

**Plan Tier Definition** – As a result of labor negotiations and the court ruling on the Public Employees' Pension Reform Act, a new tier was created in both the ATU/IBEW and Salaried Plans (Tier 2). The Tier effective date was directly affected by labor negotiations and whether the union/employee group was under a current Memorandum of Understanding (MOU). As of December 30, 2014, the ATU, IBEW, and AFSCME-Technical unions were bound by a current MOU. Whereas, the AEA, MCEG, and AFSCME-Supervisors had not settled negotiations and were not bound by a current MOU; therefore, PEPRA was required to be implemented for these groups.

- ATU, IBEW, and AFSCME-Technical Tier 1 consists of all employees hired on or before December 31, 2014, Tier 2 consists of all employees hired on or after January 1, 2015.
- AEA, MCEG, and AFSCME-Supervisors Tier 1 consists of all employees hired on or before December 30, 2014, Tier 2 consists of all employees hired on or after December 31, 2014.

Tier 1 is closed to new entrants as all newly hired employees will be placed into the respective Tier 2 plans.

#### **PEPRA Employees**

The Public Employees' Pension Reform Act (PEPRA) of 2013 created new pension rules for employees hired after January 1, 2013. 'PEPRA employees' were hired under both the ATU/IBEW Plan and the Salaried Plan and the employees are required to contribute 50% of the normal cost of their plan. The benefits under PEPRA were reduced in an effort to reduce the pension liability of local agencies in the state of California.

On October 4, 2013 Assembly Bill 1222 provided a temporary exemption to the January 1, 2013 PEPRA law for employees of transit agencies. Along with changes to employee retirement benefits, this exemption eliminated employee contributions through January 1, 2015. Therefore all contributions received were refunded in November 2013 and the employees hired between January 1, 2013 and October 4, 2013 were included in the Tier 1 Plans. On September 28, 2014 Assembly Bill 1783 was signed by Governor Brown which extended the District's and the Plans' PEPRA exemption to January 1, 2016.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### 1. DESCRIPTION OF THE PLANS (Continued)

On December 30, 2014 a court ruling was released in which PEPRA became a requirement for transit agencies in the state of California. The ruling indicated that if a bargaining group was within a current MOU, PEPRA would not apply until the expiration of said MOU. As of December 30, 2014, the ATU, IBEW, and AFSCME-Technical groups were under a current MOU. For all other employee groups not under current contract (MCEG, AEA, and AFSCME-Supervisors), PEPRA applied to all new hires as of December 30, 2014.

#### General Provisions ATU/IBEW and Salaried Plans

Contributions to the ATU/IBEW and Salaried Plans are authorized or amended by the Retirement Board based on an actuarial basis. The authority under which benefit provisions are established and amended rests with the District's Board of Directors as a result of labor negotiations. Assembly Bill 1064, effective January 1, 2004, mandates that the Retirement Boards be comprised of equal representation of management and Bargaining Group employees. The Retirement Board shall consist of not more than 4 members and 2 alternates. Two (2) voting members and one (1) alternate shall be appointed by the District's Board of Directors and two (2) voting members and one (1) alternate shall be appointed by the ATU, IBEW, AEA, AFSCME, and MCEG member groups.

The ATU/IBEW and Salaried Plans provide defined pension, disability, and death benefits to employees who are members of the ATU, IBEW, AEA, MCEG, AFSCME-Technical, and AFSCME-Supervisors bargaining units.

530

ATU/IBEW Plan membership for both Tier 1 and Tier 2, at June 30, 2016, consisted of:

### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### 1. DESCRIPTION OF THE PLANS (Continued)

The benefits for both Tier 1 and Tier 2 members begin at retirement and continue for the participant's life with no cost of living adjustment. The participant can elect to receive reduced benefits with continuing benefits to a beneficiary after death.

**Disability Benefits** – A participant is eligible for a disability benefit if the participant is unable to perform the duties of his or her job with the District, cannot be transferred to another job with the District, and has submitted satisfactory medical evidence of permanent disqualification from his or her job. Members are required to be vested in their respective union or employee group to qualify for disability retirement. The disability benefit is equal to the retirement allowance, as defined by the ATU/IBEW or Salaried Plan, multiplied by service accrued through the date of disability. The disability benefit cannot exceed the retirement benefit. The benefit begins at disability and continues until recovery or for the participant's life unless the participant elects to receive reduced benefits with continuing benefits to a beneficiary after death.

**Pre-Retirement Death Benefit** – A participant's surviving spouse is eligible for a pre-retirement death benefit if the participant is vested, based on the respective bargaining agreements. The pre-retirement death benefit is the actuarial equivalent of the normal retirement benefit, as if the participant retired on the date of death. The death benefit begins when the participant dies and continues for the life of the surviving spouse or until remarriage.

**Administration** – The ATU/IBEW Plan is administered by the ATU/IBEW Plan's Retirement Board. All expenses incurred in the administration of the ATU/IBEW Plan are paid by the ATU/IBEW Plan. The Salaried Plan is administered by the Salaried Plan's Retirement Boards. All expenses incurred in the administration of the Salaried Plan are paid by the Salaried Plan.

**Plan Termination** – Should the ATU/IBEW or the Salaried Plan be terminated, the Plan's net position will first be applied to provide for retirement benefits to retired members. Any remaining net position will be allocated to other members, oldest first both active and inactive, on the basis of the actuarial present value of their benefits.

### 2. SIGNIFICANT ACCOUNTING POLICIES

**Basis of Accounting** – The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. The ATU/IBEW and Salaried Plans are reported as pension trust funds which report resources that are required to be held in trust for the members and beneficiaries of the defined benefit pension plans. The ATU/IBEW and Salaried Plans are accounted for on the flow of economic resources measurement focus and the accrual basis of accounting.

The ATU/IBEW and Salaried Plans have adopted Governmental Accounting Standards Board (GASB) Statement No. 67, *Financial Reporting for Pension Plans – an amendment of GASB Statement No. 25*, as their source of accounting and reporting principles. The District's contributions to the ATU/IBEW and Salaried Plans are recognized in the period in which the contributions are due pursuant to formal commitments or contractual requirements. Benefits and refunds are recognized when due and payable in accordance with the ATU/IBEW and Salaried Plans' agreements.

**Cash and Short-Term Investments** – The ATU/IBEW and Salaried Plans consider all highly liquid investments with an original maturity of three months or less to be short-term investments.

### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

**Investments** – Investments consist of securities or other assets held primarily for the purpose of income or profit and their present service capacity is based solely on its ability to generate cash or to be sold to generate cash.. Realized gains or losses on the sale of investments are recorded on the trade date as the difference between proceeds received and the fair value at the beginning of the year, or cost if acquired during the year. Net appreciation (depreciation) in fair value of investments includes net unrealized market appreciation and depreciation of investments and net realized gains and losses on the sale of investments during the period. Interest income includes dividends and interest paid on the ATU/IBEW and Salaried Plans' investments. The investment assets for the ATU/IBEW and the Salaried Plans are combined into one commingled investment portfolio. The balances of investments owned by the plans are calculated based on a percentage of ownership as determined by the Plans' custodian, State Street.

**Estimates** – The preparation of financial statements in conformity with generally accepted accounting principles requires the ATU/IBEW and Salaried Plans' administrators to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

**New Pronouncements** – For the fiscal year ended June 30, 2016, the ATU/IBEW and Salaried Plans implemented GASB Statement 72, *Fair Value Measurement and Application*. Implementation of this statement has created additional investment disclosures; however, there was no impact on the basic financial statements.

There are currently no future pronouncements that will be applicable to the ATU/IBEW and Salaried Plans' financial statements.

### 3. CONTRIBUTION REQUIREMENTS

### EMPLOYER CONTRIBUTIONS

The ATU/IBEW and Salaried Plans' funding policy provides for actuarially determined periodic contributions. Contribution rates for retirement benefits are determined using the entry age normal cost method. During the fiscal year ended June 30, 2016, the District made 100% of the actuarially determined contributions to the ATU/IBEW and Salaried Plans of \$18,024,056, for all employees.

### TIER 1 EMPLOYEES

For the fiscal year ended June 30, 2016, the actuarially determined rate for the ATU/IBEW Plan was 26.51% of covered payroll. For the fiscal year ended June 30, 2016, the actuarially determined rate for the Salaried Plan was 31.55% of covered payroll. No contributions are required by the ATU/IBEW and Salaried Plans' members pursuant to each respective bargaining agreement for employees hired before January 1, 2015.

### **TIER 2 EMPLOYEES**

As of January 1, 2015, all new employees were required to contribute to their pension based upon the terms of the bargaining groups MOU or based on PEPRA.

ATU employees are required to contribute 3.00% of their annual salary. The employer portion of the actuarially determined rate for the ATU members was 23.51% of covered payroll for the fiscal year ending June 30, 2016. IBEW employees are required to contribute 1.50% the first year of service increasing to 4.50% in the third year of service and beyond. The employer portion of the actuarially determined rate for the IBEW members ranged from 23.51% to 25.01% of covered payroll for the fiscal year ending June 30, 2016. The total contribution by Tier 2 employees of the ATU/IBEW Plan for the fiscal year ended June 30, 2016 was \$54,714.

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### 3. CONTRIBUTION REQUIREMENTS (Continued)

AFSCME-Technical employees are required to contribute 1.50% the first year of service increasing to 4.50% in the third year of service and beyond. The employer portion of the actuarially determined rate for the AFSCME-Technical members ranged from 28.55% to 30.05% of covered payroll for the fiscal year ending June 30, 2016. Members of AEA, MCEG, and AFSCME-Supervisors are required to contribute 50% of normal cost which is currently 5.75% of their annual salary. The employer portion of the actuarially determined rate for the AEA, MCEG, and AFSCME-Supervisors members was 25.80% of covered payroll for the fiscal year ending June 30, 2016. The total contribution by Tier 2 employees of the Salaried Plan for the fiscal year ended June 30, 2016 was \$21,014.

The PEPRA related contribution rate for June 30, 2016, was actuarially determined on April 20, 2015, using the member data from actuarial valuations of the ATU/IBEW and Salaried Plans as of June 30, 2014.

### 4. CASH AND INVESTMENTS

### CASH AND SHORT-TERM INVESTMENTS

At June 30, 2016, the reported amount of cash and short-term investments of the ATU/IBEW and Salaried Plans was \$6,563,559. The amount was collateralized with securities held by the counterparty's trust department or agent in the District's name on behalf of the Retirement Plans.

### **INVESTMENTS**

An annual Board-adopted policy, the "Statement of Investment Objectives and Policy Guidelines for the Sacramento Regional Transit District Retirement Plans" (Policy), governs the ATU/IBEW and Salaried Plans' investments. This Policy focuses on the continued feasibility of achieving, and the appropriateness of, the Asset Allocation Policy, the Investment Objectives, the Investment Policies and Guidelines, and the Investment Restrictions. The Retirement Boards have the authority to amend the asset allocation targets as well as establish and amend investment policies. The following was the Plans' adopted asset allocation policy as of June 30, 2016:

| Asset Class                              | Target Allocation |
|------------------------------------------|-------------------|
| Domestic Equity Large Cap                | 32%               |
| Domestic Equity Small Cap                | 8%                |
| International Equity Developed Large Cap | 14%               |
| International Equity Developed Small Cap | 5%                |
| International Equity Emerging Markets    | 6%                |
| Domestic Fixed Income                    | 35%               |

For the years ended June 30, 2016, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expenses, was -0.19%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### 4. CASH AND INVESTMENTS (Continued)

The following table identifies the investment types that are authorized by the ATU/IBEW and Salaried Plans' Retirement Boards. The table also identifies certain provisions of the Investment Objectives and Policy that address interest rate risk, credit risk and concentration of credit risk.

| Authorized Investment Type             | Maximum<br>Maturity (1) | Minimum<br>Rating (3) | Maximum<br>Percentage of<br>Portfolio | Maximum Investment in One Issuer |
|----------------------------------------|-------------------------|-----------------------|---------------------------------------|----------------------------------|
| Cash                                   | None                    | N/A                   | None                                  | None                             |
| U.S. Treasury Bills                    | None                    | N/A                   | None                                  | None                             |
| Agency Discount Notes                  | None                    | N/A                   | None                                  | None                             |
| Certificates of Deposit                | None                    | N/A                   | None                                  | None                             |
| Bankers Acceptances                    | None                    | N/A                   | None                                  | None                             |
| Commercial Paper                       | None                    | A2/P2                 | None                                  | None                             |
| Asset-Backed Commercial Paper          | None                    | A2/P2                 | None                                  | None                             |
| Money Market Funds and Bank Short-Term |                         |                       |                                       |                                  |
| Investment Funds (STIF)                | None                    | N/A                   | None                                  | None                             |
| Repurchase Agreements                  | None                    | N/A                   | None                                  | None                             |
| U.S. Government and Agency Securities  | None                    | N/A                   | None                                  | None                             |
| Credit Securities/Corporate Debt (4)   | None                    | N/A                   | None                                  | None                             |
| Securitized Investments (5)            | None                    | N/A                   | None                                  | None                             |
| Emerging Markets                       | None                    | N/A                   | None                                  | None                             |
| International Fixed Income Securities  | None                    | N/A                   | None                                  | None                             |
| Other Fixed Income Securities (6)      | None                    | N/A                   | None                                  | None                             |
| Mutual Funds                           | N/A                     | N/A                   | 25% (2)                               | 5%                               |
| Real Estate Investment Trust           | N/A                     | N/A                   | 25% (2)                               | 5%                               |
| Depository Receipt                     | N/A                     | N/A                   | 25% (2)                               | 5%                               |
| Stocks                                 | N/A                     | N/A                   | 25% (2)                               | 5%                               |

- (1) The fixed income portion of the ATU/IBEW and Salaried Plans shall be limited in duration to between 75% and 125% of the benchmark.
- (2) No more than 25% of the fair value on the purchase cost basis of the total common stock portfolio (equity securities) shall be invested in a single industry at the time of purchase.
- (3) The investment managers shall maintain a minimum overall portfolio quality rating of "A" equivalent or better at all times (based on market-weighted portfolio average). Minimum quality (at purchase) must be at least 80% Baa or above.
- (4) Credit Securities and Corporate Debt include: debentures, medium-term notes, capital securities, trust preferred securities, Yankee bonds, Eurodollar securities, floating rate notes and perpetual floaters, structured notes, municipal bonds, preferred stock, private placements (bank loans and 144(a) securities), and EETCs.
- (5) Securitized investments includes: agency and non-agency mortgage-backed securities, asset-backed securities (144(a) securities), and commercial mortgage-backed securities.
- (6) Other Fixed Income Securities includes: Fixed income commingled and mutual funds, futures and options, swap agreements, and reverse repurchase agreements.

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### 4. CASH AND INVESTMENTS (Continued)

### INVESTMENT RISK FACTORS

There are many factors that can affect the value of investments. Such factors as interest rate risk, credit risk, custodial credit risk, concentration of credit risk, and foreign currency risk may affect both equity and fixed income securities.

### INTEREST RATE RISK

Interest rate risk is the risk that the value of fixed income securities will decline because of rising interest rates. The prices of fixed income securities with a longer time to maturity, measured by duration, tend to be more sensitive to changes in interest rates and, therefore, more volatile than those with shorter duration.

The following table provides information about the interest rate risks associated with the ATU/IBEW and Salaried Plans' investments at June 30, 2016.

| Maturity in Years                   |    |           |    |            |    |            |    |            |                  |
|-------------------------------------|----|-----------|----|------------|----|------------|----|------------|------------------|
|                                     |    | Less      |    |            |    |            |    | More       |                  |
|                                     |    | than 1    |    | 1 – 5      |    | 6 – 10     |    | than 10    | Amount           |
| Collateralized Mortgage Obligations | \$ | -         | \$ | 1,089,677  | \$ | 452,552    | \$ | 5,092,203  | \$<br>6,634,432  |

| Municipal Bonds                     |    | -         |    | -          |    | 462,901    |    | 277,339    | 740,240          |
| U.S. Government Agency Obligations  |    | -         |    | 661,410    |    | 798,333    |    | 23,336,561 | 24,796,304       |
| U.S. Government Issued Obligations  |    | 1,570,536 |    | 18,841,122 |    | 3,115,509  |    | 4,901,890  | 28,429,057       |
| Auto Loan Receivables               |    | -         |    | 518,052    |    | -          |    | -          | 518,052          |
| Credit Card Receivables             |    | -         |    | 220,136    |    | -          |    | -          | 220,136          |
| Asset-Backed Securities             |    | _         |    | -          |    | 1,273,142  |    | 9,137,389  | 10,410,531       |
| Total                               | \$ | 3,516,669 | \$ | 27,643,407 | \$ | 13,594,396 | \$ | 47,678,925 | \$<br>92,433,397 |

In accordance with the ATU/IBEW and Salaried Plans' investment policy, investments may include mortgage pass-through securities, collateralized mortgage obligations, asset-backed securities, callable bonds and corporate debts that are considered to be highly sensitive to changes in interest rates.

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### 4. CASH AND INVESTMENTS (Continued)

#### COLLATERALIZED MORTGAGE OBLIGATIONS

Collateralized mortgage obligations (CMOs) are bonds that represent claims to specific cash flow from large pools of home mortgages. The streams of principal and interest payments on the mortgages are distributed to the different classes of CMO interests.

CMOs are often highly sensitive to changes in interest rates and any resulting change in the rate at which homeowners sell their properties, refinance, or otherwise pre-pay their loans. Investors in these securities may not only be subjected to such prepayment risk, but also exposed to significant market and liquidity risks.

### **CORPORATE DEBT – RANGE NOTES**

Range notes are securities which pay two different interest rates depending on whether or not a benchmark index falls within a pre-determined range as structured per the note. If the benchmark index rate does not fall within the pre-determined range, the note will not earn the coupon rate for that time period. With this pre-determined range feature, range notes are highly sensitive to changes in interest rates. As of June 30, 2016, the ATU/IBEW and Salaried Plans held range notes with a value of \$389,597.

### MORTGAGE PASS-THROUGH SECURITIES

These securities are issued by Government Sponsored Enterprises (GSEs), which are a group of financial services corporations created by the United States Congress. The GSEs include: the Federal National Mortgage Association (Fannie Mae), the Federal Home Loan Mortgage Association (Freddie Mac), and the Federal Home Loan Banks. Another institution that issues these securities is the Government National Mortgage Association (Ginnie Mae). These securities are highly sensitive to interest rate fluctuations because they are subject to early payment. In a period of declining interest rate, the resulting reduction in expected total cash flows affects the value of these securities.

### ASSET-BACKED SECURITIES

Asset-backed securities generate a return based upon either the payment of interest or principal on obligations in an underlying pool. The relationship between interest rates and prepayments make the value highly sensitive to changes in interest rates.

### CALLABLE BONDS

Although bonds are issued with clearly defined maturities, an issuer may be able to redeem, or call, a bond earlier than its maturity date. The Plans must then replace the called bond with a bond that may have a lower yield than the original bond. The call feature causes the value to be highly sensitive to changes in interest rates. As of June 30, 2016, the ATU/IBEW and Salaried Plans held callable bonds with a value of \$5,381,862.

### CREDIT RISK

Fixed income securities are subject to credit risk, which is the risk that a bond issuer or other counterparty to a debt instrument will not fulfill its obligation to pay interest or principal in a timely manner, or that negative perceptions of the issuer's ability to make these payments will cause security prices to decline. The circumstances may arise due to a variety of factors such as financial weakness, bankruptcy, litigation and/or adverse political developments.

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### 4. CASH AND INVESTMENTS (Continued)

A bond's credit quality is an assessment of the issuer's ability to pay interest on the bond, and ultimately, to pay the principal. Credit quality is evaluated by one of the independent bond-rating agencies, for example Moody's Investors Services (Moody's). The lower the rating the greater the chance, in the rating agency's opinion, the bond issuer will default, or fail to meet their payment obligations. Generally, the lower a bond's credit rating, the higher its yield should be to compensate for the additional risk.

Certain fixed income securities, including obligations of the U.S. government or those explicitly guaranteed by the U.S. government, are not considered to have credit risk.

For the fiscal year ending June 30, 2016, the ATU/IBEW and Salaried Plans were in adherence with the credit risk provisions of the Statement of Investment Objectives and Policy Guidelines which require a minimum overall portfolio quality rating and a minimum credit rating at the time of purchase.

The following table provides information on the credit ratings and fair value associated with the ATU/IBEW and Salaried Plans' investments as of June 30, 2016.

|                   |                   | Percentage of |

### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### 4. CASH AND INVESTMENTS (Continued)

### CONCENTRATION OF CREDIT RISK

Concentration of credit risk is the risk associated with a lack of diversification of having too much invested in a few individual issuers, thereby exposing the organization to greater risks resulting from adverse economic, political, regulatory, geographic, or credit developments.

The investment policies of the ATU/IBEW and Salaried Plans state that an investment in each domestic or international equity fund managers' securities of a single issuer shall not exceed 5% (at cost) of the value of the portfolios and/or of the total outstanding shares. As of June 30, 2016, the ATU/IBEW and Salaried Plans did not have domestic or international equity fund managers' investments in a single issuer that exceeded 5% (at cost) of the value of the portfolios and/or of the total outstanding shares. As of June 30, 2016, the Plans held more than 5% of the Plans' investments and fiduciary net position in the following fixed-income securities investments:

Federal Home Loan Bank

\$ 12,384,797

### **CUSTODIAL CREDIT RISK**

Custodial credit risk for <u>deposits</u> is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party.

The custodial credit risk for <u>investments</u> is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The ATU/IBEW and Salaried Plans' investment policy does not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments. The ATU/IBEW and Salaried Plans' investment securities are not exposed to custodial credit risk because all securities are held by the ATU/IBEW and Salaried Plans' custodian bank in the District's name.

### FOREIGN CURRENCY RISK

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The ATU/IBEW and Salaried Plans' investment policy states international equity securities shall be comprised of American Depository Receipts (ADR) of non-U.S. companies, common stocks of non-U.S. companies, preferred stocks of non-U.S. companies, foreign convertible securities including debentures convertible to common stocks, and cash equivalents.

The following table provides information on deposits and investments held in various foreign currencies, which are stated in U.S. dollars. The ATU/IBEW and Salaried Plans have foreign currency deposits and investments which may be used for hedging purposes.

### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### 4. CASH AND INVESTMENTS (Continued)

At June 30, 2016, the U.S. dollar balances organized by investment type and currency denominations for the ATU/IBEW and Salaried Plans are as follows:

| Foreign Currency | U.S.  | U.S. Dollars |       |  |  |
|------------------|-------|--------------|-------|--|--|
| Swiss Franc      |       | \$           | 6,108 |  |  |
| EURO             |       |              | 429   |  |  |
| Japanese Yen     |       |              | 104   |  |  |
|                  | Total | \$           | 6,641 |  |  |

### Fair Value Measurements

The ATU/IBEW and Salaried Plans categorize their fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted market prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The ATU/IBEW and Salaried Plans had the following recurring fair value measurements as of June 30, 2016:

|                                                   |                   | Fair Value Measurements Using          |                 |                  |            |              |             |  |
|---------------------------------------------------|-------------------|----------------------------------------|-----------------|------------------|------------|--------------|-------------|--|
|                                                   |                   | Q                                      | uoted Prices in |                  | Signficant |              | Significant |  |
|                                                   |                   | Active Markets for<br>Identical Assets |                 | Other Observable |            | Unobservable |             |  |
|                                                   |                   |                                        |                 |                  | Inputs     | Inputs       |             |  |

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### 4. CASH AND INVESTMENTS (Continued)

Debt and equity securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Debt securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices. Net asset value (NAV) securities are valued based on the net asset value of the pooled investments. The NAV is determined by dividing the total value of the securities and other assets, less any liabilities, by the total outstanding shares of the fund.

Investment measured at the net asset value (NAV)

- 1. S&P 500 index fund. This type includes an investment in a S&P 500 index fund that invests to match the S&P 500® Index. The S&P 500 is made up of primarily U.S. common stocks. The fair value of the investment in this type has been determined using the NAV per unit of the investment. The NAV per unit of the investment are determined each business day. Issuances and redemptions of fund units may be made on such days, based upon the closing market value on the valuation date of the investments bought or sold and the NAV per unit of the fund.
- 2. MSCI EAFE index fund. This type includes an investment in the Morgan Stanley Capital International Europe, Australasia, Far East Index (MSCI EAFE) Index fund that invest to approximate as closely as practicable, before expenses, the performance of the MSCI EAFE Index over the long term. The MSCI EAFE Index is made up of primarily International stocks. The per unit NAV of the fund is determined as of the last business day of each month and at least one other business day during the month. Issuances and redemptions of fund units may be made on such days, based upon the closing market value on the valuation date of the investments bought or sold and the NAV per unit of the fund.
- 3. International equity fund. This type includes an investment in an International Equity Fund that seeks total return from long-term capital growth and income, while attempting to outperform the MSCI EAFE Index over a market cycle, gross of fees. The fair value of the investment in this type has been determined using the NAV per unit of the investment. Issuances and redemptions of fund shares can be performed on any business day, based on the closing market value on the valuation date of the purchase or sale.
- 4. International emerging markets fund. This type invests substantially all of its assets in the Emerging Market Series. The Emerging Market Series purchases a broad market coverage of larger companies associated with emerging markets, which may include frontier markets (emerging market countries in an earlier stage of development), authorized for investment by the Advisor's Investment Committee. As a non-fundamental policy, under normal circumstances, the Emerging Markets Series will invest at least 80% of its net assets in emerging markets investments that are defined in the Prospectus as Approved Market securities. The fair values of the investments in this type have been determined using the NAV per share of the investments. Investors may purchase or redeem shares of the fund on any business day.

### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### 5. NET PENSION LIABILITY

#### ATU/IBEW Plan

The components of the net pension liability of the ATU/IBEW Plan at June 30, 2016, were as follows:

| Total pension liability                            | \$<br>238,762,921 |
|----------------------------------------------------|-------------------|
| Plan fiduciary net position                        | <br>(168,015,020) |
| ATU/IBEW net pension liability                     | \$<br>70,747,901  |
| Plan fiduciary net position as a percentage of the |                   |
| total pension liability                            | 70.37%            |

The total pension liability was determined by an actuarial valuation as of July 1, 2015, using the following actuarial assumptions, applied to all periods included in the measurement, and using update procedures to roll forward the total pension liability to the pension plan's fiscal year-end:

| Inflation                 | 3.15%                                                       |
|---------------------------|-------------------------------------------------------------|
| Amortization growth rate  | 3.15%                                                       |
| Salary increases          | 3.15%, plus merit component                                 |
| Investment Rate of Return | 7.50%, net of investment expense                            |
| Post-retirement mortality | Sex Distinct RP-2000 Combined Blue Collar Mortality, 3 year |
|                           | setback for females                                         |

The actuarial assumptions used in the July 1, 2015, valuation were based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2015.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2016, are summarized in the following table:

| Asset Class                    | Long-Term Expected Real Rate of Return |
|--------------------------------|----------------------------------------|
| Domestic Equity Large Cap      | 8.85%                                  |
| Domestic Equity Small Cap      | 9.85%                                  |
| International Equity Developed | 9.55%                                  |
| International Equity Emerging  | 11.15%                                 |
| Domestic Fixed Income          | 3.05%                                  |
|                                |                                        |

### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### 5. NET PENSION LIABILITY (Continued)

The discount rate used to measure the Total Pension Liability was 7.50%. The discount rate was decreased during the fiscal year ended June 30, 2016 to 7.50% from 7.65%. The reduction is due to a review of potential investment returns over the next ten to twenty year horizon. The projection of cash flows used to determine the discount rate assumed that the District will continue to contribute to the ATU/IBEW Plan based on an actuarially determined contribution, reflecting a payment equal to annual Normal Cost, the expected administrative expenses, and an amount necessary to amortize the remaining Unfunded Actuarial Liability as a level percentage of payroll over a closed period (17 years remaining as of the July 1, 2015 actuarial valuation).

Based on those assumptions, the ATU/IBEW Plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current ATU/IBEW Plan members. Therefore, the long-term expected rate of return on the ATU/IBEW Plan's investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

The following presents the net pension liability of the ATU/IBEW Plan, calculated using the discount rate of 7.50 percent, as well as what the ATU/IBEW Plan's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50%) or 1-percentage-point higher (8.50%) than the current rate:

|                                                                            | 1%<br>Decrease |               |    | Discount<br>Rate | 1%<br>Increase    |
|----------------------------------------------------------------------------|----------------|---------------|----|------------------|-------------------|
| _                                                                          |                | 6.50%         |    | 7.50%            | 8.50%             |
| Total pension liability                                                    | \$             | 263,781,397   | \$ | 238,762,921      | \$<br>217,400,628 |
| Plan fiduciary net position                                                |                | (168,015,020) |    | (168,015,020)    | (168,015,020)     |
| Net pension liability                                                      | \$             | 95,766,377    | \$ | 70,747,901       | \$<br>49,385,608  |
| Plan fiduciary net position as a percentage of the total pension liability |                | 63.69%        |    | 70.37%           | 77.28%            |

### Salaried Plan

The components of the net pension liability of the Salaried Plan at June 30, 2016, were as follows:

| Total pension liability                            | \$<br>121,090,442 |
|----------------------------------------------------|-------------------|
| Plan fiduciary net position                        | (75,337,019)      |
| Salaried net pension liability                     | \$<br>45,753,423  |
| Plan fiduciary net position as a percentage of the |                   |
| total pension liability                            | 62.22%            |

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### 5. NET PENSION LIABILITY (Continued)

The total pension liability was determined by an actuarial valuation as of July 1, 2015, using the following actuarial assumptions, applied to all periods included in the measurement, and using update procedures to roll forward the total pension liability to the pension plan's fiscal year-end:

| Inflation                 | 3.15%                                                   |
|---------------------------|---------------------------------------------------------|
| Amortization growth rate  | 3.15%                                                   |
| Salary increases          | 3.15%, plus merit component                             |
| Investment Rate of Return | 7.50%, net of investment expense                        |
| Post-retirement mortality | Sex Distinct RP-2000 Combined White Collar Mortality, 3 |
|                           | year setback for females                                |

The actuarial assumptions used in the July 1, 2015, valuation were based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2015.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2016, are summarized in the following table:

|                                | Long-Term Expected  |
|--------------------------------|---------------------|
| Asset Class                    | Real Rate of Return |
| Domestic Equity Large Cap      | 8.85%               |
| Domestic Equity Small Cap      | 9.85%               |
| International Equity Developed | 9.55%               |
| International Equity Emerging  | 11.15%              |
| Domestic Fixed Income          | 3.05%               |

The discount rate used to measure the Total Pension Liability was 7.50%. The discount rate was decreased during the fiscal year ended June 30, 2016, to 7.50% from 7.65%. The reduction is due to a review of potential investment returns over the next ten to twenty year horizon. The projection of cash flows used to determine the discount rate assumed that the District will continue to contribute to the Salaried Plan based on an actuarially determined contribution, reflecting a payment equal to annual Normal Cost, the expected administrative expenses, and an amount necessary to amortize the remaining Unfunded Actuarial Liability as a level percentage of payroll over a closed period (17 years remaining as of the July 1, 2015 actuarial valuation).

Based on those assumptions, the Salaried Plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current Salaried Plan members. Therefore, the long-term expected rate of return on Salaried Plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### 5. NET PENSION LIABILITY (Continued)

The following presents the net pension liability of the Salaried Plan, calculated using the discount rate of 7.50 percent, as well as what the Salaried Plan's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50%) or 1-percentage-point higher (8.50%) than the current rate:

|                                                                            | 1%                | Discount          | 1%                |
|----------------------------------------------------------------------------|-------------------|-------------------|-------------------|
|                                                                            | Decrease          | Rate              | Increase          |
|                                                                            | <br>6.50%         | 7.50%             | 8.50%             |
| Total pension liability                                                    | \$<br>135,273,142 | \$<br>121,090,442 | \$<br>109,059,306 |
| Plan fiduciary net position                                                | <br>(75,337,019)  | (75,337,019)      | (75,337,019)      |
| Net pension liability                                                      | \$<br>59,936,123  | \$<br>45,753,423  | \$<br>33,722,287  |
| Plan fiduciary net position as a percentage of the total pension liability | 55.69%            | 62.22%            | 69.08%            |

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective and are based on the benefits provided under the terms of the substantive plan in effect at the time of each valuation. Actuarial methods and assumptions used include techniques designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of plan assets.

The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effect of legal or contractual funding limitations.

| Contributions as a percentage of covered-    |           |           |           |           |           |           |           |           |           |           |
| employee payroll                             | 26.12%    | 27.26%    | 24.99%    | 23.43%    | 20.45%    | 17.76%    | 17.02%    | 15.44%    | 17.18%    | 16.52%    |

Note: Beginning in FYE2015, payroll amounts are based on actual total payroll of the District. In previous years the schedule used covered payroll which is different than actual payroll and therefore the contributions as a percentage of covered payroll will differ from what was actually contributed.

### **Notes to Schedule**

Valuation Date 7/1/2014 (to determine FY15-16 contribution)

Timing Actuarially determined contribution rates are calculated based on the actuarial valuation one year prior to the

beginning of the plan year

Key methods and assumptions used to determine contribution rates:

Actuarial cost method Entry Age

Amortization method Level percentage of payroll, closed 18 year period as of 6/30/2014

Asset valuation method 5-year smoothed market

Discount Rate 7.65% Amortization growth rate 3.15% Price inflation 3.15%

Salary Increases 3.15%, plus merit component on employee classification and years of service Mortality Sex Distinct RP-2000 Combined Blue Collar Mortality, 3 year setback for females

### Other information:

A complete description of the methods and assumptions used to determine contribution rates for the year ending June 30, 2016, can be found in the July 1, 2014 actuarial valuation report.

### ISSUE

Receive and File the Fiscal Year 2016 State Controller's Report for the Retirement Plan for Sacramento Regional Transit District Salaried Employees (AEA/AFSCME/MCEG). (Bernegger)

### RECOMMENDED ACTION

Motion: Receive and File the Fiscal Year 2016 State Controller's Report for the Retirement Plan for Sacramento Regional Transit District Salaried Employees (AEA/AFSCME/MCEG). (Bernegger)

### FISCAL IMPACT

None

### DISCUSSION

The financial data for the annual State Controller's Public Retirement Systems Financial Transactions Report is prepared in accordance with California Government Code Section 7504. This statute requires all state and local retirement systems to annually submit audited financial statements of their Pension Plans to the State Controller's Office by the close of each calendar year. The State Controller's Public Retirement Systems Financial Transactions Report (Attachment 1) for the fiscal year ended June 30, 2016 was filed on December 19, 2016.

Per Government Code section 7504, this report is due within six months after the end of the fiscal year. Public Employee Retirement Systems are also required to furnish an audited financial statement on an annual basis and, for defined benefit systems, an actuarial valuation report at least every three years. To meet the filing requirements, all portions must be received by the State Controller's Office, as

### Sacramento Regional Transit District AFSCME Retirement Board Meeting Wednesday, December 14, 2016 <u>MEETING SUMMARY</u>

### **ROLL CALL**

The Retirement Board was brought to order at 9:03 a.m. A quorum was present comprised as follows: Directors Li, Mallonee, Hoslett and Alternate Kent were present. Director Morin and Alternate Jennings were absent.

This meeting was held as a common meeting of the five Sacramento Regional Transit District Retirement Boards.

By AFSCME Resolution No. 16-02-137 for calendar year 2016, the Governing Board Member in attendance served as Common Chair of this Retirement Board meeting.

Legal Counsel Shayna van Hoften with Hanson Bridgett introduced Catherine Groves with Hanson Bridgett LLP to the Retirement Boards.

Donna Bonnel noted that a CALAPRS pension management training will take place on August 28-31 and requested that all new board members place the dates on their calendars. Scheduling for the training can be coordinated with Mariza Montung-Fuller.

### **Consent Calendar:**

4. Motion: Approving the Minutes for the August 31, 2016 Special Retirement Board

Meeting (AFSCME). (Bonnel)

5. Motion: Approving the Minutes for the September 14, 2016 Quarterly Retirement

Board Meeting (AFSCME). (Bonnel)

6. Motion: Receive and File Administrative Reports for the Quarter Ended September

30, 2016 for the Salaried Pension Plan (AEA/AFSCME/MCEG).

(Bernegger)

Director Li moved to adopt AFSCME Retirement Board Items 4 through 6. Director Mallonee seconded the motion. Items 4 through 6 were carried unanimously by roll call vote: Ayes: Directors Li, Mallonee and Hoslett. Noes: None.

### **New Business:**

16. Information: Investment Performance Review by Dimensional Fund Advisors (DFA) for

the ATU/IBEW and Salaried Employee Retirement Plans for the International Emerging Markets Asset Class for the Quarter Ended

September 30, 2016 (ALL). (Bernegger)

Jamie Adelman introduced Ted Simpson from DFA, who provided the performance results for the International Emerging Markets Asset Class for the quarter ended September 30, 2016 and to be available for questions. 17. Information: Investment Performance Review of the S&P 500 Index and MSCI EAFE

Funds by State Street Global Advisors (SSgA) for the ATU/IBEW and Salaried Employee Retirement Funds for the Quarter Ended September 30,

2016 (ALL). (Bernegger)

Jamie Adelman introduced Mark Levin from State Street Global Advisors, who presented the investment performance results of the S&P 500 Index and MSCI EAFE Funds for the quarter ended September 30, 2016 and to be available for questions.

18. Motion: Receive and File the Investment Performance Reports for the ATU/IBEW

and Salaried Employee Funds for Quarter Ended September 30, 2016

(ALL). (Bernegger)

Jamie Adelman introduced Uvan Tseng from Callan Associates, who provided a market overview for the Quarter Ended September 30, 2016 and to be available for questions.

Director Li moved to adopt Item 18. Director Mallonee seconded the motion. Item 18 was carried unanimously by roll call vote: Ayes: Directors Li, Mallonee and Hoslett. Noes: None.

20. Information: Update on Staff Roles and Responsibilities Related to Pension

Administration (ALL). (Bonnel)

Donna Bonnel provided an update on the roles and responsibilities of various District staff members and Legal Counsel related to the administration of the Pension Plans.

19. Resolution: Selection of a Common Chair and Vice Chair for Retirement Board

Meetings (ALL). (Bonnel)

Donna Bonnel presented Item 19 for approval.

Director Li moved to adopt the resolution approving Andy Morin as Common Chair and Henry Li as Common Vice Chair. Director Mallonee seconded the motion. Item 19 was carried unanimously by roll call vote: Ayes: Directors Li, Mallonee and Hoslett. Noes: None.

Donna Bonnel noted that it was mentioned on one of the Retirement Board Chair calls that the ATU Retirement Board might want to review the By-laws. Recently, two Retirement Boards have lost participants and the By-laws require a resignation from the person that was appointed. If the will of the Board(s) was to change the By-laws, the hope would be that all five Boards would adopt the change so we can continue to manage the five Boards with the same By-laws.

ATU Director Ralph Niz commented that the ATU has elections every three years and that they just completed elections. The election was as follows: Ralph Niz, President, Crystal Lee, Vice President and Corina De La Torre, Financial Secretary. He remarked that if a board member has elections within their bargaining unit and they don't retain their seat, they should be removed from their position on the Retirement Board to allow for educational opportunities for the newly elected officials.

Legal Counsel Shayna van Hoften noted that this item could be discussed in more depth with the Board Chairs to get a sense of how each of the entities works because every group does not work the same as the ATU.

Staff will bring this item back in March for more discussion.

The AEA, AFSCME, IBEW and MCEG Retirement Boards recessed at 9:43 a.m.

The AEA, AFSCME, IBEW and MCEG Retirement Boards returned to the room at 9:48 a.m.

# Sacramento Regional Transit District AFSCME Special Retirement Board Meeting Wednesday, February 1, 2017 MEETING SUMMARY

#### **ROLL CALL**

The Retirement Board was brought to order at 9:02 a.m. A quorum was present comprised as follows: Directors Li, Morin, Mallonee, and Hoslett were present. Alternate Kent and Alternate Jennings were absent.

This meeting was held as a common meeting of the five Sacramento Regional Transit District Retirement Boards.

By AFSCME Resolution No. 16-12-152 for calendar year 2017, the Governing Board Member in attendance served as Common Chair of this Retirement Board meeting.

Natalie Wilson of the Retirement Boards' counsel, Hanson Bridgett LLP, and Lance Kjeldgaard fiduciary counsel contracted through the board's Legal Counsel, were also present.

#### PUBLIC ADDRESSES BOARD ON MATTERS NOT ON THE AGENDA

| Ν   | റ | n | e         |
|-----|---|---|-----------|
| 1 1 | v |   | <b>C.</b> |

#### Consent Calendar:

#### **New Business:**

The order of New Business items was adjusted to reverse items 1 and 2.

2. Information: Introduce the 2016 Actuarial Valuation Completed by Cheiron (ALL). (Bonnel)

Assistant Secretary Donna Bonnel introduced Graham Schmidt, from Cheiron, who introduced the Actuarial Valuation Study for Fiscal Year 2016 and was available for questions.

Jamie Adelman noted that Staff would be reaching out to members of the ATU and IBEW Retirement Boards to discuss the asset split. This needs to be done in order to finalize the valuation.

1. Resolution: Receive International Fund Manager Candidate Presentations and Select Replacement Fund Manager (ALL). (Bernegger)

Jamie Adelman introduced Andy Iseri and Uvan Tseng from Callan Associates, Inc. (Callan), who provided a detailed review of each manager candidate and provided background on staffing, returns, investment philosophy, risk and other attributes.

Andy Iseri introduced Kamila Kowalke and Daniel McDonagh from Pyrford International PLC to present their firm as an International Fund Manager candidate and to introduce the Pyrford International PLC's investment decision model and methodology.

Director Andy Morin thanked the presenters for their detailed and concise presentation.

Mr. Iseri introduced Michael Powers and George Sands from Lazard Asset Management to present their firm as an International Fund Manager candidate, and to introduce the Lazard Asset Management's investment decision model and methodology.

Brent Bernegger noted that Lazard's investment process area of focus seems to be in stock selection and relative to value. He asked how their investment process differs from an investment firm that does stock selection that is country specific, and about the advantages of this approach.

Mr. Powers noted that their starting point in the stock selection process is looking at an entire opportunity set of stocks and discuss the stocks merits from the "bottom up", as opposed to "top down" management style that utilizes a macro view.

Ms. Adelman asked if Lazard has an average duration for which they hold a stock. Mr. Powers noted that they hold a stock on an average of two to three years.

Director Morin thanked Mr. Powers and Mr. Sands for their time and presentation.

Director Li asked for additional details on the management fees.

Mr. Tseng indicated the options were as follows:

- A. Lazard Asset Management (Lazard) Maximum annual fee of 80 basis points (BP) or \$179,917.
- B. Pyrford International PLC (Pyrford) Equity only non-U.S. mutual fund maximum annual fee of 84 BP or \$188,912.
- C. Pyrford New Hampshire Investment Trust maximum annual fee of 70 BP or \$157,427.

Lance Kjeldgaard with Hanson Bridgett LLP noted the differences between the Pyrford New Hampshire Trust option and Lazard's mutual fund option. The New Hampshire Trust is governed by New Hampshire law. The mutual fund is governed by the Department of Labor and SCC. The mutual fund can be traded daily; the New Hampshire Trust can only be traded monthly.

Mr. Tseng noted that Pyrford is registered with the SEC and DOL, they are GIPS compliant and they have Arizona Mission insurance.

Mr. Bernegger asked for clarification on the holding periods for Pyrford and Lazard.

Mr. Iseri noted that Pyrford typically has a five to seven year holding period where as Lazard typically has a two to three year holding period.

Ms. Adelman noted that Staff is seeking direction from the Boards on how they would like to proceed.

Ms. Bonnel asked if the committee had a preference toward one of the two managers.

Ms. Adelman noted that the committee preferred Pyrford.

Ms. Bonnel asked what were JP Morgan's fees prior to the fee reduction.

Ms. Adelman noted that the fee prior to the fee reduction was 70 basis points.

Ms. Bonnel asked if the Boards were interested in retaining JP Morgan. The consensus of all Boards was in the negative.

Discussion ensued.

Director Morin moved to approve the following:

#### **RECOMMENDED ACTION**

C. Adopt Resolution 17-02-\_\_\_\_, Directing Staff to Negotiate a Contract with Pyrford International PLC to Provide International Large Cap Fund Manager Services within the New Hampshire Investment Trust and Authorizing the Sacramento Regional Transit District General Manager/CEO to Execute Said Contract, in a Form Acceptable to Legal Counsel

#### **FISCAL IMPACT**

C. Pyrford – New Hampshire Investment Trust maximum annual fee of 70 BP or \$157,427

Director Li seconded the motion. Item 1, option C. was carried unanimously by roll call vote: Ayes: Directors Mallonee, Hoslett, Li and Morin. Noes: None

#### **REPORTS FROM COMMITTEES**

None.

#### REPORTS, IDEAS AND COMMUNICATIONS

Ms. Bonnel noted that the March 15 Quarterly Retirement Board meeting has been moved to March 22 at 9:00 a.m. The March 15 date will be utilized for new board member orientation.

None.

The meeting was adjourned by Assistant Secretary Bonnel at 11:10 a.m.

#### Sacramento Regional Transit District ATU Special Retirement Board Meeting Wednesday, February 1, 2017 MEETING SUMMARY

#### **ROLL CALL**

The Retirement Board was brought to order at 9:02 a.m. A quorum was present comprised as follows: Directors Li, Morin, Niz and De La Torre were present. Alternate Muniz and Alternate Jennings were absent.

This meeting was held as a common meeting of the five Sacramento Regional Transit District Retirement Boards.

By ATU Resolution No. 16-12-0288 for calendar year 2017, the Governing Board Member in attendance served as Common Chair of this Retirement Board meeting.

Natalie Wilson of the Retirement Boards' counsel, Hanson Bridgett LLP, and Lance Kjeldgaard fiduciary counsel contracted through the board's Legal Counsel, were also present.

#### **New Business:**

The order of New Business items was adjusted to reverse items 1 and 2.

2. Information: Introduce the 2016 Actuarial Valuation Completed by Cheiron (ALL). (Bonnel)

Assistant Secretary Donna Bonnel introduced Graham Schmidt, from Cheiron, who introduced the Actuarial Valuation Study for Fiscal Year 2016 and was available for questions.

Jamie Adelman noted that Staff would be reaching out to members of the ATU and IBEW Retirement Boards to discuss the asset split. This needs to be done in order to finalize the valuation.

1. Resolution: Receive International Fund Manager Candidate Presentations and Select Replacement Fund Manager (ALL). (Bernegger)

Jamie Adelman introduced Andy Iseri and Uvan Tseng from Callan Associates, Inc. (Callan), who provided a detailed review of each manager candidate and provided background on staffing, returns, investment philosophy, risk and other attributes.

Andy Iseri introduced Kamila Kowalke and Daniel McDonagh from Pyrford International PLC to present their firm as an International Fund Manager candidate and to introduce the Pyrford International PLC's investment decision model and methodology.

Director Ralph Niz left at 9:55 a.m.

Director Andy Morin thanked the presenters for their detailed and concise presentation.

Mr. Iseri introduced Michael Powers and George Sands from Lazard Asset Management to present their firm as an International Fund Manager candidate, and to introduce the Lazard Asset Management's investment decision model and methodology.

Brent Bernegger noted that Lazard's investment process area of focus seems to be in stock selection and relative to value. He asked how their investment process differs from an investment firm that does stock selection that is country specific, and about the advantages of this approach.

Mr. Powers noted that their starting point in the stock selection process is looking at an entire opportunity set of stocks and discuss the stocks merits from the "bottom up", as opposed to "top down" management style that utilizes a macro view.

Ms. Adelman asked if Lazard has an average duration for which they hold a stock. Mr. Powers noted that they hold a stock on an average of two to three years.

Director Morin thanked Mr. Powers and Mr. Sands for their time and presentation.

Director Li asked for additional details on the management fees.

Mr. Tseng indicated the options were as follows:

- A. Lazard Asset Management (Lazard) Maximum annual fee of 80 basis points (BP) or \$179,917.
- B. Pyrford International PLC (Pyrford) Equity only non-U.S. mutual fund maximum annual fee of 84 BP or \$188,912.
- C. Pyrford New Hampshire Investment Trust maximum annual fee of 70 BP or \$157,427.

Lance Kjeldgaard with Hanson Bridgett LLP noted the differences between the Pyrford New Hampshire Trust option and Lazard's mutual fund option. The New Hampshire Trust is governed by New Hampshire law. The mutual fund is governed by the Department of Labor and SCC. The mutual fund can be traded daily; the New Hampshire Trust can only be traded monthly.

Mr. Tseng noted that Pyrford is registered with the SEC and DOL, they are GIPS compliant and they have Arizona Mission insurance.

Mr. Bernegger asked for clarification on the holding periods for Pyrford and Lazard.

Mr. Iseri noted that Pyrford typically has a five to seven year holding period where as Lazard typically has a two to three year holding period.

Ms. Adelman noted that Staff is seeking direction from the Boards on how they would like to proceed.

Ms. Bonnel asked if the committee had a preference toward one of the two managers.

Ms. Adelman noted that the committee preferred Pyrford.

Ms. Bonnel asked what were JP Morgan's fees prior to the fee reduction.

Ms. Adelman noted that the fee prior to the fee reduction was 70 basis points.

Ms. Bonnel asked if the Boards were interested in retaining JP Morgan. The consensus of all Boards was in the negative.

Discussion ensued.

Director Morin moved to approve the following:

#### **RECOMMENDED ACTION**

C. Adopt Resolution 17-02-\_\_\_\_, Directing Staff to Negotiate a Contract with Pyrford International PLC to Provide International Large Cap Fund Manager Services within the New Hampshire Investment Trust and Authorizing the Sacramento Regional Transit District General Manager/CEO to Execute Said Contract, in a Form Acceptable to Legal Counsel

#### FISCAL IMPACT

C. Pyrford – New Hampshire Investment Trust maximum annual fee of 70 BP or \$157,427

Director Li seconded the motion. Item 1, option C. was carried unanimously by roll call vote: Ayes: Directors De La Torre, Li and Morin. Noes: None

#### **REPORTS FROM COMMITTEES**

None.

#### REPORTS, IDEAS AND COMMUNICATIONS

Ms. Bonnel noted that the March 15 Quarterly Retirement Board meeting has been moved to March 22 at 9:00 a.m. The March 15 date will be utilized for new board member orientation.

None.

The meeting was adjourned by Assistant Secretary Bonnel at 11:10 a.m.

#### **DISCUSSION**

#### **Unaudited Financial Statements**

Attached hereto are unaudited financial statements for the quarter and the year-to-date ended December 31, 2016. The financial statements are presented on an accrual basis and consist of a Statement of Fiduciary Net Position (balance sheet) (Attachment 1), a Statement of Changes in Fiduciary Net Position (income statement) for the quarter ended December 31, 2016 (Attachment 2), and a year-to-date Statement of Changes in Fiduciary Net Position (Attachment 3).

The Statement of Fiduciary Net Position includes a summary of fund assets showing the amounts in the following categories: investments, prepaid assets, and other receivables. This statement also provides amounts due from/to the District and Total Fund Equity (net position).

The Statement of Changes in Fiduciary Net Position includes activities in the following categories: investment gains/losses, dividends, interest income, unrealized gains/losses, benefit contributions/payouts, and investment management and administrative expenses.

#### Asset Rebalancing

Pursuant to Section IV, <u>Asset Rebalancing Policy</u> of the Statement of Investment Objectives and Policy Guidelines for the ATU, IBEW and Salaried Employees' Retirement Funds, the Retirement Boards have delegated authority to manage pension plan assets in accordance with the approved rebalancing policy to the District's Director of Finance/Treasury. The

| Agenda   | Board Meeting | Open/Closed | Information/Action | Issue    |
|----------|---------------|-------------|--------------------|----------|
| Item No. | Date          | Session     | Item               | Date     |
| 13       | 03/22/17      | Retirement  | Action             | 02/11/17 |

Subject: Receive and File Administrative Reports for the Quarter Ended December 31, 2016 for the ATU Pension Plan (ATU). (Bernegger)

Director is required to report asset rebalancing activity to the Boards at their quarterly meetings. Rebalancing can occur for one or more of the following reasons:

- 1. The Pension Plan ended the month with an accounts receivable or payable balance due to the District. A payable or receivable is the net amount of the monthly required contribution (required contribution is the percentage of covered payroll determined by the annual actuarial valuation) less the Plan's actual expenses.
- 2. The Pension Plan hires or removes a Fund Manager, in which case securities must be moved to a new fund manager.
- 3. The Pension Plan investment mix is under or over the minimum or maximum asset allocation as defined in the Statement of Investment Objectives and Policy Guidelines.

Attached hereto as Attachment 4 is the ATU Plan's Schedule of Cash Activities for the three months ended December 31, 2016. The schedule of cash activities includes a summary of Plan activities showing the amounts in the following categories: District's pension contributions to the Plan, payments to retirees, and the Pension Plan's cash expenditures paid. This schedule also lists the rebalancing activity that occurred for the three months ended December 31, 2016. The ATU Plan reimbursed \$816,583.91 to the District as the result of the net cash activity between the pension plan expenses and the required pension contributions.

Attached hereto as Attachment 5 is the ATU Plan's Asset Allocation as of December 31, 2016. This statement shows the ATU Plan's asset allocation as compared to targeted allocation percentages as defined in the Statement of Investment Objectives and Policy Guidelines.

Attached hereto as Attachment 6 is a reconciliation between the Callan Performance Report and the ATU, IBEW and Salaried Pension Plans' unaudited financial statements. The reports differ in that the unaudited financial statements reflect <u>both</u> investment activities and the pension fund's inflows and outflows. Callan's report <u>only</u> reflects the investment activities. The "Net Difference" amounts shown are the results of Callan and State Street using different valuations for the same securities and/or litigation settlements received by the Plans.

Included also as Attachment 7 is a reconciliation between the Callan Performance Report and the Schedule of Cash Activities for payments made from/to the District. Callan's report classifies gains from trades and litigation income as "net new investments." Finance staff classifies gains from trades and litigation income in the Pension Fund's unaudited Statement of Changes in Plan Net Position as "Other Income," which is combined in the category of "Interest, Dividend, & Other Inc".

Attached hereto as Attachment 8 is a schedule reflecting Fund Managers' quarterly investment returns and their investment fees. Additionally, the schedule reflects annual rates of return on investment net of investment fees for the one-year and three-year periods ended December 31, 2016 as compared to their benchmarks.

#### ISSUE

Receive and File the Independent Auditor's Report for the Twelve Month Period Ended June 30, 2016 (ALL). (Bernegger)

#### RECOMMENDED ACTION

Motion: Receive and File the Independent Auditor's Report for the Twelve Month Period Ended June 30, 2016 (ALL). (Bernegger)

#### FISCAL IMPACT

None

#### DISCUSSION

In accordance with California Government Code Section 7504, the Retirement Plans are required to have an annual audit performed. Crowe Horwath LLC conducted the Plans' audit in accordance with generally accepted auditing standards. The standards require that the auditors plan and perform the audit to obtain reasonable assurance that the Plans' financial statements are free of material misstatements.

For the fiscal year ended June 30, 2016, the investment assets for the ATU, IBEW and Salaried Plans were combined into one commingled investment portfolio. The balance of investments owned by the ATU, IBEW and Salaried Plans are calculated based on a percentage of ownership as determined by the ATU, IBEW and Salaried Plans' custodian.

The financial results are shown on a comparative basis. As noted in the report (Attachment 1), the combined net position held in trust for pension benefits decreased \$3,350,315 or 1.38% from the beginning of year balance of \$246,702,354 to the end of year balance of \$243,352,039. The audit confirmed that the District made 100% of its actuarially determined contribution of \$18,024,056.

Please note that as of the balance sheet date of June 30, 2016 the ATU and IBEW Plans were still reported as a combined Plan. Beginning with fiscal year 2017 there will be separate reporting for the ATU and IBEW Plans.

#### INDEPENDENT AUDITOR'S REPORT

Members of the Retirement Board of Directors Sacramento Regional Transit District Sacramento, California

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the ATU/IBEW Plan and Salaried Plan for Sacramento Regional Transit District Employees (the Plans), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the Plans' basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plans' preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plans' internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective fiduciary net position of the ATU/IBEW Plan and the Salaried Plan for Sacramento Regional Transit District Employees as of June 30, 2016, and the respective changes in fiduciary net position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Schedules of Changes in the Net Pension Liability and Related Ratios, Schedules of District Contributions, and the Schedule of Investment Returns, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the Management's Discussion and Analysis that governmental accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

#### Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the ATU/IBEW Plan's and the Salaried Plan's basic financial statements. The accompanying supplemental Schedules of Investment and Administrative Expenses are presented for purposes of additional analysis and are not a required part of the financial statements.

The accompanying Schedules of Investment and Administrative Expenses are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedules of Investment and Administrative Expenses are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

## RETIREMENT PLANS FOR SACRAMENTO REGIONAL TRANSIT DISTRICT EMPLOYEES

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### 1. DESCRIPTION OF THE PLANS

#### **ATU/IBEW Plan**

The Retirement Plan for Sacramento Regional Transit District Employees who are Members of Amalgamated Transit Union (ATU) Local 256 and International Brotherhood of Electrical Workers (IBEW) Local 1245 (the ATU/IBEW Plan) is a single employer defined benefit pension plan covering contract employees of Sacramento Regional Transit District (the District). Participants should refer to their respective plan agreements for more complete information. The ATU Plan and the IBEW Plan are accounted for by the District as one Plan (collectively, the ATU/IBEW Plan). The ATU/IBEW Plan is reported as a pension trust fund in the District's financial statements.

#### **Salaried Plan**

The Retirement Plan for Sacramento Regional Transit District Salaried Employees (the Salaried Plan) is a single employer defined benefit pension plan covering full- or part-time employees in the following employee groups: Administrative Employees Association (AEA), Management and Confidential Employees Group (MCEG), and the American Federation of State, County & Municipal Employees, Local 146, AFL-CIO (AFSCME). AFSCME is further split into two groups AFSCME-Technical and AFSCME-Supervisors. Participants should refer to the Salaried Plan agreement for more complete information. The Salaried Plan is reported as a pension trust fund in the District's financial statements.

**Plan Tier Definition** – As a result of labor negotiations and the court ruling on the Public Employees' Pension Reform Act, a new tier was created in both the ATU/IBEW and Salaried Plans (Tier 2). The Tier effective date was directly affected by labor negotiations and whether the union/employee group was under a current Memorandum of Understanding (MOU). As of December 30, 2014, the ATU, IBEW, and AFSCME-Technical unions were bound by a current MOU. Whereas, the AEA, MCEG, and AFSCME-Supervisors had not settled negotiations and were not bound by a current MOU; therefore, PEPRA was required to be implemented for these groups.

- ATU, IBEW, and AFSCME-Technical Tier 1 consists of all employees hired on or before December 31, 2014, Tier 2 consists of all employees hired on or after January 1, 2015.
- AEA, MCEG, and AFSCME-Supervisors Tier 1 consists of all employees hired on or before December 30, 2014, Tier 2 consists of all employees hired on or after December 31, 2014.

Tier 1 is closed to new entrants as all newly hired employees will be placed into the respective Tier 2 plans.

#### **PEPRA Employees**

The Public Employees' Pension Reform Act (PEPRA) of 2013 created new pension rules for employees hired after January 1, 2013. 'PEPRA employees' were hired under both the ATU/IBEW Plan and the Salaried Plan and the employees are required to contribute 50% of the normal cost of their plan. The benefits under PEPRA were reduced in an effort to reduce the pension liability of local agencies in the state of California.

On October 4, 2013 Assembly Bill 1222 provided a temporary exemption to the January 1, 2013 PEPRA law for employees of transit agencies. Along with changes to employee retirement benefits, this exemption eliminated employee contributions through January 1, 2015. Therefore all contributions received were refunded in November 2013 and the employees hired between January 1, 2013 and October 4, 2013 were included in the Tier 1 Plans. On September 28, 2014 Assembly Bill 1783 was signed by Governor Brown which extended the District's and the Plans' PEPRA exemption to January 1, 2016.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### 1. DESCRIPTION OF THE PLANS (Continued)

On December 30, 2014 a court ruling was released in which PEPRA became a requirement for transit agencies in the state of California. The ruling indicated that if a bargaining group was within a current MOU, PEPRA would not apply until the expiration of said MOU. As of December 30, 2014, the ATU, IBEW, and AFSCME-Technical groups were under a current MOU. For all other employee groups not under current contract (MCEG, AEA, and AFSCME-Supervisors), PEPRA applied to all new hires as of December 30, 2014.

#### General Provisions ATU/IBEW and Salaried Plans

Contributions to the ATU/IBEW and Salaried Plans are authorized or amended by the Retirement Board based on an actuarial basis. The authority under which benefit provisions are established and amended rests with the District's Board of Directors as a result of labor negotiations. Assembly Bill 1064, effective January 1, 2004, mandates that the Retirement Boards be comprised of equal representation of management and Bargaining Group employees. The Retirement Board shall consist of not more than 4 members and 2 alternates. Two (2) voting members and one (1) alternate shall be appointed by the District's Board of Directors and two (2) voting members and one (1) alternate shall be appointed by the ATU, IBEW, AEA, AFSCME, and MCEG member groups.

The ATU/IBEW and Salaried Plans provide defined pension, disability, and death benefits to employees who are members of the ATU, IBEW, AEA, MCEG, AFSCME-Technical, and AFSCME-Supervisors bargaining units.

530

ATU/IBEW Plan membership for both Tier 1 and Tier 2, at June 30, 2016, consisted of:

Retirees and beneficiaries currently receiving benefits

| Terminated members entitled to but not yet collecting benefits                          | 41    |
|-----------------------------------------------------------------------------------------|-------|
| Current active members                                                                  | 730   |
|                                                                                         |       |
|                                                                                         | 1,301 |
|                                                                                         |       |
| Salaried Plan membership for both Tier 1 and Tier 2, as of June 30, 2016, consisted of: |       |
| Salaried Fian membership for both fiel 1 and fiel 2, as of June 30, 2010, consisted of. |       |
|                                                                                         |       |
|                                                                                         |       |

#### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### 1. DESCRIPTION OF THE PLANS (Continued)

The retirement ages, years of service and pension calculation multipliers vary by employee union/group. The specific benefits for the ATU/IBEW and Salaried Plan Tier 1 and Tier 2 employees are outlined below in Table 3 and Table 4, respectively:

| Table 3 | Table 4 |  |
|---------|---------|--|
|         | Tier 1  |  |

| Tier 1                     |       |                     | Tier 2     |                            |       |                     |            |  |  |
|----------------------------|-------|---------------------|------------|----------------------------|-------|---------------------|------------|--|--|
| Employee<br>Unions/ Groups | Age   | Years of<br>Service | Multiplier | Employee<br>Unions/ Groups | Age   | Years of<br>Service | Multiplier |  |  |

#### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### 1. DESCRIPTION OF THE PLANS (Continued)

The benefits for both Tier 1 and Tier 2 members begin at retirement and continue for the participant's life with no cost of living adjustment. The participant can elect to receive reduced benefits with continuing benefits to a beneficiary after death.

**Disability Benefits** – A participant is eligible for a disability benefit if the participant is unable to perform the duties of his or her job with the District, cannot be transferred to another job with the District, and has submitted satisfactory medical evidence of permanent disqualification from his or her job. Members are required to be vested in their respective union or employee group to qualify for disability retirement. The disability benefit is equal to the retirement allowance, as defined by the ATU/IBEW or Salaried Plan, multiplied by service accrued through the date of disability. The disability benefit cannot exceed the retirement benefit. The benefit begins at disability and continues until recovery or for the participant's life unless the participant elects to receive reduced benefits with continuing benefits to a beneficiary after death.

**Pre-Retirement Death Benefit** – A participant's surviving spouse is eligible for a pre-retirement death benefit if the participant is vested, based on the respective bargaining agreements. The pre-retirement death benefit is the actuarial equivalent of the normal retirement benefit, as if the participant retired on the date of death. The death benefit begins when the participant dies and continues for the life of the surviving spouse or until remarriage.

**Administration** – The ATU/IBEW Plan is administered by the ATU/IBEW Plan's Retirement Board. All expenses incurred in the administration of the ATU/IBEW Plan are paid by the ATU/IBEW Plan. The Salaried Plan is administered by the Salaried Plan's Retirement Boards. All expenses incurred in the administration of the Salaried Plan are paid by the Salaried Plan.

**Plan Termination** – Should the ATU/IBEW or the Salaried Plan be terminated, the Plan's net position will first be applied to provide for retirement benefits to retired members. Any remaining net position will be allocated to other members, oldest first both active and inactive, on the basis of the actuarial present value of their benefits.

#### 2. SIGNIFICANT ACCOUNTING POLICIES

**Basis of Accounting** – The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. The ATU/IBEW and Salaried Plans are reported as pension trust funds which report resources that are required to be held in trust for the members and beneficiaries of the defined benefit pension plans. The ATU/IBEW and Salaried Plans are accounted for on the flow of economic resources measurement focus and the accrual basis of accounting.

The ATU/IBEW and Salaried Plans have adopted Governmental Accounting Standards Board (GASB) Statement No. 67, *Financial Reporting for Pension Plans – an amendment of GASB Statement No. 25*, as their source of accounting and reporting principles. The District's contributions to the ATU/IBEW and Salaried Plans are recognized in the period in which the contributions are due pursuant to formal commitments or contractual requirements. Benefits and refunds are recognized when due and payable in accordance with the ATU/IBEW and Salaried Plans' agreements.

**Cash and Short-Term Investments** – The ATU/IBEW and Salaried Plans consider all highly liquid investments with an original maturity of three months or less to be short-term investments.

#### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

**Investments** – Investments consist of securities or other assets held primarily for the purpose of income or profit and their present service capacity is based solely on its ability to generate cash or to be sold to generate cash.. Realized gains or losses on the sale of investments are recorded on the trade date as the difference between proceeds received and the fair value at the beginning of the year, or cost if acquired during the year. Net appreciation (depreciation) in fair value of investments includes net unrealized market appreciation and depreciation of investments and net realized gains and losses on the sale of investments during the period. Interest income includes dividends and interest paid on the ATU/IBEW and Salaried Plans' investments. The investment assets for the ATU/IBEW and the Salaried Plans are combined into one commingled investment portfolio. The balances of investments owned by the plans are calculated based on a percentage of ownership as determined by the Plans' custodian, State Street.

**Estimates** – The preparation of financial statements in conformity with generally accepted accounting principles requires the ATU/IBEW and Salaried Plans' administrators to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

**New Pronouncements** – For the fiscal year ended June 30, 2016, the ATU/IBEW and Salaried Plans implemented GASB Statement 72, *Fair Value Measurement and Application*. Implementation of this statement has created additional investment disclosures; however, there was no impact on the basic financial statements.

There are currently no future pronouncements that will be applicable to the ATU/IBEW and Salaried Plans' financial statements.

#### 3. CONTRIBUTION REQUIREMENTS

#### EMPLOYER CONTRIBUTIONS

The ATU/IBEW and Salaried Plans' funding policy provides for actuarially determined periodic contributions. Contribution rates for retirement benefits are determined using the entry age normal cost method. During the fiscal year ended June 30, 2016, the District made 100% of the actuarially determined contributions to the ATU/IBEW and Salaried Plans of \$18,024,056, for all employees.

#### TIER 1 EMPLOYEES

For the fiscal year ended June 30, 2016, the actuarially determined rate for the ATU/IBEW Plan was 26.51% of covered payroll. For the fiscal year ended June 30, 2016, the actuarially determined rate for the Salaried Plan was 31.55% of covered payroll. No contributions are required by the ATU/IBEW and Salaried Plans' members pursuant to each respective bargaining agreement for employees hired before January 1, 2015.

#### **TIER 2 EMPLOYEES**

As of January 1, 2015, all new employees were required to contribute to their pension based upon the terms of the bargaining groups MOU or based on PEPRA.

ATU employees are required to contribute 3.00% of their annual salary. The employer portion of the actuarially determined rate for the ATU members was 23.51% of covered payroll for the fiscal year ending June 30, 2016. IBEW employees are required to contribute 1.50% the first year of service increasing to 4.50% in the third year of service and beyond. The employer portion of the actuarially determined rate for the IBEW members ranged from 23.51% to 25.01% of covered payroll for the fiscal year ending June 30, 2016. The total contribution by Tier 2 employees of the ATU/IBEW Plan for the fiscal year ended June 30, 2016 was \$54,714.

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### 3. CONTRIBUTION REQUIREMENTS (Continued)

AFSCME-Technical employees are required to contribute 1.50% the first year of service increasing to 4.50% in the third year of service and beyond. The employer portion of the actuarially determined rate for the AFSCME-Technical members ranged from 28.55% to 30.05% of covered payroll for the fiscal year ending June 30, 2016. Members of AEA, MCEG, and AFSCME-Supervisors are required to contribute 50% of normal cost which is currently 5.75% of their annual salary. The employer portion of the actuarially determined rate for the AEA, MCEG, and AFSCME-Supervisors members was 25.80% of covered payroll for the fiscal year ending June 30, 2016. The total contribution by Tier 2 employees of the Salaried Plan for the fiscal year ended June 30, 2016 was \$21,014.

The PEPRA related contribution rate for June 30, 2016, was actuarially determined on April 20, 2015, using the member data from actuarial valuations of the ATU/IBEW and Salaried Plans as of June 30, 2014.

#### 4. CASH AND INVESTMENTS

#### CASH AND SHORT-TERM INVESTMENTS

At June 30, 2016, the reported amount of cash and short-term investments of the ATU/IBEW and Salaried Plans was \$6,563,559. The amount was collateralized with securities held by the counterparty's trust department or agent in the District's name on behalf of the Retirement Plans.

#### **INVESTMENTS**

An annual Board-adopted policy, the "Statement of Investment Objectives and Policy Guidelines for the Sacramento Regional Transit District Retirement Plans" (Policy), governs the ATU/IBEW and Salaried Plans' investments. This Policy focuses on the continued feasibility of achieving, and the appropriateness of, the Asset Allocation Policy, the Investment Objectives, the Investment Policies and Guidelines, and the Investment Restrictions. The Retirement Boards have the authority to amend the asset allocation targets as well as establish and amend investment policies. The following was the Plans' adopted asset allocation policy as of June 30, 2016:

| Asset Class                              | Target Allocation |
|------------------------------------------|-------------------|
| Domestic Equity Large Cap                | 32%               |
| Domestic Equity Small Cap                | 8%                |
| International Equity Developed Large Cap | 14%               |
| International Equity Developed Small Cap | 5%                |
| International Equity Emerging Markets    | 6%                |
| Domestic Fixed Income                    | 35%               |

For the years ended June 30, 2016, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expenses, was -0.19%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### 4. CASH AND INVESTMENTS (Continued)

The following table identifies the investment types that are authorized by the ATU/IBEW and Salaried Plans' Retirement Boards. The table also identifies certain provisions of the Investment Objectives and Policy that address interest rate risk, credit risk and concentration of credit risk.

| Authorized Investment Type             | Maximum<br>Maturity (1) | Minimum<br>Rating (3) | Maximum<br>Percentage of<br>Portfolio | Maximum Investment in One Issuer |
|----------------------------------------|-------------------------|-----------------------|---------------------------------------|----------------------------------|
| Cash                                   | None                    | N/A                   | None                                  | None                             |
| U.S. Treasury Bills                    | None                    | N/A                   | None                                  | None                             |
| Agency Discount Notes                  | None                    | N/A                   | None                                  | None                             |

| U.S. Government and Agency Securities  | None                    | N/A                   | None                                  | None                             |
| Credit Securities/Corporate Debt (4)   | None                    | N/A                   | None                                  | None                             |
| Securitized Investments (5)            | None                    | N/A                   | None                                  | None                             |
| Emerging Markets                       | None                    | N/A                   | None                                  | None                             |
| International Fixed Income Securities  | None                    | N/A                   | None                                  | None                             |
| Other Fixed Income Securities (6)      | None                    | N/A                   | None                                  | None                             |
| Mutual Funds                           | N/A                     | N/A                   | 25% (2)                               | 5%                               |
| Real Estate Investment Trust           | N/A                     | N/A                   | 25% (2)                               | 5%                               |
| Depository Receipt                     | N/A                     | N/A                   | 25% (2)                               | 5%                               |
| Stocks                                 | N/A                     | N/A                   | 25% (2)                               | 5%                               |

- (1) The fixed income portion of the ATU/IBEW and Salaried Plans shall be limited in duration to between 75% and 125% of the benchmark.
- (2) No more than 25% of the fair value on the purchase cost basis of the total common stock portfolio (equity securities) shall be invested in a single industry at the time of purchase.
- (3) The investment managers shall maintain a minimum overall portfolio quality rating of "A" equivalent or better at all times (based on market-weighted portfolio average). Minimum quality (at purchase) must be at least 80% Baa or above.
- (4) Credit Securities and Corporate Debt include: debentures, medium-term notes, capital securities, trust preferred securities, Yankee bonds, Eurodollar securities, floating rate notes and perpetual floaters, structured notes, municipal bonds, preferred stock, private placements (bank loans and 144(a) securities), and EETCs.
- (5) Securitized investments includes: agency and non-agency mortgage-backed securities, asset-backed securities (144(a) securities), and commercial mortgage-backed securities.
- (6) Other Fixed Income Securities includes: Fixed income commingled and mutual funds, futures and options, swap agreements, and reverse repurchase agreements.

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### 4. CASH AND INVESTMENTS (Continued)

#### INVESTMENT RISK FACTORS

There are many factors that can affect the value of investments. Such factors as interest rate risk, credit risk, custodial credit risk, concentration of credit risk, and foreign currency risk may affect both equity and fixed income securities.

#### INTEREST RATE RISK

Interest rate risk is the risk that the value of fixed income securities will decline because of rising interest rates. The prices of fixed income securities with a longer time to maturity, measured by duration, tend to be more sensitive to changes in interest rates and, therefore, more volatile than those with shorter duration.

The following table provides information about the interest rate risks associated with the ATU/IBEW and Salaried Plans' investments at June 30, 2016.

|                                     | <br>Maturity in Years |    |            |    |            |    |            |                  |

| Total                               | \$<br>3,516,669       | \$ | 27,643,407 | \$ | 13,594,396 | \$ | 47,678,925 | \$<br>92,433,397 |

In accordance with the ATU/IBEW and Salaried Plans' investment policy, investments may include mortgage pass-through securities, collateralized mortgage obligations, asset-backed securities, callable bonds and corporate debts that are considered to be highly sensitive to changes in interest rates.

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### 4. CASH AND INVESTMENTS (Continued)

#### COLLATERALIZED MORTGAGE OBLIGATIONS

Collateralized mortgage obligations (CMOs) are bonds that represent claims to specific cash flow from large pools of home mortgages. The streams of principal and interest payments on the mortgages are distributed to the different classes of CMO interests.

CMOs are often highly sensitive to changes in interest rates and any resulting change in the rate at which homeowners sell their properties, refinance, or otherwise pre-pay their loans. Investors in these securities may not only be subjected to such prepayment risk, but also exposed to significant market and liquidity risks.

#### **CORPORATE DEBT – RANGE NOTES**

Range notes are securities which pay two different interest rates depending on whether or not a benchmark index falls within a pre-determined range as structured per the note. If the benchmark index rate does not fall within the pre-determined range, the note will not earn the coupon rate for that time period. With this pre-determined range feature, range notes are highly sensitive to changes in interest rates. As of June 30, 2016, the ATU/IBEW and Salaried Plans held range notes with a value of \$389,597.

#### MORTGAGE PASS-THROUGH SECURITIES

These securities are issued by Government Sponsored Enterprises (GSEs), which are a group of financial services corporations created by the United States Congress. The GSEs include: the Federal National Mortgage Association (Fannie Mae), the Federal Home Loan Mortgage Association (Freddie Mac), and the Federal Home Loan Banks. Another institution that issues these securities is the Government National Mortgage Association (Ginnie Mae). These securities are highly sensitive to interest rate fluctuations because they are subject to early payment. In a period of declining interest rate, the resulting reduction in expected total cash flows affects the value of these securities.

#### ASSET-BACKED SECURITIES

Asset-backed securities generate a return based upon either the payment of interest or principal on obligations in an underlying pool. The relationship between interest rates and prepayments make the value highly sensitive to changes in interest rates.

#### CALLABLE BONDS

Although bonds are issued with clearly defined maturities, an issuer may be able to redeem, or call, a bond earlier than its maturity date. The Plans must then replace the called bond with a bond that may have a lower yield than the original bond. The call feature causes the value to be highly sensitive to changes in interest rates. As of June 30, 2016, the ATU/IBEW and Salaried Plans held callable bonds with a value of \$5,381,862.

#### CREDIT RISK

Fixed income securities are subject to credit risk, which is the risk that a bond issuer or other counterparty to a debt instrument will not fulfill its obligation to pay interest or principal in a timely manner, or that negative perceptions of the issuer's ability to make these payments will cause security prices to decline. The circumstances may arise due to a variety of factors such as financial weakness, bankruptcy, litigation and/or adverse political developments.

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### 4. CASH AND INVESTMENTS (Continued)

A bond's credit quality is an assessment of the issuer's ability to pay interest on the bond, and ultimately, to pay the principal. Credit quality is evaluated by one of the independent bond-rating agencies, for example Moody's Investors Services (Moody's). The lower the rating the greater the chance, in the rating agency's opinion, the bond issuer will default, or fail to meet their payment obligations. Generally, the lower a bond's credit rating, the higher its yield should be to compensate for the additional risk.

Certain fixed income securities, including obligations of the U.S. government or those explicitly guaranteed by the U.S. government, are not considered to have credit risk.

For the fiscal year ending June 30, 2016, the ATU/IBEW and Salaried Plans were in adherence with the credit risk provisions of the Statement of Investment Objectives and Policy Guidelines which require a minimum overall portfolio quality rating and a minimum credit rating at the time of purchase.

The following table provides information on the credit ratings and fair value associated with the ATU/IBEW and Salaried Plans' investments as of June 30, 2016.

|                   |                   | Percentage of |

#### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### 4. CASH AND INVESTMENTS (Continued)

#### CONCENTRATION OF CREDIT RISK

Concentration of credit risk is the risk associated with a lack of diversification of having too much invested in a few individual issuers, thereby exposing the organization to greater risks resulting from adverse economic, political, regulatory, geographic, or credit developments.

The investment policies of the ATU/IBEW and Salaried Plans state that an investment in each domestic or international equity fund managers' securities of a single issuer shall not exceed 5% (at cost) of the value of the portfolios and/or of the total outstanding shares. As of June 30, 2016, the ATU/IBEW and Salaried Plans did not have domestic or international equity fund managers' investments in a single issuer that exceeded 5% (at cost) of the value of the portfolios and/or of the total outstanding shares. As of June 30, 2016, the Plans held more than 5% of the Plans' investments and fiduciary net position in the following fixed-income securities investments:

Federal Home Loan Bank

\$ 12,384,797

#### **CUSTODIAL CREDIT RISK**

Custodial credit risk for <u>deposits</u> is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party.

The custodial credit risk for <u>investments</u> is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The ATU/IBEW and Salaried Plans' investment policy does not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments. The ATU/IBEW and Salaried Plans' investment securities are not exposed to custodial credit risk because all securities are held by the ATU/IBEW and Salaried Plans' custodian bank in the District's name.

#### FOREIGN CURRENCY RISK

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The ATU/IBEW and Salaried Plans' investment policy states international equity securities shall be comprised of American Depository Receipts (ADR) of non-U.S. companies, common stocks of non-U.S. companies, preferred stocks of non-U.S. companies, foreign convertible securities including debentures convertible to common stocks, and cash equivalents.

The following table provides information on deposits and investments held in various foreign currencies, which are stated in U.S. dollars. The ATU/IBEW and Salaried Plans have foreign currency deposits and investments which may be used for hedging purposes.

#### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### 4. CASH AND INVESTMENTS (Continued)

At June 30, 2016, the U.S. dollar balances organized by investment type and currency denominations for the ATU/IBEW and Salaried Plans are as follows:

| Foreign Currency | U.S.  | U.S. Dollars |       |  |  |
|------------------|-------|--------------|-------|--|--|
| Swiss Franc      |       | \$           | 6,108 |  |  |
| EURO             |       |              | 429   |  |  |
| Japanese Yen     |       |              | 104   |  |  |
|                  | Total | \$           | 6,641 |  |  |

#### Fair Value Measurements

The ATU/IBEW and Salaried Plans categorize their fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted market prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The ATU/IBEW and Salaried Plans had the following recurring fair value measurements as of June 30, 2016:

|                                                   |                   | Fair Value Measurements Using |                 |                  |            |                  |             |  |
|---------------------------------------------------|-------------------|-------------------------------|-----------------|------------------|------------|------------------|-------------|--|
|                                                   |                   | Quoted Prices in              |                 |                  | Signficant |                  | Significant |  |
|                                                   |                   | Active Markets for            |                 | Other Observable |            | Unobservable     |             |  |
|                                                   |                   | Id                            | lentical Assets |                  | Inputs     | Inputs (Level 3) |             |  |
|                                                   | 06/30/2016        |                               | (Level 1)       |                  | (Level 2)  |                  |             |  |

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### 4. CASH AND INVESTMENTS (Continued)

Debt and equity securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Debt securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices. Net asset value (NAV) securities are valued based on the net asset value of the pooled investments. The NAV is determined by dividing the total value of the securities and other assets, less any liabilities, by the total outstanding shares of the fund.

Investment measured at the net asset value (NAV)

- 1. S&P 500 index fund. This type includes an investment in a S&P 500 index fund that invests to match the S&P 500® Index. The S&P 500 is made up of primarily U.S. common stocks. The fair value of the investment in this type has been determined using the NAV per unit of the investment. The NAV per unit of the investment are determined each business day. Issuances and redemptions of fund units may be made on such days, based upon the closing market value on the valuation date of the investments bought or sold and the NAV per unit of the fund.
- 2. MSCI EAFE index fund. This type includes an investment in the Morgan Stanley Capital International Europe, Australasia, Far East Index (MSCI EAFE) Index fund that invest to approximate as closely as practicable, before expenses, the performance of the MSCI EAFE Index over the long term. The MSCI EAFE Index is made up of primarily International stocks. The per unit NAV of the fund is determined as of the last business day of each month and at least one other business day during the month. Issuances and redemptions of fund units may be made on such days, based upon the closing market value on the valuation date of the investments bought or sold and the NAV per unit of the fund.
- 3. International equity fund. This type includes an investment in an International Equity Fund that seeks total return from long-term capital growth and income, while attempting to outperform the MSCI EAFE Index over a market cycle, gross of fees. The fair value of the investment in this type has been determined using the NAV per unit of the investment. Issuances and redemptions of fund shares can be performed on any business day, based on the closing market value on the valuation date of the purchase or sale.
- 4. International emerging markets fund. This type invests substantially all of its assets in the Emerging Market Series. The Emerging Market Series purchases a broad market coverage of larger companies associated with emerging markets, which may include frontier markets (emerging market countries in an earlier stage of development), authorized for investment by the Advisor's Investment Committee. As a non-fundamental policy, under normal circumstances, the Emerging Markets Series will invest at least 80% of its net assets in emerging markets investments that are defined in the Prospectus as Approved Market securities. The fair values of the investments in this type have been determined using the NAV per share of the investments. Investors may purchase or redeem shares of the fund on any business day.

#### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### 5. NET PENSION LIABILITY

#### ATU/IBEW Plan

The components of the net pension liability of the ATU/IBEW Plan at June 30, 2016, were as follows:

| Total pension liability                            | \$<br>238,762,921 |
|----------------------------------------------------|-------------------|
| Plan fiduciary net position                        | <br>(168,015,020) |
| ATU/IBEW net pension liability                     | \$<br>70,747,901  |
| Plan fiduciary net position as a percentage of the |                   |
| total pension liability                            | 70.37%            |

The total pension liability was determined by an actuarial valuation as of July 1, 2015, using the following actuarial assumptions, applied to all periods included in the measurement, and using update procedures to roll forward the total pension liability to the pension plan's fiscal year-end:

| Inflation                 | 3.15%                                                       |
|---------------------------|-------------------------------------------------------------|
| Amortization growth rate  | 3.15%                                                       |
| Salary increases          | 3.15%, plus merit component                                 |
| Investment Rate of Return | 7.50%, net of investment expense                            |
| Post-retirement mortality | Sex Distinct RP-2000 Combined Blue Collar Mortality, 3 year |
|                           | setback for females                                         |

The actuarial assumptions used in the July 1, 2015, valuation were based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2015.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2016, are summarized in the following table:

| Asset Class                    | Long-Term Expected Real Rate of Return |
|--------------------------------|----------------------------------------|
| Domestic Equity Large Cap      | 8.85%                                  |
| Domestic Equity Small Cap      | 9.85%                                  |
| International Equity Developed | 9.55%                                  |
| International Equity Emerging  | 11.15%                                 |
| Domestic Fixed Income          | 3.05%                                  |
|                                |                                        |

#### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### 5. NET PENSION LIABILITY (Continued)

The discount rate used to measure the Total Pension Liability was 7.50%. The discount rate was decreased during the fiscal year ended June 30, 2016 to 7.50% from 7.65%. The reduction is due to a review of potential investment returns over the next ten to twenty year horizon. The projection of cash flows used to determine the discount rate assumed that the District will continue to contribute to the ATU/IBEW Plan based on an actuarially determined contribution, reflecting a payment equal to annual Normal Cost, the expected administrative expenses, and an amount necessary to amortize the remaining Unfunded Actuarial Liability as a level percentage of payroll over a closed period (17 years remaining as of the July 1, 2015 actuarial valuation).

Based on those assumptions, the ATU/IBEW Plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current ATU/IBEW Plan members. Therefore, the long-term expected rate of return on the ATU/IBEW Plan's investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

The following presents the net pension liability of the ATU/IBEW Plan, calculated using the discount rate of 7.50 percent, as well as what the ATU/IBEW Plan's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50%) or 1-percentage-point higher (8.50%) than the current rate:

|                                                                            | 1%<br>Decrease    | Discount<br>Rate  | 1%<br>Increase    |

#### Salaried Plan

The components of the net pension liability of the Salaried Plan at June 30, 2016, were as follows:

| Total pension liability                            | \$<br>121,090,442 |
|----------------------------------------------------|-------------------|
| Plan fiduciary net position                        | (75,337,019)      |
| Salaried net pension liability                     | \$<br>45,753,423  |
| Plan fiduciary net position as a percentage of the |                   |
| total pension liability                            | 62.22%            |

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### 5. NET PENSION LIABILITY (Continued)

The total pension liability was determined by an actuarial valuation as of July 1, 2015, using the following actuarial assumptions, applied to all periods included in the measurement, and using update procedures to roll forward the total pension liability to the pension plan's fiscal year-end:

| Inflation                 | 3.15%                                                   |
|---------------------------|---------------------------------------------------------|
| Amortization growth rate  | 3.15%                                                   |
| Salary increases          | 3.15%, plus merit component                             |
| Investment Rate of Return | 7.50%, net of investment expense                        |
| Post-retirement mortality | Sex Distinct RP-2000 Combined White Collar Mortality, 3 |
|                           | year setback for females                                |

The actuarial assumptions used in the July 1, 2015, valuation were based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2015.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2016, are summarized in the following table:

|                                | Long-Term Expected  |
|--------------------------------|---------------------|
| Asset Class                    | Real Rate of Return |
| Domestic Equity Large Cap      | 8.85%               |
| Domestic Equity Small Cap      | 9.85%               |
| International Equity Developed | 9.55%               |
| International Equity Emerging  | 11.15%              |
| Domestic Fixed Income          | 3.05%               |

The discount rate used to measure the Total Pension Liability was 7.50%. The discount rate was decreased during the fiscal year ended June 30, 2016, to 7.50% from 7.65%. The reduction is due to a review of potential investment returns over the next ten to twenty year horizon. The projection of cash flows used to determine the discount rate assumed that the District will continue to contribute to the Salaried Plan based on an actuarially determined contribution, reflecting a payment equal to annual Normal Cost, the expected administrative expenses, and an amount necessary to amortize the remaining Unfunded Actuarial Liability as a level percentage of payroll over a closed period (17 years remaining as of the July 1, 2015 actuarial valuation).

Based on those assumptions, the Salaried Plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current Salaried Plan members. Therefore, the long-term expected rate of return on Salaried Plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

#### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### 5. NET PENSION LIABILITY (Continued)

The following presents the net pension liability of the Salaried Plan, calculated using the discount rate of 7.50 percent, as well as what the Salaried Plan's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50%) or 1-percentage-point higher (8.50%) than the current rate:

|                                                                            | 1%                | Discount          | 1%                |
|----------------------------------------------------------------------------|-------------------|-------------------|-------------------|
|                                                                            | Decrease          | Rate              | Increase          |
|                                                                            | <br>6.50%         | 7.50%             | 8.50%             |
| Total pension liability                                                    | \$<br>135,273,142 | \$<br>121,090,442 | \$<br>109,059,306 |

| Net pension liability                                                      | \$<br>59,936,123  | \$<br>45,753,423  | \$<br>33,722,287  |
| Plan fiduciary net position as a percentage of the total pension liability | 55.69%            | 62.22%            | 69.08%            |

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective and are based on the benefits provided under the terms of the substantive plan in effect at the time of each valuation. Actuarial methods and assumptions used include techniques designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of plan assets.

The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effect of legal or contractual funding limitations.

# SCHEDULE OF CHANGES IN THE NET PENSION LIABILITY AND RELATED RATIOS EMPLOYEES WHO ARE MEMBERS OF ATU LOCAL 256 AND IBEW LOCAL 1245 FOR THE FISCAL YEARS ENDED JUNE 30, 2016, 2015 AND 2014

#### **Notes to Schedule:**

<sup>-</sup>FY2015: amounts reported as changes of assumptions resulted from lowering the discount rate from 7.75% to 7.65%

<sup>-</sup>FY2016: amounts reported as changes of assumptions resulted from lowering the discount rate from 7.65% to 7.50% and updated demographic and economic assumptions that were adopted following an experience study

<sup>-</sup>Beginning in FY2015, payroll amounts are based on actual pensionable compensation from the employer. In prior years, payroll amounts are projected payroll from the actuarial valuation reports

Subject: Receive and File the Fiscal Year 2016 State Controller's Report for the Retirement Plan for Sacramento Regional Transit District Employees Who are Members of ATU Local 256 and IBEW Local 1245 (ATU and IBEW). (Bernegger)

#### **ISSUE**

Receive and File the Fiscal Year 2016 State Controller's Report for the Retirement Plan for Sacramento Regional Transit District Employees Who are Members of ATU Local 256 and IBEW Local 1245 (ATU and IBEW). (Bernegger)

#### RECOMMENDED ACTION

Motion: Receive and File the Fiscal Year 2016 State Controller's Report for the Retirement Plan for Sacramento Regional Transit District Employees Who are Members of ATU Local 256 and IBEW Local 1245 (ATU and IBEW). (Bernegger)

#### FISCAL IMPACT

None

#### DISCUSSION

The financial data for the annual State Controller's Public Retirement Systems Financial Transactions Report is prepared in accordance with California Government Code Section 7504. This statute requires all state and local retirement systems to annually submit audited financial statements of their Pension Plans to the State Controller's Office by the close of each calendar year. The State Controller's Public Retirement Systems Financial Transactions Report (Attachment 1) for the fiscal year ended June 30, 2016 was filed on December 19, 2016. Please note that the report was submitted as for the ATU and IBEW as a combined Plan. Beginning with fiscal year 2017, there will be separate reporting for the ATU and IBEW Plans.

Per Government Code section 7504, this report is due within six months after the end of the fiscal year. Public Employee Retirement Systems are also required to furnish an audited financial statement on an annual basis and, for defined benefit systems, an actuarial valuation report at least every three years. To meet the filing requirements, all portions must be received by the State Controller's Office, as

Subject: Amendment of Bylaws Governing the ATU Retirement Board (ATU). (Bonnel)

#### **ISSUE**

Amendment of Bylaws Governing the ATU Retirement Board (ATU). (Bonnel)

#### RECOMMENDED ACTION

Adopt Resolution No. 17-03-\_\_\_\_ Amending the Bylaws Governing the ATU Retirement Board.

#### FISCAL IMPACT

There is no fiscal impact associated with this action.

#### **DISCUSSION**

Following the implementation of the provisions of A.B. 1064 in January 2004, five separate Retirement Boards were established to administer retirement benefits from Sacramento Regional Transit District's three Retirement Plans. In order to conduct the business of the Retirement Boards, Bylaws were drafted and circulated to all Board members. Bylaws were adopted by four of the Retirement Boards in 2006 and amended several times over the following years.

Section 1.13 of the Bylaws provides that each appointed member and each alternate member of the Retirement Board serves a four-year term. On September 17, 2014, the ATU Retirement Board adopted the Common Bylaws previously adopted by all other Sacramento Regional Transit District Retirement Boards.

At the December 2016 Quarterly Retirement Board Meeting, the Chair of the ATU Retirement Board asked that staff draft for Board consideration an amendment to the ATU Retirement Board Bylaws to add a new section authorizing the President/Business Agent of ATU Local 256 to replace ATU appointees to the Retirement Board upon the election of new ATU bargaining unit officers. The proposed provision is set forth in the attached resolution. The proposed new section provides that a new appointee would serve for the remainder of the replaced appointee's term. The proposal is shown in context in Attachment A.

The proposed amendment of the ATU Retirement Board's Bylaws would have no effect on the other Retirement Boards, nor on the Retirement Boards' prior election of Andy Morin as Common Chair and Henry Li as Common Vice Chair.

Adopted by the Retirement Board for the Retirement Plan for RT Employees Who Are Members of ATU Local Union 256 on this date:

#### March 22, 2017

## AMENDING THE BYLAWS GOVERNING THE RETIREMENT BOARD FOR SACRAMENTO REGIONAL TRANSIT DISTRICT EMPLOYEES WHO ARE MEMBERS OF THE ATU LOCAL UNION 256

BE IT HEREBY RESOLVED BY THE RETIREMENT BOARD FOR THE RETIREMENT PLAN FOR RT EMPLOYEES WHO ARE MEMBERS OF THE ATU LOCAL UNION 256 (RETIREMENT BOARD) AS FOLLOWS:

THAT, the Bylaws Governing the Retirement Board be amended by adding the following Section 1.13.1:

§1.13.1 Removal from ATU Retirement Board

Whenever ATU Local 256 elects new officers, the President/Business Agent of ATU Local 256 can remove and replace any one or more ATU appointees to the ATU Retirement Board. A newly appointed member or alternate member will be seated for the remainder of the removed member or alternate member's term.

#### **ADOPTED BY THE:**

## AEA, MCEG, AFSCME and ATU Retirement Boards on June 18, 2014 IBEW Retirement Board on December 17, 2014

#### **BY-LAWS FOR THE RETIREMENT BOARDS**

#### **CHAPTER 1**

#### RETIREMENT BOARDS COMPOSITION AND PURVIEW

#### ARTICLE 1

#### **GOVERNANCE**

#### § 1.10 Retirement Plans; Application of By-Laws

These By-laws govern the three retirement plans established for employees of the Sacramento Regional Transit District (hereinafter "RT") pursuant to California Public Utilities Code Section 102430 to provide retirement benefits to qualified RT employees upon service or disability retirement from RT: The Retirement Plan for Regional Transit Employees Who Are Members of ATU Local 256; the Retirement Plan Between International Brotherhood of Electrical Workers (IBEW) Local Union 1245, AFL-CIO and Sacramento Regional Transit District; and The Sacramento Regional Transit District Retirement Plan for AFSCME, AEA, and Non-Represented (Salaried) Employees.

Each plan is referred to herein individually as "Retirement Plan" and jointly as "Retirement Plans."

These By-laws apply to the Retirement Plans as they may be amended from time to time, except when the terms of a Plan are inconsistent with the terms of these By-laws, in which case the terms of that Plan will govern its operations.

#### §1.11 Governance of the Retirement Plans

The ATU and IBEW Retirement Plans are each governed by one board and the Salaried Plan is governed by three boards (hereinafter individually referred to as "Board" or "Retirement Board" or jointly as "Boards" or "Retirement Boards"). Each Retirement Board consists of an equal number of representatives from RT and from the Union or bargaining/business unit (ATU, IBEW, AFSCME, AEA and MCEG) as required under California Public Utilities Code Section 99159.

#### §1.12 Retirement Board Composition

Each Retirement Board consists of not more than four (4) members and two (2) alternates. Two voting members and one alternate are appointed by the RT Board of Directors and two voting members and one alternate are appointed by the Union or bargaining/business unit.

The alternate Board Members serve on the Retirement Board during the absence of a Board member appointed by the same entity as the alternate. When an alternate Board Member serves in place of a regular Board Member, the alternate has all of the rights, duties and obligations of the Board member he or she is replacing, except for those rights, duties and obligations associated with a Board office held by the Board member.

#### §1.13 Retirement Board Member Term of Office

Each Retirement Board Member is appointed to a four-year term of office. Members' terms of office are to be staggered so that the term of one member appointed by the RT Board of Directors and the term of one member appointed by the Union or bargaining/business unit expire every other year.

For Retirement Board Members seated as of adoption of this section of the By-laws, the appointing entity will determine which seat will expire at the end of the following calendar year, and which will expire at the end of the calendar year ending two years later. The term of the alternates seated as of adoption of this section of the By-laws will expire as of the end of the calendar year after the year in which this section of the By-laws is adopted.

In the event of a vacancy because of death, resignation, illness, or other reason, the Secretary of the Board must, within thirty (30) days after such vacancy, transmit a written notification to the appointing member entity requesting that a replacement member be appointed to fill the remainder of the vacating member's term.

#### §1.13.1 Removal from ATU Retirement Board

Whenever ATU Local 256 elects new officers, the President/Business Agent of ATU Local 256 can remove and replace any one or more ATU appointees to the ATU Retirement Board. A newly appointed member or alternate member will be seated for the remainder of the removed member or alternate member's term.

#### §1.14 Retirement Board Fiduciary Duty

The duties and responsibilities of each Retirement Board Member must be executed in accordance and in full compliance with the requirements of Section 17 of Article XVI of the California Constitution and applicable law.

#### § 1.15 Retirement Board Authority

Each Retirement Board has plenary authority and duty to administer its Retirement Plan and manage the assets of its Retirement Plan consistently with the powers and duties conferred upon the Board pursuant to Article 16, Section 17, of the California Constitution, which include, but are not limited to, those set forth in each Plan.

#### **CHAPTER 2**

#### **RETIREMENT BOARD RULES**

#### ARTICLE 1

#### **MEETINGS**

#### §2.10 Regular Quarterly Retirement Board Meeting Schedule

Each Board must hold regular meetings no later than the last day of each calendar quarter ("regular meetings" or "Quarterly Retirement Board Meetings"). No later than December 31<sup>st</sup> of each year, the Boards must adopt a resolution setting forth their regular meeting schedule for the 12-month calendar period following the month and year in which the resolution is adopted. The resolution establishing each Board's regular meeting schedule shall state the date and time for each meeting, and the place for each such meeting if it differs from the place set out in this section. Unless otherwise specified in the resolutions establishing the regular meeting schedule, the Boards will conduct their regular meetings at RT's Administrative Offices located at 1400 29<sup>th</sup> Street, Sacramento, California in Room 114 (First Floor, Auditorium).

#### §2.11 Special Meetings

A special meeting may be called at any time by the Chair, or by a majority of the members of a Board, by delivering personally, via electronic mail ("e-mail") or by U.S. mail, written notice to each member of the Board, and to each local newspaper, radio, or television station requesting notice in writing, and by posting a notice on the Sacramento Regional Transit District's internet web site. Such notice must be delivered and received at least 24 hours before the time of such meeting. The call and notice shall specify the time and place of the special meeting and the business to be transacted. No business other than as specified in the notice shall be considered at such meeting. Such written notice may be dispensed with as to any member who, at or prior to the time the meeting convenes, files with the Secretary of the Board a written waiver of notice. Any defect in the above notice procedure shall be deemed cured by actual attendance of the member at the meeting.

#### §2.12 **Quorum**

Three Board members constitute a quorum of any Board for purposes of convening a meeting and for the transaction of business. Alternate Board members are seated on the Board and counted towards a quorum only when serving in the place of a Regular Board member appointed by the same body (e.g., the Alternate appointed by the RT Governing Board is only seated and counted towards a quorum when a Board member appointed by the RT Governing Board is absent).

#### §2.13 Joint Meetings

The Retirement Boards may meet together for any regular or special meeting. The Boards may select a Common Chair and Common Vice Chair to preside over common meetings on an ad hoc or standing basis.

#### §2.14 Open Meetings; Application of the Ralph M. Brown Act

All meetings and associated notices must comply with the provisions of the Ralph M. Brown Act. (Government Code Sections 54950, et seq.) Accordingly, all Board meetings are open to the public except when the subject matter may be properly addressed in, and properly noticed for, a closed session.

#### §2.15 Agenda Preparation, Delivery and Posting

In addition to those requirements set forth in the Brown Act, each meeting agenda, together with all supporting documents, must be mailed or delivered to the Board members and Legal Counsel to the Board at least three days before the meeting. The purpose of this requirement is to give Board members at least two days' notice of all business coming before them. In the case of special meetings which may be called less than seven (7) days in advance of the meeting date, the requesting individual shall receive such notice as soon as may be practical under the circumstances.

#### §2.16 Access to Public Records Distributed at Meeting

Writings which are public records and which are distributed during a meeting are made available for public inspection at the meeting if prepared by RT or a member of the Board or after the meeting if prepared by some other person.

#### §2.17 Continuing Body

Each Board is a continuing body and no measure pending before it is abated or discontinued by reason of the expiration of the term of office or removal of a member of the Board.

#### §2.18 Adjournment of Meeting

The Board may adjourn any regular, adjourned regular, special or adjourned special meeting to a time and place specified in the order of adjournment. Less than a quorum may so adjourn from time to time. Notice of adjournment of a duly called special meeting at which less than a quorum is present shall be given in the same manner as notice of the original meeting. If all members are absent from any regular or adjourned regular meeting, the Secretary of the Board may declare the meeting adjourned to a stated time and place and he or she shall cause a written notice of the adjournment to be given in the same manner as provided herein for special meetings. In the case of all adjournments, a copy of the order or notice of adjournment shall be conspicuously posted on the door to the

Regional Transit District Auditorium, Room 114, within 24 hours after the time of the adjournment. When an order of adjournment of any meeting fails to state the time at which the adjourned meeting is to be held, it shall be held at the time specified for regular meetings.

#### **ARTICLE 2**

#### **OFFICERS**

#### §2.21 Officers

Each Board elects a Chair, Vice Chair, and Secretary from among its members. Alternate members cannot be elected as Board officers.

The five Retirement Boards, together, may elect a Common Chair and Common Vice Chair.

#### §2.22 Chair Responsibilities

- 1. Except at meetings presided over by a Common Chair or Common Vice Chair (as set forth in Section 2.28), the Chair presides over and preserves order at all regular meetings, special meetings and hearings of the Board. The Chair states every question coming before the Board, and decides all questions of order without debate, subject, however, to an appeal by a member of the Board. The Chair may move, second and debate from the chair, subject only to such limitations of debate as are imposed on all members, and has all other rights or privileges of all others members.
- 2. In all cases, the Chair can direct the Secretary to include discussion or action items on the agenda for future Board meetings, and the Chair signs all Board resolutions and all minutes of Board meetings or hearings which he or she has witnessed being adopted or approved.

#### §2.23 Vice Chair

The Vice Chair serves as the Chair Pro Tem in the Chair's absence. When serving as the Chair Pro Tem, the Vice Chair has all of the rights, duties and responsibilities of the Chair as set forth in Section 2.22 above.

#### §2.24 Secretary

The Secretary serves as the Chair Pro Tem in the absence of the Chair and Vice Chair.

In addition, the Secretary has the following powers and duties, any or all of which may be delegated by the Secretary to the Assistant Secretary:

- 1. Create meeting notices and agendas;
- 2. Post agendas;
- 3. Call the roll at the beginning of each Board meeting and for each roll call vote;
- 4. Announce the result of each vote;
- 5. Attend and keep minutes of all meetings and hearings of the Board;
- 6. Furnish each Board member a copy of the minutes of each meeting with the agenda for the following meeting;
- 7. Attest all resolutions of the Board and the minutes of all meetings or hearings which have been approved by the Board;
- 8. Keep and have custody of all books, records and papers of the Board, and certify true copies thereof whenever necessary;
- 9. Perform such other duties as may be required either by statute, ordinance, resolution or order.

#### §2.25 Assistant Secretary

The Boards may appoint an Assistant Secretary, who must be a current employee of RT with job duties related to administration of the Pension Plans.

#### §2.26 Vacancy

In an officer vacates his or her seat on the Board because of death, resignation, illness, or other reason, officer elections must be held at the first Board meeting after the vacancy has been filled.

#### §2.27 Additional Delegable Duties

Each Board, at its discretion and by resolution, may authorize its Chair and/or the General Manager/CEO of RT or other RT staff to exercise additional administrative authority, such as to execute contracts or other legally-binding documents, manage Board-awarded contracts, make purchases up to Board-authorized limits, and approve service retirements.

The Board may also authorize the General Manager/CEO of RT or other delegees to carry out other support functions for the Retirement Plan.

#### §2.28 Common Chair, Vice Chair

If desired, the five Retirement Boards may elect a Common Chair and Common Vice Chair to preside over and preserve order at meetings of more than one Board. At such meetings, the Common Chair, or the Common Vice Chair in the absence of the Common Chair, states every question coming before the Board, and decides all questions of order without debate, subject, however, to an appeal by a member of the Board.

The Common Chair (or Vice Chair) may move, second and debate from the chair, subject only to such limitations of debate as are imposed on all members, and has all other rights or privileges of all others members. In an action to adopt a motion or resolution, the Common Chair (or Vice Chair) votes after all other members present have cast their votes.

#### ARTICLE 3

#### ORDER OF BOARD BUSINESS

#### §2.31 Agenda

The order of business for regular and special meetings will be as follows:

- 1. Call to Order
- 2. Roll Call
- Consent Calendar
- 4. Unfinished Business
- 5. New Business
- 6. Public Addresses the Board on Matters Not on the Agenda
- 7. Reports, Ideas and Communications
- 8. Recess to Closed Session
- Closed Session
- 10. Reconvene in Open Session
- 11. Closed Session Report
- 12. Adjourn

Notwithstanding the above, closed sessions (and associated announcements) may be included on the agenda at any point after Roll Call and before Adjournment, at the discretion of the Secretary or Assistant Secretary.

The order of business during any meeting may be changed upon order of the Chair with consent of the Board, or upon motion of the Board.

#### §2.32 Contents of Agenda

The agenda must specify the time and location of the meeting and must contain a brief general description of each item of business to be transacted or discussed at the meeting. The descriptions must be reasonably calculated to adequately inform the public of the general matter or subject matter of each agenda item.

Members of the public who wish to address the Board on matters not listed on the agenda, but on an item coming within the jurisdiction of the Board, are provided with the opportunity to do so under the agenda item heading "Public addresses Board on matters not on agenda."

The Board shall not act upon or discuss an item that is not listed on the agenda except as provided under Section 2.36.

#### §2.33 Common Agenda

When the Boards of two or more Retirement Plans for Employees of Sacramento Regional Transit meet together, the Boards' may share a common agenda, which must designate which Boards will discuss which items.

#### §2.34 Consent Calendar

The Consent Calendar shall consist of matters requiring Board action of a routine nature or on which staff comment is not appropriate or necessary, or which have previously been discussed and appear on the Agenda for final action only.

All items listed under the Consent Calendar, excepting those individual items which are removed for separate discussion or vote at the request of any Board member, may be acted upon by a single motion and vote.

Board minutes are included as part of the Consent Calendar to be approved without reading unless a member requests such reading, in which case the minutes require action by a separate motion and vote.

#### §2.35 Quarterly Investment Performance Reviews

The Boards must review the performance of Retirement Plans' fund managers and investment manager at each Quarterly Retirement Board Meeting as part of Unfinished or New Business, as appropriate.

Each of the fund managers retained by the Boards will be requested to attend and present its annual report at one Quarterly Retirement Board Meeting each calendar year. The Boards' investment manager must be present at each Quarterly Retirement Board Meeting and must report on its performance on a quarterly basis. The Board will review the performance of each fund manager at each regular meeting based upon criteria set forth in the Sacramento Regional Transit District's Statement Investment Objectives and Policy Guidelines for Contract Employees' Retirement Funds, whether or not the investment manager is present.

#### §2.36 Items Not on the Agenda

A matter requiring Board action must be listed on the posted agenda before the Board may discuss and/or act upon it except as contemplated under the Ralph M. Brown Act.

The Board may take action on items of business not appearing on the posted agenda under any of the following conditions:

- 1. Upon a determination by an affirmative vote of the Board that an emergency situation exists, as defined in Section 54956.5 of the Government Code.
- 2. Upon the affirmative vote of three Board Members that the need to take action arose subsequent to the agenda being posted.
- 3. If the item was properly posted for action at a prior meeting of the Board occurring not more than ten (10) calendar days prior to the date action is taken on the item, and at the prior meeting the item was continued to the meeting at which action is being taken.
- 4. By directing the Chair or Secretary to place an item of business for discussion and/or action on a subsequent agenda.

#### **ARTICLE 4**

#### MEMBERS ADDRESSING THE BOARD

#### §2.41 Recognition of the Chair

Any Board member desiring to speak on any item on the agenda must address the Chair during the public comment period on such item, and upon recognition by the Chair, may speak. The speaker must confine himself or herself to the question under debate, avoiding indecorous language.

Comments on items not on the agenda will be heard at the time noticed on the agenda for such public comment.

#### §2.42 Speaking Interruption

A member will not be interrupted when speaking unless it is to call him or her to order, for the purpose of explanation or to permit solicited responses. If a member, while speaking, is called to order, he or she must cease speaking until the question of order is determined, when, if permitted, he or she may proceed.

#### §2.43 <u>Limitation of Presentations, Discussion</u>

The Chair may limit discussion at any particular meeting by a Board member to such time

as the Chair may find to be reasonable under the circumstances, provided that any decision of the Chair to limit discussion may be overruled by the Board.

#### §2.44 Impertinence

Any Board member making personal, impertinent or indecorous remarks may be barred by the Chair from further appearance before the Board at that meeting, unless permission to continue is granted by an affirmative vote of the Board.

#### §2.45 Minutes

The Secretary shall prepare minutes in the form of an action summary; however, during the consideration on any particular matter, a Board member may make a request that the minutes contain a more thorough description of the discussion or deliberations of any question coming before the Board.

#### §2.46 <u>Debate Closing</u>

The member moving the adoption of a resolution or motion shall have the privilege of closing the debate.

#### §2.47 <u>Disqualification of Members</u>

Any member who is legally disqualified from participating in Board action on any particular matter must, as soon as such matter is reached on the agenda, disclose his or her disqualification and the reason therefore and may take no part in the discussion, debate or vote on such matter. If such disqualification is not known to him or her at the time such matter is reached on the agenda, he or she must make such disclosure as soon as he or she knows his or her disqualification.

#### ARTICLE 5

#### OTHERS ADDRESSING THE BOARD

#### §2.51 Recognition of the Chair

Non-Board members in attendance may address the Boards or members thereof only when invited by the Chair. Though the Chair will not require a speaker to introduce himself or herself, individuals who do not identify themselves may not be included in the minutes for the meeting at which they speak.

#### §2.52 Limitation of Presentations, Discussion

Except as otherwise herein provided, the Chair may specify a time limitation on any presentation made before the Board. The Chair can not limit presentations made by members of the public to less than three (3) minutes.

#### §2.53 <u>Impertinence</u>

Any person making personal, impertinent or indecorous remarks while addressing the Board may be barred by the Chair from further appearance before the Board at that meeting, unless permission to continue is granted by an affirmative vote of the Board.

In extreme situations where persistent disruptions from multiple members of the public prevent an orderly meeting, the Chair, subject to Board appeal, or the Board itself, may order that all members of the public except the media be removed from the public meeting, or the public meeting may be recessed and closed pursuant to state law.

#### **ARTICLE 6**

#### **OFFICIAL ACTIONS**

#### §2.61 Timing of An Action

Motions and resolutions, unless put over to a future meeting by a majority vote of the Board, may be acted upon on the day of introduction or presentation. No continuance will be granted if the effect of such a continuance is to render useless a subsequent vote on the issue.

#### §2.62 Form of Action

Motions are considered an act of the Board and carry the same weight as a resolution. Resolutions are typically used for actions that will be referred to for historical purposes, such as adoption of a policy, award of a contract or grant of an individual's disability retirement.

#### §2.63 Votes, Signature and Attestation

Votes upon an action item, whether motion or resolution, are cast as "ayes" and "noes" pursuant to roll call and so recorded. Each resolution must be in written or printed form. Procedural motions do not require a roll call vote.

Every resolution shall be signed by the Chair/Chair Pro Tem (depending upon who presided at the meeting of enactment) and attested by the Secretary/Assistant Secretary (as determined by the Secretary).

#### §2.64 Codification

Resolutions are codified as follows: [Year]-[Month]-[Resolution Number]. For example, the fifth resolution a board adopts at its March 2015 meeting is codified: 15-03-0005.

#### §2.65 Vote Threshold; Majority Minimum

All official acts of the Board shall require the affirmative vote of a majority of the members of the Board unless law requires a greater number of affirmative votes.

#### §2.66 Motion Reconsideration

A motion to reconsider any action taken by the Board may be made only on the day such action was taken, either during the same session or at an adjourned session thereof. Such motion must be made by a member on the prevailing side and seconded by any member. The motion, which may be made at any time during said meeting, has precedence over all other motions. The motion to reconsider is debatable unless the action to be reconsidered is not debatable.

#### § 2.67 Mandatory Arbitration

If a motion or resolution is brought before the Board for a vote and the measure fails to gain the support of a majority of the voting members as required in Section 2.65, the measure will fail passage. However, if a quorum is present and votes on a matter pertaining to the management or administration of the Plan and the matter receives an equal number of "aye" votes as it does "no" votes, then the matter shall be resolved in the manner set forth in Public Utilities Code Section 99159 by referring it to binding arbitration if such a motion is made and at least two Board Members vote affirmatively, as further set forth in the Retirement Plan.

#### ARTICLE 7

#### COMMITTEES

#### §2.71 Appointment

The Chair may create and appoint ad hoc committees.

#### §2.72 Ad Hoc Advisory Committee Meetings

Ad Hoc Committees are limited-term, limited scope advisory committees comprised exclusively of less than a quorum of the Board. For example, an advisory committee

comprised of two members for the purpose of producing a report in six months on trends in public agency benefit policies would be considered an ad hoc committee because it is composed of less than a quorum of the Board and it is charged with accomplishing a specific task in a limited period of time.

Ad hoc committee meetings are specifically exempt from open meeting requirements under these Bylaws and under the Brown Act. However, when creating and appointing an Ad Hoc Committee, the Chair retains authority to direct that meetings of that committee shall be noticed and open to the public.

#### **ARTICLE 8**

#### **RULES**

#### §2.81 Amendment

Any provision hereof may be altered, amended or annulled at any time by an affirmative vote of the Board as provided in Section 2.65, provided a week's notice of such change is given to each board member.

#### §2.82 Suspension

Any section of these By-laws may be temporarily suspended by an affirmative vote of the Board as provided in Section 2.65.

#### §2.83 Robert's Rules

All rules of order not herein provided for shall be determined in accordance with "Robert's Rules of Order."

#### §2.84 Copies – By-laws

The Secretary shall furnish each Board member copies of these By-laws and provide a supply for public purposes.

# Sacramento Regional Transit District IBEW Retirement Board Meeting Wednesday, December 14, 2016 <u>MEETING SUMMARY</u>

#### **ROLL CALL**

The Retirement Board was brought to order at 9:03 a.m. A quorum was present comprised as follows: Directors Li, Ohlson and Burdick. Director Morin, Alternate Gallow and Alternate Jennings were absent.

This meeting was held as a common meeting of the five Sacramento Regional Transit District Retirement Boards.

By IBEW Resolution No. 16-02-171 for calendar year 2016, the Governing Board Member in attendance served as Common Chair of this Retirement Board meeting.

Legal Counsel Shayna van Hoften with Hanson Bridgett introduced Catherine Groves with Hanson Bridgett LLP to the Retirement Boards.

Donna Bonnel noted that a CALAPRS pension management training will take place on August 28-31 and requested that all new board members place the dates on their calendars. Scheduling for the training can be coordinated with Mariza Montung-Fuller.

#### **Consent Calendar:**

10. Motion: Approving the Minutes for the August 31, 2016 Special Retirement Board

Meeting (IBEW). (Bonnel)

11. Motion: Approving the Minutes for the September 14, 2016 Quarterly Retirement

Board Meeting (IBEW). (Bonnel)

12. Motion: Receive and File Administrative Reports for the Quarter Ended September

30, 2016 for the ATU/IBEW Pension Plan (ATU/IBEW). (Bernegger)

Director Li moved to adopt IBEW Retirement Board Items 10 through 12. Director Ohlson seconded the motion. Items 10 through 12 were carried unanimously by roll call vote: Ayes: Directors Li, Ohlson and Burdick. Noes: None.

#### **New Business:**

16. Information: Investment Performance Review by Dimensional Fund Advisors (DFA) for

the ATU/IBEW and Salaried Employee Retirement Plans for the International Emerging Markets Asset Class for the Quarter Ended

September 30, 2016 (ALL). (Bernegger)

Jamie Adelman introduced Ted Simpson from DFA, who provided the performance results for the International Emerging Markets Asset Class for the quarter ended September 30, 2016 and to be available for questions. 17. Information: Investment Performance Review of the S&P 500 Index and MSCI EAFE

Funds by State Street Global Advisors (SSgA) for the ATU/IBEW and Salaried Employee Retirement Funds for the Quarter Ended September 30,

2016 (ALL). (Bernegger)

Jamie Adelman introduced Mark Levin from State Street Global Advisors, who presented the investment performance results of the S&P 500 Index and MSCI EAFE Funds for the quarter ended September 30, 2016 and to be available for questions.

18. Motion: Receive and File the Investment Performance Reports for the ATU/IBEW

and Salaried Employee Funds for Quarter Ended September 30, 2016

(ALL). (Bernegger)

Jamie Adelman introduced Uvan Tseng from Callan Associates, who provided a market overview for the Quarter Ended September 30, 2016 and to be available for questions.

Director Li moved to adopt Item 18. Director Ohlson seconded the motion. Item 18 was carried unanimously by roll call vote: Ayes: Directors Li, Ohlson and Burdick. Noes: None.

20. Information: Update on Staff Roles and Responsibilities Related to Pension

Administration (ALL). (Bonnel)

Donna Bonnel provided an update on the roles and responsibilities of various District staff members and Legal Counsel related to the administration of the Pension Plans.

19. Resolution: Selection of a Common Chair and Vice Chair for Retirement Board

Meetings (ALL). (Bonnel)

Donna Bonnel presented Item 19 for approval.

Director Li moved to adopt the resolution approving Andy Morin as Common Chair and Henry Li as Common Vice Chair. Director Ohlson seconded the motion. Item 19 was carried unanimously by roll call vote: Ayes: Directors Li, Ohlson and Burdick. Noes: None.

Donna Bonnel noted that it was mentioned on one of the Retirement Board Chair calls that the ATU Retirement Board might want to review the By-laws. Recently, two Retirement Boards have lost participants and the By-laws require a resignation from the person that was appointed. If the will of the Board(s) was to change the By-laws, the hope would be that all five Boards would adopt the change so we can continue to manage the five Boards with the same By-laws.

ATU Director Ralph Niz commented that the ATU has elections every three years and that they just completed elections. The election was as follows: Ralph Niz, President, Crystal Lee, Vice President and Corina De La Torre, Financial Secretary. He remarked that if a board member has elections within their bargaining unit and they don't retain their seat, they should be removed from their position on the Retirement Board to allow for educational opportunities for the newly elected officials.

Legal Counsel Shayna van Hoften noted that this item could be discussed in more depth with the Board Chairs to get a sense of how each of the entities works because every group does not work the same as the ATU.

Staff will bring this item back in March for more discussion.

The AEA, AFSCME, IBEW and MCEG Retirement Boards recessed at 9:43 a.m.

The AEA, AFSCME, IBEW and MCEG Retirement Boards returned to the room at 9:48 a.m.

#### **REPORTS FROM COMMITTEES**

#### REPORTS, IDEAS AND COMMUNICATIONS

None.

#### PUBLIC ADDRESSES BOARD ON MATTERS NOT ON THE AGENDA

None.

#### **NEW BUSINESS (CONTINUED):**

21. Information: AB 1234 Ethical Standards Training (ALL). (Bonnel)

A 2-hour AB 1234-compliant local government ethics training was presented by Legal Counsel Shayna van Hoften and Catherine Groves.

The meeting was adjourned upon the departure of Dir. Li at 11:36.

The remainder of those directors present completed the training at 11:52.

#### Sacramento Regional Transit District IBEW Special Retirement Board Meeting Wednesday, February 1, 2017 MEETING SUMMARY

#### **ROLL CALL**

The Retirement Board was brought to order at 9:02 a.m. A quorum was present comprised as follows: Directors Li, Morin, Gallow and Alternate Bibbs. Director Ohlson and Alternate Jennings were absent.

This meeting was held as a common meeting of the five Sacramento Regional Transit District Retirement Boards.

By IBEW Resolution No. 16-12-186 for calendar year 2017, the Governing Board Member in attendance served as Common Chair of this Retirement Board meeting.

Natalie Wilson of the Retirement Boards' counsel, Hanson Bridgett LLP, and Lance Kjeldgaard fiduciary counsel contracted through the board's Legal Counsel, were also present.

#### PUBLIC ADDRESSES BOARD ON MATTERS NOT ON THE AGENDA

None.

**Consent Calendar:** 

None.

#### **New Business:**

The order of New Business items was adjusted to reverse items 1 and 2.

2. Information: Introduce the 2016 Actuarial Valuation Completed by Cheiron (ALL). (Bonnel)

Assistant Secretary Donna Bonnel introduced Graham Schmidt, from Cheiron, who introduced the Actuarial Valuation Study for Fiscal Year 2016 and was available for questions.

Jamie Adelman noted that Staff would be reaching out to members of the ATU and IBEW Retirement Boards to discuss the asset split. This needs to be done in order to finalize the valuation.

1. Resolution: Receive International Fund Manager Candidate Presentations and Select Replacement Fund Manager (ALL). (Bernegger)

Jamie Adelman introduced Andy Iseri and Uvan Tseng from Callan Associates, Inc. (Callan), who provided a detailed review of each manager candidate and provided background on staffing, returns, investment philosophy, risk and other attributes.

Andy Iseri introduced Kamila Kowalke and Daniel McDonagh from Pyrford International PLC to present their firm as an International Fund Manager candidate and to introduce the Pyrford International PLC's investment decision model and methodology.

Director Andy Morin thanked the presenters for their detailed and concise presentation.

Mr. Iseri introduced Michael Powers and George Sands from Lazard Asset Management to present their firm as an International Fund Manager candidate, and to introduce the Lazard Asset Management's investment decision model and methodology.

Brent Bernegger noted that Lazard's investment process area of focus seems to be in stock selection and relative to value. He asked how their investment process differs from an investment firm that does stock selection that is country specific, and about the advantages of this approach.

Mr. Powers noted that their starting point in the stock selection process is looking at an entire opportunity set of stocks and discuss the stocks merits from the "bottom up", as opposed to "top down" management style that utilizes a macro view.

Ms. Adelman asked if Lazard has an average duration for which they hold a stock. Mr. Powers noted that they hold a stock on an average of two to three years.

Director Morin thanked Mr. Powers and Mr. Sands for their time and presentation.

Director Li asked for additional details on the management fees.

Mr. Tseng indicated the options were as follows:

- A. Lazard Asset Management (Lazard) Maximum annual fee of 80 basis points (BP) or \$179,917.
- B. Pyrford International PLC (Pyrford) Equity only non-U.S. mutual fund maximum annual fee of 84 BP or \$188,912.
- C. Pyrford New Hampshire Investment Trust maximum annual fee of 70 BP or \$157,427.

Lance Kjeldgaard with Hanson Bridgett LLP noted the differences between the Pyrford New Hampshire Trust option and Lazard's mutual fund option. The New Hampshire Trust is governed by New Hampshire law. The mutual fund is governed by the Department of Labor and SCC. The mutual fund can be traded daily; the New Hampshire Trust can only be traded monthly.

Mr. Tseng noted that Pyrford is registered with the SEC and DOL, they are GIPS compliant and they have Arizona Mission insurance.

Mr. Bernegger asked for clarification on the holding periods for Pyrford and Lazard.

Mr. Iseri noted that Pyrford typically has a five to seven year holding period where as Lazard typically has a two to three year holding period.

Ms. Adelman noted that Staff is seeking direction from the Boards on how they would like to proceed.

Ms. Bonnel asked if the committee had a preference toward one of the two managers.

Ms. Adelman noted that the committee preferred Pyrford.

Ms. Bonnel asked what were JP Morgan's fees prior to the fee reduction.

Ms. Adelman noted that the fee prior to the fee reduction was 70 basis points.

Ms. Bonnel asked if the Boards were interested in retaining JP Morgan. The consensus of all Boards was in the negative.

Discussion ensued.

Director Morin moved to approve the following:

#### RECOMMENDED ACTION

C. Adopt Resolution 17-02-\_\_\_\_\_, Directing Staff to Negotiate a Contract with Pyrford International PLC to Provide International Large Cap Fund Manager Services within the New Hampshire Investment Trust and Authorizing the Sacramento Regional Transit District General Manager/CEO to Execute Said Contract, in a Form Acceptable to Legal Counsel

#### FISCAL IMPACT

C. Pyrford – New Hampshire Investment Trust maximum annual fee of 70 BP or \$157,427

Director Li seconded the motion. Item 1, option C. was carried unanimously by roll call vote: Ayes: Directors Gallow, Li and Morin and Alternate Bibbs. Noes: None

#### **REPORTS FROM COMMITTEES**

None.

#### REPORTS, IDEAS AND COMMUNICATIONS

Ms. Bonnel noted that the March 15 Quarterly Retirement Board meeting has been moved to March 22 at 9:00 a.m. The March 15 date will be utilized for new board member orientation.

None.

The meeting was adjourned by Assistant Secretary Bonnel at 11:10 a.m.

#### **DISCUSSION**

#### **Unaudited Financial Statements**

Attached hereto are unaudited financial statements for the quarter and the year-to-date ended December 31, 2016. The financial statements are presented on an accrual basis and consist of a Statement of Fiduciary Net Position (balance sheet) (Attachment 1), a Statement of Changes in Fiduciary Net Position (income statement) for the quarter ended December 31, 2016 (Attachment 2), and a year-to-date Statement of Changes in Fiduciary Net Position (Attachment 3).

The Statement of Fiduciary Net Position includes a summary of fund assets showing the amounts in the following categories: investments, prepaid assets, and other receivables. This statement also provides amounts due from/to the District and Total Fund Equity (net position).

The Statement of Changes in Fiduciary Net Position includes activities in the following categories: investment gains/losses, dividends, interest income, unrealized gains/losses, benefit contributions/payouts, and investment management and administrative expenses.

#### Asset Rebalancing

Pursuant to Section IV, <u>Asset Rebalancing Policy</u> of the Statement of Investment Objectives and Policy Guidelines for the ATU, IBEW and Salaried Employees' Retirement Funds, the Retirement Boards have delegated authority to manage pension plan assets in accordance with the approved rebalancing policy to the District's Director of Finance/Treasury. The

| Item No. | Date          | Session     | Item               | Date     |
| 19       | 03/22/17      | Retirement  | Action             | 02/11/17 |

Subject: Receive and File Administrative Reports for the Quarter Ended December 31, 2016 for the IBEW Pension Plan (IBEW). (Bernegger)

Director is required to report asset rebalancing activity to the Boards at their quarterly meetings. Rebalancing can occur for one or more of the following reasons:

- 1. The Pension Plan ended the month with an accounts receivable or payable balance due to the District. A payable or receivable is the net amount of the monthly required contribution (required contribution is the percentage of covered payroll determined by the annual actuarial valuation) less the Plan's actual expenses.
- 2. The Pension Plan hires or removes a Fund Manager, in which case securities must be moved to a new fund manager.
- 3. The Pension Plan investment mix is under or over the minimum or maximum asset allocation as defined in the Statement of Investment Objectives and Policy Guidelines.

Attached hereto as Attachment 4 is the IBEW Plan's Schedule of Cash Activities for the three months ended December 31, 2016. The schedule of cash activities includes a summary of Plan activities showing the amounts in the following categories: District's pension contributions to the Plan, payments to retirees, and the Pension Plan's cash expenditures paid. This schedule also lists the rebalancing activity that occurred for the three months ended December 31, 2016. The IBEW Plan reimbursed \$89,914.33 to the District as the result of the net cash activity between the pension plan expenses and the required pension contributions.

Attached hereto as Attachment 5 is the IBEW Plan's Asset Allocation as of December 31, 2016. This statement shows the IBEW Plan's asset allocation as compared to targeted allocation percentages as defined in the Statement of Investment Objectives and Policy Guidelines.

Attached hereto as Attachment 6 is a reconciliation between the Callan Performance Report and the ATU, IBEW and Salaried Pension Plans' unaudited financial statements. The reports differ in that the unaudited financial statements reflect <u>both</u> investment activities and the pension fund's inflows and outflows. Callan's report <u>only</u> reflects the investment activities. The "Net Difference" amounts shown are the results of Callan and State Street using different valuations for the same securities and/or litigation settlements received by the Plans.

Included also as Attachment 7 is a reconciliation between the Callan Performance Report and the Schedule of Cash Activities for payments made from/to the District. Callan's report classifies gains from trades and litigation income as "net new investments." Finance staff classifies gains from trades and litigation income in the Pension Fund's unaudited Statement of Changes in Plan Net Position as "Other Income," which is combined in the category of "Interest, Dividend, & Other Inc".

Attached hereto as Attachment 8 is a schedule reflecting Fund Managers' quarterly investment returns and their investment fees. Additionally, the schedule reflects annual rates of return on investment net of investment fees for the one-year and three-year periods ended December 31, 2016 as compared to their benchmarks.

Receive and File the Independent Auditor's Report for the Twelve Month Period Ended June 30, 2016 (ALL). (Bernegger)

### RECOMMENDED ACTION

Motion: Receive and File the Independent Auditor's Report for the Twelve Month Period Ended June 30, 2016 (ALL). (Bernegger)

### FISCAL IMPACT

None

### DISCUSSION

In accordance with California Government Code Section 7504, the Retirement Plans are required to have an annual audit performed. Crowe Horwath LLC conducted the Plans' audit in accordance with generally accepted auditing standards. The standards require that the auditors plan and perform the audit to obtain reasonable assurance that the Plans' financial statements are free of material misstatements.

For the fiscal year ended June 30, 2016, the investment assets for the ATU, IBEW and Salaried Plans were combined into one commingled investment portfolio. The balance of investments owned by the ATU, IBEW and Salaried Plans are calculated based on a percentage of ownership as determined by the ATU, IBEW and Salaried Plans' custodian.

The financial results are shown on a comparative basis. As noted in the report (Attachment 1), the combined net position held in trust for pension benefits decreased \$3,350,315 or 1.38% from the beginning of year balance of \$246,702,354 to the end of year balance of \$243,352,039. The audit confirmed that the District made 100% of its actuarially determined contribution of \$18,024,056.

Please note that as of the balance sheet date of June 30, 2016 the ATU and IBEW Plans were still reported as a combined Plan. Beginning with fiscal year 2017 there will be separate reporting for the ATU and IBEW Plans.

### INDEPENDENT AUDITOR'S REPORT

Members of the Retirement Board of Directors Sacramento Regional Transit District Sacramento, California

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the ATU/IBEW Plan and Salaried Plan for Sacramento Regional Transit District Employees (the Plans), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the Plans' basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plans' preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plans' internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective fiduciary net position of the ATU/IBEW Plan and the Salaried Plan for Sacramento Regional Transit District Employees as of June 30, 2016, and the respective changes in fiduciary net position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

#### Other Matters

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Schedules of Changes in the Net Pension Liability and Related Ratios, Schedules of District Contributions, and the Schedule of Investment Returns, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the Management's Discussion and Analysis that governmental accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

### Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the ATU/IBEW Plan's and the Salaried Plan's basic financial statements. The accompanying supplemental Schedules of Investment and Administrative Expenses are presented for purposes of additional analysis and are not a required part of the financial statements.

The accompanying Schedules of Investment and Administrative Expenses are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedules of Investment and Administrative Expenses are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### 1. DESCRIPTION OF THE PLANS

### **ATU/IBEW Plan**

The Retirement Plan for Sacramento Regional Transit District Employees who are Members of Amalgamated Transit Union (ATU) Local 256 and International Brotherhood of Electrical Workers (IBEW) Local 1245 (the ATU/IBEW Plan) is a single employer defined benefit pension plan covering contract employees of Sacramento Regional Transit District (the District). Participants should refer to their respective plan agreements for more complete information. The ATU Plan and the IBEW Plan are accounted for by the District as one Plan (collectively, the ATU/IBEW Plan). The ATU/IBEW Plan is reported as a pension trust fund in the District's financial statements.

### **Salaried Plan**

The Retirement Plan for Sacramento Regional Transit District Salaried Employees (the Salaried Plan) is a single employer defined benefit pension plan covering full- or part-time employees in the following employee groups: Administrative Employees Association (AEA), Management and Confidential Employees Group (MCEG), and the American Federation of State, County & Municipal Employees, Local 146, AFL-CIO (AFSCME). AFSCME is further split into two groups AFSCME-Technical and AFSCME-Supervisors. Participants should refer to the Salaried Plan agreement for more complete information. The Salaried Plan is reported as a pension trust fund in the District's financial statements.

**Plan Tier Definition** – As a result of labor negotiations and the court ruling on the Public Employees' Pension Reform Act, a new tier was created in both the ATU/IBEW and Salaried Plans (Tier 2). The Tier effective date was directly affected by labor negotiations and whether the union/employee group was under a current Memorandum of Understanding (MOU). As of December 30, 2014, the ATU, IBEW, and AFSCME-Technical unions were bound by a current MOU. Whereas, the AEA, MCEG, and AFSCME-Supervisors had not settled negotiations and were not bound by a current MOU; therefore, PEPRA was required to be implemented for these groups.

- ATU, IBEW, and AFSCME-Technical Tier 1 consists of all employees hired on or before December 31, 2014, Tier 2 consists of all employees hired on or after January 1, 2015.
- AEA, MCEG, and AFSCME-Supervisors Tier 1 consists of all employees hired on or before December 30, 2014, Tier 2 consists of all employees hired on or after December 31, 2014.

Tier 1 is closed to new entrants as all newly hired employees will be placed into the respective Tier 2 plans.

### **PEPRA Employees**

The Public Employees' Pension Reform Act (PEPRA) of 2013 created new pension rules for employees hired after January 1, 2013. 'PEPRA employees' were hired under both the ATU/IBEW Plan and the Salaried Plan and the employees are required to contribute 50% of the normal cost of their plan. The benefits under PEPRA were reduced in an effort to reduce the pension liability of local agencies in the state of California.

On October 4, 2013 Assembly Bill 1222 provided a temporary exemption to the January 1, 2013 PEPRA law for employees of transit agencies. Along with changes to employee retirement benefits, this exemption eliminated employee contributions through January 1, 2015. Therefore all contributions received were refunded in November 2013 and the employees hired between January 1, 2013 and October 4, 2013 were included in the Tier 1 Plans. On September 28, 2014 Assembly Bill 1783 was signed by Governor Brown which extended the District's and the Plans' PEPRA exemption to January 1, 2016.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### 1. DESCRIPTION OF THE PLANS (Continued)

On December 30, 2014 a court ruling was released in which PEPRA became a requirement for transit agencies in the state of California. The ruling indicated that if a bargaining group was within a current MOU, PEPRA would not apply until the expiration of said MOU. As of December 30, 2014, the ATU, IBEW, and AFSCME-Technical groups were under a current MOU. For all other employee groups not under current contract (MCEG, AEA, and AFSCME-Supervisors), PEPRA applied to all new hires as of December 30, 2014.

### General Provisions ATU/IBEW and Salaried Plans

Contributions to the ATU/IBEW and Salaried Plans are authorized or amended by the Retirement Board based on an actuarial basis. The authority under which benefit provisions are established and amended rests with the District's Board of Directors as a result of labor negotiations. Assembly Bill 1064, effective January 1, 2004, mandates that the Retirement Boards be comprised of equal representation of management and Bargaining Group employees. The Retirement Board shall consist of not more than 4 members and 2 alternates. Two (2) voting members and one (1) alternate shall be appointed by the District's Board of Directors and two (2) voting members and one (1) alternate shall be appointed by the ATU, IBEW, AEA, AFSCME, and MCEG member groups.

The ATU/IBEW and Salaried Plans provide defined pension, disability, and death benefits to employees who are members of the ATU, IBEW, AEA, MCEG, AFSCME-Technical, and AFSCME-Supervisors bargaining units.

530

ATU/IBEW Plan membership for both Tier 1 and Tier 2, at June 30, 2016, consisted of:

Retirees and beneficiaries currently receiving benefits

### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### 1. DESCRIPTION OF THE PLANS (Continued)

The benefits for both Tier 1 and Tier 2 members begin at retirement and continue for the participant's life with no cost of living adjustment. The participant can elect to receive reduced benefits with continuing benefits to a beneficiary after death.

**Disability Benefits** – A participant is eligible for a disability benefit if the participant is unable to perform the duties of his or her job with the District, cannot be transferred to another job with the District, and has submitted satisfactory medical evidence of permanent disqualification from his or her job. Members are required to be vested in their respective union or employee group to qualify for disability retirement. The disability benefit is equal to the retirement allowance, as defined by the ATU/IBEW or Salaried Plan, multiplied by service accrued through the date of disability. The disability benefit cannot exceed the retirement benefit. The benefit begins at disability and continues until recovery or for the participant's life unless the participant elects to receive reduced benefits with continuing benefits to a beneficiary after death.

**Pre-Retirement Death Benefit** – A participant's surviving spouse is eligible for a pre-retirement death benefit if the participant is vested, based on the respective bargaining agreements. The pre-retirement death benefit is the actuarial equivalent of the normal retirement benefit, as if the participant retired on the date of death. The death benefit begins when the participant dies and continues for the life of the surviving spouse or until remarriage.

**Administration** – The ATU/IBEW Plan is administered by the ATU/IBEW Plan's Retirement Board. All expenses incurred in the administration of the ATU/IBEW Plan are paid by the ATU/IBEW Plan. The Salaried Plan is administered by the Salaried Plan's Retirement Boards. All expenses incurred in the administration of the Salaried Plan are paid by the Salaried Plan.

**Plan Termination** – Should the ATU/IBEW or the Salaried Plan be terminated, the Plan's net position will first be applied to provide for retirement benefits to retired members. Any remaining net position will be allocated to other members, oldest first both active and inactive, on the basis of the actuarial present value of their benefits.

### 2. SIGNIFICANT ACCOUNTING POLICIES

**Basis of Accounting** – The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. The ATU/IBEW and Salaried Plans are reported as pension trust funds which report resources that are required to be held in trust for the members and beneficiaries of the defined benefit pension plans. The ATU/IBEW and Salaried Plans are accounted for on the flow of economic resources measurement focus and the accrual basis of accounting.

The ATU/IBEW and Salaried Plans have adopted Governmental Accounting Standards Board (GASB) Statement No. 67, *Financial Reporting for Pension Plans – an amendment of GASB Statement No. 25*, as their source of accounting and reporting principles. The District's contributions to the ATU/IBEW and Salaried Plans are recognized in the period in which the contributions are due pursuant to formal commitments or contractual requirements. Benefits and refunds are recognized when due and payable in accordance with the ATU/IBEW and Salaried Plans' agreements.

**Cash and Short-Term Investments** – The ATU/IBEW and Salaried Plans consider all highly liquid investments with an original maturity of three months or less to be short-term investments.

### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

**Investments** – Investments consist of securities or other assets held primarily for the purpose of income or profit and their present service capacity is based solely on its ability to generate cash or to be sold to generate cash.. Realized gains or losses on the sale of investments are recorded on the trade date as the difference between proceeds received and the fair value at the beginning of the year, or cost if acquired during the year. Net appreciation (depreciation) in fair value of investments includes net unrealized market appreciation and depreciation of investments and net realized gains and losses on the sale of investments during the period. Interest income includes dividends and interest paid on the ATU/IBEW and Salaried Plans' investments. The investment assets for the ATU/IBEW and the Salaried Plans are combined into one commingled investment portfolio. The balances of investments owned by the plans are calculated based on a percentage of ownership as determined by the Plans' custodian, State Street.

**Estimates** – The preparation of financial statements in conformity with generally accepted accounting principles requires the ATU/IBEW and Salaried Plans' administrators to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

**New Pronouncements** – For the fiscal year ended June 30, 2016, the ATU/IBEW and Salaried Plans implemented GASB Statement 72, *Fair Value Measurement and Application*. Implementation of this statement has created additional investment disclosures; however, there was no impact on the basic financial statements.

There are currently no future pronouncements that will be applicable to the ATU/IBEW and Salaried Plans' financial statements.

### 3. CONTRIBUTION REQUIREMENTS

### EMPLOYER CONTRIBUTIONS

The ATU/IBEW and Salaried Plans' funding policy provides for actuarially determined periodic contributions. Contribution rates for retirement benefits are determined using the entry age normal cost method. During the fiscal year ended June 30, 2016, the District made 100% of the actuarially determined contributions to the ATU/IBEW and Salaried Plans of \$18,024,056, for all employees.

### TIER 1 EMPLOYEES

For the fiscal year ended June 30, 2016, the actuarially determined rate for the ATU/IBEW Plan was 26.51% of covered payroll. For the fiscal year ended June 30, 2016, the actuarially determined rate for the Salaried Plan was 31.55% of covered payroll. No contributions are required by the ATU/IBEW and Salaried Plans' members pursuant to each respective bargaining agreement for employees hired before January 1, 2015.

### **TIER 2 EMPLOYEES**

As of January 1, 2015, all new employees were required to contribute to their pension based upon the terms of the bargaining groups MOU or based on PEPRA.

ATU employees are required to contribute 3.00% of their annual salary. The employer portion of the actuarially determined rate for the ATU members was 23.51% of covered payroll for the fiscal year ending June 30, 2016. IBEW employees are required to contribute 1.50% the first year of service increasing to 4.50% in the third year of service and beyond. The employer portion of the actuarially determined rate for the IBEW members ranged from 23.51% to 25.01% of covered payroll for the fiscal year ending June 30, 2016. The total contribution by Tier 2 employees of the ATU/IBEW Plan for the fiscal year ended June 30, 2016 was \$54,714.

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### 3. CONTRIBUTION REQUIREMENTS (Continued)

AFSCME-Technical employees are required to contribute 1.50% the first year of service increasing to 4.50% in the third year of service and beyond. The employer portion of the actuarially determined rate for the AFSCME-Technical members ranged from 28.55% to 30.05% of covered payroll for the fiscal year ending June 30, 2016. Members of AEA, MCEG, and AFSCME-Supervisors are required to contribute 50% of normal cost which is currently 5.75% of their annual salary. The employer portion of the actuarially determined rate for the AEA, MCEG, and AFSCME-Supervisors members was 25.80% of covered payroll for the fiscal year ending June 30, 2016. The total contribution by Tier 2 employees of the Salaried Plan for the fiscal year ended June 30, 2016 was \$21,014.

The PEPRA related contribution rate for June 30, 2016, was actuarially determined on April 20, 2015, using the member data from actuarial valuations of the ATU/IBEW and Salaried Plans as of June 30, 2014.

### 4. CASH AND INVESTMENTS

### CASH AND SHORT-TERM INVESTMENTS

At June 30, 2016, the reported amount of cash and short-term investments of the ATU/IBEW and Salaried Plans was \$6,563,559. The amount was collateralized with securities held by the counterparty's trust department or agent in the District's name on behalf of the Retirement Plans.

### **INVESTMENTS**

An annual Board-adopted policy, the "Statement of Investment Objectives and Policy Guidelines for the Sacramento Regional Transit District Retirement Plans" (Policy), governs the ATU/IBEW and Salaried Plans' investments. This Policy focuses on the continued feasibility of achieving, and the appropriateness of, the Asset Allocation Policy, the Investment Objectives, the Investment Policies and Guidelines, and the Investment Restrictions. The Retirement Boards have the authority to amend the asset allocation targets as well as establish and amend investment policies. The following was the Plans' adopted asset allocation policy as of June 30, 2016:

| Asset Class                              | Target Allocation |
|------------------------------------------|-------------------|
| Domestic Equity Large Cap                | 32%               |
| Domestic Equity Small Cap                | 8%                |
| International Equity Developed Large Cap | 14%               |
| International Equity Developed Small Cap | 5%                |
| International Equity Emerging Markets    | 6%                |
| Domestic Fixed Income                    | 35%               |

For the years ended June 30, 2016, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expenses, was -0.19%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### 4. CASH AND INVESTMENTS (Continued)

The following table identifies the investment types that are authorized by the ATU/IBEW and Salaried Plans' Retirement Boards. The table also identifies certain provisions of the Investment Objectives and Policy that address interest rate risk, credit risk and concentration of credit risk.

| Authorized Investment Type             | Maximum<br>Maturity (1) | Minimum<br>Rating (3) | Maximum<br>Percentage of<br>Portfolio | Maximum Investment in One Issuer |
|----------------------------------------|-------------------------|-----------------------|---------------------------------------|----------------------------------|
| Cash                                   | None                    | N/A                   | None                                  | None                             |
| U.S. Treasury Bills                    | None                    | N/A                   | None                                  | None                             |
| Agency Discount Notes                  | None                    | N/A                   | None                                  | None                             |

| Emerging Markets                       | None                    | N/A                   | None                                  | None                             |
| International Fixed Income Securities  | None                    | N/A                   | None                                  | None                             |
| Other Fixed Income Securities (6)      | None                    | N/A                   | None                                  | None                             |
| Mutual Funds                           | N/A                     | N/A                   | 25% (2)                               | 5%                               |
| Real Estate Investment Trust           | N/A                     | N/A                   | 25% (2)                               | 5%                               |
| Depository Receipt                     | N/A                     | N/A                   | 25% (2)                               | 5%                               |
| Stocks                                 | N/A                     | N/A                   | 25% (2)                               | 5%                               |

- (1) The fixed income portion of the ATU/IBEW and Salaried Plans shall be limited in duration to between 75% and 125% of the benchmark.
- (2) No more than 25% of the fair value on the purchase cost basis of the total common stock portfolio (equity securities) shall be invested in a single industry at the time of purchase.
- (3) The investment managers shall maintain a minimum overall portfolio quality rating of "A" equivalent or better at all times (based on market-weighted portfolio average). Minimum quality (at purchase) must be at least 80% Baa or above.
- (4) Credit Securities and Corporate Debt include: debentures, medium-term notes, capital securities, trust preferred securities, Yankee bonds, Eurodollar securities, floating rate notes and perpetual floaters, structured notes, municipal bonds, preferred stock, private placements (bank loans and 144(a) securities), and EETCs.
- (5) Securitized investments includes: agency and non-agency mortgage-backed securities, asset-backed securities (144(a) securities), and commercial mortgage-backed securities.
- (6) Other Fixed Income Securities includes: Fixed income commingled and mutual funds, futures and options, swap agreements, and reverse repurchase agreements.

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### 4. CASH AND INVESTMENTS (Continued)

### INVESTMENT RISK FACTORS

There are many factors that can affect the value of investments. Such factors as interest rate risk, credit risk, custodial credit risk, concentration of credit risk, and foreign currency risk may affect both equity and fixed income securities.

### INTEREST RATE RISK

Interest rate risk is the risk that the value of fixed income securities will decline because of rising interest rates. The prices of fixed income securities with a longer time to maturity, measured by duration, tend to be more sensitive to changes in interest rates and, therefore, more volatile than those with shorter duration.

The following table provides information about the interest rate risks associated with the ATU/IBEW and Salaried Plans' investments at June 30, 2016.

|                                     | Maturity in Years |           |    |            |    |            |    |            |                  |
|-------------------------------------|-------------------|-----------|----|------------|----|------------|----|------------|------------------|
|                                     |                   | Less      |    |            |    |            |    | More       |                  |

In accordance with the ATU/IBEW and Salaried Plans' investment policy, investments may include mortgage pass-through securities, collateralized mortgage obligations, asset-backed securities, callable bonds and corporate debts that are considered to be highly sensitive to changes in interest rates.

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### 4. CASH AND INVESTMENTS (Continued)

#### COLLATERALIZED MORTGAGE OBLIGATIONS

Collateralized mortgage obligations (CMOs) are bonds that represent claims to specific cash flow from large pools of home mortgages. The streams of principal and interest payments on the mortgages are distributed to the different classes of CMO interests.

CMOs are often highly sensitive to changes in interest rates and any resulting change in the rate at which homeowners sell their properties, refinance, or otherwise pre-pay their loans. Investors in these securities may not only be subjected to such prepayment risk, but also exposed to significant market and liquidity risks.

### **CORPORATE DEBT – RANGE NOTES**

Range notes are securities which pay two different interest rates depending on whether or not a benchmark index falls within a pre-determined range as structured per the note. If the benchmark index rate does not fall within the pre-determined range, the note will not earn the coupon rate for that time period. With this pre-determined range feature, range notes are highly sensitive to changes in interest rates. As of June 30, 2016, the ATU/IBEW and Salaried Plans held range notes with a value of \$389,597.

### MORTGAGE PASS-THROUGH SECURITIES

These securities are issued by Government Sponsored Enterprises (GSEs), which are a group of financial services corporations created by the United States Congress. The GSEs include: the Federal National Mortgage Association (Fannie Mae), the Federal Home Loan Mortgage Association (Freddie Mac), and the Federal Home Loan Banks. Another institution that issues these securities is the Government National Mortgage Association (Ginnie Mae). These securities are highly sensitive to interest rate fluctuations because they are subject to early payment. In a period of declining interest rate, the resulting reduction in expected total cash flows affects the value of these securities.

### ASSET-BACKED SECURITIES

Asset-backed securities generate a return based upon either the payment of interest or principal on obligations in an underlying pool. The relationship between interest rates and prepayments make the value highly sensitive to changes in interest rates.

### CALLABLE BONDS

Although bonds are issued with clearly defined maturities, an issuer may be able to redeem, or call, a bond earlier than its maturity date. The Plans must then replace the called bond with a bond that may have a lower yield than the original bond. The call feature causes the value to be highly sensitive to changes in interest rates. As of June 30, 2016, the ATU/IBEW and Salaried Plans held callable bonds with a value of \$5,381,862.

### CREDIT RISK

Fixed income securities are subject to credit risk, which is the risk that a bond issuer or other counterparty to a debt instrument will not fulfill its obligation to pay interest or principal in a timely manner, or that negative perceptions of the issuer's ability to make these payments will cause security prices to decline. The circumstances may arise due to a variety of factors such as financial weakness, bankruptcy, litigation and/or adverse political developments.

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### 4. CASH AND INVESTMENTS (Continued)

A bond's credit quality is an assessment of the issuer's ability to pay interest on the bond, and ultimately, to pay the principal. Credit quality is evaluated by one of the independent bond-rating agencies, for example Moody's Investors Services (Moody's). The lower the rating the greater the chance, in the rating agency's opinion, the bond issuer will default, or fail to meet their payment obligations. Generally, the lower a bond's credit rating, the higher its yield should be to compensate for the additional risk.

Certain fixed income securities, including obligations of the U.S. government or those explicitly guaranteed by the U.S. government, are not considered to have credit risk.

For the fiscal year ending June 30, 2016, the ATU/IBEW and Salaried Plans were in adherence with the credit risk provisions of the Statement of Investment Objectives and Policy Guidelines which require a minimum overall portfolio quality rating and a minimum credit rating at the time of purchase.

The following table provides information on the credit ratings and fair value associated with the ATU/IBEW and Salaried Plans' investments as of June 30, 2016.

|                   |                   | Percentage of |

### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### 4. CASH AND INVESTMENTS (Continued)

### CONCENTRATION OF CREDIT RISK

Concentration of credit risk is the risk associated with a lack of diversification of having too much invested in a few individual issuers, thereby exposing the organization to greater risks resulting from adverse economic, political, regulatory, geographic, or credit developments.

The investment policies of the ATU/IBEW and Salaried Plans state that an investment in each domestic or international equity fund managers' securities of a single issuer shall not exceed 5% (at cost) of the value of the portfolios and/or of the total outstanding shares. As of June 30, 2016, the ATU/IBEW and Salaried Plans did not have domestic or international equity fund managers' investments in a single issuer that exceeded 5% (at cost) of the value of the portfolios and/or of the total outstanding shares. As of June 30, 2016, the Plans held more than 5% of the Plans' investments and fiduciary net position in the following fixed-income securities investments:

Federal Home Loan Bank

\$ 12,384,797

### **CUSTODIAL CREDIT RISK**

Custodial credit risk for <u>deposits</u> is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party.

The custodial credit risk for <u>investments</u> is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The ATU/IBEW and Salaried Plans' investment policy does not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments. The ATU/IBEW and Salaried Plans' investment securities are not exposed to custodial credit risk because all securities are held by the ATU/IBEW and Salaried Plans' custodian bank in the District's name.

### FOREIGN CURRENCY RISK

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The ATU/IBEW and Salaried Plans' investment policy states international equity securities shall be comprised of American Depository Receipts (ADR) of non-U.S. companies, common stocks of non-U.S. companies, preferred stocks of non-U.S. companies, foreign convertible securities including debentures convertible to common stocks, and cash equivalents.

The following table provides information on deposits and investments held in various foreign currencies, which are stated in U.S. dollars. The ATU/IBEW and Salaried Plans have foreign currency deposits and investments which may be used for hedging purposes.

### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### 4. CASH AND INVESTMENTS (Continued)

At June 30, 2016, the U.S. dollar balances organized by investment type and currency denominations for the ATU/IBEW and Salaried Plans are as follows:

| Foreign Currency |       | U.S. | Dollars |
|------------------|-------|------|---------|
| Swiss Franc      |       | \$   | 6,108   |
| EURO             |       |      | 429     |
| Japanese Yen     |       |      | 104     |
|                  | Total | \$   | 6,641   |

### Fair Value Measurements

The ATU/IBEW and Salaried Plans categorize their fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted market prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The ATU/IBEW and Salaried Plans had the following recurring fair value measurements as of June 30, 2016:

|                                                   |                   |     | Fair '           | Value I | Measurements Usin | g  |              |
|---------------------------------------------------|-------------------|-----|------------------|---------|-------------------|----|--------------|
|                                                   |                   | Q   | uoted Prices in  |         | Signficant        |    | Significant  |
|                                                   |                   | Act | tive Markets for | Ot      | her Observable    | U  | Inobservable |
|                                                   |                   | Ic  | lentical Assets  |         | Inputs            |    | Inputs       |

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### 4. CASH AND INVESTMENTS (Continued)

Debt and equity securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Debt securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices. Net asset value (NAV) securities are valued based on the net asset value of the pooled investments. The NAV is determined by dividing the total value of the securities and other assets, less any liabilities, by the total outstanding shares of the fund.

Investment measured at the net asset value (NAV)

|                                         |               |               | ==== |                   |                         |                          |

- 1. S&P 500 index fund. This type includes an investment in a S&P 500 index fund that invests to match the S&P 500® Index. The S&P 500 is made up of primarily U.S. common stocks. The fair value of the investment in this type has been determined using the NAV per unit of the investment. The NAV per unit of the investment are determined each business day. Issuances and redemptions of fund units may be made on such days, based upon the closing market value on the valuation date of the investments bought or sold and the NAV per unit of the fund.
- 2. MSCI EAFE index fund. This type includes an investment in the Morgan Stanley Capital International Europe, Australasia, Far East Index (MSCI EAFE) Index fund that invest to approximate as closely as practicable, before expenses, the performance of the MSCI EAFE Index over the long term. The MSCI EAFE Index is made up of primarily International stocks. The per unit NAV of the fund is determined as of the last business day of each month and at least one other business day during the month. Issuances and redemptions of fund units may be made on such days, based upon the closing market value on the valuation date of the investments bought or sold and the NAV per unit of the fund.
- 3. International equity fund. This type includes an investment in an International Equity Fund that seeks total return from long-term capital growth and income, while attempting to outperform the MSCI EAFE Index over a market cycle, gross of fees. The fair value of the investment in this type has been determined using the NAV per unit of the investment. Issuances and redemptions of fund shares can be performed on any business day, based on the closing market value on the valuation date of the purchase or sale.
- 4. International emerging markets fund. This type invests substantially all of its assets in the Emerging Market Series. The Emerging Market Series purchases a broad market coverage of larger companies associated with emerging markets, which may include frontier markets (emerging market countries in an earlier stage of development), authorized for investment by the Advisor's Investment Committee. As a non-fundamental policy, under normal circumstances, the Emerging Markets Series will invest at least 80% of its net assets in emerging markets investments that are defined in the Prospectus as Approved Market securities. The fair values of the investments in this type have been determined using the NAV per share of the investments. Investors may purchase or redeem shares of the fund on any business day.

### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### 5. NET PENSION LIABILITY

#### ATU/IBEW Plan

The components of the net pension liability of the ATU/IBEW Plan at June 30, 2016, were as follows:

| Total pension liability                            | \$<br>238,762,921 |
|----------------------------------------------------|-------------------|
| Plan fiduciary net position                        | <br>(168,015,020) |
| ATU/IBEW net pension liability                     | \$<br>70,747,901  |
| Plan fiduciary net position as a percentage of the |                   |
| total pension liability                            | 70.37%            |

The total pension liability was determined by an actuarial valuation as of July 1, 2015, using the following actuarial assumptions, applied to all periods included in the measurement, and using update procedures to roll forward the total pension liability to the pension plan's fiscal year-end:

| Inflation                 | 3.15%                                                       |
|---------------------------|-------------------------------------------------------------|
| Amortization growth rate  | 3.15%                                                       |
| Salary increases          | 3.15%, plus merit component                                 |
| Investment Rate of Return | 7.50%, net of investment expense                            |
| Post-retirement mortality | Sex Distinct RP-2000 Combined Blue Collar Mortality, 3 year |
|                           | setback for females                                         |

The actuarial assumptions used in the July 1, 2015, valuation were based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2015.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2016, are summarized in the following table:

| Asset Class                    | Long-Term Expected Real Rate of Return |
|--------------------------------|----------------------------------------|
| Domestic Equity Large Cap      | 8.85%                                  |
| Domestic Equity Small Cap      | 9.85%                                  |
| International Equity Developed | 9.55%                                  |
| International Equity Emerging  | 11.15%                                 |
| Domestic Fixed Income          | 3.05%                                  |
|                                |                                        |

### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### 5. NET PENSION LIABILITY (Continued)

The discount rate used to measure the Total Pension Liability was 7.50%. The discount rate was decreased during the fiscal year ended June 30, 2016 to 7.50% from 7.65%. The reduction is due to a review of potential investment returns over the next ten to twenty year horizon. The projection of cash flows used to determine the discount rate assumed that the District will continue to contribute to the ATU/IBEW Plan based on an actuarially determined contribution, reflecting a payment equal to annual Normal Cost, the expected administrative expenses, and an amount necessary to amortize the remaining Unfunded Actuarial Liability as a level percentage of payroll over a closed period (17 years remaining as of the July 1, 2015 actuarial valuation).

Based on those assumptions, the ATU/IBEW Plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current ATU/IBEW Plan members. Therefore, the long-term expected rate of return on the ATU/IBEW Plan's investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

The following presents the net pension liability of the ATU/IBEW Plan, calculated using the discount rate of 7.50 percent, as well as what the ATU/IBEW Plan's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50%) or 1-percentage-point higher (8.50%) than the current rate:

|                                                                            | 1%<br>Decrease    | Discount<br>Rate  | 1%<br>Increase    |
|----------------------------------------------------------------------------|-------------------|-------------------|-------------------|
| _                                                                          | 6.50%             | 7.50%             | 8.50%             |
| Total pension liability                                                    | \$<br>263,781,397 | \$<br>238,762,921 | \$<br>217,400,628 |
| Plan fiduciary net position                                                | (168,015,020)     | (168,015,020)     | (168,015,020)     |
| Net pension liability                                                      | \$<br>95,766,377  | \$<br>70,747,901  | \$<br>49,385,608  |
| Plan fiduciary net position as a percentage of the total pension liability | 63.69%            | 70.37%            | 77.28%            |

### Salaried Plan

The components of the net pension liability of the Salaried Plan at June 30, 2016, were as follows:

| Total pension liability                            | \$<br>121,090,442 |
|----------------------------------------------------|-------------------|
| Plan fiduciary net position                        | (75,337,019)      |
| Salaried net pension liability                     | \$<br>45,753,423  |
| Plan fiduciary net position as a percentage of the |                   |
| total pension liability                            | 62.22%            |

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### 5. NET PENSION LIABILITY (Continued)

The total pension liability was determined by an actuarial valuation as of July 1, 2015, using the following actuarial assumptions, applied to all periods included in the measurement, and using update procedures to roll forward the total pension liability to the pension plan's fiscal year-end:

| Inflation                 | 3.15%                                                   |
|---------------------------|---------------------------------------------------------|
| Amortization growth rate  | 3.15%                                                   |
| Salary increases          | 3.15%, plus merit component                             |
| Investment Rate of Return | 7.50%, net of investment expense                        |
| Post-retirement mortality | Sex Distinct RP-2000 Combined White Collar Mortality, 3 |
|                           | year setback for females                                |

The actuarial assumptions used in the July 1, 2015, valuation were based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2015.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2016, are summarized in the following table:

|                                | Long-Term Expected  |
|--------------------------------|---------------------|
| Asset Class                    | Real Rate of Return |
| Domestic Equity Large Cap      | 8.85%               |
| Domestic Equity Small Cap      | 9.85%               |
| International Equity Developed | 9.55%               |
| International Equity Emerging  | 11.15%              |
| Domestic Fixed Income          | 3.05%               |

The discount rate used to measure the Total Pension Liability was 7.50%. The discount rate was decreased during the fiscal year ended June 30, 2016, to 7.50% from 7.65%. The reduction is due to a review of potential investment returns over the next ten to twenty year horizon. The projection of cash flows used to determine the discount rate assumed that the District will continue to contribute to the Salaried Plan based on an actuarially determined contribution, reflecting a payment equal to annual Normal Cost, the expected administrative expenses, and an amount necessary to amortize the remaining Unfunded Actuarial Liability as a level percentage of payroll over a closed period (17 years remaining as of the July 1, 2015 actuarial valuation).

Based on those assumptions, the Salaried Plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current Salaried Plan members. Therefore, the long-term expected rate of return on Salaried Plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### 5. NET PENSION LIABILITY (Continued)

The following presents the net pension liability of the Salaried Plan, calculated using the discount rate of 7.50 percent, as well as what the Salaried Plan's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50%) or 1-percentage-point higher (8.50%) than the current rate:

|                                                                            | 1%                | Discount          | 1%                |

| Plan fiduciary net position as a percentage of the total pension liability | 55.69%            | 62.22%            | 69.08%            |

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective and are based on the benefits provided under the terms of the substantive plan in effect at the time of each valuation. Actuarial methods and assumptions used include techniques designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of plan assets.

The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effect of legal or contractual funding limitations.

# SCHEDULE OF CHANGES IN THE NET PENSION LIABILITY AND RELATED RATIOS EMPLOYEES WHO ARE MEMBERS OF ATU LOCAL 256 AND IBEW LOCAL 1245 FOR THE FISCAL YEARS ENDED JUNE 30, 2016, 2015 AND 2014

### **Notes to Schedule:**

<sup>-</sup>FY2015: amounts reported as changes of assumptions resulted from lowering the discount rate from 7.75% to 7.65%

<sup>-</sup>FY2016: amounts reported as changes of assumptions resulted from lowering the discount rate from 7.65% to 7.50% and updated demographic and economic assumptions that were adopted following an experience study

<sup>-</sup>Beginning in FY2015, payroll amounts are based on actual pensionable compensation from the employer. In prior years, payroll amounts are projected payroll from the actuarial valuation reports

| Contributions as a percentage of covered-    |           |           |           |           |           |           |           |           |           |           |
| employee payroll                             | 26.12%    | 27.26%    | 24.99%    | 23.43%    | 20.45%    | 17.76%    | 17.02%    | 15.44%    | 17.18%    | 16.52%    |

Note: Beginning in FYE2015, payroll amounts are based on actual total payroll of the District. In previous years the schedule used covered payroll which is different than actual payroll and therefore the contributions as a percentage of covered payroll will differ from what was actually contributed.

### **Notes to Schedule**

Valuation Date 7/1/2014 (to determine FY15-16 contribution)

Timing Actuarially determined contribution rates are calculated based on the actuarial valuation one year prior to the

beginning of the plan year

Key methods and assumptions used to determine contribution rates:

Actuarial cost method Entry Age

Amortization method Level percentage of payroll, closed 18 year period as of 6/30/2014

Asset valuation method 5-year smoothed market

Discount Rate 7.65% Amortization growth rate 3.15% Price inflation 3.15%

Salary Increases 3.15%, plus merit component on employee classification and years of service Mortality Sex Distinct RP-2000 Combined Blue Collar Mortality, 3 year setback for females

### Other information:

A complete description of the methods and assumptions used to determine contribution rates for the year ending June 30, 2016, can be found in the July 1, 2014 actuarial valuation report.

#### Sacramento Regional Transit District Retirement Board Meeting Wednesday, December 14, 2016 <u>MEETING SUMMARY</u>

#### **ROLL CALL**

#### **MCEG**

The Retirement Board was brought to order at 9:03 a.m. A quorum was present comprised as follows: Directors Li, Lonergan, and Thorn were present. Director Morin, Alternate Sanchez-Ochoa and Alternate Jennings were absent.

This meeting was held as a common meeting of the five Sacramento Regional Transit District Retirement Boards.

By MCEG Resolution No. 16-02-171 for calendar year 2016, the Governing Board Member in attendance served as Common Chair of this Retirement Board meeting.

Legal Counsel Shayna van Hoften with Hanson Bridgett introduced Catherine Groves with Hanson Bridgett LLP to the Retirement Boards.

Donna Bonnel noted that a CALAPRS pension management training will take place on August 28-31 and requested that all new board members place the dates on their calendars. Scheduling for the training can be coordinated with Mariza Montung-Fuller.

#### **Consent Calendar:**

13. Motion: Approving the Minutes for the August 31, 2016 Special Retirement Board

Meeting (MCEG). (Bonnel)

14. Motion: Approving the Minutes for the September 14, 2016 Quarterly Retirement

Board Meeting (MCEG). (Bonnel)

15. Motion: Receive and File Administrative Reports for the Quarter Ended September

30, 2016 for the Salaried Pension Plan (AEA/AFSCME/MCEG).

(Bernegger)

Director Li moved to adopt MCEG Retirement Board Items 13 through 15. Director Lonergan seconded the motion. Items 13 through 15 were carried unanimously by roll call vote: Ayes: Directors Li, Lonergan, and Thorn. Noes: None.

#### **New Business:**

16. Information: Investment Performance Review by Dimensional Fund Advisors (DFA) for

the ATU/IBEW and Salaried Employee Retirement Plans for the International Emerging Markets Asset Class for the Quarter Ended

September 30, 2016 (ALL). (Bernegger)

Jamie Adelman introduced Ted Simpson from DFA, who provided the performance results for the International Emerging Markets Asset Class for the quarter ended September 30, 2016 and to be available for questions.

17. Information: Investment Performance Review of the S&P 500 Index and MSCI EAFE

Funds by State Street Global Advisors (SSgA) for the ATU/IBEW and Salaried Employee Retirement Funds for the Quarter Ended September 30,

2016 (ALL). (Bernegger)

Jamie Adelman introduced Mark Levin from State Street Global Advisors, who presented the investment performance results of the S&P 500 Index and MSCI EAFE Funds for the quarter ended September 30, 2016 and to be available for questions.

18. Motion: Receive and File the Investment Performance Reports for the ATU/IBEW

and Salaried Employee Funds for Quarter Ended September 30, 2016

(ALL). (Bernegger)

Jamie Adelman introduced Uvan Tseng from Callan Associates, who provided a market overview for the Quarter Ended September 30, 2016 and to be available for questions.

Director Li moved to adopt Item 18. Director Lonergan seconded the motion. Item 18 was carried unanimously by roll call vote: Ayes: Directors Li, Lonergan, and Thorn. Noes: None.

20. Information: Update on Staff Roles and Responsibilities Related to Pension

Administration (ALL). (Bonnel)

Donna Bonnel provided an update on the roles and responsibilities of various District staff members and Legal Counsel related to the administration of the Pension Plans.

19. Resolution: Selection of a Common Chair and Vice Chair for Retirement Board

Meetings (ALL). (Bonnel)

Donna Bonnel presented Item 19 for approval.

Director Li moved to adopt the resolution approving Andy Morin as Common Chair and Henry Li as Common Vice Chair. Director Lonergan seconded the motion. Item 19 was carried unanimously by roll call vote: Ayes: Directors Li, Lonergan, and Thorn. Noes: None.

Donna Bonnel noted that it was mentioned on one of the Retirement Board Chair calls that the ATU Retirement Board might want to review the By-laws. Recently, two Retirement Boards have lost participants and the By-laws require a resignation from the person that was appointed. If the will of the Board(s) was to change the By-laws, the hope would be that all five Boards would adopt the change so we can continue to manage the five Boards with the same By-laws.

ATU Director Ralph Niz commented that the ATU has elections every three years and that they just completed elections. The election was as follows: Ralph Niz, President, Crystal Lee, Vice President and Corina De La Torre, Financial Secretary. He remarked that if a board member has elections within their bargaining unit and they don't retain their seat, they should be

removed from their position on the Retirement Board to allow for educational opportunities for the newly elected officials.

Legal Counsel Shayna van Hoften noted that this item could be discussed in more depth with the Board Chairs to get a sense of how each of the entities works because every group does not work the same as the ATU.

Staff will bring this item back in March for more discussion.

The AEA, AFSCME, IBEW and MCEG Retirement Boards recessed at 9:43 a.m.

The AEA, AFSCME, IBEW and MCEG Retirement Boards returned to the room at 9:48 a.m.

#### **REPORTS FROM COMMITTEES**

#### REPORTS, IDEAS AND COMMUNICATIONS

None.

#### PUBLIC ADDRESSES BOARD ON MATTERS NOT ON THE AGENDA

None.

#### **NEW BUSINESS (CONTINUED):**

21. Information: AB 1234 Ethical Standards Training (ALL). (Bonnel)

A 2-hour AB 1234-compliant local government ethics training was presented by Legal Counsel Shayna van Hoften and Catherine Groves.

The meeting was adjourned upon the departure of Dir. Li at 11:36.

The remainder of those directors present completed the training at 11:52.

#### Sacramento Regional Transit District MCEG Special Retirement Board Meeting Wednesday, February 1, 2017 MEETING SUMMARY

#### **ROLL CALL**

The Retirement Board was brought to order at 9:02 a.m. A quorum was present comprised as follows: Directors Li, Morin, Lonergan, and Thorn were present. Alternate Sanchez-Ochoa and Alternate Jennings were absent.

This meeting was held as a common meeting of the five Sacramento Regional Transit District Retirement Boards.

By MCEG Resolution No. 16-12-189 for calendar year 2017, the Governing Board Member in attendance served as Common Chair of this Retirement Board meeting.

Natalie Wilson of the Retirement Boards' counsel, Hanson Bridgett LLP, and Lance Kjeldgaard fiduciary counsel contracted through the board's Legal Counsel, were also present.

#### PUBLIC ADDRESSES BOARD ON MATTERS NOT ON THE AGENDA

None.

Consent Calendar:

None.

#### **New Business:**

The order of New Business items was adjusted to reverse items 1 and 2.

2. Information: Introduce the 2016 Actuarial Valuation Completed by Cheiron (ALL). (Bonnel)

Assistant Secretary Donna Bonnel introduced Graham Schmidt, from Cheiron, who introduced the Actuarial Valuation Study for Fiscal Year 2016 and was available for questions.

Jamie Adelman noted that Staff would be reaching out to members of the ATU and IBEW Retirement Boards to discuss the asset split. This needs to be done in order to finalize the valuation.

1. Resolution: Receive International Fund Manager Candidate Presentations and Select Replacement Fund Manager (ALL). (Bernegger)

Jamie Adelman introduced Andy Iseri and Uvan Tseng from Callan Associates, Inc. (Callan), who provided a detailed review of each manager candidate and provided background on staffing, returns, investment philosophy, risk and other attributes.

Andy Iseri introduced Kamila Kowalke and Daniel McDonagh from Pyrford International PLC to present their firm as an International Fund Manager candidate and to introduce the Pyrford International PLC's investment decision model and methodology.

Director Andy Morin thanked the presenters for their detailed and concise presentation.

Mr. Iseri introduced Michael Powers and George Sands from Lazard Asset Management to present their firm as an International Fund Manager candidate, and to introduce the Lazard Asset Management's investment decision model and methodology.

Brent Bernegger noted that Lazard's investment process area of focus seems to be in stock selection and relative to value. He asked how their investment process differs from an investment firm that does stock selection that is country specific, and about the advantages of this approach.

Mr. Powers noted that their starting point in the stock selection process is looking at an entire opportunity set of stocks and discuss the stocks merits from the "bottom up", as opposed to "top down" management style that utilizes a macro view.

Ms. Adelman asked if Lazard has an average duration for which they hold a stock. Mr. Powers noted that they hold a stock on an average of two to three years.

Director Morin thanked Mr. Powers and Mr. Sands for their time and presentation.

Director Li asked for additional details on the management fees.

Mr. Tseng indicated the options were as follows:

- A. Lazard Asset Management (Lazard) Maximum annual fee of 80 basis points (BP) or \$179,917.
- B. Pyrford International PLC (Pyrford) Equity only non-U.S. mutual fund maximum annual fee of 84 BP or \$188,912.
- C. Pyrford New Hampshire Investment Trust maximum annual fee of 70 BP or \$157,427.

Lance Kjeldgaard with Hanson Bridgett LLP noted the differences between the Pyrford New Hampshire Trust option and Lazard's mutual fund option. The New Hampshire Trust is governed by New Hampshire law. The mutual fund is governed by the Department of Labor and SCC. The mutual fund can be traded daily; the New Hampshire Trust can only be traded monthly.

Mr. Tseng noted that Pyrford is registered with the SEC and DOL, they are GIPS compliant and they have Arizona Mission insurance.

Mr. Bernegger asked for clarification on the holding periods for Pyrford and Lazard.

Mr. Iseri noted that Pyrford typically has a five to seven year holding period where as Lazard typically has a two to three year holding period.

Ms. Adelman noted that Staff is seeking direction from the Boards on how they would like to proceed.

Ms. Bonnel asked if the committee had a preference toward one of the two managers.

Ms. Adelman noted that the committee preferred Pyrford.

Ms. Bonnel asked what were JP Morgan's fees prior to the fee reduction.

Ms. Adelman noted that the fee prior to the fee reduction was 70 basis points.

Ms. Bonnel asked if the Boards were interested in retaining JP Morgan. The consensus of all Boards was in the negative.

Discussion ensued.

Director Morin moved to approve the following:

#### **RECOMMENDED ACTION**

C. Adopt Resolution 17-02-\_\_\_\_, Directing Staff to Negotiate a Contract with Pyrford International PLC to Provide International Large Cap Fund Manager Services within the New Hampshire Investment Trust and Authorizing the Sacramento Regional Transit District General Manager/CEO to Execute Said Contract, in a Form Acceptable to Legal Counsel

#### **FISCAL IMPACT**

C. Pyrford – New Hampshire Investment Trust maximum annual fee of 70 BP or \$157,427

Director Li seconded the motion. Item 1, option C. was carried unanimously by roll call vote: Ayes: Directors Lonergan, Thorn, Li and Morin. Noes: None

#### **REPORTS FROM COMMITTEES**

None.

#### REPORTS, IDEAS AND COMMUNICATIONS

Ms. Bonnel noted that the March 15 Quarterly Retirement Board meeting has been moved to March 22 at 9:00 a.m. The March 15 date will be utilized for new board member orientation.

None.

The meeting was adjourned by Assistant Secretary Bonnel at 11:10 a.m.

FISCAL IMPACT

None

#### DISCUSSION

Retirement funds are invested consistent with the Statement of Investment Objectives and Policy Guidelines (Policy) adopted by each Retirement Board (Board). Under the Policy, the Boards meet at least once every eighteen (18) months with each investment manager to review the performance of the manager's investment, the manager's adherence to the Policy, and any material changes to the manager's organization. The Policy also establishes the Retirement Funds' asset allocation policy and the asset classes in which the Plans funds are invested. The asset classes established by the Policy are (1) Domestic Large Capitalization Equity, (2) Domestic Small Capitalization Equity, (3) International Large Capitalization Equity, (4) International Small Capitalization Equity, (5) International Emerging Markets, and (6) Domestic Fixed-Income.

Met West is the Retirement Boards' Domestic Fixed Income fund manager. Met West will be presenting performance results for the quarter ended December 31, 2016, shown in Attachment 1, and answering any questions.

## 4Q 2016 – Have We Entered an Economic Paradigm Shift?

• Before the U.S. presidential election, most analysts predicted that a surprise Trump victory would drive the stock market sharply lower. Instead, the expectation of increased growth and inflation fueled by potential fiscal stimulus, tax reform, and infrastructure spending by the new administration caused a general re-pricing across markets. What was a few months ago a largely consensus view of lackluster growth and low rates for the foreseeable future has now shifted to a more optimistic assessment of the U.S. economy.

10-Year Treasury yields had the largest one-day jump in more than three years immediately post-election and subsequently sold off over 60 basis points to end the year at 2.45%.

Rising yields reflect shifting expectations among investors of better growth, higher inflation, and potentially a faster pace of interest rate increases by the Federal Reserve, in contrast to the low rates and low growth narrative that has dominated market sentiment over the past several years.

The dollar surged higher in the wake of the election driven largely by higher inflation and interest rate expectations. The dollar climbed over 4% against a basket of currencies to 101.7, the highest level in over 10 years.

Higher inflation and interest rates in the U.S. would likely increase demand for U.S. dollar assets, particularly in light of divergent central bank policies abroad. However, a stronger dollar presents a significant headwind to U.S. growth.

Following the election results, equity markets rose on the expectation that potential fiscal stimulus, tax cuts, and deregulation, would lead to increased profits for U.S. corporations.

Equity markets outside of the U.S. however were down, underscoring concerns of a new protectionist U.S. policy approach.

The election exposed potential winners and losers in the immediate aftermath. With expectations of decreased regulation, banks stand to benefit. However, interest rate sensitive sectors such as **REITS** stand to lose if yields continue to rise due to a rising fiscal deficit.

Infrastructure spending boosted constructionrelated stocks and transportation companies. Transportation companies listed on the S&P Index gained over 10%.

Meanwhile, health-care companies took a hit as concerns that repealing the ACA could mean less coverage for Medicaid/Exchange covered patients, leading to lower demand for healthcare companies and providers.

Our View: The fundamental outlook for fixed income markets has not changed – we still see signs of late cycle excesses in the credit markets while central banks have little ability to lean against poor fundamentals given prevailing low rates. What was already a vulnerable environment is magnified by the significant uncertainty introduced by the election. Markets appear to have priced in only the most optimistic scenario for growth that could result from tax policy reform, deregulation, and increased fiscal stimulus. Meanwhile, the negative growth impact that could result from anti-trade and anti-immigration policies or the headwinds from a stronger dollar, higher rates, and increasing inflation has not been appropriately taken into account.

## 4Q 2016 – The Fed Delivered on Market Expectations

- On the basis of improvements in the labor market and core PCE inflation numbers that were trending toward 1.7% year-over-year, the Fed raised its target range for rates by 25 basis points in December, as was widely expected by the market. In what was viewed as a somewhat hawkish surprise, the Committee's median forecast now reflects three rate hikes in 2017, rather than two.
- Supporting the Fed's decision to hike rates in December, market expectations of long-term inflation have risen. One of the measures the Fed looks at to gauge market inflation sentiment is the 5 year inflation rate, 5 years from today. That measure has increased almost 70 basis points since the low in June this year and is back to the levels last seen in mid-2015. In its December statement, the Fed pointed to this increase, but noted that market-based measures of inflation expectations are still low.

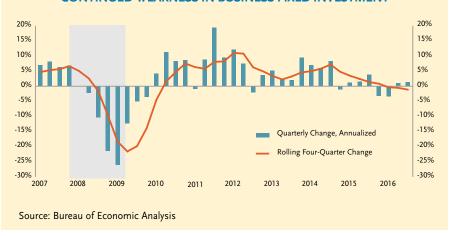

#### MARKET EXPECTATIONS OF LONG-TERM INFLATION ON THE RISE

Source: Bloomberg

- Economic growth reached 3.5% in the third quarter, supported mainly by consumer spending. However, data for the fourth quarter paints a weaker picture of the consumer as both personal income and spending were lower and wages and salaries were down 0.1%. Disappointing trade data appears to suggest that trade will be an additional drag on growth. The latest estimate from the Atlanta Fed's GDPNOW model projects 2.5% growth for the fourth quarter which, if accurate, implies that the economy only grew 2% in 2016.
- Looking ahead to 2017, one particularly worrying trend for growth prospects is the continued weakness in business fixed investment spending on structures, equipment, software, and research and development, which has been on the decline since 2014. Initially the slowdown was attributed to a decline in oil-related investment as low oil prices hurt energy related producers, but non-oil related investment has also slowed. This dynamic could shift in 2017 should tax and regulatory policy changes incentivize investment.

#### CONTINUED WEAKNESS IN BUSINESS FIXED INVESTMENT

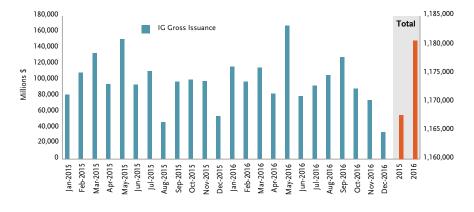

Our View: With signs that U.S. growth appears to have stabilized around 2%, expectations are for the continued normalization of rates in 2017. However, headwinds in the form of cycle-high debt levels, higher rates, a stronger dollar, and a pickup in inflation inform caution to the downside that could be exacerbated by a fiscal stimulus package that will add further to government debt levels. There is also the risk that the Fed hikes more aggressively than the market currently anticipates which would tighten financial conditions further and potentially precipitate a broader market deleveraging.

## 4Q 2016 - Investment Grade Credit Review and Outlook

- The bond market retreated considerably under the shadow of rising rates this quarter as expectations for improved growth and higher inflation that had been building since October accelerated post-election. Investment grade credit yields rose by 55 basis points with the sell-off in Treasuries. This led to a 3.0% decline in the Bloomberg Barclays Credit Index, though most sectors outpaced duration-matched Treasuries as credit spreads continued to narrow during the quarter.
- Notwithstanding the large negative return for the quarter, investment grade credit returned 5.6% for the year. Low rates fueled by supportive monetary policy drew a record \$1.2 trillion of corporate issuance in 2016, which was met by seemingly insatiable demand from yield seeking investors, both in the U.S. and abroad. Credit spreads narrowed across all sectors, but tightening was most pronounced in those that are economically sensitive or commodity dependent, recovering substantially from a very difficult 2015.

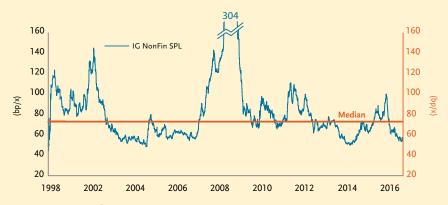

#### RECORD-BREAKING YEAR FOR INVESTMENT GRADE ISSUANCE

Source: JP Morgan

• Current valuations, however, still are not commensurate with fundamental risks that remain elevated. Leverage, a key indicator in the credit cycle, has reached record levels and has been relatively broad-based across credit markets, even excluding M&A activity. When leverage is factored into current spread levels, these risks become even more apparent, with compensation per unit of leverage now within reach of cycle tights. The sharp growth in debt, combined with relatively weak earnings over several quarters, has also driven a decline in interest coverage which has now dropped below pre-2007 levels for the first time this cycle.

#### IG SPREAD PER UNIT OF LEVERAGE (GROSS)

Source: Morgan Stanley

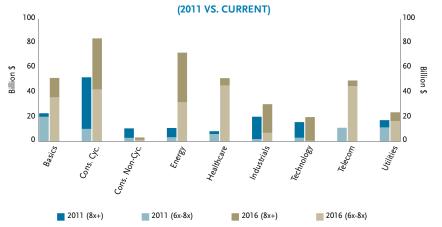

Historically, the largest declines in leverage come after a credit cycle has ended.
As such, it seems unlikely that improved growth at this point in the cycle would
result in the corporate sector to de-lever gradually. Existing headwinds to
profitability such as higher wages, weak productivity, and a stronger dollar argue
for a more typical credit-event driven deleveraging. While higher rates may indicate
a stronger economy, they may also raise overall borrowing costs which could spur
more defaults and losses in 2017.

Our View: The prospect of improving U.S. growth, higher oil prices, and continued strong foreign demand for higher-yielding U.S. credit may provide the conditions to extend the cycle further but cannot prevent the inevitable. Rising leverage and deteriorating interest coverage, particularly in an environment of tightening financial conditions, may be difficult to offset. With rising uncertainty and the risk of market volatility, we are holding higher quality and relatively shorter duration securities, with an eye toward opportunities to add solid names when levels are attractive.

## 4Q 2016 - High Yield and Bank Loan Review and Outlook

- Since hitting lows in mid-February, the high yield bond market has rallied in nearly nonstop fashion. The asset class led fixed income with a total return of 1.8% in the fourth quarter and over 17% for the year, driven by CCC-rated bonds which posted over 30% returns in 2016. Even with post-U.S. election volatility, high yield spreads held in at 400 basis points over Treasuries. However, when adjusted for potential losses, yield spreads do not provide adequate compensation for the risks.
- Despite dropping modestly from the cycle peak in the third quarter, high yield gross leverage is still near historic highs and this aggregate statistic belies the underlying metrics. More specifically, the absolute size of the 'tail' in the high yield market (i.e., the weakest cohort, those credits with 6x or worse leverage) has more than doubled since 2011. Additionally, this trend has not just been concentrated in the energy space, but broadly across different sectors.

#### ALREADY HIGHLY LEVERED SECTORS TAKE ON ADDITIONAL LEVERAGE

Source: Morgan Stanley

• While investors spent late 2015 and the better part of 2016 quoting high yield valuations in two distinct ways - high yield on the whole and high yield ex-energy - this distinction is no longer relevant. After the relentless rally in commodity paper, this cohort is now trading tighter than non-commodity high yield, a dynamic that hasn't occurred since June 2014 when oil was trading near \$100/bbl. Given that WTI Crude oil is now trading around \$50/bbl, caution is warranted in terms of downside potential for the sector.

#### HY AND HY-ENERGY SPREADS CONVERGING AT LOWER OIL PRICES

Source: Bank of America Merrill Lynch

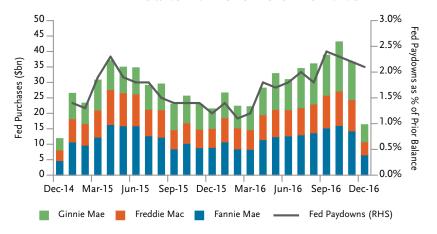

• The technical backdrop for leveraged finance has provided significant support for returns. High yield issuance was particularly light in the fourth quarter, due in part to holiday seasonality but also the sustained rise in Treasury yields which increased borrowing costs for most companies. Year-to-date issuance for developed market high yield was approximately \$236 billion, 20% below 2015's total. Meanwhile, demand was strong as reflected by inflows, markedly so for leveraged loan funds in view of a risk-on backdrop combined with investors seeking out floating rate paper amidst rising rates.

Our View: Mounting evidence that we are late in the credit cycle warrants an elevated degree of caution and a strict focus on fundamentals. While the timing is difficult to predict, valuations appear increasingly expensive. Nonetheless, we stand ready to capitalize on volatility in 2017 with sufficient liquidity to invest in opportunities, particularly in lower beta, higher quality names.

## 4Q 2016 - Agency MBS and CMBS Review and Outlook

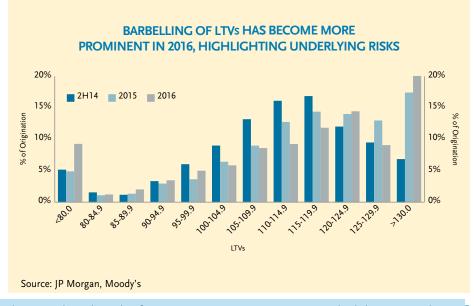

- After four consecutive months of outperformance relative to Treasuries, the November sell-off in rates overtook year-to-date gains in agency MBS, resulting in a deficit of 11 basis points for the year. In November alone, the 30-year fixed mortgage rate rose steeply from roughly 3.7% to 4.1%, and ended December near 4.3%. While higher rates reduce the likelihood of increased prepayments and temper supply, a higher term structure of interest rates and the subsequent extension in MBS average lives are headwinds to performance.
- Potentially lower origination volumes should be supportive to agency MBS valuations, though less prepayments activity also reduces the Fed reinvestment demand and offsets much of the benefit of lower supply. While the Fed has said it would reduce MBS reinvestments once the hiking process was "well under way" it is possible that the market will begin pricing in a much earlier tapering. Currently, the Fed reinvests around \$40 billion per month, which could drop regardless as a result of slower prepayment speeds. However, an end to Fed support could significantly increase MBS supply.

#### FED PAYDOWNS AND PURCHASES DECLINING

Source: Bloomberg, Barclays

- Similar to corporates, commercial MBS (CMBS) fell on a total return basis during
  the quarter, but outperformed duration-matched Treasuries and other securitized
  sectors as spreads tightened over the quarter and year. Despite a recent increase
  in supply, non-agency CMBS benefitted from declining issuance in 2016 while
  agency CMBS supply increased by over 18%. As rates increased during the
  quarter, both sectors benefitted from increased demand as yield buyers returned
  to the market.
- On the face of it, underwriting standards in the CMBS market seem to have improved, with smaller deal sizes having larger concentrations of higher quality loans, leading to better average LTVs. However, a closer look at the distribution of stressed LTVs within these smaller pools shows that issuers have sharply increased the incidence of "barbelling" within the pools, leading to large variations in loan qualities across collateral pools, increasing risks for the investor.

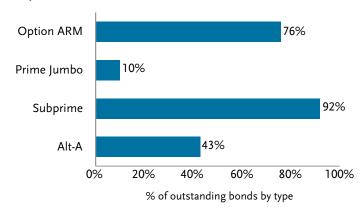

Our View: Given the late stage in the cycle, the better liquidity characteristics and minimal credit risk of agency MBS remain attractive and while increased rate volatility poses challenges for the sector, wider spreads provide an opportunity. However, caution is warranted going forward given the potential for the Fed to taper reinvestments if projected interest rate hikes for 2017 materialize. Agency CMBS, and high-quality, single asset single borrower non-agency CMBS deals continue to offer good risk-adjusted returns though care must be taken in the CMBS market to avoid weaker deals.

## 4Q 2016 – Non-Agency MBS and ABS Review and Outlook

- The non-agency MBS market had another strong year with ongoing improvements across a variety of loan fundamentals. The sector continues to benefit from increasing home prices and faster loan amortization, as a larger portion of payments from seasoned borrowers are paying down principal. As a result, the borrowers' loan-to-value (LTV) ratio continues to improve, which has led to larger year-over-year voluntary prepayments than anticipated.
- Beyond improving fundamentals, the majority of non-agency MBS coupons are floating rate and indexed to LIBOR, providing a hedge against the risks associated with a rising rate environment. As short-term rates, including LIBOR, have risen over the quarter, non-agency MBS coupons have increased, resulting in higher yields for investors. Additionally, any increase in prepayment speeds as borrowers look to lock in still low fixed rates, benefits the sector as most non-agency MBS bonds are priced at a discount.

#### MAJORITY OF NON-AGENCY MBS COUPONS ARE FLOATING RATE

Source: Intex, Morgan Stanley Research

- Asset-backed securities (ABS) fell 0.7% and posted only 3 basis points in excess return versus Treasuries as rates rose over the quarter, but ended the year ahead of Treasuries by over 90 basis points. Floating rate student loans led the ABS sector with positive returns, including FFELP bonds which benefitted from the prospect of a near-term conclusion to the rating agency review of bonds at risk of extending due to income based repayment plans. Moody's has completed its review, with ~40% of the bonds on watch affirmed at AAA, and only 8% of the remainder downgraded to below investment grade.
- While ABS issuance in 2016 exceeded last year's total by over 5%, trading volumes fell year-over-year, raising concerns about market liquidity. With supply projected to continue growing in 2017 due to a large stock of maturing debt in the credit card sector, the declining presence of primary dealers and lack of robust trading volume may create hazardous conditions for investors who have been looking for liquidity and the safety of higher-quality collateral.

#### **ABS BOND TURNOVER DECLINED IN 2016**

Our View: Non-agency MBS is still the most attractive fixed income sector available, and it will likely continue to benefit from a diminishing asset base as supply declines, as well as improving loan fundamentals, though careful analysis will be required to identify undervalued issues. Senior, short, high-quality parts of the ABS market provide an attractive alternative to corporate credit though liquidity concerns are rising and current spread levels, which are near multi-year tights, make it harder to find value across the market.

## 4Q 2016 - Global and Emerging Markets Review and Outlook

- Despite another challenging year for emerging markets with concerns about a deceleration in China's growth, economic and political turmoil in Brazil, depressed commodity prices, the Fed hiking rates, and a 5% appreciation in the dollar against a basket of currencies for the year, yield seeking investors helped emerging markets outperform the broad U.S. bond market on a currency adjusted and a local currency basis.
- Chinese economic growth, which appeared to falter in Q1 2016 sending markets into a tailspin, seems to have improved with recent strong trade and manufacturing data indicating upside risks to Q4 growth. However, concerns remain about capital outflows that have accelerated over the quarter due to the depreciation of the Chinese Renminbi (CNY) against the USD. FX reserves fell by \$69 billion in November to \$3.05 trillion, the lowest level since April 2011.

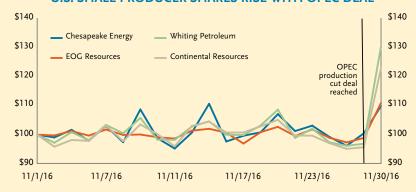

## CAPITAL FLIGHT CONTINUES AS CNY DEPRECIATES AGAINST THE DOLLAR

Source: Bloomberg

 This quarter OPEC and non-OPEC countries agreed to the first cut in global production since the late 1990s. As a result, oil rose above \$50 with expectations that prices will stabilize in that higher range. This should help combat global deflationary pressures and boost the balance sheets of oil producing emerging market countries. However, increased prices may encourage U.S. shale producers, who were not party to the deal, to increase output, adding supply to the global market.

#### U.S. SHALE PRODUCER SHARES RISE WITH OPEC DEAL

Source: Bloomberg

• With the Fed hiking rates, the divergence in policies between major central banks continued to widen this year. The Bank of Japan (BoJ) and the European Central Bank (ECB) are largely pursuing easing policies, though 2017 might reflect a turning point. The ECB recently stated it will reduce its monthly purchases from EUR 80 billion to EUR 60 billion starting in April 2017 and the BoJ shifted its monetary policy last quarter to target higher 10-Year JGB yields rather than additional QE measures. While growth remains weak across the Euro area and Japan, deflationary fears have eased.

Our View: While global deflationary pressures have eased and global growth looks to be improving, there are significant uncertainties such as, a lack of clarity around the new U.S. administration's anti-trade policies - the impact of higher U.S. rates and a stronger dollar on emerging markets, and the potential for unmanageable capital outflows in China. These developments bear watching and could challenge global markets in 2017. As a result, there is still too much uncertainty and potential for downside volatility to increase our allocation to emerging markets.

## 4Q 2016 – Core and Core Plus Strategies Positioning Summary

Caution is warranted in the current environment where asset prices remain well ahead of fundamental valuations. As such, positioning remains defensive, with a bias to add opportunistically in bendable asset classes as spreads widen.

| Characteristic   |             | Positioning                                                                                                   |             | Comments                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|------------------|-------------|---------------------------------------------------------------------------------------------------------------|-------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Duration         |             | Approximately 0.3 years shorter than the Index                                                                | <b>•</b>    | <ul> <li>Remain short duration as long as rates remain below the long-term fair value</li> <li>Look to extend duration as rates rise, with a preference for adding in the 5-year part of the curve</li> </ul>                                                                                                                                                                                                                                                                                |
| Curve            |             | Slightly favor 5-year maturities                                                                              |             | All parts of the curve bear some risk of rising rates, though 10 and 30-year maturities are more vulnerable given the current flatness of the yield curve                                                                                                                                                                                                                                                                                                                                    |
| Governments      | <b>•</b>    | Underweight with an emphasis on on-the-run securities                                                         | <b>•</b>    | <ul> <li>On-the-run securities provide greater liquidity for a small give up in yield</li> <li>May look to Treasury futures market to further enhance liquidity</li> </ul>                                                                                                                                                                                                                                                                                                                   |

# 4Q 2016 – Sector Highlight: Extracting Positive Yield From Negative Yielding Securities

Due to negative yields on Japanese Treasury bills and bonds, the demand from Japanese investors for U.S. dollar denominated securities like Treasury securities has swelled significantly. To hedge the currency risk associated with that trade, investors are forced to convert dollars to yen, driving demand for that currency swap and creating an imbalance in the market. That imbalance creates opportunities for investors willing to take the other side of the trade (i.e. converting yen into dollars) allowing them to generate additional yield in the portfolio above what could be earned by just investing in U.S. T-bills.

#### **HOW IS THE TRADE STRUCTURED?**

#### **BENEFITS**

- Compelling way to generate yield advantage versus U.S. T-bills of approximately 80 basis points in current low yield environment.
- A 3% to 4% allocation to the strategy as a cash substitute results in incremental performance gains of 3 to 4 basis points.
- Japanese government bills are a high quality, highly liquid money market instrument

Source: TCW, Bloomberg

#### **RISKS**

- Given that the trade involves the purchase of short-dated, high quality Japanese government debt, credit and interest rate risks are negligible.
- Although the Japanese bill is denominated in Yen, the currency hedge eliminates any currency risk for US investors.
- Using derivatives to hedge the currency, does introduce counterparty risk. However, these risks are largely mitigated by trading with approved, high quality counterparties, and collateralizing positions on a continuous basis.

## **Biography**

Jamie Franco Senior Vice President Client Services - Fixed Income

Ms. Franco joined the TCW Fixed Income Client Services/Product Management team in 2014 as a product specialist. Prior to joining TCW, she worked for the past 10 years at the U.S. Department of the Treasury in roles that included Senior Advisor to the Assistant Secretary for Financial Markets, International Economist, and Deputy Director of the International Banking and Securities Markets Office. She also spent two years at the International Monetary Fund as an Advisor to the U.S. Executive Director. Ms. Franco holds a BA in Political Science from The Johns Hopkins University and an MA in International Economics from Johns Hopkins School of Advanced International Studies.

#### FISCAL IMPACT

None

#### DISCUSSION

Pension funds are invested consistent with the Statement of Investment Objectives and Policy Guidelines adopted by each Retirement Board. Attached are the two investment performance reports prepared by the Boards' pension investment consultants. The first report is the Fourth Quarter 2016 Market Update (Attachment 1) and the second is the Investment Measurement Service Quarterly Review as of December 31, 2016 (Attachment 2). These reports provide a detailed analysis of the performance of each of the investment managers retained by the Retirement Boards to manage the Retirement Funds for the quarter ended December 31, 2016. The second report compares the performance of each investment manager with benchmark indices, other fund managers of similarly invested portfolios and other indices.

At the February 1, 2017 Special Retirement Board meeting, the Boards made the decision to terminate JP Morgan and move forward with the New Hampshire Investment Trust vehicle offered by Pyrford International PLC (Pyrford). Staff is currently working with legal counsel to review all of the subscription documents. Staff anticipates investment in Pyrford by July 1, 2017 barring any contract negotiation delays.

#### **Investment Compliance Monitoring**

In accordance with the Statement of Investment Objectives and Policy Guidelines for the Sacramento Regional Transit District Retirement Plans (Investment Policy), State Street Bank performs daily investment compliance monitoring on the Plans' three (3) actively managed funds. As of December 31, 2016, there were no compliance warnings or alerts to be reported; therefore, the investments are in compliance with the Investment Policy. The final attached report includes the monitoring summary (Attachment 3).

## **Economic Commentary**

#### Fourth Quarter 2016

#### Inflation Year-Over-Year

Source: Bureau of Economic Analysis

Source: Bureau of Labor Statistics

- The U.S. economic picture continued to improve during the final quarters of 2016. Third quarter GDP was revised up to 3.5% (1.7% year-over-year), the sharpest quarterly increase in two years. Growth was supported by exports, inventories, and consumer spending.
- Job growth averaged 165,000 in the fourth quarter and totaled 2.2 million in 2016, down from 2.7 million in 2015. Unemployment reached a nine-year low of 4.6% in November before ticking up slightly to 4.7% in December. The labor force participation rate remained range bound at 62.7%. Expectations of higher inflation from wage growth resurfaced as average hourly earnings increased 0.4% in December and are up 2.9% over the year.
- Inflation, while still tame, is rising. For the trailing 12 months ended December, headline CPI was +2.1%, the most since 2014, and Core CPI (excluding food and energy) was slightly higher at +2.2%.

# Fourth Quarter 2016

### Regional Quarterly Performance (U.S. Dollar)

- During the final quarter of 2016, foreign developed and emerging markets floundered in U.S. dollar terms despite hearty local returns. The U.S. dollar hit a multi-year high versus the euro and the yen and appreciated roughly 7% compared to a basket of currencies.
- Dollar strength eroded overseas returns for U.S. investors. The MSCI ACWI ex USA was down 1.3% for the quarter (but up 4.9% in local currency). Despite multiple headwinds, the index ended the year on a positive note, up 4.5%.
- Despite the Emerging Markets Index's decline during the quarter, it jumped a robust 11.2% during 2016, supported by strengthening commodity prices, reform efforts and accommodative monetary policies in several countries.

# Fourth Quarter 2016

### **U.S. Treasury Yield Curves**

#### **Historical 10-Year Yields**

Source: Bloomberg

- Markets entered 2016 expecting four rate hikes, but the Fed increased the Federal Funds rate only once, by 25 bps to a range of 0.50%-0.75% in December. While the increase was expected, Treasuries still sold off and pushed interest rates upward following the announcement.
- The yield curve rose given encouraging economic data and the potential inflationary effect of the new administration's pro-growth agenda.
- Yields rose sharply across the maturity spectrum. The benchmark 10-year Treasury Note showed the biggest change, ending the quarter at 2.45% (an increase of 85 bps and the largest quarterly increase since 1994). Yields on the 5-year and 30-year finished at 1.93% and 3.07%, respectively.

Fourth Quarter 2016

# A Sentimental Journey

ECONOMY

Real GDP grew 1.9% in the fourth quarter and 1.6% for the year. The dollar strengthened, raising the cost of exports. The unemployment rate stood at 4.7% at the end of the year, the lowest since August 2007.

### **Friends Mattered**

FUND SPONSOR

Funds faced a tough fourth quarter. Taft-PAGE Hartley plans fared best, up 1.20%, while corporate funds had the weakest returns, falling 0.09%. Results stemmed primarily from how they chose "friends" in the securities markets.

### **Election Rally**

U.S. EQUITY

The S&P 500 Index hit an all-time high during the quarter and ended up 3.82% amid a bullish rally in the wake of the presidential election and a string of encouraging economic reports. Value dominated growth during the quarter, and small cap particularly benefited from Trump-fueled enthusiasm.

## A Depressing Dollar

NON-U.S. EQUITY

The dollar's strength hampered returns for U.S. investors from non-U.S. equity markets in the fourth quarter; local investors fared better. For the year most world stock markets posted positive results, driven by economic improvements, accommodative central bank policies, and price hikes for commodities.

# Treacherous Treasuries

U.S. FIXED INCOME

The Bloomberg
Barclays U.S.
Aggregate Bond Index

fell 2.98% during the tumultuous quarter, but ended up 2.65% for the year. Rising yields sent returns across the fixed income sector down for the quarter, and spreads tightened as record new bond issuances met strong global demand.

# **Big-League Yields**

NON-U.S. FIXED INCOME

Yields overseas increased and the dollar surged, weighing heavily on sovereign debt performance. The Bloomberg Barclays Global Aggregate ex US fell 10.26%. Geopolitical risk dominated the quarter, with the U.S. election, the Brexit vote, and a referendum in Italy.

## Rates Trump Fundamentals

REAL ESTATE

The NCREIF Property Index again turned in its worst performance since the first quarter of 2010, and the NCREIF Open End Diversified Core Equity Index barely eclipsed the third quarter's five-year low return. U.S. REITs outperformed global REITs, but still posted negative returns.

# Down but Far From Out

PRIVATE EQUITY

Company investments and exits trended down during the year and the quarter for both buyouts and venture capital, but activity continued at relatively high levels (except for IPOs). The one other anomaly was that the announced dollar volume for buyouts in 2016 reached an eight-year high.

# Making Alpha Great Again

**HEDGE FUNDS** 

The Credit Suisse
Hedge Fund Index
advanced 1.15% in the
quarter, while the Callan Hedge
Fund-of-Funds Database, a proxy
for live portfolios, grew 1.33%.
The best-performing strategy was
Global Macro (+4.59%), while
Managed Futures (-5.65%) took the
worst hit.

### A Case of the Jitters

DEFINED CONTRIBUTION

The average DC plan gained 3.92% in the third quarter, as measured by the Callan DC Index™, but trailed the Age 45 Target Date Fund's return of 4.53%. Plan balances grew 3.67%, although money flowed out of plans on a net basis at the highest level since the third quarter of 2006.

# A Sentimental Journey

#### **ECONOMY** | Jay Kloepfer

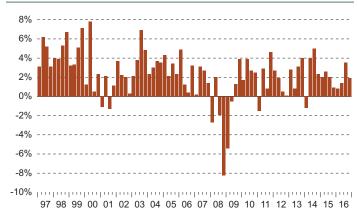

Last year turned out to be a tumultuous one, with two essentially non-economic events jolting the capital markets for reasons solely related to investor sentiment: the U.K. Brexit vote in June and the U.S. presidential election in November. In both instances, wild swings in sentiment and in confidence about the future moved markets around the globe without regard to the underlying economic data. Interest rates and the stock market were taken on a wild ride through the year, with stocks plunging through the summer and then surging following the U.S. election, and interest rates sliding while bonds rallied, only to see rates head back up in a hurry in November and December. This journey was driven almost entirely by sentiment rather than any sudden changes in economic fortune or financial fundamentals.

Real GDP growth in the U.S. came in at a modest 1.9% in the fourth quarter, down from the 3.5% gain in the third quarter. Combined with the weak growth in the first two quarters, total GDP growth for the year was 1.6%, down from the 2.6% gain in 2015. A sustained inventory correction that began in 2015 hung a black cloud over business sentiment during the first half of 2016, and the lingering effect of the bust in energy-sector investment spurred by the collapse in oil prices in 2015 held back economic growth for much of the year. The dollar strengthened over the course of the year, raising the cost of U.S. exports. The stronger dollar combined with anemic growth in Europe and Japan and slowing growth in developing markets held back demand for U.S. exports, while suppressing the cost of imports and driving demand for them higher. Imports are a negative in the GDP calculation and weigh on the measure of total GDP growth. As a result, net exports (exports minus imports) subtracted a hefty 1.7% from GDP growth during the fourth quarter, a reduction equal to the 1.7% gain provided by growth in consumption, which accounts for 70% of total GDP.

One bright spot in the fourth quarter GDP report was a rebound in fixed non-residential investment, which means capital spending: equipment, structures, and intellectual property. To give an

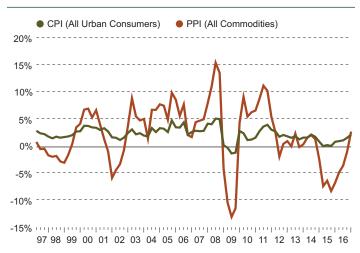

(20 Years)

#### Inflation Year-Over-Year

Source: Bureau of Labor Statistics

idea of just how depressed the domestic oil and gas industry got, the drilling rig count published by Baker Hughes dropped to a 71-year low of 404 in May 2016; the count rebounded to more than 650 by the end of the year, as energy prices appear to have moved off of a bottom. The downward pressure on capital spending from energy has therefore abated, and capital spending was further aided in the third and fourth quarters by a rebound in aircraft investment.

Consumption spending rose 2.5%, leading GDP gains, supported by gains in real disposable income and household net worth. As the year drew to a close, household finances appeared to be in great shape on an aggregate basis, helped by the post-election stock market rally, rising home prices, and almost a decade of restraint in consumer borrowing. Consumer sentiment indices took big hits in October as the U.S. election loomed, only to spike back up in November and December to levels last seen in 2004. The job market has cooperated, showing a strong 204,000 gain in November after a weak October report, and adding another 156,000 in December. The unemployment rate is now 4.7%, near a nine-year low and well below any target once articulated by policymakers as sufficient to handle a rise in interest rates.

With the economy at or near full employment, interest in inflation has perked up once again, although the measures of inflation remain relatively benign. The headline all-urban CPI was up 2.1% in December year-over-year, and core inflation (less food and energy) rose 2.2%, while the GDP deflator used by the Fed to target inflation was up 2.2%. Energy prices dragged down headline inflation until the second half of 2016, when the energy index increased for four consecutive months through December. Tight labor markets, confident consumers, and a potential for continued capital spending all point to the chance for inflation to move beyond the 1% to 2% range in which it has been bound for the past several years; countering this upward pressure is the strong U.S. dollar, which allows the U.S. to import deflationary pressure through falling import prices.

## **Friends Mattered**

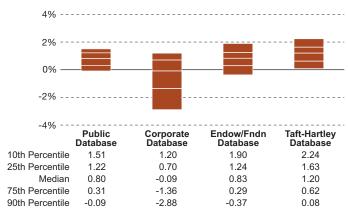

#### FUND SPONSOR | Kitty Lin

The surprising election results in the U.S.—and the unsurprising December interest rate hike—spurred a significant divergence in U.S. securities markets. Despite some predictions otherwise, U.S. stocks caught fire with the election of what investors saw as a pro-business president who will lower taxes and cut regulations. U.S. fixed income markets, on the other hand, were sharply lower as they prepared for higher interest rates in the future.

These events had a significant impact on the results of institutional funds tracked by Callan, as all types experienced weaker performance compared to the previous quarter. According to Callan's database, the median return for all fund types was +0.65% in the fourth quarter, compared to +3.44% in the third. But how funds did depended on how well they chose their "friends" in the markets. Corporate plans performed the worst with a -0.09% return and Taft-Hartley plans the best at +1.20%.

Taft-Hartley plans saw better results because they had higher allocations to U.S. equity than other plan types, and the lowest among all types to non-U.S. equity. The **S&P 500 Index** jumped 3.82% for the quarter, while the **MSCI ACWI ex USA Index** dropped 1.25%. Although non-U.S. equities helped performance in the third quarter, major upcoming elections in Europe and Asia may have contributed to the shift in sentiment, contributing to the lackluster performance by stocks in the fourth quarter.

### Callan Fund Sponsor Returns for the Quarter

Source: Callan

On the other end of the spectrum, the weak performance by corporate plans may have stemmed from their higher allocations to U.S. fixed income. While Taft-Hartley plans had an average of 25% of their portfolios allocated to U.S. fixed income, corporate plans had an average of 40%, and the lowest allocation to U.S. equity among the types of plans Callan tracks. The **Bloomberg Barclays U.S. Aggregate Index** was off 2.98% for the quarter, whereas the **Russell 2000 Index** jumped 8.83% and the **Russell 1000 Index** rose 3.83%. Although corporate plans had a tough fourth quarter, they topped all other institutional funds in the past year with a +7.88% return. In addition to their solid

# **Election Rally**

#### U.S. EQUITY | Lauren Mathias, CFA

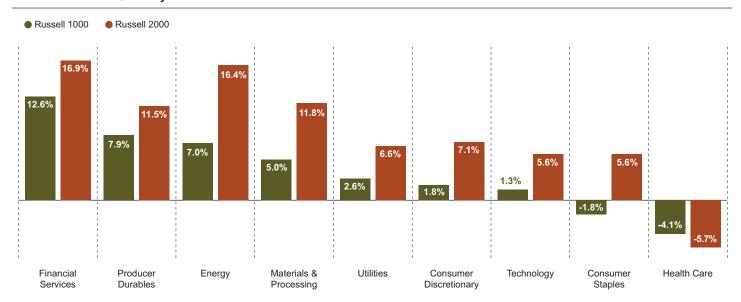

The **S&P 500 Index** notched a +3.82% return for the fourth quarter after reaching an all-time high (2,239) just days before the end of 2016. Even more impressive was the return from small-capitalization companies (**Russell 2000 Index**: +8.83%), as was the divergence between value and growth across the size spectrum (**Russell 1000 Value Index**: +6.68% vs. **Russell 1000 Growth Index**: +1.01%; **Russell 2000 Value Index**: +14.07% vs. **Russell 2000 Growth Index**: +3.57%).

The market in the fourth quarter was trumped by politics as the incoming administration promised to lower personal and corporate income taxes, decrease business and environmental regulation, and increase infrastructure spending. Investors appeared to approve; November saw the highest monthly return of the quarter (+3.70%). Other tailwinds furthered the frenzy, including upwardly revised third-quarter GDP (to +3.5%), subdued initial jobless claims, unemployment at the lowest level in nine years (4.6%), average wage growth of 2.9% in December,

and a surging U.S. dollar; home and automobile prices hit all-time highs, as did consumer confidence. In light of the progress, the Fed Funds rate was increased in December to a range of 0.50% to 0.75%. There are still pockets of uncertainty, however; across the pond the European Central Bank continued quantitative easing and back at home a Trump government could mean higher debt and subsequently inflation. Sentiment is nonetheless revved up, at least for now.

U.S. equity was the preferred market globally; small cap particularly benefited from Trump-fueled enthusiasm. Micro and small capitalization companies outpaced mid and large cap stocks (Russell Microcap Index: +10.05%, Russell 2000 Index: +8.83%, Russell Midcap Index: +3.21%, and Russell 1000 Index: +3.83%). Value regained its lead over growth in all capitalizations; the dispersion in style returns was broad across market capitalizations, with the widest (1,050 bps) in small cap (Russell 2000 Value minus Russell 2000 Growth)—the most since the technology bubble burst in 2001.

#### **Economic Sector Quarterly Performance**

Source: Russell Investment Group

Note: As of the fourth quarter of 2015, the Capital Market Review reports sector-specific returns using the Russell Global Sectors (RGS) classification system rather than the Global Industry Classification Standard (GICS) system. RGS uses a three-tier classification system containing nine sectors; GICS uses a four-tier system containing 11 sectors.

#### U.S. EQUITY (Continued)

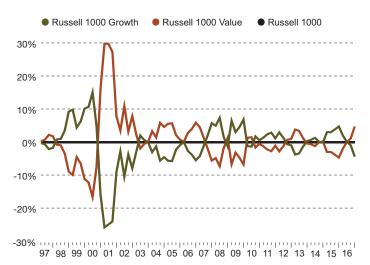

Sector performance reflected the style shift; the best-performing sectors in the S&P 500 during the quarter were value-oriented, including Financials (+21.10%), Energy (+7.28%), and Materials (+4.70%). Within Financials, banks did especially well, benefiting from both an increase in interest rates and talk of deregulation. The Organization of Petroleum Exporting Countries (OPEC) agreed on oil production cuts in the quarter, boosting Energy stocks. In general, investors preferred companies with lower leverage and higher operating margins and return on equity. The growth-oriented, momentum areas of the market declined, including Health Care (-4.00%) and Consumer

Staples (-2.02%). The new Real Estate sector, representing 2.9% of the S&P 500, finished the quarter down 4.41% as these investments tend to move in the opposite direction of interest rates.

U.S. equity valuations were elevated; the S&P 500 Index Forward P/E was 16.9x at the end of the year versus the 25-year average of 15.9x. In this environment active managers were challenged; outflows from this group have totaled over \$1 trillion since 2005. However, a future with more volatility, lower returns, and higher interest rates should favor active management.

# A Depressing Dollar

#### NON-U.S. EQUITY | Irina Sushch

During the final guarter of 2016, foreign developed and emerging markets floundered in U.S. dollar terms despite hearty local returns. Donald Trump's election drove U.S. stocks to record highs, as investors reacted positively to his business-friendly stances on taxes, trade, and regulations. The U.S. dollar hit a multi-year high versus the euro and the ven and appreciated roughly 7% compared to a basket of currencies.

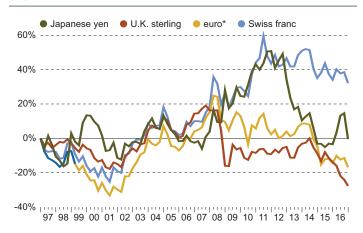

That broad-based dollar strength detracted from overseas returns for U.S. investors. The MSCI ACWI ex USA Index was down 1.25% for the guarter (but up 4.93% in local currency). As in the previous quarter, the defensive-oriented sectors dragged down returns (Consumer Staples: -10.09%, Health Care: -8.08%, REITs: -7.90%, Utilities: -7.19%). The interest ratesensitive sectors helped limit the damage (Energy: +8.32%, Financials: +6.84%).

In dollar-denominated results, emerging markets (MSCI Emerging Markets Index: -4.16%) trailed their developed peers (MSCI World ex USA Index: -0.36%, MSCI EAFE Index: -0.71%). The MSCI ACWI ex USA Value Index (+3.29%) fared much better than the MSCI ACWI ex USA Growth Index (-5.72%). Small cap stocks joined growth and emerging market stocks at the bottom of the barrel (MSCI ACWI ex USA Small Cap Index: -3.52%). Despite multiple headwinds, the MSCI **ACWI ex USA Index** ended the year up 4.50%.

The European Central Bank announced that it would extend its bond purchase program, although it plans to lower investments from €80 billion to €60 billion per month. The unemployment rate in the euro zone declined to 9.8%, the lowest since July 2009. Consumer prices ticked up 0.6% year-over-year in November, and GDP was on track to increase at a 0.4% to 0.5% pace from 0.3% in the third quarter, based on early indications ahead of the release of the official figures in early 2017. Against this backdrop, the MSCI Europe Index rose 5.44% in the fourth quarter and 7.23% during the year for local investors; however, in U.S. dollar terms, the Index was essentially flat for the quarter

and year (-0.40% for both periods). Italy (+10.75%) led the pack during the guarter, while Belgium (-11.80%) brought up the rear. Across the euro zone, economically sensitive Financial (+11.45%) and Energy (+11.16%) stocks posted healthy returns, while defensively oriented REIT (-9.96%) and Utility (-9.40%) stocks faltered.

#### NON-U.S. EQUITY (Continued)

In Southeast Asia and the Pacific, Japan's stimulus measures boosted returns for local investors (+14.99%). But the dollar hit a 14-year high versus the yen, hammering returns for U.S. investors (-0.16%). New Zealand had a rough quarter (-10.88%), although it closed out the year up 18.37%. Australia was the only country in the region to end the quarter in the black, up 0.69% (and +11.45% for the year), buoyed by rebounding commodity prices and higher interest rates. The MSCI Pacific Index slumped 1.03% for the quarter, but rose for the year (+4.18%).

Despite the MSCI Emerging Markets Index's decline during the quarter, it jumped a robust 11.19% during 2016, buttressed by strengthening commodity prices as well as reform efforts and accommodative monetary policies in several countries. Russia, up 18.56% in the quarter and 54.82% for the year, and Brazil, up 2.05% in the quarter and 66.24% for the year, benefited richly from rising prices for oil and industrial commodities. China fell

during the quarter (-7.07%) but ended the year essentially flat (+0.90%). Most emerging Asian markets gained ground during the year (MSCI EM Asia: +6.14%), despite a rough fourth quarter (-6.06%), driven by economic reform and technology stocks. Mexico dropped 7.88% for the quarter and 9.16% for the year, hurt by peso weakness and Trump's election.

#### **Treacherous Treasuries**

#### U.S. FIXED INCOME | Rufash Lama

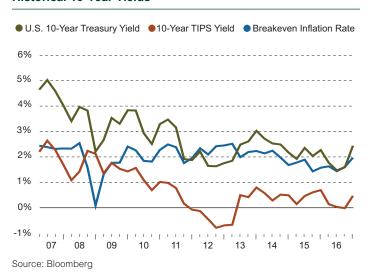

The U.S. bond market experienced a tumultuous fourth quarter, triggered by the unexpected election results and strong economic data, among other factors. The Bloomberg Barclays U.S. Aggregate Bond Index dropped 2.98%, while the Bloomberg Barclays High Yield Index rose 1.75%. But the year ended on an upbeat note, with the Aggregate up 2.65% and the High Yield Index delivering equity-like returns at 17.13%.

The yield curve rose following the presidential election and an upward revision for third-quarter GDP to 3.5%, the highest quarterly increase in two years. Yields rose across the maturity spectrum. The benchmark 10-year Treasury note showed the biggest change, ending the quarter at 2.45% (an increase of 85 bps). Yields on the 5-year and 30-year finished at 1.93% and 3.07%, respectively.

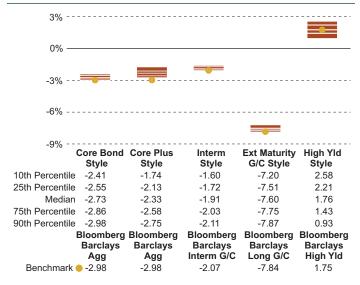

Markets entered 2016 expecting four rate hikes, but the Fed increased the Federal Funds rate only once, by 25 bps to a range of 0.50% to 0.75% in December. As a result of rising yields, returns across the broad fixed income sector were negative for the quarter. Tax-exempt municipal bonds and Treasuries dropped 3.62% and 3.84%, respectively. On a duration-adjusted basis, Treasuries underperformed credit securities by 156 bps. Long Treasuries were hit particularly hard, falling 11.67%.

Spreads tightened during the quarter. Investment-grade corporate spreads over comparable Treasuries tightened 42 bps and ended the year at 123 bps—a stark contrast to the first half of the year, in which spreads had widened up to 214 bps in February.

#### U.S. FIXED INCOME (Continued)

Corporates declined 2.8% for the quarter, but generated a strong return (+6.11%) for the year. On a duration-adjusted basis, long credit outperformed intermediate credit by 330 bps. Despite a slow start, high yield corporates made a powerful comeback to end the year on a strong note; they delivered 407 bps of excess returns for the quarter. Mortgage-backed securities (MBS), plagued by rate volatility and elevated prepayment concerns, fell 1.97% for the guarter (but were up 1.67% for the year) and underperformed duration-matched Treasuries by 39 bps. Asset-backed securities (ABS) were off 0.70% for the quarter but up 2.03% for the year. Commercial mortgage-backed securities (CMBS) experienced a similar divergence, falling 3.03% in the guarter but rising 3.32% over the year.

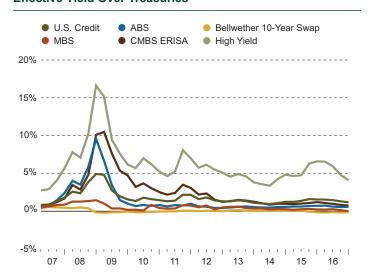

In 2016, U.S. corporations set a milestone with new high yield and investment-grade issuances that totaled \$1.5 trillion. The municipal bond market also set a record with new offerings totaling \$445 billion.

#### NON-U.S. FIXED INCOME | Kyle Fekete

The U.S. dollar skyrocketed against a trade-weighted basket of currencies on the back of the November U.S. election and higher U.S. interest rates. Investment strategies with foreign currency exposure faced strong headwinds as the Bloomberg Barclays Global Aggregate ex US fell 10.26% (-1.86% on a hedged basis).

Continuing 2016's anti-establishment geopolitical theme, Italians voted against reforms proposed by the government, leading to Italian President Matteo Renzi's resignation. In December, European Central Bank President Mario Draghi announced the extension of its stimulus program out to December 2017; however, the bond buying will be dialed

\*Weight in the Citi Non-U.S. World Government Bond Index. Source: Citigroup

back to €60 billion per month, down from €80 billion. The quantitative easing program reached approximately €1.7 trillion in 2016, and should top €2.2 trillion by the end of 2017.

Yields on 10-year German government bonds increased to 0.21%, 224 bps below that of the 10-year Treasury. The U.S./ German 10-year debt spread reached the widest it has been since 1990. The euro declined 6.14% against the dollar.

Ahead of the uncertainty surrounding the Brexit process, the Bank of England (BOE) elected to hold the benchmark rate at 0.25% and maintain the same rate of bond purchasing, saying the sterling's recent appreciation against the euro may curtail inflation. The U.K. 10-year yield jumped 49 bps to 1.24% and the sterling declined 4.9% against the dollar. Changes to Japan's monetary policy were also put on hold as the unemployment rate reached a healthy level and a weakened yen stood poised to boost potential earnings growth. The Bank of Japan upheld its pledge to keep the yield of 10-year Japanese debt near 0%; its yield settled at 0.05%.

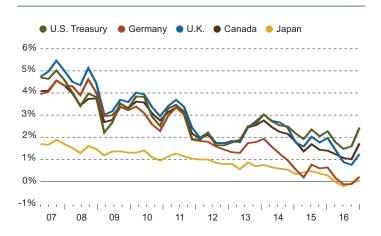

Emerging market debt weakened and underperformed developed markets. The local currency-denominated JP Morgan GBI-EM Global Diversified Index fell 6.09%. The USDdenominated JPM EM Global Diversified Index fell 4.02%.

# **Rates Trump Fundamentals**

#### REAL ESTATE | Kevin Nagy

The NCREIF Property Index advanced 1.73% during the fourth quarter (1.14% from income and 0.59% from appreciation). This was the lowest return since 2010, eclipsing the third quarter's mark of 1.78%. Appreciation fell for the seventh consecutive quarter.

Industrial (+2.89%) was the best-performing sector for the third guarter in a row and Apartments (+1.67%) and Retail (+1.65%) also posted strong relative returns; Hotels (+0.37%) were the worst performers. The West region posted the strongest results (+2.22%), and the Midwest was the weakest (+1.29%). Transaction volume totaled \$14 billion, the highest on record, a 45% jump over the previous quarter, and a 24% increase over the same period in 2015. Appraisal capitalization rates fell to 4.43%, a new all-time low, undercutting the third quarter's 4.48%. Transaction capitalization rates fell sharply from 6.2% to 5.7% in the fourth guarter, tightening the spread between appraisal and transactional rates to 123 basis points.

Occupancy rates stayed steady at 93.22%, a 15-year high hit in the third quarter. For the second straight quarter Retail and Apartment occupancy rates fell slightly, and Industrial and Office rates increased.

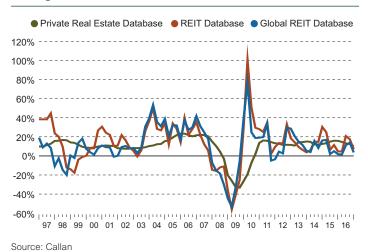

The NCREIF Open End Diversified Core Equity Index rose 1.88% (0.84% from income and 1.04% from appreciation). This marked a 5 bps increase over the third guarter return of 1.83%, which was the lowest for the Index since 2010. Income returns fell slightly, but appreciation bounced back from a five-year low in the third quarter.

Global real estate investment trusts (REITs), tracked by the FTSE EPRA/NAREIT Developed REIT Index (USD), lagged behind their U.S. counterparts and dropped 5.39%. U.S. REITs, as measured by the FTSE NAREIT Equity REITs Index, lost 2.89% for the quarter.

In the U.S., REITs started the quarter with a sharp decline due to an increase in interest rates. Donald Trump's surprise victory in the presidential election sent rates even higher and further punished many REIT sectors, especially those that represent a higher weight in the Index. Health Care (-10.80%) was the worst performer, hammered by the possibility that the incoming Republican administration would repeal the Affordable Care Act. Retail (-10.73%) and Infrastructure (-6.95%) also suffered large losses. The biggest winner for the quarter was the Hotel sector, which skyrocketed 20.39% with the election of Donald Trump, a hotelier. Specialty (+6.67%) and Data Centers (+0.82%) were other strong-performing sectors for the quarter. Politics and interest rates drove some REIT valuations downward, despite generally strong fundamentals.

Political issues also impacted the European market. Fears of a hard Brexit slowed transaction volume in the U.K., despite strong economic data suggesting that the economy was still on track. On the continent, pricing and transactions were weighed down by fears of an Italian banking crisis and uncertainty concerning France's upcoming elections.

## Down but Far From Out

#### PRIVATE EQUITY | Gary Robertson

Based on preliminary data, private equity funds raised \$281 billion in 2016, a moderate \$24.2 billion (9%) increase over 2015, and 783 partnerships were formed, up by 101 (15%) over the previous year, according to Private Equity Analyst.

In the fourth guarter, commitments totaled \$86.9 billion and 267 funds were created. The amount raised skyrocketed by 125% compared to the third quarter's \$38.6 billion, and the number of new funds jumped by 87% from the prior quarter's 143.

Private equity firms purchased 1,728 companies in 2016, down 14% from 2,006 in 2015, according to Buyouts newsletter. The year's announced dollar volume was \$163.2 billion, an eight-year high and up 39% from \$117.5 billion in 2015. The fourth quarter saw 322 transactions, down from 385 in the third quarter, and disclosed dollar volume totaled \$28.3 billion, down from \$39.0 billion.

The year produced 8,136 rounds of new investment in venture capital companies, down 22% from 2015's 10,468, according to the National Venture Capital Association. The announced volume of \$69.1 billion for the year was down 13% from \$79.3 billion in 2015. Fourth quarter VC investments totaled 1,744 rounds and \$12.7 billion of announced financing, down from 1,979 rounds and \$15.7 billion in the previous quarter.

Buyouts reports that 2016's 505 private M&A exits of buyoutbacked companies was down 11% from the 567 in 2015. The year's aggregate disclosed M&A exit values of \$85.7 billion was down 35% from 2015's \$131.4 billion. In the fourth quarter, there were 105 M&A exits, and announced values totaled \$18.1 billion, down from 142 exits totaling \$27.5 billion in the third quarter. There were three buyout-backed IPOs, with a total value of \$2.0 billion, and eight for the full year, raising a total of \$4.1 billion.

Venture-backed M&A exits for the year totaled 687, down 22% from 884 in 2015, with announced values of \$43.9 billion, up 3.8% from \$42.3 billion in 2015. The guarter had 184 exits with announced values totaling \$7.52 billion, compared to 192 and \$13.4 billion in the third quarter. The year produced 39 venturebacked IPOs raising \$2.9 billion, down from the 77 IPOs in 2015 that raised \$8.1 billion.

# **Making Alpha Great Again**

### **HEDGE FUNDS | Jim McKee**

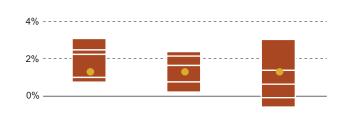

In the wake of the U.S. presidential election, the reflation trade exploded as U.S. stocks jumped and Treasuries were dumped. The dollar also strengthened dramatically. During this rapid market paradigm shift, the average hedge fund appeared to gain little over embedded betas, as most conservatively positioned their gross and net exposures going into the election. However, the hedge fund community will likely see a combination of more fiscal policy and less monetary policy as a better trading environment.

Representing the average fund's performance without implementation costs, the **Credit Suisse Hedge Fund Index** (CS HFI) rose 1.15% in the fourth quarter. As a proxy for live portfolios, the median manager in the **Callan Hedge Fund-of-Funds Database** advanced 1.26%, net of all fees.

Within CS HFI, the best-performing strategy was *Global Macro* (+4.59%), aided by a stronger dollar. *Distressed* gained 3.57%. The sharp reversals following the election across currencies, rates, and equities upset the trend-following mantra of *Managed Futures* (-5.65%). *Long/Short Equity* (-0.20%) was also caught flat-footed by the unexpected Trump effect.

Within Callan's Hedge Fund-of-Funds Database, market exposures marginally affected performance in the fourth quarter. Aided by tightening credits and supportive fundamentals, the median *Callan Absolute Return FoF* (+2.23%) outpaced the *Callan Long/Short Equity FoF* (+0.64%). With diversifying exposures to both non-directional and directional styles, the *Callan Core Diversified FoF* gained 1.64%.

## A Case of the Jitters

#### **DEFINED CONTRIBUTION | Tom Szkwarla**

The average defined contribution (DC) plan gained 3.92% in the third guarter of 2016, as measured by the Callan DC Index™. Still, the Index trailed the Age 45 Target Date Fund the average of target date funds that would be selected by participants age 45 and retiring at age 65—which gained 4.53%. Since inception, the DC Index's annual return of 5.41% has trailed the Age 45 Target Date Fund by 74 basis points.

During the third quarter, DC plan balances grew by 3.67%, driven entirely by market returns. Participants appeared to be jittery; money flowed out of plans on a net basis, reducing total balance growth by 25 basis points. The quarter's outflows were the highest since the third quarter of 2006. And third quarter turnover (i.e., net transfer activity levels within DC plans) in the DC Index came in at 0.82%, its highest level since the third quarter of 2012.

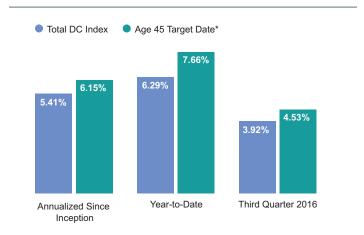

Stable value experienced its fifth quarter in a row of net inflows and the highest of the five—during the period. Meanwhile, U.S. large, small, and mid cap equity saw significant outflows. Even non-U.S. equity experienced outflows, despite its exceptional performance during the quarter. Target date funds held fast; for the third guarter, over 55 cents of every dollar that moved within DC plans flowed to TDFs. Target date funds now make up 27.7% of the average DC plan.

The Callan DC Index's overall equity allocation ended the quarter at 68%, modestly above the Index's historical average (67%).

Target date funds are less prevalent than U.S. large cap equity; however, when target date funds are available in a DC plan, they hold a much greater portion of assets (32%) than U.S. large cap equity funds (23%).

The Callan DC Index is an equally weighted index tracking the cash flows and performance of nearly 90 plans, representing more than one million DC participants and over \$135 billion in assets. The Index is updated quarterly and is available on Callan's website, as is the quarterly DC Observer newsletter.

# Quarterly Total Fund Relative Attribution - December 31, 2016

The following analysis approaches Total Fund Attribution from the perspective of relative return. Relative return attribution separates and quantifies the sources of total fund excess return relative to its target. This excess return is separated into two relative attribution effects: Asset Allocation Effect and Manager Selection Effect. The Asset Allocation Effect represents the excess return due to the actual total fund asset allocation differing from the target asset allocation. Manager Selection Effect represents the total fund impact of the individual managers excess returns relative to their benchmarks.

# **Cumulative Total Fund Relative Attribution - December 31, 2016**

The charts below accumulate the Total Fund Attribution Analysis (shown earlier) over multiple periods to examine the cumulative sources of excess total fund performance relative to target. These cumulative results quantify the longer-term sources of total fund excess return relative to target by asset class. These relative attribution effects separate the cumulative sources of total fund excess return into Asset Allocation Effect and Manager Selection Effect.

# Total Fund Period Ended December 31, 2016

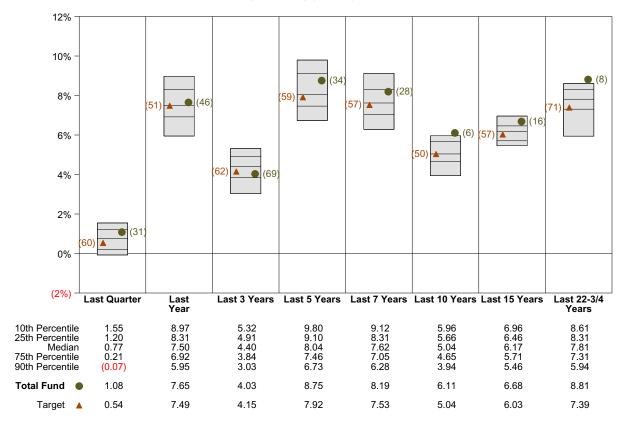

### **Investment Philosophy**

\* Current Quarter Target = 35.0% Barclays Aggregate Index, 32.0% S&P 500 Index, 19.0% MSCI EAFE Index, 8.0% Russell 2000 Index and 6.0% MSCI Emerging Mkts Idx.

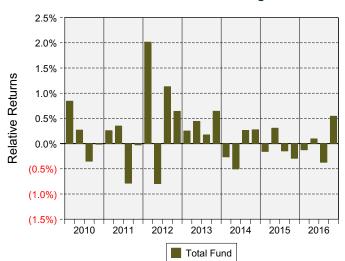

### **Quarterly Summary and Highlights**

- Total Fund's portfolio posted a 1.08% return for the quarter placing it in the 31 percentile of the CAI Public Fund Sponsor - Mid (100M-1B) group for the quarter and in the 46 percentile for the last year.
- Total Fund's portfolio outperformed the Target by 0.55% for the quarter and outperformed the Target for the year by 0.16%.

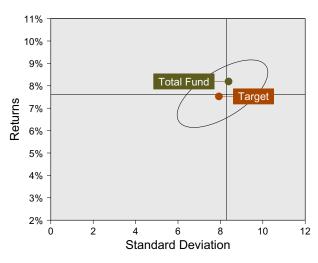

### Performance vs CAI Public Fund Sponsor - Mid (100M-1B) (Gross)

#### Relative Return vs Target

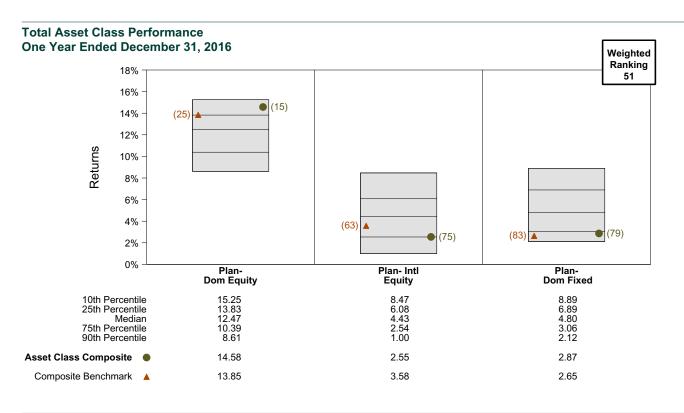

# CAI Public Fund Sponsor - Mid (100M-1B) (Gross) Annualized Seven Year Risk vs Return

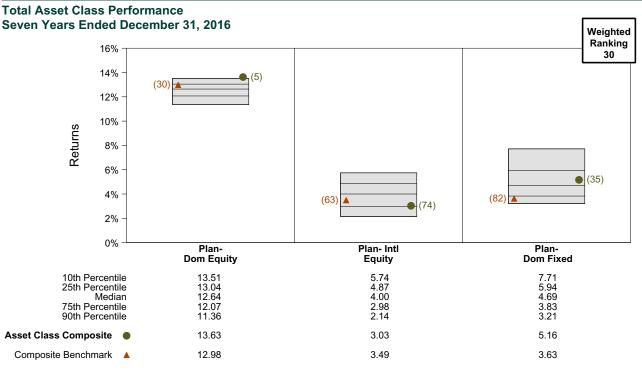

# **Asset Class Rankings**

The charts below show the rankings of each asset class component of the Total Fund relative to appropriate comparative databases. In the upper right corner of each graph is the weighted average of the rankings across the different asset classes. The weights of the fund's actual asset allocation are used to make this calculation. The weighted average ranking can be viewed as a measure of the fund's overall success in picking managers and structuring asset classes.

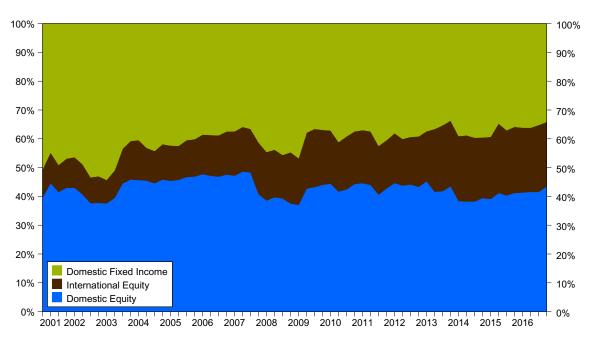

<sup>\*</sup> Current Quarter Target = 35.0% Blmbg Aggregate Idx, 32.0% S&P 500 Index, 19.0% MSCI EAFE, 8.0% Russell 2000 Index and 6.0% MSCI EM Gross.

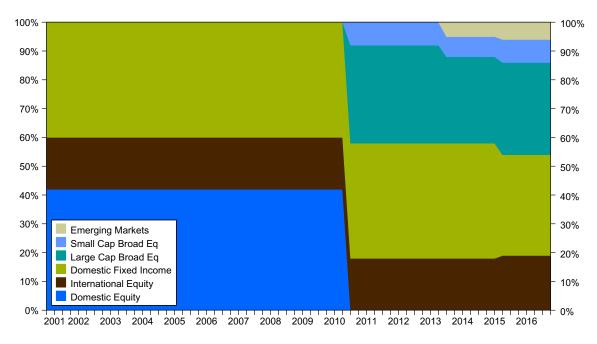

# **Actual vs Target Historical Asset Allocation**

The Historical asset allocation for a fund is by far the largest factor explaining its performance. The charts below show the fund's historical actual asset allocation, and the fund's historical target asset allocation.

### **Actual Historical Asset Allocation**

### **Target Historical Asset Allocation**

<sup>\*</sup> Current Quarter Target = 35.0% Blmbg Aggregate Idx, 32.0% S&P 500 Index, 19.0% MSCI EAFE, 8.0% Russell 2000 Index and 6.0% MSCI EM Gross.

# **Investment Manager Asset Allocation**

The table below contrasts the distribution of assets across the Fund's investment managers as of December 31, 2016, with the distribution as of September 30, 2016. The change in asset distribution is broken down into the dollar change due to Net New Investment and the dollar change due to Investment Return.

# Current Holdings Based Style Analysis Domestic Equity As of December 31, 2016

This page analyzes the current investment style of a portfolio utilizing a detailed holdings-based style analysis to determine actual exposures to various market capitalization and style segments of the domestic equity market. The market is segmented quarterly by capitalization and style. The capitalization segments are dictated by capitalization decile breakpoints. The style segments are determined using the "Combined Z Score", based on the eight fundamental factors used in the MSCI stock style scoring system. The upper-left style map illustrates the current market capitalization and style score of the portfolio relative to indices and/or peers. The upper-right style exposure matrix displays the current portfolio and index weights and stock counts (in parentheses) in each capitalization/style segment of the market. The middle chart illustrates the total exposures and stock counts in the three style segments, with a legend showing the total growth, value, and "combined Z" (growth - value) scores. The bottom chart exhibits the sector weights as well as the style weights within each sector.

#### **Portfolio Characteristics**

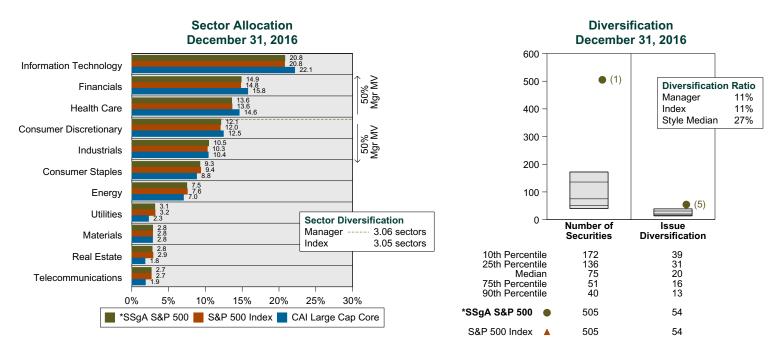

This graph compares the manager's portfolio characteristics with the range of characteristics for the portfolios which make up the manager's style group. This analysis illustrates whether the manager's current holdings are consistent with other managers employing the same style.

### Portfolio Characteristics Percentile Rankings Rankings Against CAI Large Cap Value as of December 31, 2016

#### **Sector Weights**

The graph below contrasts the manager's sector weights with those of the benchmark and median sector weights across the members of the peer group. The magnitude of sector weight differences from the index and the manager's sector diversification are also shown. Diversification by number and concentration of holdings are also compared to the benchmark and peer group. Issue Diversification represents by count, and Diversification Ratio by percent, the number of holdings that account for half of the portfolio's market value.

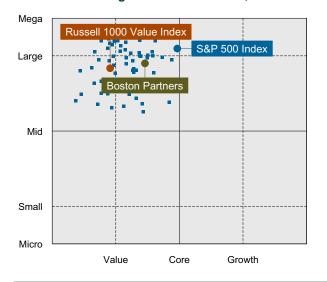

# Current Holdings Based Style Analysis Boston Partners As of December 31, 2016

This page analyzes the current investment style of a portfolio utilizing a detailed holdings-based style analysis to determine actual exposures to various market capitalization and style segments of the domestic equity market. The market is segmented quarterly by capitalization and style. The capitalization segments are dictated by capitalization decile breakpoints. The style segments are determined using the "Combined Z Score", based on the eight fundamental factors used in the MSCI stock style scoring system. The upper-left style map illustrates the current market capitalization and style score of the portfolio relative to indices and/or peers. The upper-right style exposure matrix displays the current portfolio and index weights and stock counts (in parentheses) in each capitalization/style segment of the market. The middle chart illustrates the total exposures and stock counts in the three style segments, with a legend showing the total growth, value, and "combined Z" (growth - value) scores. The bottom chart exhibits the sector weights as well as the style weights within each sector.

# Atlanta Capital Period Ended December 31, 2016

#### **Investment Philosophy**

Atlanta believes that high quality companies produce consistently increasing earnings and dividends, thereby providing attractive returns with moderate risk over the long-term. Performance prior to inception on 6/30/2010 is linked to the composite strategy.

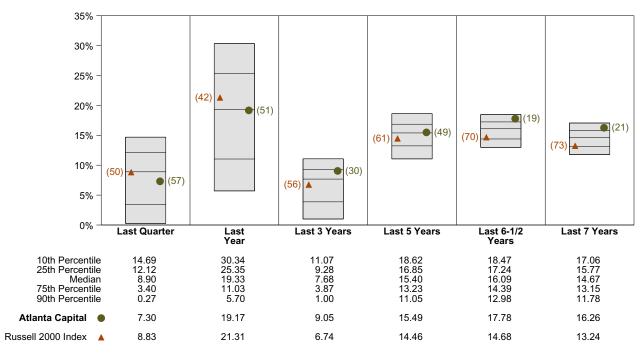

#### **Quarterly Summary and Highlights**

- Atlanta Capital's portfolio posted a 7.30% return for the quarter placing it in the 57 percentile of the CAI Small Capitalization group for the quarter and in the 51 percentile for the last year.
- Atlanta Capital's portfolio underperformed the Russell 2000 Index by 1.53% for the quarter and underperformed the Russell 2000 Index for the year by 2.14%.

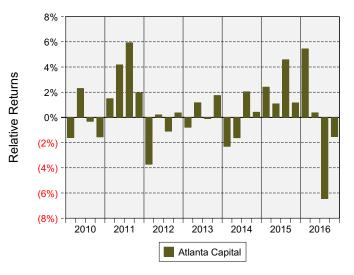

#### **Quarterly Asset Growth**

| Beginning Market Value    | \$22,260,244 |
|---------------------------|--------------|
| Net New Investment        | \$-346,863   |
| Investment Gains/(Losses) | \$1,590,477  |
| Ending Market Value       | \$23,503,858 |

### Atlanta Capital Return Analysis Summary

#### **Return Analysis**

The graphs below analyze the manager's return on both a risk-adjusted and unadjusted basis. The first chart illustrates the manager's ranking over different periods versus the appropriate style group. The second chart shows the historical quarterly and cumulative manager returns versus the appropriate market benchmark. The last two charts illustrate the manager's ranking relative to their style using various risk-adjusted return measures and returns for rising/declining periods.

### Atlanta Capital Equity Characteristics Analysis Summary

#### **Portfolio Characteristics**

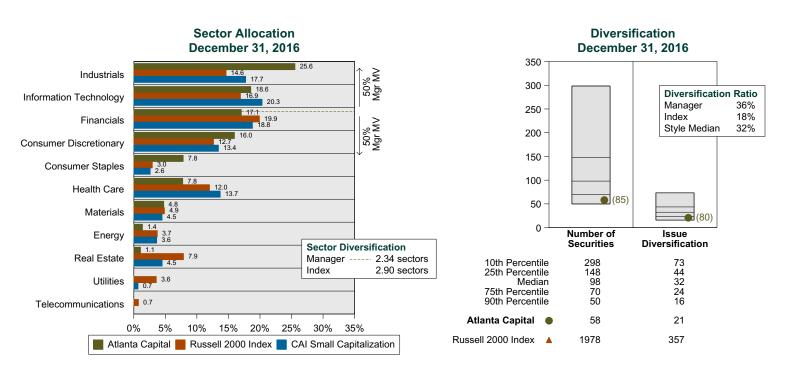

This graph compares the manager's portfolio characteristics with the range of characteristics for the portfolios which make up the manager's style group. This analysis illustrates whether the manager's current holdings are consistent with other managers employing the same style.

#### Portfolio Characteristics Percentile Rankings Rankings Against CAI Small Capitalization as of December 31, 2016

#### **Sector Weights**

The graph below contrasts the manager's sector weights with those of the benchmark and median sector weights across the members of the peer group. The magnitude of sector weight differences from the index and the manager's sector diversification are also shown. Diversification by number and concentration of holdings are also compared to the benchmark and peer group. Issue Diversification represents by count, and Diversification Ratio by percent, the number of holdings that account for half of the portfolio's market value.

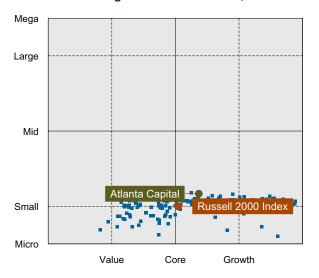

#### Current Holdings Based Style Analysis Atlanta Capital As of December 31, 2016

This page analyzes the current investment style of a portfolio utilizing a detailed holdings-based style analysis to determine actual exposures to various market capitalization and style segments of the domestic equity market. The market is segmented quarterly by capitalization and style. The capitalization segments are dictated by capitalization decile breakpoints. The style segments are determined using the "Combined Z Score", based on the eight fundamental factors used in the MSCI stock style scoring system. The upper-left style map illustrates the current market capitalization and style score of the portfolio relative to indices and/or peers. The upper-right style exposure matrix displays the current portfolio and index weights and stock counts (in parentheses) in each capitalization/style segment of the market. The middle chart illustrates the total exposures and stock counts in the three style segments, with a legend showing the total growth, value, and "combined Z" (growth - value) scores. The bottom chart exhibits the sector weights as well as the style weights within each sector.

#### Atlanta Capital vs Russell 2000 Index **Domestic Equity Daily Performance Attribution** One Year Ended December 31, 2016

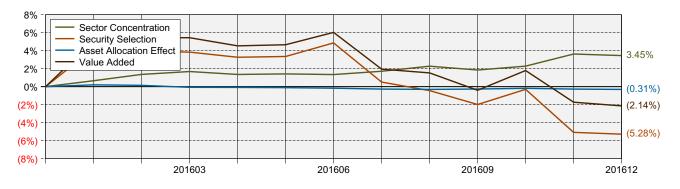

#### **Return Sources and Timing**

The charts below illustrate the timing and cumulative paths of the manager's performance, as well as attributing relative performance to three sources: Sector Concentration, Security Selection, and Asset Allocation. The first chart shows the cumulative absolute return paths for the manager and index. The second chart shows the cumulative relative return path of the manager and the attributed sources of that value-added. The bottom table breaks the annualized attribution factors down to the sector level for more insight into sources of return.

#### **Current Holdings Based Style Analysis International Equity** As of December 31, 2016

This page analyzes the current investment style of a portfolio utilizing a detailed holdings-based style analysis to determine actual exposures to various regional and style segments of the international/global equity market. The market is segmented quarterly by region and style. The style segments are determined using the "Combined Z Score", based on the eight fundamental factors used in the MSCI stock style scoring system. The upper-left style map illustrates the current market capitalization and style score of the portfolio relative to indices and/or peers. The upper-right style exposure matrix displays the current portfolio and index weights and stock counts (in parentheses) in each region/style segment of the market. The middle chart illustrates the total exposures and stock counts in the three style segments, with a legend showing the total growth, value, and "combined Z" (growth - value) scores. The bottom chart exhibits the sector weights as well as the style weights within each sector.

### Country Allocation International Equity VS MSCI EAFE Index (USD Net Div)

#### **Country Allocation**

The chart below contrasts the portfolio's country allocation with that of the index as of December 31, 2016. This chart is useful because large deviations in country allocation relative to the index are often good predictors of tracking error in the subsequent quarter. To the extent that the portfolio allocation is similar to the index, the portfolio should experience more "index-like" performance. In order to illustrate the performance effect on the portfolio and index of these country allocations, the individual index country returns are also shown.

### SSgA EAFE Period Ended December 31, 2016

#### **Investment Philosophy**

SSGA's objective is to provide the most cost-effective implementation of passive investing with stringent risk control and tracking requirements through a replication method. Returns prior to 6/30/2012 are linked to a composite history.

#### **Quarterly Summary and Highlights**

- SSgA EAFE's portfolio posted a (0.68)% return for the quarter placing it in the 35 percentile of the CAI Non-U.S. Equity Style group for the quarter and in the 52 percentile for the last year.
- SSgA EAFE's portfolio outperformed the MSCI EAFE by 0.03% for the quarter and outperformed the MSCI EAFE for the year by 0.37%.

| Quarterly Asset Grov      | wth         |

#### JP Morgan

#### **Equity Characteristics Analysis Summary**

#### **Portfolio Characteristics**

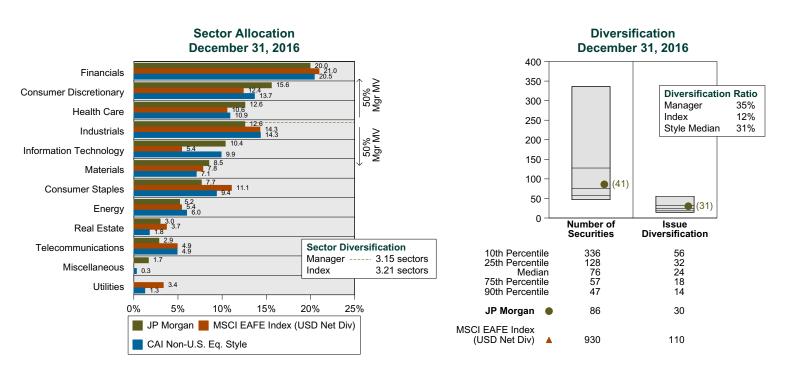

This graph compares the manager's portfolio characteristics with the range of characteristics for the portfolios which make up the manager's style group. This analysis illustrates whether the manager's current holdings are consistent with other managers employing the same style.

#### Portfolio Characteristics Percentile Rankings Rankings Against CAI Non-U.S. Equity Style as of December 31, 2016

#### **Sector Weights**

The graph below contrasts the manager's sector weights with those of the benchmark and median sector weights across the members of the peer group. The magnitude of sector weight differences from the index and the manager's sector diversification are also shown. Diversification by number and concentration of holdings are also compared to the benchmark and peer group. Issue Diversification represents by count, and Diversification Ratio by percent, the number of holdings that account for half of the portfolio's market value.

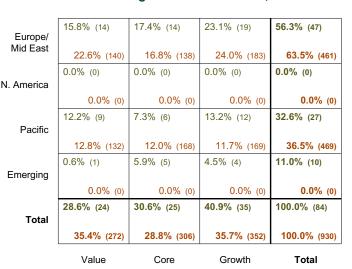

# Current Holdings Based Style Analysis JP Morgan As of December 31, 2016

This page analyzes the current investment style of a portfolio utilizing a detailed holdings-based style analysis to determine actual exposures to various regional and style segments of the international/global equity market. The market is segmented quarterly by region and style. The style segments are determined using the "Combined Z Score", based on the eight fundamental factors used in the MSCI stock style scoring system. The upper-left style map illustrates the current market capitalization and style score of the portfolio relative to indices and/or peers. The upper-right style exposure matrix displays the current portfolio and index weights and stock counts (in parentheses) in each region/style segment of the market. The middle chart illustrates the total exposures and stock counts in the three style segments, with a legend showing the total growth, value, and "combined Z" (growth - value) scores. The bottom chart exhibits the sector weights as well as the style weights within each sector.

### Country Allocation JP Morgan VS MSCI EAFE Index (USD Net Div)

#### **Country Allocation**

The chart below contrasts the portfolio's country allocation with that of the index as of December 31, 2016. This chart is useful because large deviations in country allocation relative to the index are often good predictors of tracking error in the subsequent quarter. To the extent that the portfolio allocation is similar to the index, the portfolio should experience more "index-like" performance. In order to illustrate the performance effect on the portfolio and index of these country allocations, the individual index country returns are also shown.

#### **AQR**

#### Period Ended December 31, 2016

#### **Investment Philosophy**

AQR consider themselves fundamental investors who employ quantitative tools to maintain a diversified portfolio that is overweight cheap securities with good momentum and underweight expensive securities with poor momentum. They believe that the value and momentum factors are negatively correlated and therefore produce an investment that preserves the expected return of both strategies but with lower volatility. They believe that their diversified mix of fundamental signals is a proxy for what diligent fundamental analysts examine in evaluating securities, and that their process applies these signals across a broad set of securities in a consistent fashion.

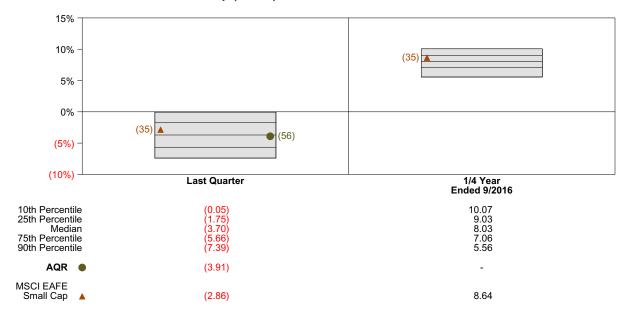

#### **Quarterly Summary and Highlights**

- AQR's portfolio posted a (3.91)% return for the quarter placing it in the 56 percentile of the CAI International Small Cap group for the quarter.
- AQR's portfolio underperformed the MSCI EAFE Small Cap by 1.05% for the quarter.

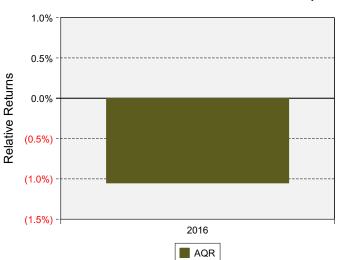

| Quarterly A | Asset | Growth |
|-------------|-------|--------|
|-------------|-------|--------|

| Beginning Market Value    | \$12,401,661 |
|---------------------------|--------------|
| Net New Investment        | \$0          |
| Investment Gains/(Losses) | \$-513,168   |
| Ending Market Value       | \$11,888,493 |

#### **Equity Characteristics Analysis Summary**

#### **Portfolio Characteristics**

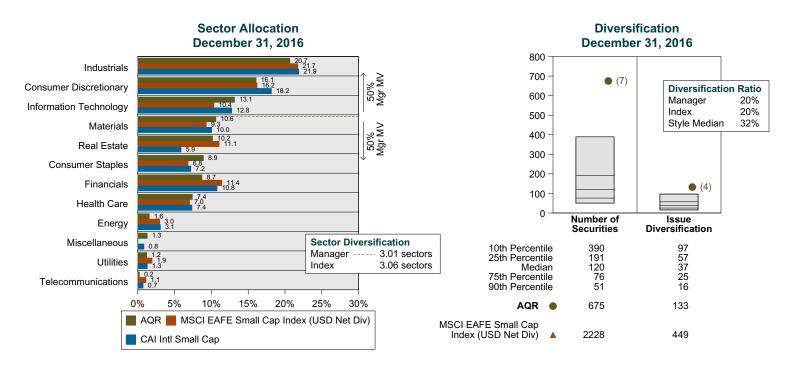

This graph compares the manager's portfolio characteristics with the range of characteristics for the portfolios which make up the manager's style group. This analysis illustrates whether the manager's current holdings are consistent with other managers employing the same style.

#### Portfolio Characteristics Percentile Rankings Rankings Against CAI International Small Cap as of December 31, 2016

#### **Sector Weights**

The graph below contrasts the manager's sector weights with those of the benchmark and median sector weights across the members of the peer group. The magnitude of sector weight differences from the index and the manager's sector diversification are also shown. Diversification by number and concentration of holdings are also compared to the benchmark and peer group. Issue Diversification represents by count, and Diversification Ratio by percent, the number of holdings that account for half of the portfolio's market value.

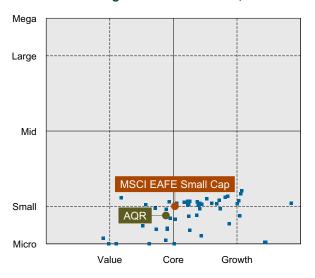

#### **Current Holdings Based Style Analysis AQR** As of December 31, 2016

This page analyzes the current investment style of a portfolio utilizing a detailed holdings-based style analysis to determine actual exposures to various regional and style segments of the international/global equity market. The market is segmented quarterly by region and style. The style segments are determined using the "Combined Z Score", based on the eight fundamental factors used in the MSCI stock style scoring system. The upper-left style map illustrates the current market capitalization and style score of the portfolio relative to indices and/or peers. The upper-right style exposure matrix displays the current portfolio and index weights and stock counts (in parentheses) in each region/style segment of the market. The middle chart illustrates the total exposures and stock counts in the three style segments, with a legend showing the total growth, value, and "combined Z" (growth - value) scores. The bottom chart exhibits the sector weights as well as the style weights within each sector.

### Country Allocation AQR VS MSCI EAFE Small Cap Index (USD Net Div)

#### **Country Allocation**

The chart below contrasts the portfolio's country allocation with that of the index as of December 31, 2016. This chart is useful because large deviations in country allocation relative to the index are often good predictors of tracking error in the subsequent quarter. To the extent that the portfolio allocation is similar to the index, the portfolio should experience more "index-like" performance. In order to illustrate the performance effect on the portfolio and index of these country allocations, the individual index country returns are also shown.

# DFA Emerging Markets Equity Characteristics Analysis Summary

#### **Portfolio Characteristics**

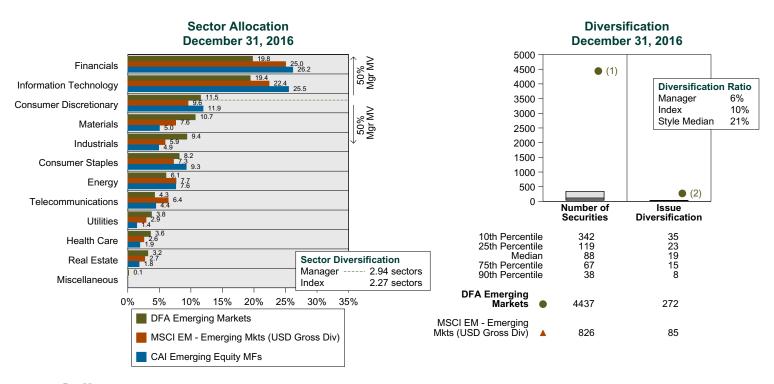

This graph compares the manager's portfolio characteristics with the range of characteristics for the portfolios which make up the manager's style group. This analysis illustrates whether the manager's current holdings are consistent with other managers employing the same style.

#### Portfolio Characteristics Percentile Rankings Rankings Against CAI Emerging Markets Equity Mut Funds as of December 31, 2016

#### **Sector Weights**

The graph below contrasts the manager's sector weights with those of the benchmark and median sector weights across the members of the peer group. The magnitude of sector weight differences from the index and the manager's sector diversification are also shown. Diversification by number and concentration of holdings are also compared to the benchmark and peer group. Issue Diversification represents by count, and Diversification Ratio by percent, the number of holdings that account for half of the portfolio's market value.

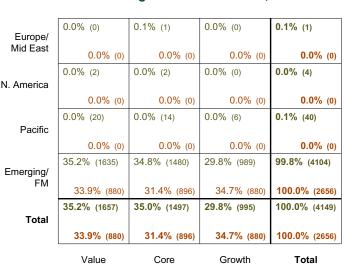

# Current Holdings Based Style Analysis DFA Emerging Markets As of December 31, 2016

This page analyzes the current investment style of a portfolio utilizing a detailed holdings-based style analysis to determine actual exposures to various regional and style segments of the international/global equity market. The market is segmented quarterly by region and style. The style segments are determined using the "Combined Z Score", based on the eight fundamental factors used in the MSCI stock style scoring system. The upper-left style map illustrates the current market capitalization and style score of the portfolio relative to indices and/or peers. The upper-right style exposure matrix displays the current portfolio and index weights and stock counts (in parentheses) in each region/style segment of the market. The middle chart illustrates the total exposures and stock counts in the three style segments, with a legend showing the total growth, value, and "combined Z" (growth - value) scores. The bottom chart exhibits the sector weights as well as the style weights within each sector.

#### Sector Weights Distribution Holdings as of December 31, 2016

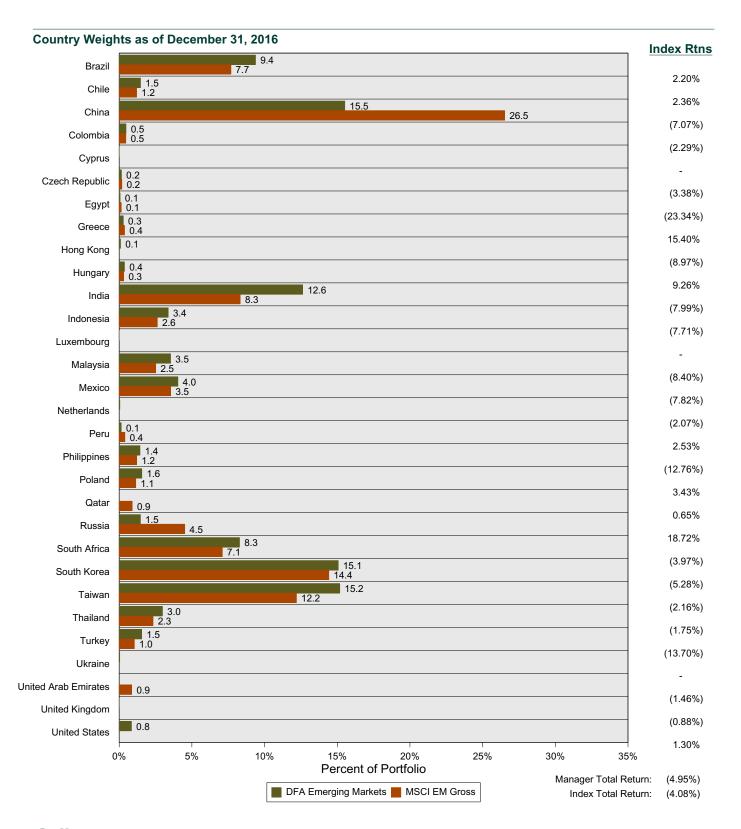

# Country Allocation DFA Emerging Markets VS MSCI EM - Emerging Mkts (USD Gross Div)

#### **Country Allocation**

The chart below contrasts the portfolio's country allocation with that of the index as of December 31, 2016. This chart is useful because large deviations in country allocation relative to the index are often good predictors of tracking error in the subsequent quarter. To the extent that the portfolio allocation is similar to the index, the portfolio should experience more "index-like" performance. In order to illustrate the performance effect on the portfolio and index of these country allocations, the individual index country returns are also shown.

#### **Metropolitan West** Period Ended December 31, 2016

#### **Investment Philosophy**

Metropolitan West Asset Management (MWAM) attempts to add value by limiting duration, managing the yield curve, rotating among bond market sectors and using proprietary quantitative valuation techniques.

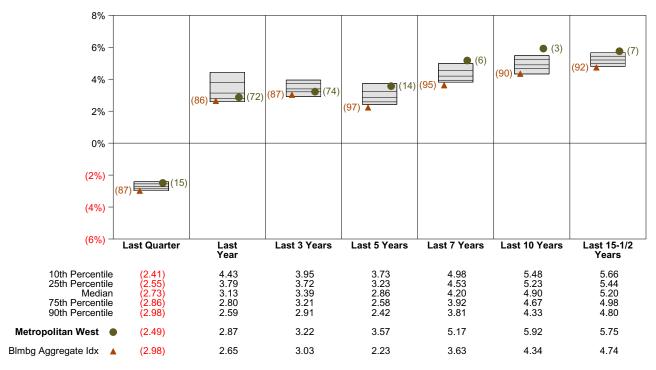

#### **Quarterly Summary and Highlights**

- Metropolitan West's portfolio posted a (2.49)% return for the quarter placing it in the 15 percentile of the CAI Core Bond Fixed Income group for the quarter and in the 72 percentile for the last year.
- Metropolitan West's portfolio outperformed the Blmbg Aggregate Idx by 0.48% for the quarter and outperformed the Blmbg Aggregate Idx for the year by 0.22%.

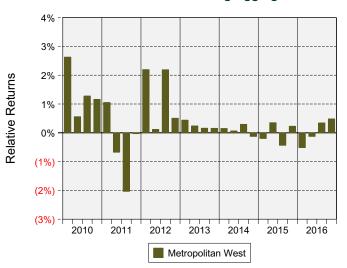

| Quarterly Asset | Growth |
|-----------------|--------|
|-----------------|--------|

| Beginning Market Value    | \$88,590,711 |
|---------------------------|--------------|
| Net New Investment        | \$0          |
| Investment Gains/(Losses) | \$-2,206,815 |
| Ending Market Value       | \$86,383,897 |

#### **Metropolitan West Return Analysis Summary**

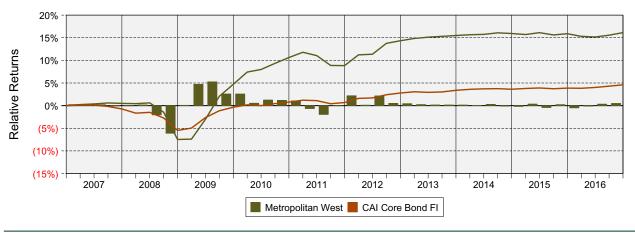

#### **Return Analysis**

The graphs below analyze the manager's return on both a risk-adjusted and unadjusted basis. The first chart illustrates the manager's ranking over different periods versus the appropriate style group. The second chart shows the historical quarterly and cumulative manager returns versus the appropriate market benchmark. The last two charts illustrate the manager's ranking relative to their style using various risk-adjusted return measures and returns for rising/declining periods.

#### **Metropolitan West Risk Analysis Summary**

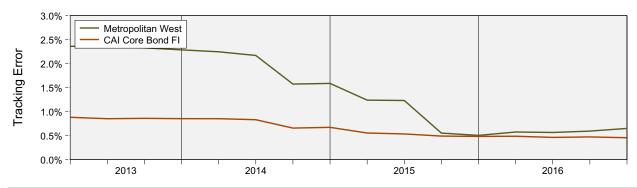

#### Risk Analysis

The graphs below analyze the risk or variation of a manager's return pattern. The first scatter chart illustrates the relationship, called Excess Return Ratio, between excess return and tracking error relative to the benchmark. The second chart shows tracking error patterns versus the benchmark over time. The last two charts show the ranking of the manager's risk statistics versus the peer group.

#### **Metropolitan West Bond Characteristics Analysis Summary**

#### **Portfolio Characteristics**

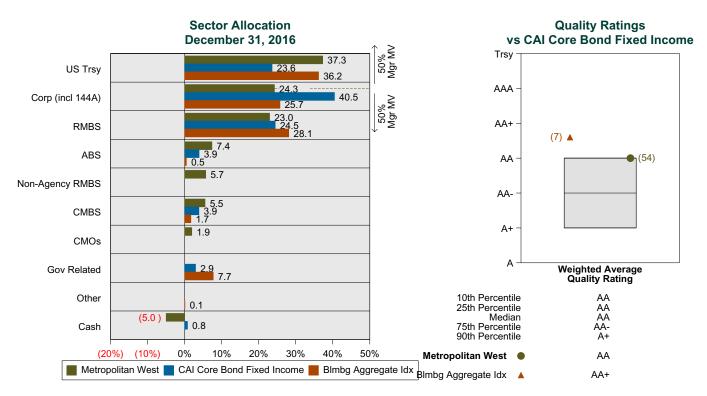

This graph compares the manager's portfolio characteristics with the range of characteristics for the portfolios which make up the manager's style group. This analysis illustrates whether the manager's current holdings are consistent with other managers employing the same style.

#### **Fixed Income Portfolio Characteristics Rankings Against CAI Core Bond Fixed Income** as of December 31, 2016

#### **Sector Allocation and Quality Ratings**

The first graph compares the manager's sector allocation with the average allocation across all the members of the manager's style. The second graph compares the manager's weighted average quality rating with the range of quality ratings for the style.

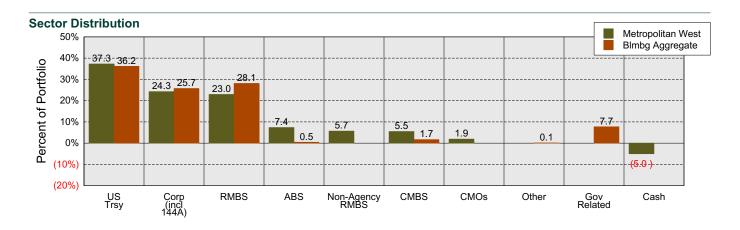

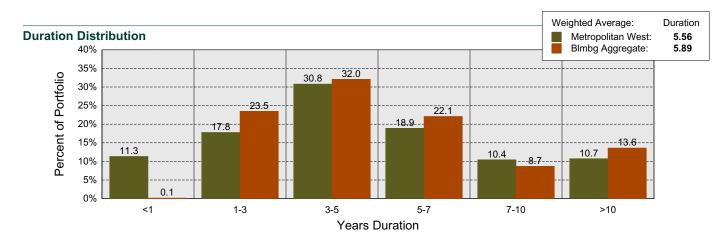

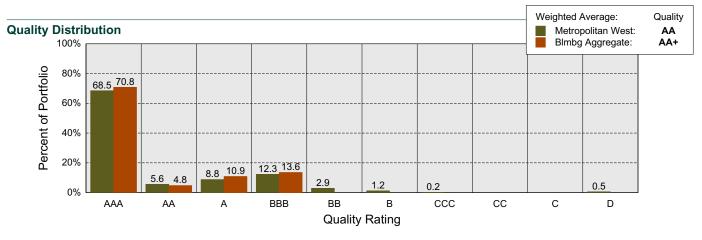

#### **Metropolitan West Portfolio Characteristics Summary** As of December 31, 2016

#### **Portfolio Structure Comparison**

The charts below compare the structure of the portfolio to that of the index from the three perspectives that have the greatest influence on return. The first chart compares the two portfolios across sectors. The second chart compares the duration distribution. The last chart compares the distribution across quality ratings.

#### **Risk/Reward Statistics**

The risk statistics used in this report examine performance characteristics of a manager or a portfolio relative to a benchmark (market indicator) which assumes to represent overall movements in the asset class being considered. The main unit of analysis is the excess return, which is the portfolio return minus the return on a risk free asset (3 month T-Bill).

**Alpha** measures a portfolio's return in excess of the market return adjusted for risk. It is a measure of the manager's contribution to performance with reference to security selection. A positive alpha indicates that a portfolio was positively rewarded for the residual risk which was taken for that level of market exposure.

**Beta** measures the sensitivity of rates of portfolio returns to movements in the market index. A portfolio's beta measures the expected change in return per 1% change in the return on the market. If a beta of a portfolio is 1.5, a 1 percent increase in the return on the market will result, on average, in a 1.5 percent increase in the return on the portfolio. The converse would also be true.

**Downside Risk** stems from the desire to differentiate between "good risk" (upside volatility) and "bad risk" (downside volatility). Whereas standard deviation punishes both upside and downside volatility, downside risk measures only the standard deviation of returns below the target. Returns above the target are assigned a deviation of zero. Both the frequency and magnitude of underperformance affect the amount of downside risk.

**Excess Return Ratio** is a measure of risk adjusted relative return. This ratio captures the amount of active management performance (value added relative to an index) per unit of active management risk (tracking error against the index.) It is calculated by dividing the manager's annualized cumulative excess return relative to the index by the standard deviation of the individual quarterly excess returns. The Excess Return Ratio can be interpreted as the manager's active risk/reward tradeoff for diverging from the index when the index is mandated to be the "riskless" market position.

**Information Ratio** measures the manager's market risk-adjusted excess return per unit of residual risk relative to a benchmark. It is computed by dividing alpha by the residual risk over a given time period. Assuming all other factors being equal, managers with lower residual risk achieve higher values in the information ratio. Managers with higher information ratios will add value relative to the benchmark more reliably and consistently.

**R-Squared** indicates the extent to which the variability of the portfolio returns are explained by market action. It can also be thought of as measuring the diversification relative to the appropriate benchmark. An r-squared value of .75 indicates that 75% of the fluctuation in a portfolio return is explained by market action. An r-squared of 1.0 indicates that a portfolio's returns are entirely related to the market and it is not influenced by other factors. An r-squared of zero indicates that no relationship exists between the portfolio's return and the market.

Relative Standard Deviation is a simple measure of a manager's risk (volatility) relative to a benchmark. It is calculated by dividing the manager's standard deviation of returns by the benchmark's standard deviation of returns. A relative standard deviation of 1.20, for example, means the manager has exhibited 20% more risk than the benchmark over that time period. A ratio of .80 would imply 20% less risk. This ratio is especially useful when analyzing the risk of investment grade fixed-income products where actual historical durations are not available. By using this relative risk measure over rolling time periods one can illustrate the "implied" historical duration patterns of the portfolio versus the benchmark.

Residual Portfolio Risk is the unsystematic risk of a fund, the portion of the total risk unique to the fund (manager) itself and not related to the overall market. This reflects the "bets" which the manager places in that particular asset market. These bets may reflect emphasis in particular sectors, maturities (for bonds), or other issue specific factors which the manager considers a good investment opportunity. Diversification of the portfolio will reduce or eliminate the residual risk of that portfolio.

#### **Risk/Reward Statistics**

**Sharpe Ratio** is a commonly used measure of risk-adjusted return. It is calculated by subtracting the "risk-free" return (usually 3 Month Treasury Bill) from the portfolio return and dividing the resulting "excess return" by the portfolio's risk level (standard deviation). The result is a measure of return gained per unit of risk taken.

**Sortino Ratio** is a downside risk-adjusted measure of value-added. It measures excess return over a benchmark divided by downside risk. The natural appeal is that it identifies value-added per unit of truly bad risk. The danger of interpretation, however, lies in these two areas: (1) the statistical significance of the denominator, and (2) its reliance on the persistence of skewness in return distributions.

**Standard Deviation** is a statistical measure of portfolio risk. It reflects the average deviation of the observations from their sample mean. Standard deviation is used as an estimate of risk since it measures how wide the range of returns typically is. The wider the typical range of returns, the higher the standard deviation of returns, and the higher the portfolio risk. If returns are normally distributed (ie. has a bell shaped curve distribution) then approximately 2/3 of the returns would occur within plus or minus one standard deviation from the sample mean.

**Total Portfolio Risk** is a measure of the volatility of the quarterly excess returns of an asset. Total risk is composed of two measures of risk: market (non-diversifiable or systematic) risk and residual (diversifiable or unsystematic) risk. The purpose of portfolio diversification is to reduce the residual risk of the portfolio.

**Tracking Error** is a statistical measure of a portfolio's risk relative to an index. It reflects the standard deviation of a portfolio's individual quarterly or monthly returns from the index's returns. Typically, the lower the Tracking Error, the more "index-like" the portfolio.

**Treynor Ratio** represents the portfolio's average excess return over a specified period divided by the beta relative to its benchmark over that same period. This measure reflects the reward over the risk-free rate relative to the systematic risk assumed.

Note: Alpha, Total Risk, and Residual Risk are annualized.

### **Research and Educational Programs**

The Callan Institute provides research that updates clients on the latest industry trends while helping them learn through carefully structured educational programs. Visit www.callan.com/research to see all of our publications, or for more information contact Anna West at 415.974.5060 / institute@callan.com.

#### **New Research from Callan's Experts**

2017 Defined Contribution Trends Survey | Callan's 10th Annual DC Trends Survey highlights plan sponsors' key themes from 2016 and expectations for 2017.

ESG Factors: U.S. Investor Usage Crystalizes | This charticle looks at environmental, social, and governance (ESG) factors from the perspectives of U.S. asset owners and global investment managers, revealing the growing incorporation of ESG factors in investment decision making.

Fixed Income: A Macroeconomic Lightning Rod | Callan's October 2016 Regional Workshop addressed alternative fixed income strategies to deal with the shifting market and economic environment investors face, as the extended period of low yields in the wake of the Global Financial Crisis appears to be ending.

ESG Interest and Implementation Survey | Callan's fourth annual survey on the status of ESG factor integration in the U.S. institutional market reflects responses from 84 funds representing approximately \$843 billion in assets.

2016 Cost of Doing Business Survey | In this survey, Callan compares the costs of administering and operating

funds and trusts across all types of tax-exempt and taxqualified organizations in the U.S. We identify practices and trends to help institutional investors manage expenses.

ESG and Investors: What, Why, and Who | In this video, Mark Wood, CFA, of Callan's Global Manager Research group explains ESG investing principles and how asset managers can implement them.

Momentum: The Trend Is Your Friend | Callan's director of Hedge Fund Research, Jim McKee, explores the advantages of momentum-based investing strategies, which profit from market trends in whichever direction. He discusses the rationale behind them, how they are defined and harnessed for different diversification needs, and whether they are appropriate for fund sponsors.

#### Periodicals

Private Markets Trends, Fall 2016 | Gary Robertson, manager of Callan's Private Equity Research group, discusses the steady performance of private markets in 2016, with yearto-date figures tracking very close to 2015's levels.

DC Observer, 3rd Quarter 2016 | This quarter's cover story is "Merging DC Plans: Making the Transition Smooth."

Hedge Fund Monitor, 3rd Quarter 2016 | This quarter's cover story is "Musketeers or Mercenaries...," on the growing appeal of the multi-strategy hedge fund category.

Capital Market Review, 3rd Quarter 2016 | A quarterly macroeconomic newsletter providing thoughtful insights on the economy and recent performance in equity, fixed income, alternatives, international, real estate, and other capital markets.

#### **Events**

Miss out on a Callan conference or workshop? Event summaries and speakers' presentations are available on our website: https://www.callan.com/education/CII/

Mark your calendars for our **National Conference**, January 23–25, 2017, at the Palace Hotel in San Francisco.

For more information about events, please contact Barb Gerraty: 415.274.3093 / gerraty@callan.com

# The Center for Investment Training Educational Sessions

The Center for Investment Training, better known as the "Callan College," provides a foundation of knowledge for industry professionals who are involved in the investment decision-making process. It was founded in 1994 to provide clients and non-clients alike with basic- to intermediate-level instruction. Our next sessions are:

#### Introduction to Investments

San Francisco, April 18-19, 2017 San Francisco, July 25-26, 2017 Chicago, October 24-25, 2017

This program familiarizes fund sponsor trustees, staff, and asset management advisors with basic investment theory, terminology, and practices. It lasts one-and-a-half days and is designed for individuals who have less than two years of experience with asset-management oversight and/or support responsibilities. Tuition for the Introductory "Callan College" session is \$2,350 per person. Tuition includes instruction, all materials, breakfast and lunch on each day, and dinner on the first evening with the instructors.

#### **Customized Sessions**

The "Callan College" is equipped to customize a curriculum to meet the training and educational needs of a specific organization. These tailored sessions range from basic to advanced and can take place anywhere—even at your office.

Learn more at https://www.callan.com/education/college/ or contact Kathleen Cunnie: 415.274.3029 / cunnie@callan.com

#### **Education: By the Numbers**

**500** 

Attendees (on average) of the Institute's annual National Conference

**50**+

Unique pieces of research the Institute generates each year

3,500

Year the Callan Institute was founded

"We think the best way to learn something is to teach it.

Entrusting client education to our consultants and specialists ensures that they have a total command of their subject matter. This is one reason why education and research have been cornerstones of our firm for more than 40 years."

Ron Peyton, Chairman and CEO

#### **List of Callan's Investment Manager Clients**

Confidential - For Callan Client Use Only

Callan takes its fiduciary and disclosure responsibilities to clients very seriously. We recognize that there are numerous potential conflicts of interest encountered in the investment consulting industry and that it is our responsibility to manage those conflicts effectively and in the best interest of our clients. At Callan, we employ a robust process to identify, manage, monitor and disclose potential conflicts on an on-going basis.

The list below is an important component of our conflicts management and disclosure process. It identifies those investment managers that pay Callan fees for educational, consulting, software, database or reporting products and services. We update the list quarterly because we believe that our fund sponsor clients should know the investment managers that do business with Callan, particularly those investment manager clients that the fund sponsor clients may be using or considering using. Please refer to Callan's ADV Part 2A for a more detailed description of the services and products that Callan makes available to investment manager clients through our Institutional Consulting Group, Independent Adviser Group and Fund Sponsor Consulting Group. Due to the complex corporate and organizational ownership structures of many investment management firms, parent and affiliate firm relationships are not indicated on our list.

Fund sponsor clients may request a copy of the most currently available list at any time. Fund sponsor clients may also request specific information regarding the fees paid to Callan by particular fund manager clients. Per company policy, information requests regarding fees are handled exclusively by Callan's Compliance Department.

| Item No. | Date          | Session     | Item               | Date  |
| 29       | 3/22/17       | Retirement  | Action             |       |

Subject: Election of Officers of the International Brotherhood of Electrical Workers Local Union 1245 (IBEW). (Bonnel)

#### <u>ISSUE</u>

Election of Governing Board Officers of the Retirement Plan for Sacramento Regional Transit District (District) Employees who are Members of the International Brotherhood of Electrical Workers Local Union 1245 (IBEW). (Bonnel)

#### **RECOMMENDED ACTION**

Adopt Resolution No. 17-03- \_\_\_\_\_ Electing Governing Board Officers of the Retirement Plan for Sacramento Regional Transit District Employees who are Members of the International Brotherhood of Electrical Workers Local Union 1245 (IBEW).

#### **FISCAL IMPACT**

There is no fiscal impact associated with this action.

#### **DISCUSSION**

Membership of the IBEW Retirement Board has changed such that previously-elected Retirement Board officers no longer serve as members of the Board.

The current Board Members are Eric Ohlson, Constance Bibbs, Andy Morin and Henry Li. The Alternate is Tom Flanders.

Andy Morin sits as Common Chair of all five of the Retirement Boards, Henry Li sits as the Vice Common Chair of all five of the Retirement Boards and Sacramento Regional Transit District Human Resources Director Donna Bonnel serves as Assistant Secretary of all five Retirement Boards.

At this time, staff recommends that the Retirement Board elect a Chair, Vice Chair and Secretary from among its members, in accordance with Sections 2.21 through 2.24 of the Bylaws. If the IBEW Retirement Board desires to be consistent with its prior actions and with those of the other four Retirement Boards, it should select Eric Ohlson and Constance Bibbs for the positions of Board Chair and Board Vice Chair, in either order, and select Henry Li as Board Secretary.

These actions will have no effect on the Board's appointment of its Assistant Secretary, nor on the selection of a Common Chair and a Common Vice Chair for all five Retirement Boards.

Donna Bonnel, Assistant Secretary

#### Exhibit A

# ADOPTED BY THE: AEA, MCEG, AFSCME and ATU Retirement Boards on June 18, 2014 IBEW Retirement Board on December 17, 2014

#### BY-LAWS FOR THE RETIREMENT BOARDS

#### **CHAPTER 1**

#### RETIREMENT BOARDS COMPOSITION AND PURVIEW

#### ARTICLE 1

#### **GOVERNANCE**

#### § 1.10 Retirement Plans; Application of By-Laws

These By-laws govern the three retirement plans established for employees of the Sacramento Regional Transit District (hereinafter "RT") pursuant to California Public Utilities Code Section 102430 to provide retirement benefits to qualified RT employees upon service or disability retirement from RT: The Retirement Plan for Regional Transit Employees Who Are Members of ATU Local 256; the Retirement Plan Between International Brotherhood of Electrical Workers (IBEW) Local Union 1245, AFL-CIO and Sacramento Regional Transit District; and The Sacramento Regional Transit District Retirement Plan for AFSCME, AEA, and Non-Represented (Salaried) Employees.

Each plan is referred to herein individually as "Retirement Plan" and jointly as "Retirement Plans."

These By-laws apply to the Retirement Plans as they may be amended from time to time, except when the terms of a Plan are inconsistent with the terms of these By-laws, in which case the terms of that Plan will govern its operations.

#### §1.11 Governance of the Retirement Plans

The ATU and IBEW Retirement Plans are each governed by one board and the Salaried Plan is governed by three boards (hereinafter individually referred to as "Board" or "Retirement Board" or jointly as "Boards" or "Retirement Boards"). Each Retirement Board consists of an equal number of representatives from RT and from the Union or bargaining/business unit (ATU, IBEW, AFSCME, AEA and MCEG) as required under California Public Utilities Code Section 99159.

#### §1.12 Retirement Board Composition

Each Retirement Board consists of not more than four (4) members and two (2) alternates. Two voting members and one alternate are appointed by the RT Board of Directors and two voting members and one alternate are appointed by the Union or bargaining/business unit.

The alternate Board Members serve on the Retirement Board during the absence of a Board member appointed by the same entity as the alternate. When an alternate Board Member serves in place of a regular Board Member, the alternate has all of the rights, duties and obligations of the Board member he or she is replacing, except for those rights, duties and obligations associated with a Board office held by the Board member.

#### §1.13 Retirement Board Member Term of Office

Each Retirement Board Member is appointed to a four-year term of office. Members' terms of office are to be staggered so that the term of one member appointed by the RT Board of Directors and the term of one member appointed by the Union or bargaining/business unit expire every other year.

For Retirement Board Members seated as of adoption of this section of the By-laws, the appointing entity will determine which seat will expire at the end of the following calendar year, and which will expire at the end of the calendar year ending two years later. The term of the alternates seated as of adoption of this section of the By-laws will expire as of the end of the calendar year after the year in which this section of the By-laws is adopted.

In the event of a vacancy because of death, resignation, illness, or other reason, the Secretary of the Board must, within thirty (30) days after such vacancy, transmit a written notification to the appointing member entity requesting that a replacement member be appointed to fill the remainder of the vacating member's term.

#### §1.14 Retirement Board Fiduciary Duty

The duties and responsibilities of each Retirement Board Member must be executed in accordance and in full compliance with the requirements of Section 17 of Article XVI of the California Constitution and applicable law.

#### § 1.15 Retirement Board Authority

Each Retirement Board has plenary authority and duty to administer its Retirement Plan and manage the assets of its Retirement Plan consistently with the powers and duties conferred upon the Board pursuant to Article 16, Section 17, of the California Constitution, which include, but are not limited to, those set forth in each Plan.

#### CHAPTER 2

#### **RETIREMENT BOARD RULES**

#### ARTICLE 1

#### **MEETINGS**

#### §2.10 Regular Quarterly Retirement Board Meeting Schedule

Each Board must hold regular meetings no later than the last day of each calendar quarter ("regular meetings" or "Quarterly Retirement Board Meetings"). No later than December 31<sup>st</sup> of each year, the Boards must adopt a resolution setting forth their regular meeting schedule for the 12-month calendar period following the month and year in which the resolution is adopted. The resolution establishing each Board's regular meeting schedule shall state the date and time for each meeting, and the place for each such meeting if it differs from the place set out in this section. Unless otherwise specified in the resolutions establishing the regular meeting schedule, the Boards will conduct their regular meetings at RT's Administrative Offices located at 1400 29<sup>th</sup> Street, Sacramento, California in Room 114 (First Floor, Auditorium).

#### §2.11 Special Meetings

A special meeting may be called at any time by the Chair, or by a majority of the members of a Board, by delivering personally, via electronic mail ("e-mail") or by U.S. mail, written notice to each member of the Board, and to each local newspaper, radio, or television station requesting notice in writing, and by posting a notice on the Sacramento Regional Transit District's internet web site. Such notice must be delivered and received at least 24 hours before the time of such meeting. The call and notice shall specify the time and place of the special meeting and the business to be transacted. No business other than as specified in the notice shall be considered at such meeting. Such written notice may be dispensed with as to any member who, at or prior to the time the meeting convenes, files with the Secretary of the Board a written waiver of notice. Any defect in the above notice procedure shall be deemed cured by actual attendance of the member at the meeting.

#### §2.12 Quorum

Three Board members constitute a quorum of any Board for purposes of convening a meeting and for the transaction of business. Alternate Board members are seated on the Board and counted towards a quorum only when serving in the place of a Regular Board member appointed by the same body (e.g., the Alternate appointed by the RT Governing Board is only seated and counted towards a quorum when a Board member appointed by the RT Governing Board is absent).

#### §2.13 Joint Meetings

The Retirement Boards may meet together for any regular or special meeting. The Boards may select a Common Chair and Common Vice Chair to preside over common meetings on an ad hoc or standing basis.

#### §2.14 Open Meetings; Application of the Ralph M. Brown Act

All meetings and associated notices must comply with the provisions of the Ralph M. Brown Act. (Government Code Sections 54950, et seq.) Accordingly, all Board meetings are open to the public except when the subject matter may be properly addressed in, and properly noticed for, a closed session.

#### §2.15 Agenda Preparation, Delivery and Posting

In addition to those requirements set forth in the Brown Act, each meeting agenda, together with all supporting documents, must be mailed or delivered to the Board members and Legal Counsel to the Board at least three days before the meeting. The purpose of this requirement is to give Board members at least two days' notice of all business coming before them. In the case of special meetings which may be called less than seven (7) days in advance of the meeting date, the requesting individual shall receive such notice as soon as may be practical under the circumstances.

#### §2.16 Access to Public Records Distributed at Meeting

Writings which are public records and which are distributed during a meeting are made available for public inspection at the meeting if prepared by RT or a member of the Board or after the meeting if prepared by some other person.

#### §2.17 Continuing Body

Each Board is a continuing body and no measure pending before it is abated or discontinued by reason of the expiration of the term of office or removal of a member of the Board.

#### §2.18 Adjournment of Meeting

The Board may adjourn any regular, adjourned regular, special or adjourned special meeting to a time and place specified in the order of adjournment. Less than a quorum may so adjourn from time to time. Notice of adjournment of a duly called special meeting at which less than a quorum is present shall be given in the same manner as notice of the original meeting. If all members are absent from any regular or adjourned regular meeting, the Secretary of the Board may declare the meeting adjourned to a stated time and place and he or she shall cause a written notice of the adjournment to be given in the same manner as provided herein for special meetings. In the case of all adjournments, a copy of the order or notice of adjournment shall be conspicuously posted on the door to the

Regional Transit District Auditorium, Room 114, within 24 hours after the time of the adjournment. When an order of adjournment of any meeting fails to state the time at which the adjourned meeting is to be held, it shall be held at the time specified for regular meetings.

#### **ARTICLE 2**

#### **OFFICERS**

#### §2.21 Officers

Each Board elects a Chair, Vice Chair, and Secretary from among its members. Alternate members cannot be elected as Board officers.

The five Retirement Boards, together, may elect a Common Chair and Common Vice Chair.

#### §2.22 Chair Responsibilities

- 1. Except at meetings presided over by a Common Chair or Common Vice Chair (as set forth in Section 2.28), the Chair presides over and preserves order at all regular meetings, special meetings and hearings of the Board. The Chair states every question coming before the Board, and decides all questions of order without debate, subject, however, to an appeal by a member of the Board. The Chair may move, second and debate from the chair, subject only to such limitations of debate as are imposed on all members, and has all other rights or privileges of all others members.
- 2. In all cases, the Chair can direct the Secretary to include discussion or action items on the agenda for future Board meetings, and the Chair signs all Board resolutions and all minutes of Board meetings or hearings which he or she has witnessed being adopted or approved.

#### §2.23 Vice Chair

The Vice Chair serves as the Chair Pro Tem in the Chair's absence. When serving as the Chair Pro Tem, the Vice Chair has all of the rights, duties and responsibilities of the Chair as set forth in Section 2.22 above.

#### §2.24 Secretary

The Secretary serves as the Chair Pro Tem in the absence of the Chair and Vice Chair.

In addition, the Secretary has the following powers and duties, any or all of which may be delegated by the Secretary to the Assistant Secretary:

- 1. Create meeting notices and agendas;
- 2. Post agendas;
- 3. Call the roll at the beginning of each Board meeting and for each roll call vote;
- 4. Announce the result of each vote;
- 5. Attend and keep minutes of all meetings and hearings of the Board;
- 6. Furnish each Board member a copy of the minutes of each meeting with the agenda for the following meeting;
- 7. Attest all resolutions of the Board and the minutes of all meetings or hearings which have been approved by the Board;
- 8. Keep and have custody of all books, records and papers of the Board, and certify true copies thereof whenever necessary;
- 9. Perform such other duties as may be required either by statute, ordinance, resolution or order.

#### §2.25 Assistant Secretary

The Boards may appoint an Assistant Secretary, who must be a current employee of RT with job duties related to administration of the Pension Plans.

#### §2.26 Vacancy

In an officer vacates his or her seat on the Board because of death, resignation, illness, or other reason, officer elections must be held at the first Board meeting after the vacancy has been filled.

#### §2.27 Additional Delegable Duties

Each Board, at its discretion and by resolution, may authorize its Chair and/or the General Manager/CEO of RT or other RT staff to exercise additional administrative authority, such as to execute contracts or other legally-binding documents, manage Board-awarded contracts, make purchases up to Board-authorized limits, and approve service retirements.

The Board may also authorize the General Manager/CEO of RT or other delegees to carry out other support functions for the Retirement Plan.

#### §2.28 Common Chair, Vice Chair

If desired, the five Retirement Boards may elect a Common Chair and Common Vice Chair to preside over and preserve order at meetings of more than one Board. At such meetings, the Common Chair, or the Common Vice Chair in the absence of the Common Chair, states every question coming before the Board, and decides all questions of order without debate, subject, however, to an appeal by a member of the Board.

The Common Chair (or Vice Chair) may move, second and debate from the chair, subject only to such limitations of debate as are imposed on all members, and has all other rights or privileges of all others members. In an action to adopt a motion or resolution, the Common Chair (or Vice Chair) votes after all other members present have cast their votes.

#### **ARTICLE 3**

#### ORDER OF BOARD BUSINESS

#### §2.31 Agenda

The order of business for regular and special meetings will be as follows:

- 1. Call to Order
- 2. Roll Call
- Consent Calendar
- 4. Unfinished Business
- 5. New Business
- 6. Public Addresses the Board on Matters Not on the Agenda
- 7. Reports, Ideas and Communications
- 8. Recess to Closed Session
- 9. Closed Session
- 10. Reconvene in Open Session
- 11. Closed Session Report
- 12. Adjourn

Notwithstanding the above, closed sessions (and associated announcements) may be included on the agenda at any point after Roll Call and before Adjournment, at the discretion of the Secretary or Assistant Secretary.

The order of business during any meeting may be changed upon order of the Chair with consent of the Board, or upon motion of the Board.

#### §2.32 Contents of Agenda

The agenda must specify the time and location of the meeting and must contain a brief general description of each item of business to be transacted or discussed at the meeting. The descriptions must be reasonably calculated to adequately inform the public of the general matter or subject matter of each agenda item.

Members of the public who wish to address the Board on matters not listed on the agenda, but on an item coming within the jurisdiction of the Board, are provided with the opportunity to do so under the agenda item heading "Public addresses Board on matters not on agenda."

The Board shall not act upon or discuss an item that is not listed on the agenda except as provided under Section 2.36.

#### §2.33 Common Agenda

When the Boards of two or more Retirement Plans for Employees of Sacramento Regional Transit meet together, the Boards' may share a common agenda, which must designate which Boards will discuss which items.

#### §2.34 Consent Calendar

The Consent Calendar shall consist of matters requiring Board action of a routine nature or on which staff comment is not appropriate or necessary, or which have previously been discussed and appear on the Agenda for final action only.

All items listed under the Consent Calendar, excepting those individual items which are removed for separate discussion or vote at the request of any Board member, may be acted upon by a single motion and vote.

Board minutes are included as part of the Consent Calendar to be approved without reading unless a member requests such reading, in which case the minutes require action by a separate motion and vote.

#### §2.35 Quarterly Investment Performance Reviews

The Boards must review the performance of Retirement Plans' fund managers and investment manager at each Quarterly Retirement Board Meeting as part of Unfinished or New Business, as appropriate.

Each of the fund managers retained by the Boards will be requested to attend and present its annual report at one Quarterly Retirement Board Meeting each calendar year. The Boards' investment manager must be present at each Quarterly Retirement Board Meeting and must report on its performance on a quarterly basis. The Board will review the performance of each fund manager at each regular meeting based upon criteria set forth in the Sacramento Regional Transit District's Statement Investment Objectives and Policy Guidelines for Contract Employees' Retirement Funds, whether or not the investment manager is present.

#### §2.36 Items Not on the Agenda

A matter requiring Board action must be listed on the posted agenda before the Board may discuss and/or act upon it except as contemplated under the Ralph M. Brown Act.

The Board may take action on items of business not appearing on the posted agenda under any of the following conditions:

- 1. Upon a determination by an affirmative vote of the Board that an emergency situation exists, as defined in Section 54956.5 of the Government Code.
- 2. Upon the affirmative vote of three Board Members that the need to take action arose subsequent to the agenda being posted.
- 3. If the item was properly posted for action at a prior meeting of the Board occurring not more than ten (10) calendar days prior to the date action is taken on the item, and at the prior meeting the item was continued to the meeting at which action is being taken.
- 4. By directing the Chair or Secretary to place an item of business for discussion and/or action on a subsequent agenda.

#### **ARTICLE 4**

#### MEMBERS ADDRESSING THE BOARD

#### §2.41 Recognition of the Chair

Any Board member desiring to speak on any item on the agenda must address the Chair during the public comment period on such item, and upon recognition by the Chair, may speak. The speaker must confine himself or herself to the question under debate, avoiding indecorous language.

Comments on items not on the agenda will be heard at the time noticed on the agenda for such public comment.

#### §2.42 Speaking Interruption

A member will not be interrupted when speaking unless it is to call him or her to order, for the purpose of explanation or to permit solicited responses. If a member, while speaking, is called to order, he or she must cease speaking until the question of order is determined, when, if permitted, he or she may proceed.

#### §2.43 <u>Limitation of Presentations, Discussion</u>

The Chair may limit discussion at any particular meeting by a Board member to such time

as the Chair may find to be reasonable under the circumstances, provided that any decision of the Chair to limit discussion may be overruled by the Board.

#### §2.44 Impertinence

Any Board member making personal, impertinent or indecorous remarks may be barred by the Chair from further appearance before the Board at that meeting, unless permission to continue is granted by an affirmative vote of the Board.

#### §2.45 Minutes

The Secretary shall prepare minutes in the form of an action summary; however, during the consideration on any particular matter, a Board member may make a request that the minutes contain a more thorough description of the discussion or deliberations of any question coming before the Board.

#### §2.46 Debate Closing

The member moving the adoption of a resolution or motion shall have the privilege of closing the debate.

#### §2.47 <u>Disqualification of Members</u>

Any member who is legally disqualified from participating in Board action on any particular matter must, as soon as such matter is reached on the agenda, disclose his or her disqualification and the reason therefore and may take no part in the discussion, debate or vote on such matter. If such disqualification is not known to him or her at the time such matter is reached on the agenda, he or she must make such disclosure as soon as he or she knows his or her disqualification.

#### ARTICLE 5

#### OTHERS ADDRESSING THE BOARD

#### §2.51 Recognition of the Chair

Non-Board members in attendance may address the Boards or members thereof only when invited by the Chair. Though the Chair will not require a speaker to introduce himself or herself, individuals who do not identify themselves may not be included in the minutes for the meeting at which they speak.

#### §2.52 Limitation of Presentations, Discussion

Except as otherwise herein provided, the Chair may specify a time limitation on any presentation made before the Board. The Chair cannot limit presentations made by members of the public to less than three (3) minutes.

#### §2.53 Impertinence

Any person making personal, impertinent or indecorous remarks while addressing the Board may be barred by the Chair from further appearance before the Board at that meeting, unless permission to continue is granted by an affirmative vote of the Board.

In extreme situations where persistent disruptions from multiple members of the public prevent an orderly meeting, the Chair, subject to Board appeal, or the Board itself, may order that all members of the public except the media be removed from the public meeting, or the public meeting may be recessed and closed pursuant to state law.

#### **ARTICLE 6**

#### **OFFICIAL ACTIONS**

#### §2.61 Timing of An Action

Motions and resolutions, unless put over to a future meeting by a majority vote of the Board, may be acted upon on the day of introduction or presentation. No continuance will be granted if the effect of such a continuance is to render useless a subsequent vote on the issue.

#### §2.62 Form of Action

Motions are considered an act of the Board and carry the same weight as a resolution. Resolutions are typically used for actions that will be referred to for historical purposes, such as adoption of a policy, award of a contract or grant of an individual's disability retirement.

#### §2.63 Votes, Signature and Attestation

Votes upon an action item, whether motion or resolution, are cast as "ayes" and "noes" pursuant to roll call and so recorded. Each resolution must be in written or printed form. Procedural motions do not require a roll call vote.

Every resolution shall be signed by the Chair/Chair Pro Tem (depending upon who presided at the meeting of enactment) and attested by the Secretary/Assistant Secretary (as determined by the Secretary).

#### §2.64 Codification

Resolutions are codified as follows: [Year]-[Month]-[Resolution Number]. For example, the fifth resolution a board adopts at its March 2015 meeting is codified: 15-03-0005.

### §2.65 Vote Threshold; Majority Minimum

All official acts of the Board shall require the affirmative vote of a majority of the members of the Board unless law requires a greater number of affirmative votes.

### §2.66 Motion Reconsideration

A motion to reconsider any action taken by the Board may be made only on the day such action was taken, either during the same session or at an adjourned session thereof. Such motion must be made by a member on the prevailing side and seconded by any member. The motion, which may be made at any time during said meeting, has precedence over all other motions. The motion to reconsider is debatable unless the action to be reconsidered is not debatable.

### § 2.67 Mandatory Arbitration

If a motion or resolution is brought before the Board for a vote and the measure fails to gain the support of a majority of the voting members as required in Section 2.65, the measure will fail passage. However, if a quorum is present and votes on a matter pertaining to the management or administration of the Plan and the matter receives an equal number of "aye" votes as it does "no" votes, then the matter shall be resolved in the manner set forth in Public Utilities Code Section 99159 by referring it to binding arbitration if such a motion is made and at least two Board Members vote affirmatively, as further set forth in the Retirement Plan.

#### ARTICLE 7

#### COMMITTEES

### §2.71 Appointment

The Chair may create and appoint ad hoc committees.

### §2.72 Ad Hoc Advisory Committee Meetings

Ad Hoc Committees are limited-term, limited scope advisory committees comprised exclusively of less than a quorum of the Board. For example, an advisory committee

comprised of two members for the purpose of producing a report in six months on trends in public agency benefit policies would be considered an ad hoc committee because it is composed of less than a quorum of the Board and it is charged with accomplishing a specific task in a limited period of time.

Ad hoc committee meetings are specifically exempt from open meeting requirements under these Bylaws and under the Brown Act. However, when creating and appointing an Ad Hoc Committee, the Chair retains authority to direct that meetings of that committee shall be noticed and open to the public.

### **ARTICLE 8**

### **RULES**

### §2.81 Amendment

Any provision hereof may be altered, amended or annulled at any time by an affirmative vote of the Board as provided in Section 2.65, provided a week's notice of such change is given to each board member.

### §2.82 Suspension

Any section of these By-laws may be temporarily suspended by an affirmative vote of the Board as provided in Section 2.65.

#### §2.83 Robert's Rules

All rules of order not herein provided for shall be determined in accordance with "Robert's Rules of Order."

#### §2.84 Copies – By-laws

The Secretary shall furnish each Board member copies of these By-laws and provide a supply for public purposes.

Subject: Accept Actuarial Valuation Study and Approve the Actuarially Determined Contribution Rate for ATU Employees' Retirement Plan for Fiscal Year 2018 (ATU). (Bonnel)

### **ISSUE**

Accept Actuarial Valuation Study and Approve the Actuarially Determined Contribution Rate for ATU Employees' Retirement Plan for Fiscal Year 2018 (ATU).

# RECOMMENDED ACTION

Adopt Resolution No. 17-03\_\_\_\_\_, Accept Actuarial Valuation Study and Approve the Actuarially Determined Contribution Rate for the ATU Employees' Retirement Plan for Fiscal Year 2018.

# FISCAL IMPACT

Budgeted: FY18 Budget not yet approved

General Ledger #: 520002

Current FY 2017: \$8,170,963

Estimate FY 2018:

### <u>DISCUSSION</u>

Cheiron, the Pension Plans' actuary, has completed the annual Actuarial Valuation for the ATU Employees' Retirement Plan as of July 1, 2016 (Exhibit A).

The purpose of the Actuarial Valuation is to compute the annual actuarially determined contribution rate (ADC) required to fund the Plan according to actuarial principles and to present items required for disclosure under Statement No. 67 of the Governmental Accounting Standards Board (GASB).

At the Retirement Boards' February 1, 2017 special meeting, Cheiron presented the draft study used to establish the ADC for Fiscal Year (FY) 2018. Based on actuarial valuation findings the proposed ADC for FY18 is \_\_\_\_\_%. Cheiron's recommendation is explained in greater detail in the study attached as Exhibit A.

#### Staff Recommendation:

Staff recommends the Board accept Cheiron's actuarial valuation study and instruct the Sacramento Regional Transit District to contribute to the ATU Employees' Retirement Plan

| Approved:          | Presented:                                                                           |

March 17, 2017

ATU Retirement Board of Sacramento Regional Transit District 2830 G Street Sacramento, CA 95816

Dear Members of the Board:

At your request, we have conducted an actuarial valuation of the Retirement Plan for Sacramento Regional Transit District Employees (ATU Plan) (SacRT, the Fund, the Plan) as of July 1, 2016. This report contains information on the Plan's assets and liabilities. This report also discloses employer contribution levels. Your attention is called to the Foreword in which we refer to the general approach employed in the preparation of this report.

The purpose of this report is to present the results of the annual actuarial valuation of the Plan. This report is for the use of the Retirement Board and the auditors in preparing financial reports in accordance with applicable law and accounting requirements. Any other user of this report is not an intended user and is considered a third party.

This report was prepared for the Retirement Board for the purposes described herein and for the use by the plan auditor in completing an audit related to the matters herein. Other users of this of this report are not intended users as defined in the Actuarial Standards of Practice, and Cheiron assumes no duty or liability to such other users.

To the best of our knowledge, this report and its contents have been prepared in accordance with generally recognized and accepted actuarial principles and practices which are consistent with the Code of Professional Conduct and applicable Actuarial Standards of Practice set out by the Actuarial Standards Board. Furthermore, as credentialed actuaries, we meet the Qualification Standards of the American Academy of Actuaries to render the opinion contained in this report. This report does not address any contractual or legal issues. We are not attorneys and our firm does not provide any legal services or advice.

Sincerely, Cheiron

David Holland, FSA, FCA, EA, MAAA Consulting Actuary Graham A. Schmidt, ASA, FCA, EA, MAAA Consulting Actuary

Grahen Johns

#### **FOREWORD**

Cheiron has performed the actuarial valuation of the Retirement Plan for Sacramento Regional Transit District Employees (ATU Plan) as of July 1, 2016. The valuation is organized as follows:

- In Section I, the **Executive Summary**, we describe the purpose of an actuarial valuation, summarize the key results found in this valuation, and disclose important trends;
- The **Main Body** of the report presents details on the Plan's
  - Section II Assets
  - o Section III Liabilities
  - Section IV Contributions
- In the **Appendices**, we conclude our report with detailed information describing plan membership (Appendix A), actuarial assumptions and methods employed in the valuation (Appendix B), a summary of pertinent plan provisions (Appendix C), and a glossary of key actuarial terms (Appendix D).

Future results may differ significantly from the results of the current valuation presented in this report due to such factors as the following: plan experience differing from that anticipated by the assumptions; changes in assumptions; and, changes in plan provisions or applicable law.

In preparing our report, we relied on information (some oral and some written) supplied by the District's staff. This information includes, but is not limited to, plan provisions, employee data, and financial information. We performed an informal examination of the obvious characteristics of the data for reasonableness and consistency in accordance with Actuarial Standard of Practice #23.

#### SECTION I – EXECUTIVE SUMMARY

The primary purpose of the actuarial valuation and this report is to measure, describe, and identify the following as of the valuation date:

- The financial condition of the Plan,
- Past and expected trends in the financial progress of the Plan, and
- Employer contribution rates for Plan Year 2017-2018.

In prior years, a combined valuation report was issued for the Retirements Plan for Sacramento Regional Transit District Employees of ATU Local 256 and IBEW Local 1245. As per the Board's direction, beginning this year separate reports will be issued for the ATU and IBEW plans.

The information required under GASB Statements (Nos. 67 and 68) is included in a separate report, with the report for the Fiscal Year Ending June 30, 2016 provided to the Board in September 2016.

In the balance of this Executive Summary, we present (A) the basis upon which this year's valuation was completed, (B) the key findings of this valuation including a summary of all key financial results, (C) an examination of the historical trends, and (D) the projected financial outlook for the Plan.

#### A. Valuation Basis

This valuation determines the employer contributions for the plan year.

The Plan's funding policy is to contribute an amount equal to the sum of:

- The normal cost under the Entry Age Normal Cost Method,
- Amortization of the Unfunded Actuarial Liability, and
- The Plan's expected administrative expenses.

This valuation was prepared based on the plan provisions shown in Appendix C. There are a number of plan provision changes to members hired on or after January 1, 2016. In addition, there was a plan provision change to the basis for calculating actuarial equivalence for the Preretirement Death Benefit.

A summary of the assumptions and methods used in the current valuation is shown in Appendix B. There have been no changes in assumptions or methods since the prior valuation.

#### SECTION I – EXECUTIVE SUMMARY

### **B.** Key Findings of this Valuation

The key results of the July 1, 2016 actuarial valuation are as follows:

- The actuarially determined employer contribution rate decreased from 27.69% of payroll last year to 27.04% of payroll for the current valuation, reflecting an adjustment for the second year of the three-year phase-in of the impact of changes to the economic and demographic assumptions from the experience study completed last year. Without the phase-in, the employer contribution rate would have increased to 27.80% of payroll.
- The Plan's funded ratio, the ratio of actuarial assets over Actuarial Liability, increased from 75.3% last year to 75.9% as of July 1, 2016. This increase was primarily due to a gain on the liabilities due to demographic experience.

As a point of comparison, a funding ratio of 61.1% or more is required just to fund the liabilities of the inactive members: retired, disabled, terminated with vested benefits, and their beneficiaries. This is sometimes referred to as the Inactive Funded Ratio.

- The Unfunded Actuarial Liability (UAL) is the excess of the Plan's Actuarial Liability over the Actuarial Value of Assets. The Plan experienced a decrease in the UAL from \$41,067,628 to \$40,275,718 as of July 1, 2016. This decrease in UAL was primarily due to less than expected increases in salary and favorable inactive mortality experience.
- During the year ending June 30, 2016, the return on ATU/IBEW Plan assets was -0.66% on a market value basis net of all expenses, as compared to the 7.50% assumption. This resulted in a market value loss on investments of \$13,918,010.

The Actuarial Value of Assets recognizes 20% of the difference between the expected and actual return on the Market Value of Assets (MVA). This method of smoothing the asset gains and losses returned 6.26% on the smoothed value of assets, an actuarial asset loss of \$2,095,163, of which \$1,937,814 is attributable to ATU.

The Actuarial Value of Assets is currently 106.0% of the market value. Since actuarial assets are above market assets, there are unrecognized investment losses (approximately \$7.2 million for ATU) that will be reflected in the smoothed value in future years.

These returns were calculated based on combined ATU and IBEW combined; in the future returns will be calculated separately for each individual plan.

• The Plan experienced a liability gain of \$3,324,546, due primarily to lower than expected increases in salary and favorable inactive mortality experience. The liabilities also decreased based on a change in the methodology used to assign liabilities between ATU and IBEW for active Salaried plan members with prior ATU and/or IBEW service, but this was accompanied by a transfer in assets approved by ATU and IBEW, which offsets

#### SECTION I – EXECUTIVE SUMMARY

the impact on the unfunded liability. Combining the liability and asset gains, the Plan experienced a total actuarial gain of \$1,386,731.

• The Plan experienced an increase in the liabilities of \$77,494 as a result of the PEPRA plan provisions applying to members hired on or after January 1, 2016, since the PEPRA benefits include a benefit for the expected refund of contributions for members not eligible for a service retirement. This was slightly offset by a decrease in liabilities due to administrative plan changes modifying the actuarial equivalence calculation of the Pre-Retirement Death benefit.

There were 94 new hires and rehires since July 1, 2015 and the total active population increased. Total projected payroll increased 5.63% from \$28,435,293 for 2015-2016 to \$30,037,232 for 2016-2017.

Table I-1 summarizes all the key results of the valuation with respect to membership, assets and liabilities, and contributions. The results are presented and compared for both the current and prior plan year. We have also presented the employer contribution rate both before and after the phase in of the effect of assumption changes adopted as of July 1, 2015 valuation (except for the change in administrative expenses, which was fully recognized in the prior valuation).

#### SECTION I – EXECUTIVE SUMMARY

# C. Changes in Plan Cost

Table I-2 summarizes the impact of actuarial experience and changes in benefits on Plan cost prior to the reduction for phasing in the 2015 assumption changes over three years.

| Table I-2 ATU Employer Contribution Reconciliation |               |               |        |              |  |  |
|----------------------------------------------------|---------------|---------------|--------|--------------|--|--|
| Item Total Normal Cost Amortization Expense        |               |               |        |              |  |  |
| Item                                               | Total         |               |        | Expense      |  |  |
| FYE 2017 Total Employer Contribution Rate          | 29.21%        | 16.19%        | 12.01% | 1.01%        |  |  |
| Change due to asset loss                           | 0.44%         | 0.00%         | 0.44%  | 0.00%        |  |  |
| Change due to demographic changes                  | -1.36%        | -0.43%        | -0.92% | -0.01%       |  |  |
| Change due to amortization payroll                 | -0.30%        | 0.00%         | -0.28% | -0.02%       |  |  |
| Change due to contribution shortfall               | 0.12%         | 0.00%         | 0.12%  | 0.00%        |  |  |
| Change due to liability/asset reallocation         | 0.24%         | 0.00%         | 0.24%  | 0.00%        |  |  |
| Change due to plan changes                         | <u>-0.55%</u> | <u>-0.57%</u> | 0.02%  | <u>0.00%</u> |  |  |
| FYE 2018 Net Employer Contribution Rate            | 27.80%        | 15.19%        | 11.63% | 0.98%        |  |  |

An analysis of the cost changes from the prior valuation reveals the following:

• Asset experience produced an investment loss on an actuarial basis.

The assets of the Union Plans returned -0.66% (net of investment expenses) on a market basis, lower than the assumed rate of 7.50%. The actuarial return on assets was 6.26%, lower than the assumed rate of 7.50%. This resulted in an increase in the contribution rate by 0.44% of payroll.

The Market Value of Assets is now lower than the actuarial value; there are approximately \$7.2 million in deferred asset losses for the ATU plan.

• Demographic experience resulted in a gain in liabilities.

The demographic experience of the Plan - rates of retirement, death, disability, and termination — was somewhat different than predicted by the actuarial assumptions in aggregate, causing an actuarial gain which decreased the contribution rate by 0.93% of payroll. In particular, there were gains caused by higher mortality rates than expected among retirees, and smaller salary increases than expected for returning members.

Members hired on or after January 1, 2015 began contributing 3% of pay to the Plan, which contributed to an overall decrease in the employer normal cost rate of 0.43% of payroll.

The net impact on the contribution rate from changes in demographics was a decrease of 1.36% of payroll.

#### SECTION I – EXECUTIVE SUMMARY

• Overall payroll growth was greater than expected.

Greater than expected growth in the projected payroll decreased the contribution rate by 0.30% of pay, since it results in the Plan's Unfunded Actuarial Liability and administrative expenses being spread over a larger payroll base.

• Contributions fell short of expectations.

Actual contributions were less than expected employer and member contributions, which resulted in an increase in the contribution rate by 0.12%.

- The reallocation of the actual liability and asset split for transferred members with prior ATU and/or IBEW service increased the contribution rate by 0.24%.
- Plan provisions and administrative procedures were changed resulting in a decrease in cost.

Members joining the Plan for the first time on or after January 1, 2016 are New Members and will follow PEPRA provisions. New Members will contribute half of the normal cost of the Plan rounded to the nearest 0.25%. For the current valuation, the contribution rate for PEPRA members is 6.50% of payroll. Members hired on or after January 1, 2015, but before January 1, 2016, continue to contribute 3.00% of payroll to the Plan.

Updates to the administration and calculation of the active death benefit resulted in a small decrease in the liabilities and almost no impact on cost.

The net impact on the contribution rate from changes in plan provisions and administrative procedures was a decrease of 0.55% of payroll.

The Total impact on employer Plan cost is a decrease of 1.41%, prior to the phase-in.

Table I-3 summarizes the impact on Plan cost incorporating of phasing in the 2015 assumption changes over three years.

| Table I-3                                                       |              |              |          |        |  |  |
|-----------------------------------------------------------------|--------------|--------------|----------|--------|--|--|
| Employer Contribution Reconciliation - Projected Phase In (ATU) |              |              |          |        |  |  |
|                                                                 | Full Phased  |              |          |        |  |  |
| Item                                                            | Contribution | Contribution | Interest | Total  |  |  |
| FYE 2018 Total Employer Contribution Rate                       | 27.80%       | 26.98%       | 0.06%    | 27.04% |  |  |
| FYE 2019 Total Employer Contribution Rate                       | 27.50%       | 27.50%       | 0.00%    | 27.50% |  |  |
| FYE 2020 Total Employer Contribution Rate                       | 27.59%       | 27.67%       | 0.00%    | 27.67% |  |  |

The net impact on the FYE 2017 contribution rate due to assumption changes adopted by the Board, excluding the expense assumption was an increase of 2.41% for ATU and IBEW combined. The Board chose to phase in this increase over three years, or approximately 0.80%

#### SECTION I – EXECUTIVE SUMMARY

annually, or 0.82% for ATU and 0.77% for IBEW. For ATU, this results in a FYE 2018 Net Employer Contribution Rate of 27.04%, based on an original rate of 27.80% minus 0.82% phase-in for ATU costs, and then adjusted for interest on the contribution shortfall of 0.06% of pay.

Table I-4 shows the ratio of assets to active member payroll for the Plan.

| Table I-4<br>ATU Asset to Payroll Ratio : | as of June 30, 2016 |
|-------------------------------------------|---------------------|
| Active Member Payroll                     | 30,037,232          |
| Assets (Market Value)                     | 119,630,500         |
| Ratio of Assets to Payroll                | 3.98                |
| Ratio with 100% Funding                   | 5.56                |

One of the most important measures of a plan's risk is the ratio of plan assets to payroll. The table above shows the Plan's assets as a percentage of active member payroll. This ratio indicates the sensitivity of the plan to the returns earned on plan assets. We note in the table that plan assets currently are nearly four times covered payroll for the Plan; as funding improves and the Plan reaches 100% funding, the ratio of asset to payroll will increase to over five times payroll, perhaps higher depending on the Plan's future demographic makeup. Although, both of these ratios are lower than those of many other public plans, the increase in the asset to payroll ratio expected to accompany an improvement in the Plan's funding still represents an increase in the volatility of the contributions.

To appreciate the impact of the ratio of assets to payroll on plan cost, consider the situation for a new plan with almost no assets. Even if the assets suffer a bad year of investment returns, the impact on the plan cost is nil, because the assets are so small.

On the other hand, consider the situation for the Plan. Suppose the Plan's assets lose 10% of their value in a year. Since they were assumed to earn 7.50%, there is an actuarial loss of 17.50% of plan assets. Based on the current ratio of asset to payroll (398%), that means the loss in assets is about 70% of active payroll (398% of the 17.50% loss). There is only one source of funding to make up for this loss: contributions. Consequently, barring future offsetting investment gains, the employer has to make up the asset loss in future contributions. In this example of a one-year loss of 10%, this shortfall would eventually require an additional amortization payment near 6.0% of payroll, amortized over 16 years.

Furthermore, consider the impact of a one-year loss of 10% if the plan is 100% funded. Based on the ratio of asset to payroll at 100% funding (556%), the asset loss would be about 97% of active payroll (556% of the 17.50% loss). In this example, the shortfall could require an additional amortization payment of approximately 8.4% of payroll, amortized over 16 years.

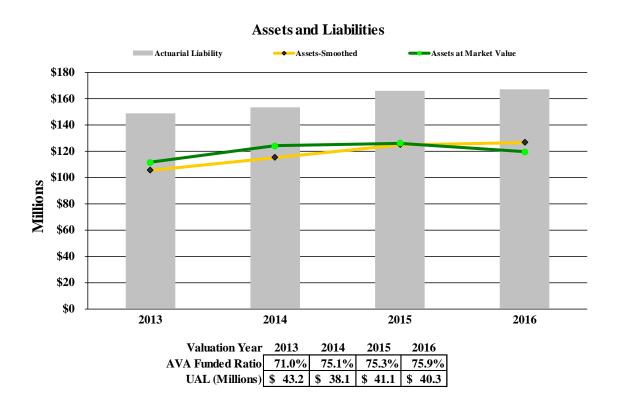

#### SECTION I – EXECUTIVE SUMMARY

#### **D.** Historical Trends

Despite the fact that for most retirement plans the greatest attention is given to the current valuation results and in particular, the size of the current Unfunded Actuarial Liability and the employer contribution, it is important to remember that each valuation is merely a snapshot in the long-term progress of a pension fund. It is more important to judge a current year's valuation result relative to historical trends, as well as trends expected into the future.

# **Assets and Liabilities**

The chart compares the Market Value of Assets (MVA) and Actuarial Value of Assets (AVA) to the Actuarial Liabilities. The percentage shown in the chart below is the ratio of the Actuarial Value of Assets to the Actuarial Liability (the funded ratio). The funded ratio has increased from 71.0% in 2013 to 75.9% in 2016, primarily as a result of the recovery in the investment markets and contributions made to the plan. Prior to 2013, the valuation reports did not report a separate funded ratio or unfunded liability for the ATU/IBEW plans.

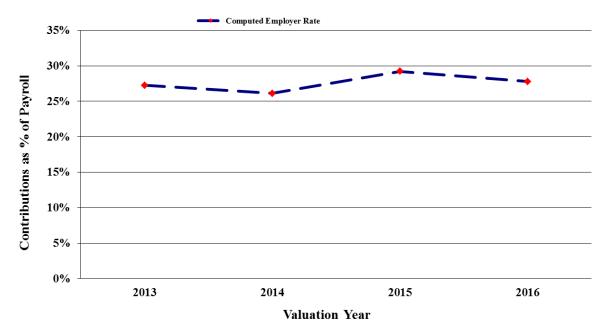

#### SECTION I – EXECUTIVE SUMMARY

#### **Contribution Trends**

In the chart, we present the historical trends for the Plan's actuarially determined contribution rates (excluding the impact of any phase-in of assumption changes.) Contribution rates have been increased and decreased moderately the past few years, as investment gains have been offset by subsequent losses and changes to the assumptions. Contribution rates fell this year as new members continue to make contributions, and members hired after 1/1/2016 receive lower benefits. Prior to 2013, the valuation reports did not include a separate contribution rate for the ATU/IBEW plans.

### Sacramento Regional Transit District Employees: ATU

### **Gains and Losses**

Future valuation reports will include a historical analysis of the experience gains and losses applicable to the ATU Plan, but as the current valuation is the first to break down the asset and liability gains and losses between the ATU and IBEW members, that analysis is not included in this report. See Table II-4 and III-2 for a discussion of the asset and liability changes for the current year.

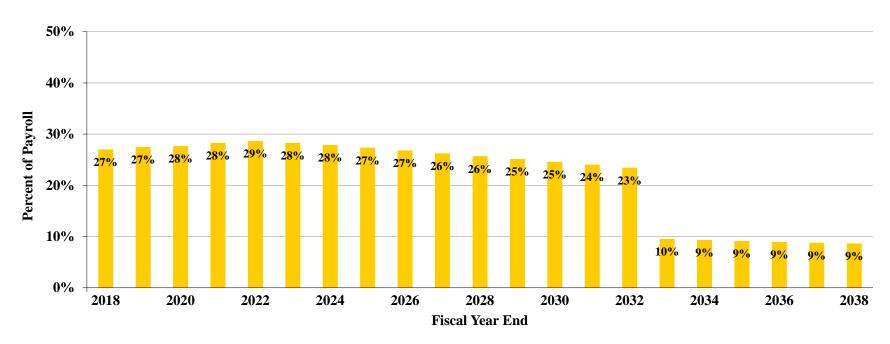

#### **SECTION I – EXECUTIVE SUMMARY**

# E. Future Expected Financial Trends

The analysis of projected financial trends is perhaps the most important component of this valuation. In this Section, we present our assessment of the implications of the July 1, 2016 valuation results in terms of benefit security (assets over liabilities) and contribution levels. All the projections in this section are based on the assumption that the Plan will exactly achieve the 7.50% assumption each year, which is clearly an impossibility. We have also assumed future salary increases of 3.15% per year.

# Projection of Employer Contributions, 7.50% return each year

The contribution rate graph shows that the District's contributions are expected to remain relatively flat over the next few years. Costs are expected to increase slightly as the deferred asset losses are recognized, but these increases will be offset by a decline in the employer-paid portion of the normal cost as the PEPRA membership increases. The employer contribution rate is expected to decline substantially in FYE 2032 once the current unfunded liability is fully amortized.

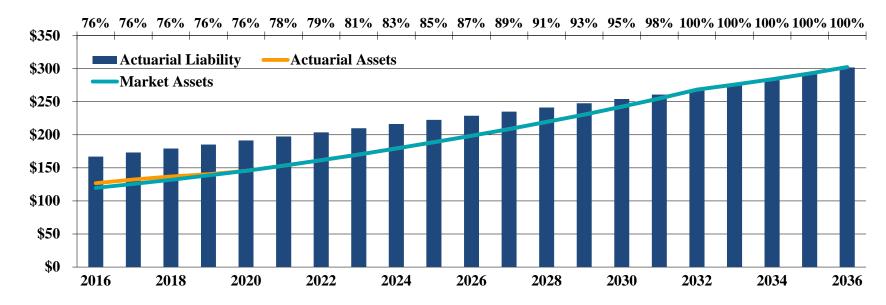

#### SECTION I – EXECUTIVE SUMMARY

The dollar actuarial cost will be approximately \$8.4 million in 2017-2018, growing as pay increases to around \$11.2 million in 2032-2033, then dropping significantly the following years as the unfunded liability amortization payment disappears, at which point the cost will be equal to the employer's share of the normal cost and administrative expenses.

Note that the graph on the previous page does not forecast any actuarial gains or losses or changes to the assumptions or funding policy. Even relatively modest losses relative to the 7.50% assumed return could push the employer contribution rate up to 30% of pay or higher over the next few years.

The following graph shows the projection of assets and liabilities assuming that assets will earn the 7.50% assumption each year during the projection period.

#### Projection of Assets and Liabilities, 7.50% return each year

The graph shows that the funded status is expected to increase over the next 16 years as the current unfunded liability is fully amortized, assuming the actuarial assumption is achieved. However, as above, it is the actual return on Plan assets that will determine the future funding status and contribution rate to the Plan.

### **SECTION II – ASSETS**

Pension Plan assets play a key role in the financial operation of the Plan and in the decisions the Board may make with respect to future deployment of those assets. The level of assets, the allocation of assets among asset classes, and the methodology used to measure assets will likely impact benefit levels, employer contributions, and the ultimate security of participants' benefits.

In this section, we present detailed information on Plan assets including:

- **Disclosure** of Plan assets as of June 30, 2015 and June 30, 2016
- Statement of the **changes** in market values during the year
- Development of the Actuarial Value of Assets

#### **SECTION II – ASSETS**

# **Disclosure**

There are two types of asset values disclosed in the valuation, the Market Value of Assets and the Actuarial Value of Assets. The market value represents "snap-shot" or "cash-out" values which provide the principal basis for measuring financial performance from one year to the next. Market values, however, can fluctuate widely with corresponding swings in the marketplace. As a result, market values are usually not as suitable for long-range planning as are the Actuarial Value of Assets, which reflect smoothing of annual investment returns.

# **ATU vs. IBEW Asset Split**

Historical financial statements provided asset information based on a single combined trust for ATU and IBEW. This is the first year separate reports are being issued to ATU and IBEW. The financial information shown in Section II is based on the combined trust of ATU and IBEW having been allocated to the separate groups based on the following methodology:

- Actuarial liabilities measured using valuation methods and assumptions.
- If assets exceed inactive liability in total, assets allocated to inactive participants in an amount equal to that liability for each group. If assets are less than inactive liability in total, assets allocated to each group as a pro-rata portion of the total inactive liability.
- After allocation to inactive groups, any remaining assets are allocated as a pro-rata portion of the active Actuarial Liability.

Prior to the commencement of the 2016 valuation reports, a preliminary split of the ATU and IBEW assets was performed using this methodology and based on the results of the 2015 actuarial valuation. The split in the assets as of June 30, 2016 has since been updated to reflect the results of the current actuarial valuation, which has resulted in a higher proportion of the assets being allocated to IBEW, as a result of the reallocation of the liabilities for Salaried plan members with prior ATU and/or IBEW service, as described earlier in this report.

An asset transfer between the plans will be made at the end of FY2016-17 to true up the asset balances to reflect the allocation presented in this report. In future years, the asset schedules shown in the valuation report will only include the information for each individual plan.

### **SECTION II – ASSETS**

Table II-1 discloses and compares each component of the market asset value as of June 30, 2015 and June 30, 2016.

| Table II-1                          |          |             |    |             |  |  |  |

| Fixed Income Securities             | <u> </u> | 67,050,762  | _  | 65,711,732  |  |  |  |
| Total Investments                   |          | 180,235,029 |    | 174,925,641 |  |  |  |
| Receivables:                        |          |             |    |             |  |  |  |
| Securities Sold                     | \$       | 447,809     | \$ | 2,571,938   |  |  |  |
| Interest and Dividends              |          | 166,280     |    | 272,803     |  |  |  |
| Other Receivable                    | _        | 58,825      | _  | 28,758      |  |  |  |
| Total Receivables                   |          | 672,914     |    | 2,873,499   |  |  |  |
| Payables                            |          |             |    |             |  |  |  |
| Accounts Payable                    | \$       | (410,569)   | \$ | (747,062)   |  |  |  |
| Benefits Payable                    |          | 0           |    | 0           |  |  |  |
| Other Payable                       | <u> </u> | (8,391,320) | _  | (9,037,058) |  |  |  |
| Total Payables                      |          | (8,801,889) |    | (9,784,120) |  |  |  |
| Market Value of Assets              | \$       | 172,106,054 | \$ | 168,015,020 |  |  |  |
| ATU Market Value of Assets*         | \$       | 126,041,522 | \$ | 119,630,500 |  |  |  |
| IBEW Market Value of Assets*        | \$       | 46,064,532  | \$ | 48,384,520  |  |  |  |

<sup>\*</sup> For June 30, 2015, the liability associated with this Plan for transferred members of the Salaried plan was allocated based on the share of the total active liability held by the current members of each group (ATU and IBEW). For June 30, 2016, the actual liability split for these members is calculated for each respective plan.

### **SECTION II – ASSETS**

# **Changes in Market Value**

The components of asset change are:

- Contributions (employer and employee)
- Benefit payments
- Expenses (investment and administrative)
- Investment income (realized and unrealized)

Table II-2 shows the components of a change in the Market Value of Assets during 2015 and 2016.

| Table II-                                              | 2    |              |    |             |  |  |  |  |  |  |
|--------------------------------------------------------|------|--------------|----|-------------|--|--|--|--|--|--|
| Changes in Market Values                               |      |              |    |             |  |  |  |  |  |  |
|                                                        |      | <u>2015</u>  |    | <u>2016</u> |  |  |  |  |  |  |

### **SECTION II – ASSETS**

# **Actuarial Value of Assets (AVA)**

The Actuarial Value of Assets represents a "smoothed" value developed by the actuary to reduce the volatile results which could develop due to short-term fluctuations in the Market Value of Assets. For this Plan, the Actuarial Value of Assets is calculated on a modified market-related value. The Market Value of Assets is adjusted to recognize, over a five-year period, investment earnings which are greater than (or less than) the assumed investment return.

|    | Table II-3  Development of Actuarial Value of Assets  as of June 30, 2016 |                   |                         |                |             |              |            |              |  |  |  |  |
|----|---------------------------------------------------------------------------|-------------------|-------------------------|----------------|-------------|--------------|------------|--------------|--|--|--|--|

### **SECTION II – ASSETS**

# **Investment Performance**

The following table calculates the investment related gain/loss for the plan year on both a Market Value and an Actuarial Value basis. The Market Value gain/loss is an appropriate measure for comparing the actual asset performance to the previous valuation's long-term 7.50% assumption.

| Table II-4<br>Asset Gain/(Loss)      |    |              |    |                 |  |  |  |  |  |

#### **SECTION III – LIABILITIES**

In this section, we present detailed information on Plan liabilities including:

- **Disclosure** of Plan liabilities at July 1, 2015 and July 1, 2016
- Statement of **changes** in these liabilities during the year

### **Disclosure**

Several types of liabilities are calculated and presented in this report. Each type is distinguished by the people ultimately using the figures and the purpose for which they are using them. Note that these liabilities are not applicable for settlement purposes, including the purchase of annuities and the payment of lump sums.

- **Present Value of Future Benefits:** Used for measuring all future Plan obligations, represents the amount of money needed today to fully fund all benefits of the Plan both earned as of the valuation date and those to be earned in the future by current plan participants, under the current Plan provisions.
- Actuarial Liability: Used for funding calculations, the Normal Cost rate is equal to the total Projected Value of Benefits at Entry Age, divided by Present Value of Future Salary at Entry Age. The dollar amount of the Normal Cost equal to the Normal Cost rate multiplied by each member's projected pay. The Actuarial Liability is the portion of the Present Value of Future Benefits not covered by future expected Normal Costs. This method is called Entry Age to Final Decrement (EAFD).
- **Unfunded Actuarial Liability:** The excess of the Actuarial Liability over the Actuarial Value of Assets.

Table III-1 discloses each of these liabilities for the current and prior valuations.

| Table III-1 ATU Liabilities/Net (Surplus)/Unfunded |        |                              |              |  |  |  |  |  |  |  |

| Net (Surplus)/Unfunded (AL – AVA)                  | \$     | 41,067,628 \$                | 40,275,718   |  |  |  |  |  |  |  |

#### **SECTION III – LIABILITIES**

### **Changes in Liabilities**

Each of the Liabilities disclosed in the prior table are expected to change at each valuation. The components of that change, depending upon which liability is analyzed, can include:

- New hires since the last valuation
- Benefits accrued since the last valuation
- Plan amendments increasing benefits
- Passage of time which adds interest to the prior liability
- Benefits paid to retirees since the last valuation
- Participants retiring, terminating, or dying at rates different than expected
- A change in actuarial or investment assumptions
- A change in the actuarial funding method or software

Unfunded liabilities will change because of all of the above, and also due to changes in Plan assets resulting from:

- Employer contributions different than expected
- Investment earnings different than expected
- A change in the method used to measure plan assets

| Table III-2 ATU Changes in Actuarial Liability |    |             |  |  |  |  |  |  |  |
|------------------------------------------------|----|-------------|--|--|--|--|--|--|--|
| Actuarial Liability at July 1, 2015            | \$ | 165,969,800 |  |  |  |  |  |  |  |

#### **SECTION IV – CONTRIBUTIONS**

In the process of evaluating the financial condition of any pension plan, the actuary analyzes the assets and liabilities to determine what level (if any) of contributions is needed to properly maintain the funding status of the Plan. Typically, the actuarial process will use a funding technique that will result in a pattern of contributions that are both stable and predictable.

For this Plan, the actuarial funding method used to determine the normal cost as a percentage of payroll and the Unfunded Actuarial Liability is the **Entry Age to Final Decrement (EAFD)** cost method.

The normal cost rate is equal to the total Projected Value of Benefits at Entry Age, divided by Present Value of Future Salary at Entry Age. Normal cost contributions are assumed to be made throughout the year, or on average mid-year, with the dollar amount of the normal cost equal to the normal cost rate multiplied by the projected payroll. The Actuarial Liability is the portion of the present value of all future benefits for each member not expected to be covered by the future normal cost payments.

The Unfunded Actuarial Liability is the difference between the EAFD Actuarial Liability and the Actuarial Value of Assets. The UAL rate is based on a 16-year amortization of the remainder of the Unfunded Actuarial Liability as of July 1, 2016, again assuming mid-year payment to reflect the fact that employer contributions are made throughout the year.

Beginning with the June 30, 2013 actuarial valuation, an amount equal to the expected administrative expenses for the Plan is added directly to the actuarial cost calculation. Previously, this cost was implicitly included in the calculation of the normal cost and unfunded liability payment, based on the use of a discount rate that was net of anticipated administrative expenses.

ATU members hired on or after January 1, 2015 but before January 1, 2016 will contribute 3% of Compensation to the Plan until the first payroll after the first valuation determining that the Plan is at least 100% funded, at which time member contributions will cease following the adoption by the Retirement Board.

Members hired on or after January 1, 2016 will contribute half of the PEPRA normal cost of the Plan rounded to the nearest 0.25%. Once established, contribution rate for New Members will be adjusted to reflect a change in the normal cost rate, but only if the normal cost rate changed by more than 1% of payroll. For the July 1, 2016 valuation, the initial contribution rate for PEPRA members is 6.50% of payroll (1/2 of 13.21%, rounded to the nearest quarter); Table IV-3 contains the details of this calculation.

The tables on the following pages present the employer contributions for the Plan for the current and prior valuations. Tables IV-1 and IV-2 also present the current employer contribution before and after the phase in of the assumption changes adopted by the Board.

Assets have been allocated to the groups based on the following methodology:

- Actuarial liabilities measured using valuation methods and assumptions.
- If assets exceed inactive liability in total, assets allocated to inactive participants in an amount equal to that liability for each group. If assets are less than inactive liability in total, assets allocated to each group as a pro-rata portion of the total inactive liability.

After allocation to inactive groups, any remaining assets are allocated as a pro-rata portion of the active Actuarial Liability.

| All Ages | 58     | \$993                         |

#### APPENDIX B – STATEMENT OF ACTUARIAL ASSUMPTIONS AND METHODS

The assumptions and methods used in the actuarial valuation as of July 1, 2016 are:

#### **Actuarial Method**

As of July 1, 2012, the Normal Cost as a percentage of pay (and resulting Actuarial Liability) is determined as a single result for each individual: with the Normal Cost as a percentage of pay equal to the total Projected Value of Benefits at Entry Age, divided by the Present Value of Future Salary at Entry Age. This variation is known as the Entry Age to Final Decrement.

The excess of the Actuarial Liability over Plan assets is the Unfunded Actuarial Liability. Prior to July 1, 2007, this liability was amortized as a level percentage of payroll over the remainder of a 30-year period beginning January 1, 1997. As of July 1, 2007, the amortization period has been reset to a new 30-year period, decreasing two years with each valuation until a 20-year amortization period has been achieved. The amortization period as of July 1, 2016 is 16 years. Amounts may be added to or subtracted from the Unfunded Actuarial Liability due to Plan amendments, changes in actuarial assumptions, and actuarial gains and losses.

The total Plan cost is the sum of the Normal Cost, the amortization of the Unfunded Actuarial Liability, and the expected Administrative Expenses.

#### **Actuarial Value of Plan Assets**

The actuarial value of Plan assets is calculated on a modified market-related value. The Market Value of Assets is adjusted to recognize, over a five-year period, investment earnings which are greater than (or less than) the assumed investment return on the Market Value of Assets.

### **Actuarial Assumptions**

The actuarial assumptions were developed based on an Experience Study covering the period from July 1, 2011 through June 30, 2015.

#### 1. Rate of Return

The annual rate of return on all Plan assets is assumed to be 7.50% for the current valuation net of investment, but not administrative, expenses.

#### 2. Cost of Living

The cost of living as measured by the Consumer Price Index (CPI) is assumed to increase at the rate of 3.15% per year.

#### APPENDIX B – STATEMENT OF ACTUARIAL ASSUMPTIONS AND METHODS

### 3. Plan Expenses

Administrative expenses are assumed to be \$294,384 for Fiscal Year 2017-18, and are added directly to the actuarial cost calculation. The expenses are assumed to increase with CPI in future years.

### 4. Increases in Pay

Assumed pay increases for active Participants consist of increases due to inflation (cost of living adjustments) and those due to longevity and promotion.

Based on an analysis of pay levels and service for ATU Participants, we assume that pay increases due to longevity and promotion will be 6.0% per year for the first 10 years of service and 0.5% per year thereafter.

In addition, annual adjustments in pay due to inflation will equal the CPI, for an additional annual increase of 3.15% for the current valuation.

### 5. Family Composition

85% of participants are assumed to be married. Male spouses of active employees are assumed to be three years older than their wives. This assumption is also applied to retired members with a joint and survivor benefit where the data is missing the beneficiary date of birth.

### 6. Terminal Pay Load

A load of 5.0% is applied to the retirement benefits to account for conversions of unused sick leave and other terminal pay increases.

### 7. Employment Status

No Plan Participants are assumed to transfer between the ATU/IBEW Plan and the Salaried Plan.

# APPENDIX B - STATEMENT OF ACTUARIAL ASSUMPTIONS AND METHODS

### 8. Rates of Termination

Rates of termination for all Participants from causes other than death, disability, and service retirement are based on the Participant's years of service. Representative rates are shown in the following table:

| Rates of Termination* |           |  |
|-----------------------|-----------|--|
| Years of              |           |  |
| Service               | ATU Rates |  |
| < 1                   | 9.00%     |  |
| 1-3                   | 5.00%     |  |
| 4                     | 3.00%     |  |
| 5-9                   | 3.00%     |  |
| 10-14                 | 2.50%     |  |
| 15-19                 | 2.50%     |  |
| 20-24                 | 0.50%     |  |
| 25+                   | 0.00%     |  |

<sup>\*</sup> No terminations are assumed to occur after eligibility for retirement.

# 9. Rates of Disability

Rates of disability are based on the age and sex of the Participant. Representative rates are as follows:

| Rates of Disability |       |        |  |
|---------------------|-------|--------|--|
| Age                 | Male  | Female |  |
| 22                  | 0.30% | 0.00%  |  |
| 27                  | 0.40% | 0.30%  |  |
| 32                  | 0.50% | 0.39%  |  |
| 37                  | 0.60% | 0.56%  |  |
| 42                  | 0.70% | 0.86%  |  |
| 47                  | 0.80% | 1.34%  |  |
| 52                  | 0.90% | 2.35%  |  |
| 57                  | 1.00% | 4.09%  |  |
| 62                  | 1.10% | 5.75%  |  |

Rates are applied after the Participant becomes eligible to receive a disability benefit. Disabled Participants are assumed not to return to active service.

#### APPENDIX B – STATEMENT OF ACTUARIAL ASSUMPTIONS AND METHODS

### 10. Rates of Mortality for Healthy Lives

Rates of mortality for active Participants are given by the Retired Pensioners (RP) 2014 Male and Female Employee Mortality Tables projected with Scale MP-2015 published by the Society of Actuaries, with the base tables adjusted 115% for males and 130% for females.

### 11. Rates of Mortality for Disabled Retirees

Rates of mortality for all disabled Participants are given by Retired Pensioners (RP) 2014 Male and Female Disabled Retiree Mortality Tables projected with Scale MP-2015 published by the Society of Actuaries, with the base tables adjusted 120% for males.

# 12. Retired Member and Beneficiary Mortality

Rates of mortality for retired Participants and their beneficiaries are given by the Retired Pensioners (RP) 2014 Combined Healthy Blue Collar Male and Female Tables projected with Scale MP-2015 published by the Society of Actuaries, with the base tables adjusted 115% for males and 130% for females.

#### 13. Rates of Retirement

Rates of service retirement among all participants eligible to retire are given by the following table:

| Rates of Retirement |         |            |         |  |
|---------------------|---------|------------|---------|--|

PEPRA members are assumed to begin retiring at age 52, with at least five years of service.

### 14. Changes Since Last Valuation

None

#### APPENDIX C – SUMMARY OF PLAN PROVISIONS

#### A. Definitions

Average Final Monthly

Earnings: A Participant's Average Final Monthly Earnings is the highest average

consecutive 48 months' compensation paid. Payments for accumulated vacation or sick leave not actually taken prior to retirement are included in computing Average Final Monthly Earnings if last 48 months of

compensation are used in the calculation.

Compensation: A Participant's Compensation is the earnings paid in cash to the participant

during the applicable period of employment with the District.

Service: Service is computed from the date in which the Participant becomes a full

or part-time employee and remains in continuous employment to the date

employment ceases.

Service includes time with the District or predecessor companies

immediately prior to April 1, 1979 and subsequent to hire. Service is

measured in continuous fractions of a year.

#### **B.** Participation

Eligibility: Any person employed by the District who is a member of ATU Local 256

is eligible to participate in the Plan.

Any member joining the Plan for the first time on or after January 1, 2016 is a New Member and will follow PEPRA provisions. Employees who transfer from and are eligible for reciprocity with another public employer will not be New Members if the service in the reciprocal system was under

a pre-PEPRA plan.

#### C. Retirement Benefit

Eligibility: Participants hired prior to January 1, 2016 are eligible for normal service

retirement upon attaining age 55 and completing 10 or more years of service. In addition, members are eligible to retire upon reaching 25 years

of service.

PEPRA members are eligible upon attaining age 52 and completing five or

more years of service.

#### APPENDIX C – SUMMARY OF PLAN PROVISIONS

Benefit Amount: The normal service retirement benefit is the greater of the benefit accrued under the plan provisions in effect on February 28, 1993 or the Participant's benefit under the current plan provisions. Under the current plan provision, the member would receive a percentage of the Participant's Average Final Monthly Earnings multiplied by the Participant's service at retirement.

> For retirements and terminations prior to March 1, 2004 the percentage is equal to:

- 2.0%, if the member retires prior to age 65, and
- 2.5%, if the member retires at age 65 or later.

For retirements and terminations on and after March 1, 2004, the percentage is equal to:

- 2.0%, if the member retires at age 55 or with 25 years of service,
- 2.1%, if the member retires at age 56 or with 26 years of service,
- 2.2%, if the member retires at age 57 or with 27 years of service,
- 2.3%, if the member retires at age 58 or with 28 years of service,
- 2.4%, if the member retires at age 59 or with 29 years of service, and
- 2.5%, if the member retires at age 60 or later or with 30 years or more years of service.

For PEPRA members, the benefit multiplier will be 1% at age 52, increasing by 0.1% for each year of age to 2.5% at 67. In between exact ages, the multiplier will increase by 0.025% for each quarter year increase in age.

Form of Benefit: The benefit begins at retirement and continues for the Participant's life with no cost of living adjustments. A Participant may elect to receive reduced benefits in the form of a contingent annuity with 50% or 100% continuing to a beneficiary after death, or in the form of an increased benefit prior to receiving Social Security benefits, and a reduced benefit thereafter.

#### D. Disability Benefit

Eligibility:

A Participant is eligible for a disability benefit, if the Participant is unable to perform the duties of his or her job with the District, cannot be transferred to another job with the District, and has submitted satisfactory medical evidence of permanent disqualification from his or her job.

#### APPENDIX C – SUMMARY OF PLAN PROVISIONS

10 years of service is required to qualify for disability. For PEPRA members, only five years of service is needed.

Benefit Amount: The benefit payable to a disabled Participant is equal to the Normal

Retirement Benefit earned to the date of disability.

Form of Benefit: The benefit begins at disability and continues until recovery or for the

Participant's life with no cost of living adjustments. A Participant may elect to receive reduced benefits in the form of a contingent annuity with 50% or 100% continuing to a beneficiary after death, or in the form of an increased benefit prior to receiving Social Security benefits, and a reduced

benefit thereafter.

#### E. Pre-Retirement Death Benefit

Eligibility: A Participant's surviving spouse or Domestic Partner is eligible for a pre-

retirement death benefit, if the Participant has completed 10 years of service with the District. A PEPRA Participant's surviving spouse or Domestic Partner is eligible for a pre-retirement death benefit if the

Participant has completed five years of service with the District.

Benefit Amount: The pre-retirement death benefit is the actuarial equivalent of the Normal

Retirement Benefit, as if the member retired on the day before his/her death. If the member is not eligible to retire on the day before his/her death, but is vested in his/her benefit, the benefit shall be calculated using

a 1% multiplier for PEPRA members and 2% for all other members.

Form of Benefit: The death benefit begins when the Participant dies and continues for the

life of the surviving spouse or Domestic Partner. No optional form of

benefit may be elected. No cost of living increases are payable.

#### F. Termination Benefit

Eligibility: Participants hired before January 1, 2016 are eligible for a termination

benefit after earning 10 years of service.

PEPRA members are eligible for a termination benefit after earning 5

years of service.

Benefit Amount: The benefit payable to a vested terminated Participant is equal to the

Normal Retirement Benefit, based on the provisions of the Plan in effect

on the date the Participant terminated employment.

#### APPENDIX C – SUMMARY OF PLAN PROVISIONS

PEPRA members are eligible after earning five years of service for the full Normal Retirement Benefit earned on the date of termination, based on the service and Average Final Monthly Earnings accrued by the Participant at that point, and using the factor based on the age at which the benefit commences

Form of Benefit: The termination benefit begins at retirement and continues for the Participant's life with no cost of living adjustments. A Participant may elect to receive reduced benefits in the form of a contingent annuity with 50% or 100% continuing to a beneficiary after death, or in the form of an increased benefit prior to receiving Social Security benefits, and a reduced benefit thereafter.

### G. Reciprocity Benefit

Eligibility: A Participant who transfers from this Plan to the RT Salaried Plan, and

who is vested under this Plan, is eligible for a retirement benefit from this

Plan.

Benefit Amount: The benefit payable to a vested transferred Participant is equal to the

Normal Retirement Benefit based on service earned under this Plan to the date of transfer and based on Average Final Earnings computed under this Plan and the Salaried Plan together, as if the plans were a single plan. For ATU members who transfer on or after August 30, 2011, the multiplier payable by the ATU Plan will be limited to the multiplier applicable at the

date of transfer.

Form of Benefit: The reciprocity benefit begins at retirement and continues for the

Participant's life with no cost of living adjustments. A Participant may elect to receive reduced benefits in the form of a contingent annuity with 50% or 100% continuing to a beneficiary after death, or in the form of an increased benefit prior to receiving Social Security benefits, and a reduced

benefit thereafter.

### H. Funding

ATU members hired on or after January 1, 2015 but before January 1, 2016 will contribute 3% of Compensation to the Plan until the first payroll after the first valuation determining that the Plan is at least 100% funded, at which time member contributions will cease following the adoption by the Retirement Board.

PEPRA members hired on or after January 1, 2016 will contribute half of the PEPRA normal cost of the Plan rounded to the nearest 0.25%. Once established, contribution rate for New Members will be adjusted to reflect a change in the normal cost rate, but only if the normal cost rate changed by more than 1% of payroll. For the July 1, 2016 valuation, the initial

# APPENDIX C – SUMMARY OF PLAN PROVISIONS

contribution rate for PEPRA members is 6.50% of payroll (1/2 of 13.21%, rounded to the nearest quarter).

The remaining cost of the Plan is paid by the District.

### I. Changes in Plan Provisions

PEPRA provisions apply to members hired on or after January 1, 2016.

The basis used for calculating actuarial equivalence for the Pre-Retirement Death Benefit was updated.

#### APPENDIX D – GLOSSARY

### 1. Actuarial Assumptions

Assumptions as to the occurrence of future events affecting pension costs such as mortality, withdrawal, disability, retirement, changes in compensation, and rates of investment return.

#### 2. Actuarial Cost Method

A procedure for determining the Actuarial Present Value of pension plan benefits and expenses and for developing an allocation of such value to each year of service, usually in the form of a Normal Cost and an Actuarial Liability.

### 3. Actuarial Gain (Loss)

The difference between actual experience and that expected based upon a set of Actuarial Assumptions during the period between two Actuarial Valuation dates, as determined in accordance with a particular Actuarial Cost Method.

# 4. Actuarial Liability

The portion of the Actuarial Present Value of Projected Benefits which will not be paid by future Normal Costs. It represents the value of the past Normal Costs with interest to the valuation date.

# **5.** Actuarial Present Value (Present Value)

The value as of a given date of a future amount or series of payments. The Actuarial Present Value discounts the payments to the given date at the assumed investment return and includes the probability of the payment being made.

#### 6. Actuarial Valuation

The determination, as of a specified date, of the Normal Cost, Actuarial Liability, Actuarial Value of Assets, and related Actuarial Present Values for a pension plan.

#### APPENDIX D – GLOSSARY

#### 7. Actuarial Value of Assets

The value of cash, investments, and other property belonging to a pension plan as used by the actuary for the purpose of an Actuarial Valuation. The purpose of an Actuarial Value of Assets is to smooth out fluctuations in market values.

# 8. Actuarially Equivalent

Of equal Actuarial Present Value, determined as of a given date, with each value based on the same set of actuarial assumptions.

### 9. Amortization Payment

The portion of the pension plan contribution which is designed to pay interest and principal on the Unfunded Actuarial Liability in order to pay for that liability in a given number of years.

### 10. Entry Age Normal Actuarial Cost Method

A method under which the Actuarial Present Value of the Projected Benefits of each individual included in an Actuarial Valuation is allocated on a level basis over the earnings of the individual between entry age and assumed exit ages.

#### 11. Funded Ratio

The ratio of the Actuarial Value of Assets to the Actuarial Liabilities.

#### 12. Normal Cost

That portion of the Actuarial Present Value of pension plan benefits and expenses which is allocated to a valuation year by the Actuarial Cost Method.

### 13. Projected Benefits

Those pension plan benefit amounts which are expected to be paid in the future under a particular set of Actuarial Assumptions, taking into account such items as increases in future compensation and service credits.

# 14. Unfunded Actuarial Liability

The excess of the Actuarial Liability over the Actuarial Value of Assets. The Unfunded Actuarial Liability is not appropriate for assessing the sufficiency of plan assets to cover the estimated cost of settling the Plan's benefit obligation in the event of a plan termination or other similar action. However, it is an appropriate measure for assessing the need for or the amount of future contributions.

Estimate FY 2018:

#### DISCUSSION

Cheiron, the Pension Plans' actuary, has completed the annual Actuarial Valuation for the IBEW Employees' Retirement Plan as of July 1, 2016 (Exhibit A).

The purpose of the Actuarial Valuation is to compute the annual actuarially determined contribution rate (ADC) required to fund the Plan according to actuarial principles and to present items required for disclosure under Statement No. 67 of the Governmental Accounting Standards Board (GASB).

At the Retirement Boards' February 1, 2017 special meeting, Cheiron presented the draft study used to establish the ADC for Fiscal Year (FY) 2018. Based on actuarial valuation findings the proposed ADC for FY18 is \_\_\_\_\_\_%. Cheiron's recommendation is explained in greater detail in the study attached as Exhibit A.

#### Staff Recommendation:

Staff recommends the Board accept Cheiron's Actuarial Valuation study and instruct the Sacramento Regional Transit District to contribute to the IBEW Employees' Retirement Plan

March 17, 2017

IBEW Retirement Board of Sacramento Regional Transit District 2830 G Street Sacramento, CA 95816

Dear Members of the Board:

At your request, we have conducted an actuarial valuation of the Retirement Plan for Sacramento Regional Transit District Employees (IBEW Plan) (SacRT, the Fund, the Plan) as of July 1, 2016. This report contains information on the Plan's assets and liabilities. This report also discloses employer contribution levels. Your attention is called to the Foreword in which we refer to the general approach employed in the preparation of this report.

The purpose of this report is to present the results of the annual actuarial valuation of the Plan. This report is for the use of the Retirement Board and the auditors in preparing financial reports in accordance with applicable law and accounting requirements. Any other user of this report is not an intended user and is considered a third party.

This report was prepared for the Retirement Board for the purposes described herein and for the use by the plan auditor in completing an audit related to the matters herein. Other users of this of this report are not intended users as defined in the Actuarial Standards of Practice, and Cheiron assumes no duty or liability to such other users.

To the best of our knowledge, this report and its contents have been prepared in accordance with generally recognized and accepted actuarial principles and practices which are consistent with the Code of Professional Conduct and applicable Actuarial Standards of Practice set out by the Actuarial Standards Board. Furthermore, as credentialed actuaries, we meet the Qualification Standards of the American Academy of Actuaries to render the opinion contained in this report. This report does not address any contractual or legal issues. We are not attorneys and our firm does not provide any legal services or advice.

Sincerely, Cheiron

David Holland, FSA, FCA, EA, MAAA Consulting Actuary Graham A. Schmidt, ASA, FCA, EA, MAAA Consulting Actuary

Grahen Schmid

#### **FOREWORD**

Cheiron has performed the actuarial valuation of the Retirement Plan for Sacramento Regional Transit District Employees (IBEW Plan) as of July 1, 2016. The valuation is organized as follows:

- In Section I, the **Executive Summary**, we describe the purpose of an actuarial valuation, summarize the key results found in this valuation, and disclose important trends;
- The **Main Body** of the report presents details on the Plan's
  - o Section II Assets
  - o Section III Liabilities
  - Section IV Contributions
- In the **Appendices**, we conclude our report with detailed information describing plan membership (Appendix A), actuarial assumptions and methods employed in the valuation (Appendix B), a summary of pertinent plan provisions (Appendix C), and a glossary of key actuarial terms (Appendix D).

Future results may differ significantly from the results of the current valuation presented in this report due to such factors as the following: plan experience differing from that anticipated by the assumptions; changes in assumptions; and, changes in plan provisions or applicable law.

In preparing our report, we relied on information (some oral and some written) supplied by the District's staff. This information includes, but is not limited to, plan provisions, employee data, and financial information. We performed an informal examination of the obvious characteristics of the data for reasonableness and consistency in accordance with Actuarial Standard of Practice #23.

#### SECTION I – EXECUTIVE SUMMARY

The primary purpose of the actuarial valuation and this report is to measure, describe, and identify the following as of the valuation date:

- The financial condition of the Plan,
- Past and expected trends in the financial progress of the Plan, and
- Employer contribution rates for Plan Year 2017-2018.

In prior years, a combined valuation report was issued for the Retirement Plans for Sacramento Regional Transit District Employees ATU Local 256 and IBEW Local 1245. As per the Board's direction, beginning this year separate reports will be issued for the ATU and IBEW plans.

The information required under GASB Statements (Nos. 67 and 68) is included in a separate report, with the report for the Fiscal Year Ending June 30, 2016 provided to the Board in September 2016.

In the balance of this Executive Summary, we present (A) the basis upon which this year's valuation was completed, (B) the key findings of this valuation including a summary of all key financial results, (C) an examination of the historical trends, and (D) the projected financial outlook for the Plan.

#### A. Valuation Basis

This valuation determines the employer contributions for the plan year.

The Plan's funding policy is to contribute an amount equal to the sum of:

- The normal cost under the Entry Age Normal Cost Method,
- Amortization of the Unfunded Actuarial Liability, and
- The Plan's expected administrative expenses.

This valuation was prepared based on the plan provisions shown in Appendix C. There was a plan provision change to the basis for calculating actuarial equivalence for the Preretirement Death Benefit.

A summary of the assumptions and methods used in the current valuation is shown in Appendix B. There have been no changes in assumptions or methods since the prior valuation.

#### SECTION I – EXECUTIVE SUMMARY

# **B.** Key Findings of this Valuation

The key results of the July 1, 2016 actuarial valuation are as follows:

- The actuarially determined employer contribution rate decreased from 25.63% of payroll last year to 25.31% of payroll for 2016, reflecting an adjustment for the second year of the three-year phase-in of the impact of changes to the economic and demographic assumptions from the experience study completed last year. Without the phase-in, the employer contribution rate would have increased to 26.02% of payroll.
- The Plan's funded ratio, the ratio of actuarial assets over actuarial liability, increased from 72.5% last year to 74.6% as of July 1, 2016. This increase was primarily due to contributions to the Plan exceeding the annual normal cost plus the interest on the unfunded liability.

As a point of comparison, a funding ratio of 59.4% or more is required just to fund the liabilities of the inactive members: retired, disabled, terminated with vested benefits, and their beneficiaries. This is sometimes referred to as the Inactive Funded Ratio.

- The Unfunded Actuarial Liability (UAL) is the excess of the Plan's actuarial liability over the Actuarial Value of Assets. The Plan experienced an increase in the UAL from \$17,314,041 to \$17,465,609 as of July 1, 2016. This increase in UAL was primarily due to the liability loss mentioned above and the rate of return on the Actuarial Value of Assets being less than expected.
- During the year ending June 30, 2016, the return on ATU/IBEW Plan assets was -0.66% on a market value basis net of all expenses, as compared to the 7.50% assumption. This resulted in a market value loss on investments of \$13,918,010. The Actuarial Value of Assets recognizes 20% of the difference between the expected and actual return on the Market Value of Assets (MVA). This method of smoothing the asset gains and losses returned 6.26% on the smoothed value of assets, an actuarial asset loss of \$2,095,163, of which \$157,349 is attributable to IBEW.

The Actuarial Value of Assets is currently 106.0% of the market value. Since actuarial assets are above market assets, there are unrecognized investment losses (approximately \$2.9 million for IBEW) that will be reflected in the smoothed value in future years.

These returns were calculated on assets for both ATU and IBEW combined, in the future returns will be calculated separately for each individual plan.

• The Plan experienced a liability loss of \$739,723, due primarily to greater than anticipated salary increases as well as longevity of inactive members. Combining the liability and asset losses, the Plan experienced a total loss of \$897,071.

#### SECTION I – EXECUTIVE SUMMARY

- The liabilities also increased based on a change in the methodology used to assign liabilities between ATU and IBEW for active Salaried plan members with prior ATU and/or IBEW service, but this was accompanied by a transfer in assets approved by ATU and IBEW, which offsets the impact on the unfunded liability.
- The Plan experienced a decrease in the liabilities of \$65,241 due to administrative plan changes modifying the actuarial equivalence calculation of the Pre-Retirement Death benefit.
- There were 32 new hires and rehires since July 1, 2015 and the total active population increased. Total projected payroll increased 7.97% from \$11,423,082 for 2015-2016 to \$12,333,541 for 2016-2017.

Table I-1 summarizes all the key results of the valuation with respect to membership, assets and liabilities, and contributions. The results are presented and compared for both the current and prior plan year. We have also presented the employer contribution rate both before and after the phase in of the effect of assumption changes (adopted as of July 1, 2015 valuation (except for the change in administrative expenses, which was fully recognized in the prior valuation).

| Change due to liability/asset reallocation          | -0.59%       | 0.00%  | -0.59% | 0.00%            |  |  |  |  |
| Change due to plan changes                          | -0.02%       | 0.02%  | -0.04% | <u>0.00%</u>     |  |  |  |  |
| FYE 2018 Net Employer Contribution Rate             | 26.02%       | 12.75% | 12.29% | 0.98%            |  |  |  |  |

An analysis of the cost changes from the prior valuation reveals the following:

• Asset experience produced an investment loss on an actuarial basis.

The assets of the Union Plans returned -0.66% (net of investment expenses) on a market basis, lower than the assumed rate of 7.50%. The actuarial return on assets was 6.26%, lower than the assumed rate of 7.50%. This resulted in an increase in the contribution rate by 0.12% of payroll.

The Market Value of Assets is now lower than the actuarial value; there are approximately \$2.9 million in deferred asset losses for the IBEW plan.

• Demographic experience resulted in a loss in liabilities, but little impact on the contribution rate.

The demographic experience of the Plan - rates of retirement, death, disability, and termination - was somewhat different than predicted by the actuarial assumptions in aggregate, causing an actuarial loss which increased the contribution rate by 0.67% of payroll. In particular, there were losses caused by lower mortality rates than expected among retirees, and larger salary increases than expected for returning members.

In addition, the employer portion of the normal cost for the members hired on or after January 1, 2015 under the PEPRA benefit formula is lower than the normal cost for the non-PEPRA membership, which contributed to an overall decrease in the employer normal cost rate of 0.69% of payroll.

### **SECTION I – EXECUTIVE SUMMARY**

The net impact on the contribution rate from changes in demographics was a decrease of 0.02% of payroll.

• Overall payroll growth was greater than expected.

Greater than expected growth in the projected payroll decreased the contribution rate by 0.62% of pay, since it results in the Plan's Unfunded Actuarial Liability and administrative expenses being spread over a larger payroll base.

• Contributions fell short of expectations.

Actual contributions were less than expected employer and member contributions, which resulted in an increase in the contribution rate by 0.12%.

- The reallocation of the actual liability and asset split for transferred members with prior ATU and/or IBEW service decreased the contribution rate by 0.59%.
- Administrative procedures were changed resulting in a slight decrease in cost.

Updates to the administration and calculation of the active death benefit resulted in a small decrease in the liabilities and a small reduction of 0.02% of cost.

The Total impact on employer Plan cost is a decrease of 1.01%, prior to the phase-in.

Table I-3 summarizes the impact on Plan cost incorporating of phasing in the 2015 assumption changes over three years.

| Table I-3                                                        |              |              |          |        |  |  |  |  |
|------------------------------------------------------------------|--------------|--------------|----------|--------|--|--|--|--|
| Employer Contribution Reconciliation - Projected Phase In (IBEW) |              |              |          |        |  |  |  |  |
| Full Phased                                                      |              |              |          |        |  |  |  |  |
| Item                                                             | Contribution | Contribution | Interest | Total  |  |  |  |  |
| FYE 2018 Total Employer Contribution Rate                        | 26.02%       | 25.25%       | 0.06%    | 25.31% |  |  |  |  |
| FYE 2019 Total Employer Contribution Rate                        | 25.45%       | 25.45%       | 0.00%    | 25.45% |  |  |  |  |
| FYE 2020 Total Employer Contribution Rate                        | 25.57%       | 25.64%       | 0.00%    | 25.64% |  |  |  |  |

The net impact on the FYE 2017 contribution rate due to assumption changes adopted by the Board, excluding the expense assumption was an increase of 2.41% for ATU and IBEW combined. The Board chose to phase in this increase over three years, or approximately 0.80% annually, or 0.82% for ATU and 0.77% for IBEW. For IBEW, this results in a FYE 2018 Net Employer Contribution Rate of 25.31%, based on an original rate of 26.02% minus 0.77% phase-in for IBEW costs, and then adjusted for interest on the contribution shortfall of 0.06% of pay.

### **SECTION I – EXECUTIVE SUMMARY**

Table I-4 shows the ratio of assets to active member payroll for the Plan.

| Table I-4 IBEW Asset to Payroll Ratio as of June 30, 2016 |            |  |  |  |  |
|-----------------------------------------------------------|------------|--|--|--|--|
| Active Member Payroll                                     | 12,333,541 |  |  |  |  |
| Assets (Market Value)                                     | 48,384,520 |  |  |  |  |
| Ratio of Assets to Payroll                                | 3.92       |  |  |  |  |
| Ratio with 100% Funding                                   | 5.57       |  |  |  |  |

One of the most important measures of a plan's risk is the ratio of plan assets to payroll. The table above shows the Plan's assets as a percentage of active member payroll.

This ratio indicates the sensitivity of the plan to the returns earned on plan assets. We note in the table that plan assets currently are nearly four times covered payroll for the Plan; as funding improves and the Plan reaches 100% funding, the ratio of asset to payroll will increase to over five times payroll, perhaps higher depending on the Plan's future demographic makeup. Although, both of these ratios are lower than those of many other public plans, the increase in the asset to payroll ratio expected to accompany an improvement in the Plan's funding still represents an increase in the volatility of the contributions.

To appreciate the impact of the ratio of assets to payroll on plan cost, consider the situation for a new plan with almost no assets. Even if the assets suffer a bad year of investment returns, the impact on the plan cost is nil, because the assets are so small.

On the other hand, consider the situation for the Plan. Suppose the Plan's assets lose 10% of their value in a year. Since they were assumed to earn 7.50%, there is an actuarial loss of 17.50% of plan assets. Based on the current ratio of asset to payroll (392%), that means the loss in assets is about 69% of active payroll (392% of the 17.50% loss). There is only one source of funding to make up for this loss: contributions. Consequently, barring future offsetting investment gains, the employer has to make up the asset loss in future contributions. In this example of a one- year loss of 10%, this shortfall would eventually require an additional amortization payment in the vicinity of 6.0% of payroll, amortized over 16 years.

Furthermore, consider the impact of a one-year loss of 10% if the plan is 100% funded. Based on the ratio of asset to payroll at 100% funding (557%), the asset loss would be about 100% of active payroll (557% of the 17.50% loss). In this example, the shortfall could require an additional amortization payment of approximately 8.5% of payroll, amortized over 16 years.

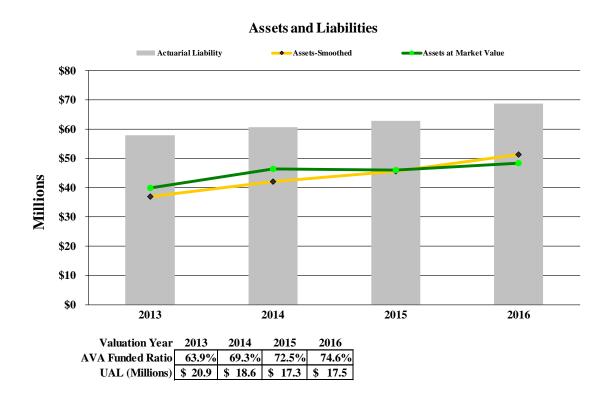

### **SECTION I – EXECUTIVE SUMMARY**

### **D.** Historical Trends

Despite the fact that for most retirement plans the greatest attention is given to the current valuation results and in particular, the size of the current Unfunded Actuarial Liability and the employer contribution, it is important to remember that each valuation is merely a snapshot in the long-term progress of a pension fund. It is more important to judge a current year's valuation result relative to historical trends, as well as trends expected into the future.

# **Assets and Liabilities**

The chart compares the Market Value of Assets (MVA) and Actuarial Value of Assets (AVA) to the Actuarial Liabilities. The percentage shown in the chart is the ratio of the Actuarial Value of Assets to the Actuarial Liability (the funded ratio). The funded ratio has increased from 63.9% in 2013 to 74.6% in 2016, primarily as a result of the recovery in the investment markets and contributions made to the plan. Prior to 2013, the valuation reports did not report a separate funded ratio or unfunded liability for the ATU/IBEW plans.

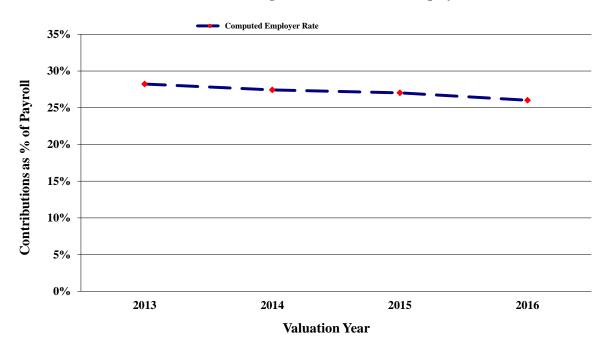

### **SECTION I – EXECUTIVE SUMMARY**

# **Contribution Trends**

In the chart, we present the historical trends for the Plan's actuarially determined contribution rates (excluding the impact of any phase-in of assumption changes.) Contribution rates have declined slightly over the past few years, as investment gains have been partially offset by subsequent losses and changes to the assumptions. Contribution rates fell this year as members hired on or after January 1, 2015 continue to make contributions and receive lower benefits. Prior to 2013, the valuation reports did not include a separate contribution rate for the ATU/IBEW plans.

#### Sacramento Regional Transit District Employees: IBEW

### **Gains and Losses**

Future valuation reports will include a historical analysis of the experience gains and losses applicable to the IBEW Plan, but as the current valuation is the first to break down the asset and liability gains and losses between the ATU and IBEW members, that analysis is not included in this report. See Table II-4 and III-2 for a discussion of the asset and liability changes for the current year.

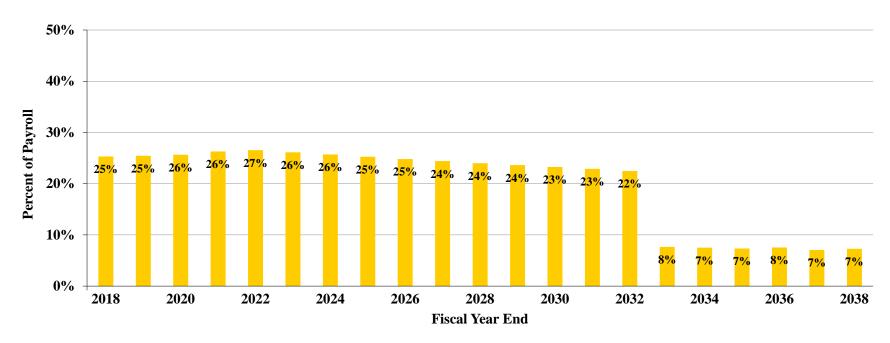

#### **SECTION I – EXECUTIVE SUMMARY**

# **E. Future Expected Financial Trends**

The analysis of projected financial trends is perhaps the most important component of this valuation. In this Section, we present our assessment of the implications of the July 1, 2016 valuation results in terms of benefit security (assets over liabilities) and contribution levels. All the projections in this section are based on the assumption that the Plan will exactly achieve the 7.50% assumption each year, which is clearly an impossibility. We have also assumed future salary increases of 3.15% per year.

# Projection of Employer Contributions, 7.50% return each year

The contribution rate graph shows that the District's contributions are expected to remain relatively flat over the next few years. Costs are expected to increase slightly as the deferred asset losses are recognized, but these increases will be offset by a decline in the employer-paid portion of the normal cost as the PEPRA membership increases. The employer contribution rate is expected to decline substantially in FYE 2032 once the current unfunded liability is fully amortized.

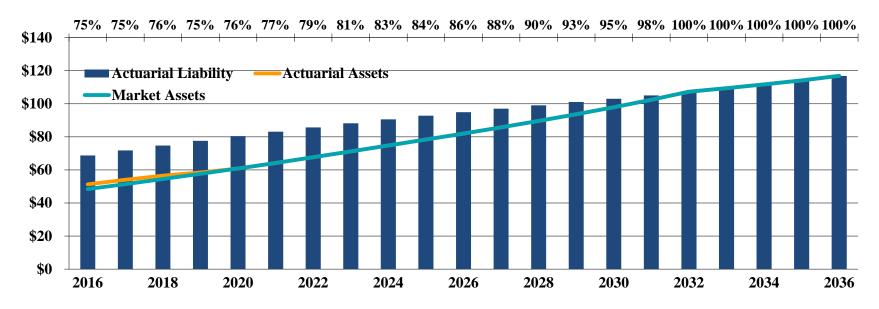

#### **SECTION I – EXECUTIVE SUMMARY**

The dollar actuarial cost will be approximately \$3.2 million in 2017-2018, growing as pay increases to around \$4.4 million in 2032-2033, then dropping significantly the following years as the unfunded liability amortization payment disappears, at which point the cost will be equal to the employer's share of the normal cost and administrative expenses.

Note that the graph on the previous page does not forecast any actuarial gains or losses or changes to the assumptions or funding policy. Even relatively modest losses relative to the 7.50% assumed return could push the employer contribution rate up to 30% of pay or higher over the next few years.

The following graph shows the projection of assets and liabilities assuming that assets will earn the 7.50% assumption each year during the projection period.

# Projection of Assets and Liabilities, 7.50% return each year

The graph shows that the funded status is expected to increase over the next 16 years as the current unfunded liability is fully amortized, assuming the actuarial assumption is achieved. However, as above, it is the actual return on Plan assets that will determine the future funding status and contribution rate to the Plan.

#### **SECTION II – ASSETS**

Pension Plan assets play a key role in the financial operation of the Plan and in the decisions the Board may make with respect to future deployment of those assets. The level of assets, the allocation of assets among asset classes, and the methodology used to measure assets will likely impact benefit levels, employer contributions, and the ultimate security of participants' benefits.

In this section, we present detailed information on Plan assets including:

- **Disclosure** of Plan assets as of June 30, 2015 and June 30, 2016
- Statement of the **changes** in market values during the year
- Development of the Actuarial Value of Assets

#### **SECTION II – ASSETS**

# **Disclosure**

There are two types of asset values disclosed in the valuation, the Market Value of Assets and the Actuarial Value of Assets. The market value represents "snap-shot" or "cash-out" values which provide the principal basis for measuring financial performance from one year to the next. Market values, however, can fluctuate widely with corresponding swings in the marketplace. As a result, market values are usually not as suitable for long-range planning as are the Actuarial Value of Assets which reflect smoothing of annual investment returns.

# **ATU vs. IBEW Asset Split**

Historical financial statements provided asset information based on a single combined trust for ATU and IBEW. This is the first year separate reports are being issued to ATU and IBEW. The financial information shown in Section II is based on the combined trust of ATU and IBEW having been allocated to the separate groups based on the following methodology:

- Actuarial liabilities measured using valuation methods and assumptions.
- If assets exceed inactive liability in total, assets allocated to inactive participants in an amount equal to that liability for each group. If assets are less than inactive liability in total, assets allocated to each group as a pro-rata portion of the total inactive liability.
- After allocation to inactive groups, any remaining assets are allocated as a pro-rata portion of the active actuarial liability.

Prior to the commencement of the 2016 valuation reports, a preliminary split of the ATU and IBEW assets was performed using this methodology and based on the results of the 2015 actuarial valuation. The split in the assets as of June 30, 2016 has since been updated to reflect the results of the current actuarial valuation, which has resulted in a higher proportion of the assets being allocated to IBEW, as a result of the reallocation of the liabilities for Salaried plan members with prior ATU and/or IBEW service, as described earlier in this report.

An asset transfer between the plans will be made at the end of FY2016-17 to true up the asset balances to reflect the allocation presented in this report. In future years, the asset schedules shown in the valuation report will only include the information for each individual plan.

# **SECTION II – ASSETS**

Table II-1 discloses and compares each component of the market asset value as of June 30, 2015 and June 30, 2016.

| Table II-1<br>Statement of Assets at Market Value<br>June 30, |    |             |    |             |  |  |  |

<sup>\*</sup> For June 30, 2015, the liability associated with this Plan for transferred members of the Salaried plan was allocated based on the share of the total active liability held by the current members of each group (ATU and IBEW). For June 30, 2016, the actual liability split for these members is calculated for each respective plan.

# **SECTION II – ASSETS**

# **Changes in Market Value**

The components of asset change are:

- Contributions (employer and employee)
- Benefit payments
- Expenses (investment and administrative)
- Investment income (realized and unrealized)

Table II-2 shows the components of a change in the Market Value of Assets during 2015 and 2016.

| Table II-                                              | 2      |              |    |             |  |  |  |

# **SECTION II – ASSETS**

# **Actuarial Value of Assets (AVA)**

The Actuarial Value of Assets represents a "smoothed" value developed by the actuary to reduce the volatile results which could develop due to short-term fluctuations in the Market Value of Assets. For this Plan, the Actuarial Value of Assets is calculated on a modified market-related value. The Market Value of Assets is adjusted to recognize, over a five-year period, investment earnings which are greater than (or less than) the assumed investment return.

|      | Table II-3  Development of Actuarial Value of Assets as of June 30, 2016 |                  |                  |                |             |                 |            |                        |  |
|------|--------------------------------------------------------------------------|------------------|------------------|----------------|-------------|-----------------|------------|------------------------|--|
|      |                                                                          | (a)              | (b)              | (c)            | (d)         | (e) = (d) - (c) | (f)        | $(g) = (e) \times (f)$ |  |

#### **SECTION II – ASSETS**

### **Investment Performance**

The following table calculates the investment related gain/loss for the plan year on both a Market Value and an Actuarial Value basis. The Market Value gain/loss is an appropriate measure for comparing the actual asset performance to the previous valuation's long-term 7.50% assumption.

| Table II-4 Asset Gain/(Loss)                                       |    |                             |    |                                |  |  |  |  |  |

#### **SECTION III – LIABILITIES**

In this section, we present detailed information on Plan liabilities including:

- **Disclosure** of Plan liabilities at July 1, 2015 and July 1, 2016
- Statement of **changes** in these liabilities during the year

#### **Disclosure**

Several types of liabilities are calculated and presented in this report. Each type is distinguished by the people ultimately using the figures and the purpose for which they are using them. Note that these liabilities are not applicable for settlement purposes, including the purchase of annuities and the payment of lump sums.

- **Present Value of Future Benefits:** Used for measuring all future Plan obligations, represents the amount of money needed today to fully fund all benefits of the Plan both earned as of the valuation date and those to be earned in the future by current plan participants, under the current Plan provisions.
- Actuarial Liability: Used for funding calculations, the Normal Cost rate is equal to the total Projected Value of Benefits at Entry Age, divided by Present Value of Future Salary at Entry Age. The dollar amount of the Normal Cost equal to the Normal Cost rate multiplied by each member's projected pay. The Actuarial Liability is the portion of the Present Value of Future Benefits not covered by future expected Normal Costs. This method is called Entry Age to Final Decrement (EAFD).
- **Unfunded Actuarial Liability:** The excess of the Actuarial Liability over the Actuarial Value of Assets.

Table III-1 below discloses each of these liabilities for the current and prior valuations.

#### **SECTION III – LIABILITIES**

#### **Changes in Liabilities**

Each of the Liabilities disclosed in the prior table are expected to change at each valuation. The components of that change, depending upon which liability is analyzed, can include:

- New hires since the last valuation
- Benefits accrued since the last valuation
- Plan amendments increasing benefits
- Passage of time which adds interest to the prior liability
- Benefits paid to retirees since the last valuation
- Participants retiring, terminating, or dying at rates different than expected
- A change in actuarial or investment assumptions
- A change in the actuarial funding method or software

Unfunded liabilities will change because of all of the above, and also due to changes in Plan assets resulting from:

- Employer contributions different than expected
- Investment earnings different than expected
- A change in the method used to measure plan assets

| Table III-2 IBEW Changes in Actuarial Liability |    |             |  |  |  |  |  |  |  |
|-------------------------------------------------|----|-------------|--|--|--|--|--|--|--|

#### **SECTION IV – CONTRIBUTIONS**

In the process of evaluating the financial condition of any pension plan, the actuary analyzes the assets and liabilities to determine what level (if any) of contributions is needed to properly maintain the funding status of the Plan. Typically, the actuarial process will use a funding technique that will result in a pattern of contributions that are both stable and predictable.

For this Plan, the actuarial funding method used to determine the normal cost as a percentage of pay and the Unfunded Actuarial Liability is the **Entry Age to Final Decrement (EAFD)** cost method.

The normal cost rate is equal to the total Projected Value of Benefits at Entry Age, divided by Present Value of Future Salary at Entry Age. Normal cost contributions are assumed to be made throughout the year, or on average mid-year, with the dollar amount of the normal cost equal to the normal cost rate multiplied by the projected payroll. The actuarial liability is the portion of the present value of all future benefits for each member not expected to be covered by the future normal cost payments.

The Unfunded Actuarial Liability is the difference between the EAFD Actuarial Liability and the Actuarial Value of Assets. The UAL rate is based on a 16-year amortization of the remainder of the Unfunded Actuarial Liability as of July 1, 2016, again assuming mid-year payment to reflect the fact that employer contributions are made throughout the year.

Beginning with the June 30, 2013 actuarial valuation, an amount equal to the expected administrative expenses for the Plan is added directly to the actuarial cost calculation. Previously, this cost was implicitly included in the calculation of the normal cost and unfunded liability payment, based on the use of a discount rate that was net of anticipated administrative expenses.

IBEW members hired on or after January 1, 2015 will contribute between 1.5% and 4.5% of Compensation to the Plan through April 1, 2018 and then will contribute half of the PEPRA normal cost of the Plan rounded to the nearest 0.25%. Once established, contribution rate for New Members will be adjusted to reflect a change in the normal cost rate, but only if the normal cost rate changed by more than 1% of payroll. For the July 1, 2016 valuation, the initial contribution rate for PEPRA members is 5.25% of payroll (1/2 of 10.47%, rounded to the nearest quarter). Table IV-3 contains the details of this calculation.

The tables on the following pages present the employer contributions for the Plan for the current and prior valuations. Tables IV-1 and IV-2 also present the current employer contribution before and after the phase in of the assumption changes adopted by the Board.

Assets have been allocated to the groups based on the following methodology:

- Actuarial liabilities measured using valuation methods and assumptions.
- If assets exceed inactive liability in total, assets allocated to inactive participants in an amount equal to that liability for each group. If assets are less than inactive liability in total, assets allocated to each group as a pro-rata portion of the total inactive liability.

After allocation to inactive groups, any remaining assets are allocated as a pro-rata portion of the active actuarial liability.

#### **SECTION IV - CONTRIBUTIONS**

| All Ages | 37     | \$1,543                       |

#### APPENDIX B – STATEMENT OF ACTUARIAL ASSUMPTIONS AND METHODS

The assumptions and methods used in the actuarial valuation as of July 1, 2016 are:

#### **Actuarial Method**

As of July 1, 2012, the Normal Cost as a percentage of pay (and resulting Actuarial Liability) is determined as a single result for each individual: with the Normal Cost percentage of pay equal to the total Projected Value of Benefits at Entry Age, divided by the Present Value of Future Salary at Entry Age. This variation is known as the Entry Age to Final Decrement.

The excess of the Actuarial Liability over Plan assets is the Unfunded Actuarial Liability. Prior to July 1, 2007, this liability was amortized as a level percentage of payroll over the remainder of a 30-year period beginning January 1, 1997. As of July 1, 2007, the amortization period has been reset to a new 30-year period, decreasing two years with each valuation until a 20-year amortization period has been achieved. The amortization period as of July 1, 2016 is 16 years. Amounts may be added to or subtracted from the Unfunded Actuarial Liability due to Plan amendments, changes in actuarial assumptions, and actuarial gains and losses.

The total Plan cost is the sum of the Normal Cost, the amortization of the Unfunded Actuarial Liability, and the expected Administrative Expenses.

#### **Actuarial Value of Plan Assets**

The actuarial value of Plan assets is calculated on a modified market-related value. The Market Value of Assets is adjusted to recognize, over a five-year period, investment earnings which are greater than (or less than) the assumed investment return on the Market Value of Assets.

#### **Actuarial Assumptions**

The actuarial assumptions were developed based on an Experience Study covering the period from July 1, 2011 through June 30, 2015.

#### 1. Rate of Return

The annual rate of return on all Plan assets is assumed to be 7.50% for the current valuation, net of investment, but not administrative, expenses.

#### 2. Cost of Living

The cost of living as measured by the Consumer Price Index (CPI) is assumed to increase at the rate of 3.15% per year.

#### APPENDIX B – STATEMENT OF ACTUARIAL ASSUMPTIONS AND METHODS

#### 3. Plan Expenses

Administrative expenses are assumed to be \$120,876 for Fiscal Year 2017-18, and are added directly to the actuarial cost calculation. The expenses are assumed to increase with CPI in future years.

#### 4. Increases in Pay

Assumed pay increases for active Participants consist of increases due to inflation (cost of living adjustments) and those due to longevity and promotion.

IBEW participants, the assumed rates are 5.0% for the first six years, and 0.25% thereafter.

In addition, annual adjustments in pay due to inflation will equal the CPI, for an additional annual increase of 3.15% for the current valuation.

#### 5. Family Composition

85% of participants are assumed to be married. Male spouses of active employees are assumed to be three years older than their wives. This assumption is also applied to retired members with a joint and survivor benefit where the data is missing the beneficiary date of birth.

#### 6. Terminal Pay Load

A load of 5.0% is applied to the retirement benefits to account for conversions of unused sick leave and other terminal pay increases.

#### 7. Employment Status

No Plan Participants are assumed to transfer between the IBEW Plan and the Salaried Plan.

#### APPENDIX B - STATEMENT OF ACTUARIAL ASSUMPTIONS AND METHODS

#### 8. Rates of Termination

Rates of termination for all Participants from causes other than death, disability, and service retirement are based on the Participant's years of service. Representative rates are shown in the following table:

| Rates of Termination* |                   |  |
|-----------------------|-------------------|--|
| Years of              | IDEXX D           |  |
| Service               | <b>IBEW Rates</b> |  |
| < 1                   | 8.00%             |  |
| 1-3                   | 8.00%             |  |
| 4                     | 8.00%             |  |
| 5-9                   | 5.00%             |  |
| 10-14                 | 2.75%             |  |
| 15-19                 | 0.50%             |  |
| 20-24                 | 0.50%             |  |
| 25+                   | 0.00%             |  |

<sup>\*</sup> No terminations are assumed to occur after eligibility for retirement.

#### 9. Rates of Disability

Rates of disability are based on the age and sex of the Participant. Representative rates are as follows:

| Rates of Disability |       |        |  |
|---------------------|-------|--------|--|
| Age                 | Male  | Female |  |
| 22                  | 0.30% | 0.00%  |  |
| 27                  | 0.40% | 0.30%  |  |
| 32                  | 0.50% | 0.39%  |  |
| 37                  | 0.60% | 0.56%  |  |
| 42                  | 0.70% | 0.86%  |  |
| 47                  | 0.80% | 1.34%  |  |
| 52                  | 0.90% | 2.35%  |  |
| 57                  | 1.00% | 4.09%  |  |
| 62                  | 1.10% | 5.75%  |  |

Rates are applied after the Participant becomes eligible to receive a disability benefit. Disabled Participants are assumed not to return to active service.

#### APPENDIX B – STATEMENT OF ACTUARIAL ASSUMPTIONS AND METHODS

#### 10. Rates of Mortality for Healthy Lives

Rates of mortality for active Participants are given by the Retired Pensioners (RP) 2014 Male and Female Employee Mortality Tables projected with Scale MP-2015 published by the Society of Actuaries, with the base tables adjusted 115% for males and 130% for females.

#### 11. Rates of Mortality for Disabled Retirees

Rates of mortality for all disabled Participants are given by Retired Pensioners (RP) 2014 Male and Female Disabled Retiree Mortality Tables projected with Scale MP-2015 published by the Society of Actuaries, with the base tables adjusted 120% for males.

#### 12. Retired Member and Beneficiary Mortality

Rates of mortality for retired Participants and their beneficiaries are given by the Retired Pensioners (RP) 2014 Combined Healthy Blue Collar Male and Female Tables projected with Scale MP-2015 published by the Society of Actuaries, with the base tables adjusted 115% for males and 130% for females.

#### 13. Rates of Retirement

Rates of service retirement among all participants eligible to retire are given by the following table:

| Rates of Retirement |         |          |         |         |
|---------------------|---------|----------|---------|---------|
|                     | IBEW    |          |         |         |
|                     |         | Years of | Service |         |
| Age                 | 5-9     | 10-24    | 25-29   | 30+     |
| 50-54               | 0.00%   | 0.00%    | 2.00%   | 2.00%   |
| 55-59               | 2.30%   | 2.30%    | 2.30%   | 10.00%  |
| 60-64               | 4.00%   | 11.70%   | 11.70%  | 20.00%  |
| 65                  | 4.00%   | 32.00%   | 32.00%  | 32.00%  |
| 66-69               | 4.00%   | 25.00%   | 25.00%  | 32.00%  |
| 70+                 | 100.00% | 100.00%  | 100.00% | 100.00% |
|                     |         |          |         |         |

PEPRA members are assumed to begin retiring at age 52, with at least five years of service.

#### 14. Changes Since Last Valuation

None

#### APPENDIX C – SUMMARY OF PLAN PROVISIONS

#### A. Definitions

Average Final Monthly

Earnings: A Participant's Average Final Monthly Earnings is the highest average

consecutive 48 months' compensation paid. Payments for accumulated vacation or sick leave not actually taken prior to retirement are included in computing Average Final Monthly Earnings if last 48 months of

compensation are used in the calculation.

Compensation: A Participant's Compensation is the earnings paid in cash to the participant

during the applicable period of employment with the District.

Service: Service is computed from the date in which the Participant becomes a full

or part-time employee and remains in continuous employment to the date

employment ceases.

For IBEW members, service includes time with the District or predecessor

companies immediately prior to September 16, 1974 and subsequent to

hire. Service is measured in completed quarters.

#### **B.** Participation

Eligibility: Any person employed by the District who is a member IBEW Local 1245

is eligible to participate in the Plan.

Any member joining the Plan for the first time on or after January 1, 2015 is a New Member and will follow PEPRA provisions. Employees who transfer from and are eligible for reciprocity with another public employer will not be New Members if the service in the reciprocal system was under

a pre-PEPRA plan.

#### C. Retirement Benefit

Eligibility: Prior to November 1, 2005, an IBEW Participant is eligible for normal

service retirement upon attaining age 55 and completing 10 or more years of service. Effective November 1, 2005, IBEW members are eligible to retire upon reaching 25 years of service. Effective November 1, 2006, an IBEW Participant is eligible for normal service or disability retirement

upon attaining age 55 and completing five or more years of service.

PEPRA members are eligible upon attaining age 52 and completing five or

more years of service.

#### APPENDIX C – SUMMARY OF PLAN PROVISIONS

Benefit Amount: The normal service retirement benefit is the greater of the benefit accrued under the plan provisions in effect on February 28, 1993 or the Participant's benefit under the current plan provisions. Under the current plan provision, the member would receive a percentage of the Participant's Average Final Monthly Earnings multiplied by the Participant's service at retirement.

> For retirements and terminations on and after July 1, 2008, the percentage is equal to:

- 2.0%, if the member retires after age 55 and prior to age 60 and prior to 30 years of service,
- 2.5%, if the member retires at age 60 or later or with 30 or more years of service.

For PEPRA members, the benefit multiplier will be 1% at age 52, increasing by 0.1% for each year of age to 2.5% at 67. In between exact ages, the multiplier will increase by 0.025% for each quarter year increase in age.

Form of Benefit: The benefit begins at retirement and continues for the Participant's life with no cost of living adjustments. A Participant may elect to receive reduced benefits in the form of a contingent annuity with 50% or 100% continuing to a beneficiary after death, or in the form of an increased benefit prior to receiving Social Security benefits, and a reduced benefit thereafter.

#### **D.** Disability Benefit

Eligibility:

A Participant is eligible for a disability benefit, if the Participant is unable to perform the duties of his or her job with the District, cannot be transferred to another job with the District, and has submitted satisfactory medical evidence of permanent disqualification from his or her job. 10 years of service is required to qualify for disability. For IBEW members with active service on or after November 1, 2006 (including PEPRA members), only five years of service is needed.

Benefit Amount: For IBEW members, the disability benefit is equal to the Normal Retirement Benefit, using the Participant's Average Final Monthly Earnings and service accrued through the date of disability. The disability benefit cannot exceed the Retirement Benefit the member would be entitled to on the basis of Average Final Monthly Earnings determined at the date of disability multiplied by the service the member would have attained had employment continued until age 62, excluding PEPRA members.

#### APPENDIX C – SUMMARY OF PLAN PROVISIONS

Form of Benefit: The benefit begins at disability and continues until recovery or for the

Participant's life with no cost of living adjustments. A Participant may elect to receive reduced benefits in the form of a contingent annuity with 50% or 100% continuing to a beneficiary after death, or in the form of an increased benefit prior to receiving Social Security benefits, and a reduced

benefit thereafter.

#### E. Pre-Retirement Death Benefit

Eligibility: A Participant's surviving spouse or Domestic Partner is eligible for a pre-

retirement death benefit, if the Participant has completed 10 years of service with the District. Effective November 1, 2006, an IBEW Participant's surviving spouse or Domestic Partner is eligible for a preretirement death benefit if the Participant has completed five years of

service with the District, including PEPRA members.

Benefit Amount: The pre-retirement death benefit is the actuarial equivalent of the Normal

Retirement Benefit, as if the member retired on the day before his/her death. If the member is not eligible to retire on the day before his/her death, but is vested in his/her benefit, the benefit shall be calculated using a 1% multiplier for PEPRA members and a 2% for all other members.

Form of Benefit: The death benefit begins when the Participant dies and continues for the

life of the surviving spouse or Domestic Partner. No optional form of

benefit may be elected. No cost of living increases are payable.

#### F. Termination Benefit

Eligibility: An IBEW Participant is eligible for a termination benefit after earning five

years of service. The terminated Participant will be eligible to commence

benefits at age 62 (or as early as age 55 if eligible).

PEPRA members are eligible for a termination benefit after earning 5

years of service, commencing as early as age 52.

Benefit Amount: The benefit payable to a vested terminated Participant is equal to the

Normal Retirement Benefit, based on the provisions of the Plan in effect

on the date the Participant terminated employment.

PEPRA members are eligible after earning five years of service for the full Normal Retirement Benefit earned on the date of termination, based on the service and Average Final Monthly Earnings accrued by the Participant at that point, and using the factor based on the age at which the benefit

commences

#### APPENDIX C – SUMMARY OF PLAN PROVISIONS

Form of Benefit: The termination benefit begins at retirement and continues for the

Participant's life with no cost of living adjustments. A Participant may elect to receive reduced benefits in the form of a contingent annuity with 50% or 100% continuing to a beneficiary after death, or in the form of an increased benefit prior to receiving Social Security benefits, and a reduced

benefit thereafter.

#### G. Reciprocity Benefit

Eligibility: A Participant who transfers from this Plan to the RT Salaried Plan, and

who is vested under this Plan, is eligible for a retirement benefit from this

Plan.

Benefit Amount: The benefit payable to a vested transferred Participant is equal to the

Normal Retirement Benefit based on service earned under this Plan to the date of transfer and based on Average Final Earnings computed under this Plan and the Salaried Plan together, as if the plans were a single plan. For ATU members who transfer on or after August 30, 2011, the multiplier payable by the ATU Plan will be limited to the multiplier applicable at the

date of transfer.

Form of Benefit: The reciprocity benefit begins at retirement and continues for the

Participant's life with no cost of living adjustments. A Participant may elect to receive reduced benefits in the form of a contingent annuity with 50% or 100% continuing to a beneficiary after death, or in the form of an increased benefit prior to receiving Social Security benefits, and a reduced

benefit thereafter.

#### H. Funding

IBEW members hired or rehired by the District on or after January 1, 2015 will contribute 1.5% of pay after one year of service, 3.0% of pay after two years of service, 4.5% of pay after three years of service, and 50% of normal cost up to 5% of pay after four years of service. Effective April 1, 2018, IBEW members hired or rehired by the District on or after January 1, 2015 will contribute half of the normal cost of the PEPRA Plan rounded to the nearest 0.25%. Once established, contribution rate for New Members will be adjusted to reflect a change in the normal cost rate, but only if the normal cost rate changed by more than 1% of payroll. For the July 1, 2016 valuation, the initial contribution rate for PEPRA members is 5.25% of payroll (1/2 of 10.47%, rounded to the nearest quarter).

The remaining cost of the Plan is paid by the District.

#### APPENDIX C – SUMMARY OF PLAN PROVISIONS

#### I. Changes in Plan Provisions

The basis used for calculating actuarial equivalence for the Pre-Retirement Death Benefit was updated.

#### APPENDIX D – GLOSSARY

#### 1. Actuarial Assumptions

Assumptions as to the occurrence of future events affecting pension costs such as mortality, withdrawal, disability, retirement, changes in compensation, and rates of investment return.

#### 2. Actuarial Cost Method

A procedure for determining the Actuarial Present Value of pension plan benefits and expenses and for developing an allocation of such value to each year of service, usually in the form of a Normal Cost and an Actuarial Liability.

#### 3. Actuarial Gain (Loss)

The difference between actual experience and that expected based upon a set of Actuarial Assumptions during the period between two Actuarial Valuation dates, as determined in accordance with a particular Actuarial Cost Method.

#### 4. Actuarial Liability

The portion of the Actuarial Present Value of Projected Benefits which will not be paid by future Normal Costs. It represents the value of the past Normal Costs with interest to the valuation date.

#### 5. Actuarial Present Value (Present Value)

The value as of a given date of a future amount or series of payments. The Actuarial Present Value discounts the payments to the given date at the assumed investment return and includes the probability of the payment being made.

#### 6. Actuarial Valuation

The determination, as of a specified date, of the Normal Cost, Actuarial Liability, Actuarial Value of Assets, and related Actuarial Present Values for a pension plan.

#### APPENDIX D – GLOSSARY

#### 7. Actuarial Value of Assets

The value of cash, investments, and other property belonging to a pension plan as used by the actuary for the purpose of an Actuarial Valuation. The purpose of an Actuarial Value of Assets is to smooth out fluctuations in market values.

#### 8. Actuarially Equivalent

Of equal Actuarial Present Value, determined as of a given date, with each value based on the same set of actuarial assumptions.

#### 9. Amortization Payment

The portion of the pension plan contribution which is designed to pay interest and principal on the Unfunded Actuarial Liability in order to pay for that liability in a given number of years.

#### 10. Entry Age Normal Actuarial Cost Method

A method under which the Actuarial Present Value of the Projected Benefits of each individual included in an Actuarial Valuation is allocated on a level basis over the earnings of the individual between entry age and assumed exit ages.

#### 11. Funded Ratio

The ratio of the Actuarial Value of Assets to the Actuarial Liabilities.

#### 12. Normal Cost

That portion of the Actuarial Present Value of pension plan benefits and expenses which is allocated to a valuation year by the Actuarial Cost Method.

#### 13. Projected Benefits

Those pension plan benefit amounts which are expected to be paid in the future under a particular set of Actuarial Assumptions, taking into account such items as increases in future compensation and service credits.

#### 14. Unfunded Actuarial Liability

The excess of the Actuarial Liability over the Actuarial Value of Assets. The Unfunded Actuarial Liability is not appropriate for assessing the sufficiency of plan assets to cover the estimated cost of settling the Plan's benefit obligation in the event of a plan termination or other similar action. However, it is an appropriate measure for assessing the need for or the amount of future contributions.

#### DISCUSSION

Cheiron, the Pension Plans' actuary, has developed the annual Actuarial Valuation for the Salaried Employees' Retirement Plan as of July 1, 2016 (Exhibit A).

The purpose of the actuarial valuation is to compute the annual actuarially determined contribution rate (ADC) required to fund the Plan according to actuarial principles and to present items required for disclosure under Statement No. 67 of the Governmental Accounting Standards Board (GASB).

At the Retirement Boards' February 1, 2017 special meeting, Cheiron presented the draft actuarial valuation study used to establish the ADC for Fiscal Year (FY) 2018. The proposed ADC for FY 18 is \_\_\_\_\_%. Cheiron's recommendation is explained in greater detail in the study attached as Exhibit A.

March 17, 2017

Retirement Boards of Sacramento Regional Transit District 2830 G Street Sacramento, CA 95816

Dear Members of the Boards:

At your request, we have conducted an actuarial valuation of the Retirement Plan for Salaried Employees of the Sacramento Regional Transit District Employees (SacRT, the Fund, the Plan) as of July 1, 2016. This report contains information on the Plan's assets and liabilities. This report also discloses employer contribution levels. Your attention is called to the Foreword in which we refer to the general approach employed in the preparation of this report.

The purpose of this report is to present the results of the annual actuarial valuation of the Plan. This report is for the use of the Retirement Boards and the auditors in preparing financial reports in accordance with applicable law and accounting requirements. Any other user of this report is not an intended user and is considered a third party.

This report was prepared solely for the Retirement Boards for the purposes described herein, and for the use by the plan auditor in completing an audit related to the matters herein. Other users of this report are not intended users as defined in the Actuarial Standards of Practice, and Cheiron assumes no duty or liability to any such party.

To the best of our knowledge, this report and its contents have been prepared in accordance with generally recognized and accepted actuarial principles and practices which are consistent with the Code of Professional Conduct and applicable Actuarial Standards of Practice set out by the Actuarial Standards Board. Furthermore, as credentialed actuaries, we meet the Qualification Standards of the American Academy of Actuaries to render the opinion contained in this report. This report does not address any contractual or legal issues. We are not attorneys and our firm does not provide any legal services or advice.

Sincerely, Cheiron

David Holland, FSA, FCA, EA, MAAA Consulting Actuary Graham A. Schmidt, ASA, FCA, EA, MAAA Consulting Actuary

#### **FOREWORD**

Cheiron has performed the actuarial valuation of the Retirement Plan for Sacramento Regional Transit District Employees as of July 1, 2016. The valuation is organized as follows:

- In Section I, the **Executive Summary**, we describe the purpose of an actuarial valuation, summarize the key results found in this valuation, and disclose important trends.
- The **Main Body** of the report presents details on the Plan's
  - Section II Assets
  - Section III Liabilities
  - Section IV- Contributions
- In the **Appendices**, we conclude our report with detailed information describing plan membership (Appendix A), actuarial assumptions and methods employed in the valuation (Appendix B), a summary of pertinent plan provisions (Appendix C), and a glossary of key actuarial terms (Appendix D).

Future results may differ significantly from the results of the current valuation presented in this report due to such factors as the following: plan experience differing from that anticipated by the assumptions; changes in assumptions; and, changes in plan provisions or applicable law.

In preparing our report, we relied on information (some oral and some written) supplied by the District's staff. This information includes, but is not limited to, plan provisions, employee data, and financial information. We performed an informal examination of the obvious characteristics of the data for reasonableness and consistency in accordance with Actuarial Standard of Practice #23.

#### SECTION I – EXECUTIVE SUMMARY

The primary purpose of the actuarial valuation and this report is to measure, describe, and identify the following as of the valuation date:

- The financial condition of the Plan,
- Past and expected trends in the financial progress of the Plan, and
- Employer contribution rates for Plan Year 2017-2018.

The information required under GASB Statements (Nos. 67 and 68) is included in a separate report, with the report for the Fiscal Year Ending June 30, 2016 provided to the Boards in September 2016.

In the balance of this Executive Summary, we present (A) the basis upon which this year's valuation was completed, (B) the key findings of this valuation including a summary of all key financial results, (C) an examination of the historical trends, and (D) the projected financial outlook for the Plan.

#### A. Valuation Basis

This valuation determines the employer contributions for the plan year.

The Plan's funding policy is to contribute an amount equal to the sum of:

- The normal cost under the Entry Age Normal Cost Method,
- Amortization of the Unfunded Actuarial Liability, and
- The Plan's expected administrative expenses.

This valuation was prepared based on the plan provisions shown in Appendix C. There was one change in plan provisions relating to the actuarial adjustment factors for the Pre-Retirement Death Benefit.

A summary of the assumptions and methods used in the current valuation are shown in Appendix B. There have been no changes in assumptions or methods since the prior valuation.

#### SECTION I – EXECUTIVE SUMMARY

#### **B.** Key Findings of this Valuation

The key results of the July 1, 2016 actuarial valuation are as follows:

• The actuarially determined employer contribution rate increased from 31.48% of payroll last year to 32.52% of payroll for the current valuation, reflecting an adjustment for the second year of the three-year phase-in of the impact of changes to the economic and demographic assumptions from the experience study completed last year. Without the phase-in, the employer contribution rate would have increased to 32.78% of payroll.

The Plan's funded ratio, the ratio of actuarial assets over Actuarial Liability, increased from 64.3% last year to 65.0% as of July 1, 2016. The unfunded liability increased as a dollar amount, but the relative size of the unfunded liability compared to the total liability declined. As a point of comparison, a funding ratio of 51.7% or more is required just to fund the liabilities of the inactive members: retired, disabled, terminated with vested benefits, and their beneficiaries. This is sometimes referred to as the Inactive Funded Ratio.

- The Unfunded Actuarial Liability (UAL) is the excess of the Plan's Actuarial Liability over the Actuarial Value of Assets. The Plan experienced an increase in the UAL from \$40,950,602 to \$43,011,087 as of July 1, 2016. This increase in UAL was primarily due to a lower than expected rate of return on the Actuarial Value of Assets and a demographic experience loss.
- During the year ended June 30, 2016, the return on Plan assets was -0.53% on a market value basis net of investment expenses, as compared to the 7.50% assumption. This resulted in a market value loss on investments of \$6,033,926. The Actuarial Value of Assets recognizes 20% of the difference between the expected and actual return on the Market Value of Assets (MVA). This method of smoothing the asset gains and losses returned 6.27% on the smoothed value of assets, an actuarial asset loss of \$917,324.
- The Actuarial Value of Assets is currently 105.8% of the market value. Since actuarial assets are above market assets, there are unrecognized investment losses (approximately \$4.4 million) that will be reflected in the smoothed value in future years.
- The Plan experienced a loss on the Actuarial Liability of \$1,775,915. Combining the liability loss and the asset loss, the Plan experienced a total loss of \$2,693,240.
- This Plan experienced a decrease in the liabilities of \$17,055 due to administrative plan changes modifying the calculation of the Pre-Retirement Death benefit.
- There were 10 new hires and rehires since July 1, 2015 and the total active population decreased by six. Total projected payroll increased 1.27% from \$23,653,330 to \$23,952,817 for 2016-2017.

### **SECTION I – EXECUTIVE SUMMARY**

Table I-1 summarizes the key results of the valuation with respect to membership, assets and liabilities, and contributions. The results are presented and compared for both the current and prior plan year. We have also presented the employer contribution rate both before and after the phase in of the effect of assumption changes adopted as of July 1, 2015 (except for the change in administrative expenses, which was fully recognized in the prior valuation).

#### SECTION I – EXECUTIVE SUMMARY

### C. Changes in Plan Cost

Table I-2 summarizes the impact of actuarial experience and changes in benefits on Plan cost prior to the reduction for phasing in the assumption changes over three years.

| Table I-2 Employer Contribution Reconciliation - No Phase In |        |                |                     |                  |  |  |  |  |
|--------------------------------------------------------------|--------|----------------|---------------------|------------------|--|--|--|--|
| Item                                                         | Total  | Normal<br>Cost | UAL<br>Amortization | Admin<br>Expense |  |  |  |  |
| FYE 2017 Employer Contribution Rate                          | 31.99% | 16.41%         | 14.40%              | 1.18%            |  |  |  |  |
| Change due to asset losses                                   | 0.33%  | 0.00%          | 0.33%               | 0.00%            |  |  |  |  |
| Change due to demographic losses                             | 0.19%  | -0.42%         | 0.61%               | 0.00%            |  |  |  |  |
| Change due to amortization payroll                           | 0.31%  | 0.00%          | 0.29%               | 0.02%            |  |  |  |  |
| Change due to contribution surplus                           | -0.05% | 0.00%          | -0.05%              | 0.00%            |  |  |  |  |
| Change due to plan changes                                   | 0.01%  | 0.01%          | 0.00%               | <u>0.00%</u>     |  |  |  |  |
| FYE 2018 Employer Contribution Rate                          | 32.78% | 16.00%         | 15.58%              | 1.20%            |  |  |  |  |

An analysis of the cost changes from the prior valuation reveals the following:

• Asset experience produced an investment loss on an actuarial basis.

The actuarial return on assets was 6.27%, lower than the assumed rate of 7.50%. This resulted in an increase in the contribution rate by 0.33% of payroll.

The Market Value of Assets is lower than the actuarial value; there are approximately \$4.4 million in deferred asset losses.

• Demographic experience resulted in an increase in cost.

The demographic experience of the Plan – rates of retirement, death, disability, and termination – was somewhat different than predicted by the actuarial assumptions in aggregate, causing an actuarial loss which increased the contribution rate by 0.61% of payroll. In particular, there were losses caused by lower mortality rates than expected among retirees, and larger salary increases than expected for returning members.

This was offset by the fact that the employer portion of the normal cost for the new hires under the PEPRA benefit formula is lower than the normal cost for the non-PEPRA membership, which contributed to an overall decrease in the employer normal cost rate of 0.42% of payroll.

The net impact on the contribution rate from changes in demographics was an increase of 0.19% of payroll.

#### SECTION I – EXECUTIVE SUMMARY

• Overall payroll growth was less than expected.

Slower than expected growth in the projected payroll increased the contribution rate by 0.31% of pay, since it results in the Plan's Unfunded Actuarial Liability and administrative expenses being spread over a smaller payroll base.

• Contributions exceeded expectations.

Actual contributions slightly exceeded expected employer and member contributions, which resulted in a decrease in the contribution rate by 0.05%.

Plan changes had almost no impact on cost.

Updates to the administration and calculation of the active death benefit resulted in only a 0.01% of pay decrease in the contribution rate.

The total impact on employer Plan cost is an increase of 0.79% of pay, prior to the phase-in.

Table I-3 summarizes the impact on Plan cost of phasing in the 2015 assumption changes over three years.

|                                     | Table I-3         |                  |          |        |
|-------------------------------------|-------------------|------------------|----------|--------|
| Employer Contributi                 | on Reconciliation | on - Projected F | Phase In |        |
|                                     | Full              | Phased           |          |        |
| Item                                | Contribution      | Contribution     | Interest | Total  |
| FYE 2018 Employer Contribution Rate | 32.78%            | 32.50%           | 0.02%    | 32.52% |
| FYE 2019 Employer Contribution Rate | 36.27%            | 36.27%           | 0.00%    | 36.27% |
| FYE 2020 Employer Contribution Rate | 34.91%            | 34.93%           | 0.00%    | 34.93% |

The net impact on the FYE 2017 contribution rate due to assumption changes adopted by the Boards, excluding the expense assumption, was an increase of 0.83%. Last year, the Boards chose to phase in this increase over three years, or 0.28% annually. This results in a FYE 2018 Net Employer Contribution Rate of 32.52%, based on an original rate of 32.78% minus the 0.28% phase-in, and then adjusted for interest on the contribution shortfall of 0.02% of pay.

#### SECTION I – EXECUTIVE SUMMARY

Table I-4 on the following page shows the ratio of assets to active member payroll for the Plan.

| Table I-4<br>Asset to Payroll Ratio as of June 30, | 2016       |
|----------------------------------------------------|------------|
| Active Member Payroll                              | 23,952,817 |
| Assets (Market Value)                              | 75,337,019 |
| Ratio of Assets to Payroll                         | 3.15       |
| Ratio with 100% Funding                            | 5.12       |

One of the most important measures of a plan's risk is the ratio of plan assets to payroll. The table above shows the Plan's assets as a percentage of active member payroll. This ratio indicates the sensitivity of the plan to the returns earned on plan assets. We note in the table that plan assets currently are over three times covered payroll for the Plan; as funding improves and the Plan reaches 100% funding, the ratio of asset to payroll will increase to over five times payroll, perhaps higher depending on the Plan's future demographic makeup. Although, both of these ratios are lower than those of many other public plans, the increase in the asset to payroll ratio expected to accompany an improvement in the Plan's funding still represents a substantial increase in the volatility of the contributions.

To appreciate the impact of the ratio of assets to payroll on plan cost, consider the situation for a new plan with almost no assets. Even if the assets suffer a bad year of investment returns, the impact on the plan cost is nil, because the assets are so small.

On the other hand, consider the situation for the Plan. Suppose the Plan's assets lose 10% of their value in a year. Since they were assumed to earn 7.50%, there is an actuarial loss of 17.50% of plan assets. Based on the current ratio of asset to payroll (315%), that means the loss in assets is about 55% of active payroll (315% of the 17.50% loss). There is only one source of funding to make up for this loss: contributions. Consequently, barring future offsetting investment gains, the employer has to make up the asset loss in future contributions. In this example of a one-year loss of 10%, this shortfall would eventually require an additional amortization payment near 4.8% of payroll, amortized over 16 years.

Furthermore, consider the impact of a one-year loss of 10% if the plan is 100% funded. Based on the ratio of asset to payroll at 100% funding (512%), the asset loss would be about 90% of active payroll (512% of the 17.50% loss). In this example, the shortfall could require an additional amortization payment of approximately 7.8% of payroll, amortized over 16 years.

#### SECTION I – EXECUTIVE SUMMARY

#### **D.** Historical Trends

Despite the fact that for most retirement plans the greatest attention is given to the current valuation results and in particular, the size of the current Unfunded Actuarial Liability and the employer contribution, it is important to remember that each valuation is merely a snapshot in the long-term progress of a pension fund. It is more important to judge a current year's valuation result relative to historical trends, as well as trends expected into the future.

#### **Assets and Liabilities**

The chart compares the Market Value of Assets (MVA) and Actuarial Value of Assets (AVA) to the Actuarial Liabilities. The percentage shown in the chart below the graph is the ratio of the Actuarial Value of Assets to the Actuarial Liability (the funded ratio). The funded ratio decreased from 61.5% in 2008 to 54.1% in 2011, and has increased since to 65.0% as of July 1, 2016, primarily as a result of the recovery in the investment markets.

#### **Assets and Liabilities** Actuarial Liability ◆ Assets-Smoothed Assets at Market Value \$140 \$120 \$100 \$80 Millions \$60 \$40 \$20 **\$0** 2008 2009 2010 2011 2012 2013 2014 2015 2016 Valuation Year 2008 2009 2010 2011 2012 2013 2014 2015 2016 54.1% 54.5% 59.5% AVA Funded Ratio 61.5% 60.5% 58.7% 55.2% 64.3% 65.0% UAL (Millions) \$ 32.8 \$ 35.9 \$ 44.3

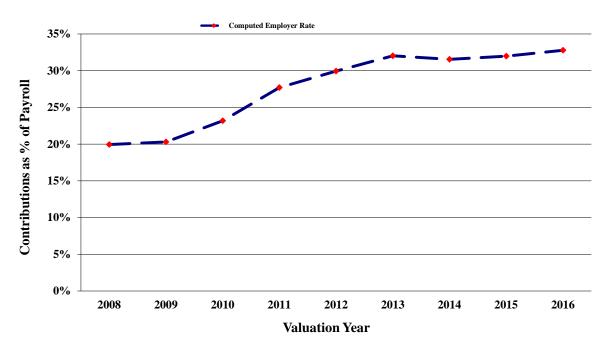

### **SECTION I – EXECUTIVE SUMMARY**

### **Contribution Trends**

In the chart, we present the historical trends for the Plan's actuarially determined contribution rates (excluding the impact of any phase-in of assumption changes.) Contribution rates increased from 2008 through 2013 as losses from the 2009 Fiscal Year were recognized and assumptions were changed. Contribution rates have remained relatively stable since 2013.

#### **Sacramento Regional Transit District Employees**

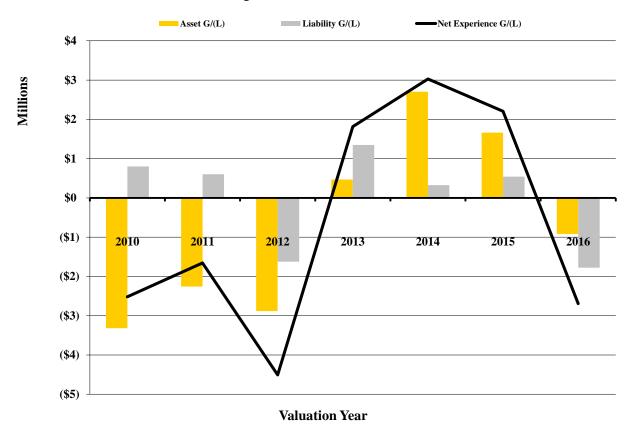

### SECTION I – EXECUTIVE SUMMARY

### **Gains and Losses**

The following chart presents the pattern of annual gains and losses for the overall Plan, broken into the investment and liability components. The investment gains and losses represent the changes on a smoothed basis (i.e., based on the Actuarial Value of Assets). The chart does not include any changes in the Plan's assets and liabilities attributable to changes to actuarial methods, assumptions or plan benefit changes.

### **Experience Gains and Losses**

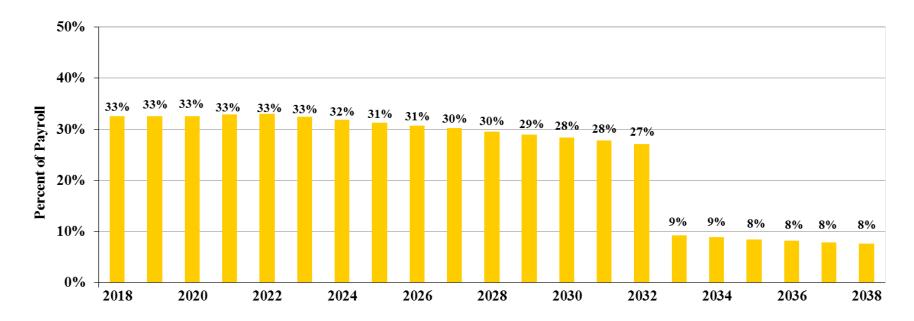

#### **SECTION I – EXECUTIVE SUMMARY**

### **E. Future Expected Financial Trends**

The analysis of projected financial trends is perhaps the most important component of this valuation. In this Section, we present our assessment of the implications of the July 1, 2016 valuation results in terms of benefit security (assets over liabilities) and contribution levels. All the projections in this section are based on the assumption that the Plan will exactly achieve the 7.50% assumption each year, which is clearly an impossibility. We have also assumed future salary increases of 3.15% per year.

### Projection of Employer Contributions 7.50% return each year

The contribution rate graph shows that the District's contributions are expected to remain relatively flat over the next few years. Costs are expected to increase slightly as the deferred asset losses are recognized, but these increases will be offset by a decline in the employer-paid portion of the normal cost as the PEPRA membership increases. The employer contribution rate is expected to decline substantially in FYE 2032 once the current unfunded liability is fully amortized. The dollar actuarial cost will be approximately \$8.0

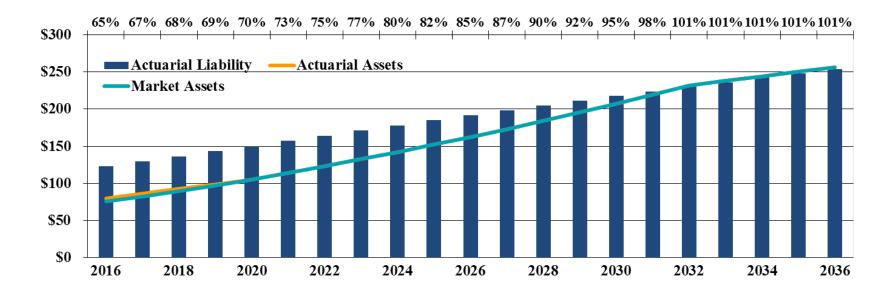

#### **SECTION I – EXECUTIVE SUMMARY**

million in 2017-2018, growing as pay increases to around \$10.3 million in 2031-32, then dropping significantly the following years when the unfunded liability amortization payment disappears, at which point the cost will approach the level of the employer's share of the normal cost and administrative expenses.

Note that the graph on the prior page does not forecast any actuarial gains or losses or changes to the assumptions or funding policy. Even relatively modest losses relative to the 7.50% assumed return could push the employer contribution rate up to 35% of pay or higher over the next few years.

The following graph shows the projection of assets and liabilities assuming that assets will earn the 7.50% assumption each year during the projection period. The graph shows that the funded status is expected increase over the next 16 years as the current unfunded liability is fully amortized, assuming the actuarial assumption is achieved. However, as above, it is the actual return on Plan assets that will determine the future funding status and contribution rate to the Plan.

#### Projection of Assets and Liabilities 7.50% return each year

#### **SECTION II - ASSETS**

Pension Plan assets play a key role in the financial operation of the Plan and in the decisions the Board may make with respect to future deployment of those assets. The level of assets, the allocation of assets among asset classes, and the methodology used to measure assets will likely impact benefit levels, employer contributions, and the ultimate security of participants' benefits.

In this section, we present detailed information on Plan assets including:

- **Disclosure** of Plan assets as of June 30, 2015 and June 30, 2016
- Statement of the **changes** in market values during the year
- Development of the Actuarial Value of Assets

### **Disclosure**

There are two types of asset values disclosed in the valuation, the Market Value of Assets and the Actuarial Value of Assets. The market value represents "snap-shot" or "cash-out" values, which provide the principal basis for measuring financial performance from one year to the next. Market values, however, can fluctuate widely with corresponding swings in the marketplace. As a result, market values are usually not as suitable for long-range planning as are the Actuarial Value of Assets which reflect smoothing of annual investment returns.

Table II-1 discloses and compares each components of the market asset value as of June 30, 2015 and June 30, 2016.

| f Assets at Ma |                            |                                                                                                                                                                 |                               |

### **SECTION II – ASSETS**

### **Changes in Market Value**

The components of asset change are:

- Contributions (employer and employee)
- Benefit payments
- Expenses (investment and administrative)
- Investment income (realized and unrealized)

Table II-2 shows the components of a change in the Market Value of Assets during 2015 and 2016.

| Table II-                                              | 2    |             |    |             |  |  |

#### **SECTION II – ASSETS**

### **Actuarial Value of Assets (AVA)**

The Actuarial Value of Assets represents a "smoothed" value developed by the actuary to reduce the volatile results which could develop due to short-term fluctuations in the Market Value of Assets. For this Plan, the Actuarial Value of Assets is calculated on a modified market-related value. The Market Value of Assets is adjusted to recognize, over a five-year period, investment earnings which are greater than (or less than) the assumed investment return.

| Table II-3  Development of Actuarial Value of Assets  as of July 1, 2016 |                  |                  |               |           |                 |            |                 |
|--------------------------------------------------------------------------|------------------|------------------|---------------|-----------|-----------------|------------|-----------------|
|                                                                          | (a)              | (b)              | (c)           | (d)       | (e) = (d) - (c) | (f)        | (g) = (e) x (f) |
|                                                                          | Total            | Total            | Expected      | Actual    | Additional      | Not        | Unrecognized    |

#### **SECTION III – LIABILITIES**

In this section, we present detailed information on Plan liabilities including:

- **Disclosure** of Plan liabilities at July 1, 2015 and July 1, 2016
- Statement of **changes** in these liabilities during the year

#### **Disclosure**

Several types of liabilities are calculated and presented in this report. Each type is distinguished by the people ultimately using the figures and the purpose for which they are using them. Note that these liabilities are not applicable for settlement purposes, including the purchase of annuities and the payment of lump sums.

- **Present Value of Future Benefits:** Used for measuring all future Plan obligations, represents the amount of money needed today to fully fund all benefits of the Plan both earned as of the valuation date and those to be earned in the future by current plan participants, under the current Plan provisions.
- Actuarial Liability: Used for funding calculations, the Normal Cost rate is equal to the total Projected Value of Benefits at Entry Age, divided by Present Value of Future Salary at Entry Age. The dollar amount of the Normal Cost equal to the Normal Cost rate multiplied by each member's projected pay. The Actuarial Liability is the portion of the Present Value of Future Benefits not covered by future expected Normal Costs. This method is called Entry Age to Final Decrement (EAFD).
- **Unfunded Actuarial Liability:** The excess of the Actuarial Liability over the Actuarial Value of Assets.

Table III-1 discloses each of these liabilities for the current and prior valuations.

| Table 1                                       | III-1 |                |              |  |  |  |

#### **SECTION III – LIABILITIES**

### **Changes in Liabilities**

Each of the Liabilities disclosed in the prior table are expected to change at each valuation. The components of that change, depending upon which liability is analyzed, can include:

- New hires since the last valuation
- Benefits accrued since the last valuation
- Plan amendments increasing benefits
- Passage of time which adds interest to the prior liability
- Benefits paid to retirees since the last valuation
- Participants retiring, terminating, or dying at rates different than expected
- A change in actuarial or investment assumptions
- A change in the actuarial funding method or software

Unfunded liabilities will change because of all of the above, and also due to changes in Plan assets resulting from:

- Employer contributions different than expected
- Investment earnings different than expected
- A change in the method used to measure plan assets

| Table III-2 Changes in Actuarial Liability |    |             |  |  |  |  |
|--------------------------------------------|----|-------------|--|--|--|--|
| Actuarial Liability at July 1, 2015        | \$ | 114,862,997 |  |  |  |  |

| 10. Actual Unfunded Actuarial Liability at End of Year (not less than zero)               |     | 43,011,807  |
| 11. Actuarial Gain / (Loss) [9. – 10.]                                                    | \$  | (2,693,240) |

#### **SECTION IV – CONTRIBUTIONS**

In the process of evaluating the financial condition of any pension plan, the actuary analyzes the assets and liabilities to determine what level (if any) of contributions is needed to properly maintain the funding status of the Plan. Typically, the actuarial process will use a funding technique that will result in a pattern of contributions that are both stable and predictable.

For this Plan, the actuarial funding method used to determine the normal cost and the Unfunded Actuarial Liability is the **Entry Age to Final Decrement (EAFD)** cost method.

The normal cost rate is determined with the normal cost percentage equal to the total Projected Value of Benefits at Entry Age, divided by Present Value of Future Salary at Entry Age. Normal cost contributions are assumed to be made throughout the year, or on average mid-year.

The Unfunded Actuarial Liability is the difference between the EAFD Actuarial Liability and the Actuarial Value of Assets. The UAL rate is based on a 16-year amortization of the remainder of the Unfunded Actuarial Liability as of July 1, 2016, again assuming mid-year payment to reflect the fact that employer contributions are made throughout the year.

Beginning with the June 30, 2013 actuarial valuation, an amount equal to the expected administrative expenses for the Plan is added directly to the actuarial cost calculation. Previously, this cost was implicitly included in the calculation of the normal cost and unfunded liability payment, based on the use of a discount rate that was net of anticipated administrative expenses.

Members hired on or after January 1, 2015 will contribute half of the normal cost of the Plan rounded to the nearest 0.25%. Once established, contribution rate for New Members will be adjusted to reflect a change in the normal cost rate, but only if the normal cost rate changed by more than 1% of payroll. For the current year, the contribution rate for PEPRA members was 3.75% of payroll (1/2 of 7.64%, rounded to the nearest quarter). However, the normal cost rate for the PEPRA members as of the July 1, 2016 valuation is 10.27%, therefore we expect the rate to change for the following fiscal year to 5.25% (1/2 of 10.27%, rounded to the nearest quarter).

The tables on the following pages present the employer contributions for the Plan for the current and prior valuations.

### **SECTION IV – CONTRIBUTIONS**

| 90+      | 0      | \$0                           |
| All Ages | 73     | \$1,297                       |

#### APPENDIX B – STATEMENT OF ACTUARIAL ASSUMPTIONS AND METHODS

The assumptions and methods used in the actuarial valuation as of July 1, 2016 are:

#### **Actuarial Method**

As of July 1, 2012, the Normal Cost (and resulting Actuarial Liability) is determined as a single result for each individual, with the Normal Cost percentage equal to the total Projected Value of Benefits at Entry Age, divided by the Present Value of Future Salary at Entry Age. This variation is known as the Entry-Age-to-Final-Decrement.

The excess of the Actuarial Liability over Plan assets is the Unfunded Actuarial Liability. Prior to July 1, 2007, this liability was amortized as a level percentage of payroll over the remainder of a 30-year period beginning January 1, 1997. As of July 1, 2007, the amortization period has been reset to a new 30-year period, decreasing two years with each valuation until a 20-year amortization period has been achieved. The amortization period as of July 1, 2016 is 16 years. Amounts may be added to or subtracted from the Unfunded Actuarial Liability due to Plan amendments, changes in actuarial assumptions, and actuarial gains and losses.

The total Plan cost is the sum of the Normal Cost, the amortization of the Unfunded Actuarial Liability, and the expected Administrative Expenses.

#### **Actuarial Value of Plan Assets**

The actuarial value of Plan assets is calculated on a modified market-related value. The Market Value of Assets is adjusted to recognize, over a five-year period, investment earnings which are greater than (or less than) the assumed investment return on the Market Value of Assets.

#### **Actuarial Assumptions**

The actuarial assumptions were developed based on an Experience Study covering the period from July 1, 2011 through June 30, 2015.

#### 1. Rate of Return

The annual rate of return on all Plan assets is assumed to be 7.50% for the current valuation net of investment, but not administrative, expenses.

#### 2. Cost of Living

The cost of living as measured by the Consumer Price Index (CPI) is assumed to increase at the rate of 3.15% per year.

#### 3. Plan Expenses

Administrative expenses are assumed to be \$297,493 for Fiscal Year 2017-18, and are added directly to the actuarial cost calculation. The expenses are assumed to increase with CPI in future years.

#### APPENDIX B – STATEMENT OF ACTUARIAL ASSUMPTIONS AND METHODS

#### 4. Increases in Pay

Assumed pay increases for active Participants consist of increases due to inflation (cost of living adjustments) and those due to longevity and promotion.

Based on an analysis of pay levels and service for the Salaried Plan Participants, we assume that pay increases due to longevity and promotion will occur in accordance with the following table:

| Pay Increases         |       |                  |       |  |
|-----------------------|-------|------------------|-------|--|
|                       | Yea   | Years of Service |       |  |
|                       | 0-9   | 10-19            | 20+   |  |
| Base Increase         | 3.15% | 3.15%            | 3.15% |  |
| Longevity & Promotion |       |                  |       |  |
| AFSME                 | 2.00% | 2.00%            | 0.00% |  |
| AEA/M CEG             | 3.25% | 0.50%            | 0.50% |  |
| Total (Compound)      |       |                  |       |  |
| AFSME                 | 5.21% | 5.21%            | 3.15% |  |
| AEA/M CEG             | 6.50% | 3.67%            | 3.67% |  |

#### 5. Family Composition

85% of participants are assumed to be married. Male spouses of active employees are assumed to be three years older than their wives. This assumption is also applied to retired members with a joint and survivor benefit where the data is missing the beneficiary date of birth.

#### 6. Terminal Payments

Retirement benefits are assumed to be increased by 7% due to the application of payments for unused vacation and sick leave to Average Final Monthly Earnings.

No liability adjustment for retirement is used for members who joined the plan on or after January 1, 2015.

#### 7. Bridging Service

The Plan has been modified to enable members who are rehired after a previous period of non-vested service to use this prior service for benefit and eligibility purposes. As the impact on the liabilities and contribution level of the Plan is expected to be minor, and

#### APPENDIX B – STATEMENT OF ACTUARIAL ASSUMPTIONS AND METHODS

will depend on the number of members actually rehired (if any), no additional liability is currently being included for this provision.

### 8. Employment Status

No Plan Participants are assumed to transfer between the Salaried Plan and the ATU/IBEW Plan.

#### 9. Rates of Termination

Rates of termination for all Participants from causes other than death, disability, and service retirement are based on the Participant's age, service, and sex.

Representative rates are shown in the following table:

| Termination Rates* |           |          |
|--------------------|-----------|----------|
|                    | 0-4 Years | 5+ Years |
| Age                | All       | All      |
| 20-34              | 5.00%     | 8.00%    |
| 35-44              | 5.00%     | 3.00%    |
| 45                 | 5.00%     | 0.25%    |
| 46                 | 5.00%     | 0.20%    |
| 47                 | 5.00%     | 0.15%    |
| 48                 | 5.00%     | 0.10%    |
| 49                 | 5.00%     | 0.50%    |
| 50+                | 5.00%     | 0.00%    |

<sup>\*</sup> No terminations are assumed after eligibility for normal retirement or after 25 years of service for non-PEPRA members. PEPRA members terminating with at least five years of service are expected to receive a deferred annuity benefit; those terminating with less than five years of service are expected to receive a refund of contributions (with interest).

#### APPENDIX B – STATEMENT OF ACTUARIAL ASSUMPTIONS AND METHODS

#### 10. Rates of Disability

Rates of disability are based on the age of the Participant. Representative rates are as follows:

| Rates of Disability |         |  |
|---------------------|---------|--|
| Age                 | Rate    |  |
| 22                  | 0.0184% |  |
| 27                  | 0.0237% |  |
| 32                  | 0.0289% |  |
| 37                  | 0.0368% |  |
| 42                  | 0.0525% |  |
| 47                  | 0.0814% |  |
| 52                  | 0.1418% |  |
| 57                  | 0.2599% |  |
| 62                  | 0.5382% |  |

Rates are applied after the Participant becomes eligible to receive a disability benefit. Disabled Participants are assumed not to return to active service.

### 11. Rates of Mortality for Healthy Lives

Rates of mortality for active Participants are given by the Retired Pensioners (RP) 2014 Male and Female Employee Mortality Tables projected with Scale MP-2015 published by the Society of Actuaries, with the base tables adjusted 130% for females.

#### 12. Rates of Mortality for Disabled Retirees

Rates of mortality for all disabled Participants are given by Retired Pensioners (RP) 2014 Male and Female Disabled Retiree Mortality Tables projected with Scale MP-2015 published by the Society of Actuaries, with the base tables adjusted 130% for males and 115% for females.

#### 13. Retired Member and Beneficiary Mortality

Rates of mortality for retired Participants and their beneficiaries are given by the Retired Pensioners (RP) 2014 Male and Female Healthy Annuitants Mortality Tables projected with Scale MP-2015 published by the Society of Actuaries, with the base tables adjusted 130% for females.

### APPENDIX B - STATEMENT OF ACTUARIAL ASSUMPTIONS AND METHODS

#### 14. Rates of Retirement

Rates of service retirement among all Participants eligible to retire are given by the following table:

| Rates of Retirement |                  |        |        |
|---------------------|------------------|--------|--------|
|                     | Years of Service |        |        |
| Age                 | 5-24             | 25-29  | 30+    |
| 50-54               | 0.00%            | 5.00%  | 25.00% |
| 55-59               | 5.00%            | 5.00%  | 25.00% |
| 60                  | 15.00%           | 15.00% | 15.00% |
| 61-64               | 8.25%            | 8.25%  | 8.30%  |
| 65+                 | 25.00%           | 25.00% | 25.00% |

<sup>\*</sup>The rate of service retirement among all Participants eligible to retire with 30 or more years of service is assumed to be 25.0% per year, and 100% per year for all Participants 70 or older. PEPRA members are assumed to begin retiring at age 52, with at least five years of service.

### 15. Changes Since Last Valuation

None

#### APPENDIX C - SUMMARY OF PLAN PROVISIONS

#### 1. Definitions

Average Final

Monthly

Earnings: A Participant's Average Final Monthly Earnings is the highest average

consecutive 48 months' Compensation paid. Payments for accumulated vacation or sick leave not actually taken prior to retirement are included in computing Average Final Monthly Earnings if the last 48 months of compensation are used in the calculation, except for PEPRA members.

Compensation: A Participant's Compensation is the earnings paid in cash to the participant

during the applicable period of employment with the District.

PEPRA member's Compensation is computed using base salary, without overtime or other special compensation such as terminal payments. Pensionable compensation is limited to an amount not to exceed a specific capped amount, originally tied to the Social Security Taxable Wage Base in 2013, and subsequently adjusted annually by the increase in the CPI-U.

Service: Service is computed from the date in which the Participant becomes a full

or part-time employee and remains in continuous employment to the date employment ceases. Service includes time with the District or predecessor companies immediately prior to August 1, 1968 and subsequent to hire.

Service is measured in completed quarters of a year for AFSCME employees. For MCEG and AEA employees, service is measured in

completed months.

#### 2. Participation

Eligibility: Any person employed by the District in a full or part-time position in an

authorized job classification covered by one of the defined employee groups of (i) Non-union Management and Confidential Employees, (ii) Employee members of the Administrative Employee Association (AEA), or (iii) Employee members of American Federation of State, County and Municipal Employees (AFSCME), is eligible to participate in the Plan.

Municipal Employees (AFSCME), is eligible to participate in the Plan.

Any member joining the Plan for the first time on or after January 1, 2015 is a New Member and will follow PEPRA provisions. Employees who transfer from and are eligible for reciprocity with another public employer will not be New Members if the service in the reciprocal system was under

a pre-PEPRA plan.

#### **APPENDIX C - SUMMARY OF PLAN PROVISIONS**

#### 3. Retirement Benefit

Eligibility:

Prior to January 1, 2006, a Participant is eligible for normal service retirement upon attaining age 55 and completing nine or more years of service.

On and after January 1, 2006, a Participant is eligible for normal service retirement upon attaining age 55 and completing five or more years of service.

Effective January 1, 2000, employees with 25 years of credited service will be eligible for an early retirement option.

PEPRA members are eligible upon attaining age 52 and completing five or more years of service.

Benefit Amount: The normal service retirement benefit is the greater of the benefit accrued under the plan provisions in effect prior to February 1, 1994 or the Participant's benefit under the current plan provisions. Under the current plan provision, the member would receive a percentage of the Participant's Average Final Monthly Earnings multiplied by the Participant's service at retirement. For AGSCME members with at least five but less than nine years of service, a vesting schedule is applied unless the member has reached age 62.

> For retirements and terminations prior to January 1, 2005, the percentage is equal to:

- 2.0%, if the member retires prior to age 65, and
- 2.5%, if the member retires at age 65 or later.

For AEA and MCEG retirements and terminations on and after July 1, 2006 and prior to January 1, 2008, the percentage is equal to:

- 2.0%, if the member retires at age 55 or with 25 years of service,
- 2.125%, if the member retires at age 56 or with 26 years of service,
- 2.25%, if the member retires between the ages of 57 and 64 or with 27 or more years of service, and
- 2.5%, if the member retires at age 65 or later.

For retirements and terminations on and after January 1, 2008 (July 1, 2006 for AFSCME members), the percentage is equal to:

- 2.0%, if the member retires at age 55 or with 25 years of service,
- 2.1%, if the member retires at age 56 or with 26 years of service,
- 2.2%, if the member retires at age 57 or with 27 years of service,

### APPENDIX C - SUMMARY OF PLAN PROVISIONS

- 2.3%, if the member retires at age 58 or with 28 years of service,
- 2.4%, if the member retires at age 59 or with 29 years of service,
- 2.5%, if the member retires at age 60 or later or with 30 or more years of service.

For PEPRA members, the benefit multiplier will be 1% at age 52, increasing by 0.1% for each year of age to 2.5% at 67. In between exact ages, the multiplier will increase by 0.025% for each quarter year increase in age.

Form of Benefit: The benefit begins at retirement and continues for the Participant's life with no cost of living adjustments. A Participant may elect to receive reduced benefits in the form of a contingent annuity with 50% or 100% continuing to a beneficiary after death, or in the form of an increased benefit prior to receiving Social Security benefits, and a reduced benefit thereafter.

## 4. Disability Benefit

Eligibility:

A Participant is eligible for a disability benefit if the Participant is unable to perform the duties of his or her job with the District, cannot be transferred to another job with the District, and has submitted satisfactory medical evidence of permanent disqualification from his or her job. Nine years of service is required to qualify for disability. Effective January 1, 2006, five years of service is needed to qualify for disability retirement for AEA and MCEG members.

Benefit Amount: For AEA and MCEG members, the disability benefit is equal to the Normal Retirement Benefit, using the Participant's Average Final Monthly Earnings and service accrued through the date of disability. For AFSCME members, the disability benefit is equal to 2% of the Participant's Average Final Monthly Earnings multiplied by service accrued through the date of disability. The disability benefit cannot exceed the Retirement Benefit the member would be entitled to on the basis of Average Final Monthly Earnings determined at the date of disability multiplied by the service the member would have attained had employment continued until age 62.

Form of Benefit: The benefit begins at disability and continues until recovery or for the Participant's life with no cost of living adjustments. A Participant may elect to receive reduced benefits in the form of a contingent annuity with 50% or 100% continuing to a beneficiary after death, or in the form of an increased benefit prior to receiving Social Security benefits, and a reduced benefit thereafter.

## APPENDIX C - SUMMARY OF PLAN PROVISIONS

### 5. Pre-Retirement Death Benefit

Eligibility: For deaths prior to January 1, 2006, a Participant's surviving spouse,

Domestic Partner or minor dependent child is eligible for a pre-retirement death benefit if the Participant has completed nine years of service with

the District.

For deaths on and after January 1, 2006, a Participant's surviving spouse, Domestic Partner, or minor dependent child is eligible for a pre-retirement death benefit if the Participant has completed five years of service with the

District.

Benefit Amount: The pre-retirement death benefit is the actuarial equivalent of the Normal

Retirement Benefit, as if the member retired on the day prior to his/her death. The amount payable to the spouse or Domestic Partner is equal to

the Life benefit payable under Article V of the Plan document.

Form of Benefit: The death benefit begins when the Participant dies and continues for the

life of the surviving spouse or Domestic Partner, or until the death, marriage, or attainment of 21 years of age of a dependent minor child. No optional form of benefit may be elected. No cost of living increases are

payable.

### 6. Termination Benefit

Eligibility: A Participant is eligible for a termination benefit after earning five years

of service. The Participant will be eligible to commence benefits at age 55.

Benefit Amount: For AFSCME terminations, and AEA and MCEG terminations prior to

January 1, 2006, the benefit payable to a vested terminated Participant is a percentage of the Normal Retirement Benefit earned on the date of termination, based on the age, service, and Average Final Monthly Earnings accrued by the Participant at that point. The percentage is based on the Participant's service with the District, as shown in the table below:

| Service   | Vested Percentage |
|-----------|-------------------|
| 5         | 20%               |
| 6         | 40%               |
| 7         | 60%               |
| 8         | 80%               |
| 9 or more | 100%              |

For AEA and MCEG terminations on and after January 1, 2006, a Participant is eligible after earning five years of service for the full Normal Retirement Benefit earned on the date of termination, based on the age,

### APPENDIX C - SUMMARY OF PLAN PROVISIONS

service, and Average Final Monthly Earnings accrued by the Participant at that point.

PEPRA members are eligible after earning five years of service for the full Normal Retirement Benefit earned on the date of termination, based on the service and Average Final Monthly Earnings accrued by the Participant at that point, and using the factor based on the age at which the benefit commences.

Form of Benefit: The termination benefit is payable for the life of the Participant only

beginning at age 55. For PEPRA members the benefit can begin as early

as age 52. No cost of living increases are payable.

## 7. Reciprocity Benefit

Eligibility: A Participant who transfers from this Plan to the RT Union Plan, and who

is vested under this Plan, is eligible for a retirement benefit from this Plan.

Benefit Amount: The benefit payable to a vested transferred Participant is equal to the

Normal Retirement Benefit based on service earned under this Plan to the date of transfer and based on Average Final Earnings computed under this

Plan and the Union Plan together, as if the plans were a single plan.

Form of Benefit: The reciprocity benefit begins at retirement and continues for the

Participant's life with no cost of living adjustments. A Participant may elect to receive reduced benefits in the form of a contingent annuity with 50% or 100% continuing to a beneficiary after death, or in the form of an increased benefit prior to receiving Social Security benefits, and a reduced

benefit thereafter.

## 8. Funding

Members hired on or after January 1, 2015 will contribute half of the normal cost of the Plan rounded to the nearest 0.25%. Once established, contribution rate for New Members will be adjusted to reflect a change in the normal cost rate, but only if the normal cost rate changed by more than 1% of payroll. For the current year, the initial contribution rate for PEPRA members was 3.75% of payroll. However, the normal cost rate for the PEPRA members as of the 7/1/2016 valuation is 10.27%, therefore we expect the rate to change for the following fiscal year to 5.25% (1/2 of 10.27%, rounded to the nearest quarter).

The remaining cost of the Plan is paid by the District.

## 9. Changes in Plan Provisions

The basis used for calculating actuarial equivalence for the Pre-Retirement Death Benefit was updated.

### APPENDIX D – GLOSSARY

### 1. Actuarial Assumptions

Assumptions as to the occurrence of future events affecting pension costs such as mortality, withdrawal, disability, retirement, changes in compensation, and rates of investment return.

#### 2. Actuarial Cost Method

A procedure for determining the Actuarial Present Value of pension plan benefits and expenses and for developing an allocation of such value to each year of service, usually in the form of a Normal Cost and an Actuarial Liability.

## 3. Actuarial Gain (Loss)

The difference between actual experience and that expected based upon a set of Actuarial Assumptions during the period between two Actuarial Valuation dates, as determined in accordance with a particular Actuarial Cost Method.

## 4. Actuarial Liability

The portion of the Actuarial Present Value of Projected Benefits which will not be paid by future Normal Costs. It represents the value of the past Normal Costs with interest to the valuation date.

## **5.** Actuarial Present Value (Present Value)

The value as of a given date of a future amount or series of payments. The Actuarial Present Value discounts the payments to the given date at the assumed investment return and includes the probability of the payment being made.

#### 6. Actuarial Valuation

The determination, as of a specified date, of the Normal Cost, Actuarial Liability, Actuarial Value of Assets, and related Actuarial Present Values for a pension plan.

### APPENDIX D – GLOSSARY

### 7. Actuarial Value of Assets

The value of cash, investments, and other property belonging to a pension plan as used by the actuary for the purpose of an Actuarial Valuation. The purpose of an Actuarial Value of Assets is to smooth out fluctuations in market values.

## 8. Actuarially Equivalent

Of equal Actuarial Present Value, determined as of a given date, with each value based on the same set of actuarial assumptions.

## 9. Amortization Payment

The portion of the pension plan contribution which is designed to pay interest and principal on the Unfunded Actuarial Liability in order to pay for that liability in a given number of years.

## 10. Entry Age Normal Actuarial Cost Method

A method under which the Actuarial Present Value of the Projected Benefits of each individual included in an Actuarial Valuation is allocated on a level basis over the earnings of the individual between entry age and assumed exit ages.

#### 11. Funded Ratio

The ratio of the Actuarial Value of Assets to the Actuarial Liabilities.

#### 12. Normal Cost

That portion of the Actuarial Present Value of pension plan benefits and expenses which is allocated to a valuation year by the Actuarial Cost Method.

## 13. Projected Benefits

Those pension plan benefit amounts which are expected to be paid in the future under a particular set of Actuarial Assumptions, taking into account such items as increases in future compensation and service credits.

## 14. Unfunded Actuarial Liability

The excess of the Actuarial Liability over the Actuarial Value of Assets. The Unfunded Actuarial Liability is not appropriate for assessing the sufficiency of plan assets to cover the estimated cost of settling the Plan's benefit obligation in the event of a plan termination or other similar action. However, it is an appropriate measure for assessing the need for or the amount of future contributions.

Subject: Update on Roles and Responsibilities Related to Pension Administration (ALL). (Bonnel)

## **ISSUE**

Presentation regarding the roles and responsibilities of various District staff members and Legal Counsel related to administration of the Pension Plans (ALL). (Bonnel)

## **RECOMMENDED ACTION**

None associated with this matter.

## FISCAL IMPACT

None associated with this matter.

## **DISCUSSION**

This presentation by Donna Bonnel, Pension Plan Administrator, and the attached documents are provided to ensure the Boards have a greater understanding of the various duties of RT staff and consultants (including the Retirement Boards' Legal Counsel) as related to administration of the Pension Plans.

Attachment A - Pension Administration Staff Roles and Responsibilities

Attachment B – RT Staff Costs (Excluding the Pension and Retiree Services Administrator)
Attributable (but Not Charged) to RT Pension Plans

Attachment C – Summary of Legal Services Provided for the Quarter Ending December 31, 2016

## HANSON BRIDGETT LLP & SACRAMENTO REGIONAL TRANSIT DISTRICT RETIREMENT BOARDS

### **LEGAL SERVICES SUMMARY**

Set forth below is a broad summary report of significant legal matters addressed by Hanson Bridgett LLP for the Sacramento Regional Transit District Retirement Boards during the Quarter ended December 31, 2016.

- 1. Weekly client conference calls and internal conferences on pending matters, upcoming Board meetings and follow-up from prior Board meetings.
- 2. Preparation for and participation in Quarterly Board Meeting, including review and markup of agenda materials and related Board Chair conference calls.
- 3. Support fund manager search.
- 4. Assist with analysis of potential under-and over-payments.
- 5. Review and edit tax notices and related distribution forms.
- 6. Prepare for and present AB 1234-compliant local government ethics training.
- 7. Provide counsel on issues including, but not limited to:
  - a. Retirement Board Bylaws and Boardmember transitions;
  - b. IRS compliance statement letter;
  - c. Indirect rollovers;
  - d. Small cash-out rules;
  - e. Pre-retirement survivor benefit provisions;
  - f. Class action notice;
  - g. Withholding for periodic and nonperiodic payments;
  - h. Pension garnishment rules.

Respectfully Submitted,

/s/ Shayna M. van Hoften

## **DISCUSSION**

Each year, staff contacts the District's insurance broker, Alliant, to secure fiduciary liability insurance for the Boards.

| The Boards' current policy, which expires May 6, 2017, provides a \$10 million limit, w                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | vith |

The policy includes provisions governing how the policy would be applied in case of a claim implicating the deductible, including waivers in specific limited conditions, and including personal coverage for each member/alternate of the Retirement Boards who pays a nominal amount for their own coverage (\$25 each).

Staff seeks authorization to bind the policy, thereby providing continuous coverage for the Boards.

Subject: Approving Disability Retirement Application for Donae Hanible (ATU). (Bonnel)

## **ISSUE**

Whether to Approve an Application for Disability Retirement submitted by Donae Hanible.

## RECOMMENDED ACTION

Adopt Resolution No. 17-03-\_\_\_\_\_, Approving Disability Retirement of Donae Hanible.

### FISCAL IMPACT

Retirement benefits are funded under the Retirement Plan for Regional Transit Employees who are Members of ATU Local 256, hereinafter referred to as the "Retirement Plan."

## **DISCUSSION**

## Eligibility

Donae Hanible, hereinafter referred to as "Applicant," is a member of the Retirement Plan, pursuant to Article 3.

## Vesting

The Applicant was in the continuous employ of the District since March 4, 1996 as a part-time employee and since November 16, 1997 as a full-time employee. She has achieved 100% vesting pursuant to Article 5 of the ATU Retirement Plan.

### Age

There is no minimum age requirement for eligibility for disability retirement benefits.

### Disability

Dr. Cohen, evaluated the Applicant on March 2, 2017. Retirement Plan staff received Dr. Cohen's medical report on March 14, 2017. Dr. Cohen has determined that the Applicant is unable to perform the essential functions of her job duties as a Bus Operator at this time.

## Allowance

Due to the recent receipt of Dr. Cohen's medical report, Retirement Plan staff has not yet completed a final calculation of the Applicant's disability retirement benefits. If the Board approves
