MEETING NOTE: *This is a joint and concurrent meeting of the five independent Retirement Boards for the pension plans for the employees and retirees of the Sacramento Regional Transit District. This single, combined agenda designates which items will be subject to action by which board(s). Members of each board may be present for the other boards' discussions and actions, except during individual closed sessions.*

ROLL CALL

ATU Retirement Board:	Directors: Li, Kennedy, Niz, McGee Lee Alternates: Valenton, Land
IBEW Retirement Board:	Directors: Li, Kennedy, Bibbs, Pickering Alternates: Valenton, D. Thompson
AEA Retirement Board:	Directors: Li, Kennedy, Devorak, McGoldrick Alternates: Valenton, Santhanakrishnan
AFSCME Retirement Board:	Directors: Li, Kennedy, Guimond, L. Thompson Alternates: Valenton, Salva
MCEG Retirement Board:	Directors: Li, Kennedy, Bobek, Hinz Alternates: Valenton, Flores

PUBLIC ADDRESSES BOARD ON MATTERS ON CONSENT AND MATTERS NOT ON THE AGENDA

At this time the public may address the Retirement Board(s) on subject matters pertaining to Retirement Board business listed on the Consent Calendar, any Closed Sessions or items not listed on the agenda. Remarks may be limited to 3 minutes subject to the discretion of the Common Chair. Members of the public wishing to address one or more of the Boards may submit a "Public Comment Speaker Request" via e-mail to Retirement@SacRT.com. While the Retirement Boards encourage your comments, State law prevents the Boards from discussing items that are not set forth on this meeting agenda. The Boards and staff take your comments very seriously and, if appropriate, will follow up on them.

ADJOURN

NOTICE TO THE PUBLIC

It is the policy of the Boards of Directors of the Sacramento Regional Transit District Retirement Plans to encourage participation in the meetings of the Boards of Directors. At each open meeting, members of the public shall be provided with an opportunity to directly address the Board on items of interest to the public that are within the subject matter jurisdiction of the Boards.

Any person(s) requiring accessible formats of the agenda or assisted listening devices/sign language interpreters should contact the Human Resources Pension and Retiree Services Administrator at 916-556-0296 or TDD 916/483-4327.

Copies of staff reports or other written documentation relating to each item of business referred to on the agenda are on file with the Pension & Retirement Services Analyst at 916-216-9927 and/or Clerk to the Board of Directors of the Sacramento Regional Transit District and are available for public inspection at 1400 29th Street, Sacramento, CA. Any person who has questions concerning any agenda item may call the Retirement Services Analyst of Sacramento Regional Transit District to make inquiry.

RETIREMENT BOARD STAFF REPORT

DATE: September 14, 2022 Agenda Item: 1
TO: Sacramento Regional Transit Retirement Board - All
FROM: John Gobel - Manager, Pension and Retirement Services
SUBJ: AUTHORIZE THE BOARDS TO CONDUCT THEIR MEETINGS FOR THE NEXT 30 DAYS VIA TELECONFERENCE AS AUTHORIZED UNDER THE BROWN ACT PURSUANT TO GOVERNMENT CODE SECTION 54953, AS AMENDED BY ASSEMBLY BILL 361, DURING THE COVID-19 PANDEMIC

RECOMMENDATION

Adopt the attached Resolutions.

RESULT OF RECOMMENDED ACTION

Adoption of the Resolutions will authorize the Retirement Boards to meet via teleconference due to the COVID-19 pandemic, consistent with Assembly Bill (AB) 361, for 30 days.

FISCAL IMPACT

There is no fiscal impact.

DISCUSSION

Adopted and signed into law in September 2021, AB 361 amended the Ralph M. Brown Act (Brown Act) to authorize modified procedures for remote (teleconference) meetings for each local legislative body that finds, by a majority vote, that it has considered the circumstances of the COVID-19 state of emergency, and (i) the state of emergency continues to directly impact the ability of the Retirement Board members to meet safely in person and/or (ii) state or local officials continue to impose or recommend measures to promote social distancing. The findings must be made no later than 30 days after using the modified procedures, and every 30 days thereafter. See Cal. Gov. Code § 54953(e).

When the conditions of AB 361 are met, the Retirement Boards may meet remotely using teleconferencing without requiring any in-person option, without noticing the locations being used by Board members or making them open to the public, and without regard to whether a quorum of the Board is participating from within the Boards' jurisdiction.

Although the number of employees with COVID-19 has moderated in recent months, the Sacramento Regional Transit District (SacRT) still reported more than 30 new cases in August 2022. SacRT's auditorium is unusually small, making it difficult to allow for adequate social distancing between members of the Board, staff and the public. Because the peril of transmission has not significantly declined, the prudent course of action is to continue meeting virtually, including for members of the public who wish to participate in a Retirement Board meeting, for the next 30 days.

RESOLUTION NO. 2022-09-347

SACRAMENTO REGIONAL TRANSIT RETIREMENT BOARD RESOLUTION

Adopted by the Board of Directors for the Retirement Plan for the Sacramento Regional Transit District Employees who are Members of ATU Local Union 256 on this date:

September 14, 2022

Authorize the Retirement Board of Directors to Meet via Teleconference In Compliance with The Brown Act Pursuant to Government Code Section 54953, As Amended by Assembly Bill 361, During the Covid-19 Pandemic

BE IT HEREBY RESOLVED BY THE BOARD OF DIRECTORS FOR THE RETIREMENT PLAN FOR THE SACRAMENTO REGIONAL TRANSIT DISTRICT EMPLOYEES WHO ARE MEMBERS OF ATU LOCAL 256 AS FOLLOWS:

THAT, on March 4, 2020, Governor Gavin Newsom issued a Proclamation of State of Emergency in response to the novel coronavirus (a disease now known as COVID-19); and

WHEREAS, the Sacramento County Health Officer declared a local health emergency related to the COVID-19 on March 6, 2020 and the County Administrator, acting in his capacity as the Director of Emergency Services, proclaimed the existence of a local emergency related to COVID-19 on March 6, 2020; and

WHEREAS, on March 17, 2020, Governor Newsom issued Executive Order N-29-20, which suspended and modified the teleconferencing requirements under the Brown Act (California Government Code Section 54950 et seq.) so that local legislative bodies can hold public meetings via teleconference (with audio or video communications, without a physical meeting location), as long as the meeting agenda identifies the teleconferencing procedures to be used; and

WHEREAS, on June 11, 2021, the Governor issued Executive Order N-08-21, which extended the provision of N-29-20 concerning the conduct of public meetings through September 30, 2021, and the Governor subsequently signed legislation revising Brown Act requirements for teleconferenced public meetings (Assembly Bill 361, referred to hereinafter as "AB 361"); and

WHEREAS, as of the date of this Resolution, neither the Governor nor the Legislature have exercised their respective powers pursuant to California Government Code section 8629 to lift the state of emergency either by proclamation or by concurrent Resolution in the state Legislature; and

WHEREAS, the Sacramento Regional Transit District (SacRT) Retirement Boards' meeting space does not allow for adequate social distancing between members of the Board, SacRT staff and the public; and

WHEREAS, a substantial number of new COVID-19 cases was still reported for employees of SacRT in August 2022; and

WHEREAS, this Board concludes that there is a continuing threat of COVID-19 to the community, and that Board meetings have characteristics that give rise to risks to health and safety of meeting participants (such as the increased mixing associated with bringing together people from across the community, the need to enable those who are immunocompromised or unvaccinated to be able to safely continue to participate fully in public governmental meetings, and the challenges with fully ascertaining and ensuring compliance with vaccination and other safety recommendations at such meetings); and

WHEREAS, to help protect against the spread of COVID-19 and its variants, and to protect the health and safety of the public, the Board desires to take the actions necessary to comply with AB 361 and to continue to hold its Board meetings remotely.

NOW, THEREFORE, BE IT RESOLVED AND FOUND as follows:

1. The Retirement Board hereby finds that the facts set forth in the above recitals are true and correct, and establish the factual basis for the adoption of this Resolution.
2. There is an ongoing proclaimed state of emergency relating to the novel coronavirus causing the disease known as COVID-19 and the state of emergency continues to impact the ability of the attendees and Board members to meet safely in person, within the meaning of California Government Code section 54953(e)(3).
3. The Retirement Board has reconsidered the circumstances of the state of emergency and determined that the present circumstances, including the risks mentioned in the preceding paragraph, authorize teleconferenced public meetings consistent with Assembly Bill 361.
4. Staff are directed to take all actions necessary to implement this Resolution in accordance with the foregoing provisions and the requirements of Government Code section 54953, as amended by Assembly Bill 361, including but not limited to returning for ratification of this Resolution every 30 days after teleconferencing for the first time pursuant to Assembly Bill 361 for so long as the circumstances of the state of emergency are reconsidered and either of the following circumstances exists: (a) the state of emergency continues to directly impact the ability of this legislative body to meet safely in person; and/or (b) state or local officials, including but not limited to the County Health Officer, continue to impose or recommend measures to promote social distancing.

RESOLUTION NO. 2022-09-232

SACRAMENTO REGIONAL TRANSIT RETIREMENT BOARD RESOLUTION

Adopted by the Board of Directors for the Retirement Plan for the Sacramento Regional Transit District Employees who are Members of IBEW Union Local 1245 on this date:

September 14, 2022

Authorize the Retirement Board of Directors to Meet via Teleconference In Compliance with The Brown Act Pursuant to Government Code Section 54953, As Amended by Assembly Bill 361, During the Covid-19 Pandemic

BE IT HEREBY RESOLVED BY THE BOARD OF DIRECTORS FOR THE RETIREMENT PLAN FOR THE SACRAMENTO REGIONAL TRANSIT DISTRICT EMPLOYEES WHO ARE MEMBERS OF IBEW LOCAL 1245 AS FOLLOWS:

THAT, on March 4, 2020, Governor Gavin Newsom issued a Proclamation of State of Emergency in response to the novel coronavirus (a disease now known as COVID-19); and

WHEREAS, the Sacramento County Health Officer declared a local health emergency related to the COVID-19 on March 6, 2020 and the County Administrator, acting in his capacity as the Director of Emergency Services, proclaimed the existence of a local emergency related to COVID-19 on March 6, 2020; and

WHEREAS, on March 17, 2020, Governor Newsom issued Executive Order N-29-20, which suspended and modified the teleconferencing requirements under the Brown Act (California Government Code Section 54950 et seq.) so that local legislative bodies can hold public meetings via teleconference (with audio or video communications, without a physical meeting location), as long as the meeting agenda identifies the teleconferencing procedures to be used; and

WHEREAS, on June 11, 2021, the Governor issued Executive Order N-08-21, which extended the provision of N-29-20 concerning the conduct of public meetings through September 30, 2021, and the Governor subsequently signed legislation revising Brown Act requirements for teleconferenced public meetings (Assembly Bill 361, referred to hereinafter as "AB 361"); and

WHEREAS, as of the date of this Resolution, neither the Governor nor the Legislature have exercised their respective powers pursuant to California Government Code section 8629 to lift the state of emergency either by proclamation or by concurrent Resolution in the state Legislature; and

WHEREAS, the Sacramento Regional Transit District (SacRT) Retirement Boards' meeting space does not allow for adequate social distancing between members of the Board, SacRT staff and the public; and

WHEREAS, a substantial number of new COVID-19 cases was still reported for employees of SacRT in August 2022; and

WHEREAS, this Board concludes that there is a continuing threat of COVID-19 to the community, and that Board meetings have characteristics that give rise to risks to health and safety of meeting participants (such as the increased mixing associated with bringing together people from across the community, the need to enable those who are immunocompromised or unvaccinated to be able to safely continue to participate fully in public governmental meetings, and the challenges with fully ascertaining and ensuring compliance with vaccination and other safety recommendations at such meetings); and

WHEREAS, to help protect against the spread of COVID-19 and its variants, and to protect the health and safety of the public, the Board desires to take the actions necessary to comply with AB 361 and to continue to hold its Board meetings remotely.

NOW, THEREFORE, BE IT RESOLVED AND FOUND as follows:

1. The Retirement Board hereby finds that the facts set forth in the above recitals are true and correct, and establish the factual basis for the adoption of this Resolution.
2. There is an ongoing proclaimed state of emergency relating to the novel coronavirus causing the disease known as COVID-19 and the state of emergency continues to impact the ability of the attendees and Board members to meet safely in person, within the meaning of California Government Code section 54953(e)(3).
3. The Retirement Board has reconsidered the circumstances of the state of emergency and determined that the present circumstances, including the risks mentioned in the preceding paragraph, authorize teleconferenced public meetings consistent with Assembly Bill 361.
4. Staff are directed to take all actions necessary to implement this Resolution in accordance with the foregoing provisions and the requirements of Government Code section 54953, as amended by Assembly Bill 361, including but not limited to returning for ratification of this Resolution every 30 days after teleconferencing for the first time pursuant to Assembly Bill 361 for so long as either of the following circumstances exists: (a) the state of emergency continues to directly impact the ability of this legislative body to meet safely in person; and/or (b) state or local officials, including but not limited to the County Health Officer, continue to impose or recommend measures to promote social distancing.

RESOLUTION NO. 2022-09-233

SACRAMENTO REGIONAL TRANSIT RETIREMENT BOARD RESOLUTION

Adopted by the Board of Directors for the Retirement Plan for the Sacramento Regional Transit District Employees who are Members of MCEG on this date:

September 14, 2022

Authorize the Retirement Board of Directors to Meet via Teleconference In Compliance with The Brown Act Pursuant to Government Code Section 54953, As Amended by Assembly Bill 361, During the Covid-19 Pandemic

BE IT HEREBY RESOLVED BY THE BOARD OF DIRECTORS FOR THE RETIREMENT PLAN FOR THE SACRAMENTO REGIONAL TRANSIT DISTRICT EMPLOYEES WHO ARE MEMBERS OF MCEG AS FOLLOWS:

THAT, on March 4, 2020, Governor Gavin Newsom issued a Proclamation of State of Emergency in response to the novel coronavirus (a disease now known as COVID-19); and

WHEREAS, the Sacramento County Health Officer declared a local health emergency related to the COVID-19 on March 6, 2020 and the County Administrator, acting in his capacity as the Director of Emergency Services, proclaimed the existence of a local emergency related to COVID-19 on March 6, 2020; and

WHEREAS, on March 17, 2020, Governor Newsom issued Executive Order N-29-20, which suspended and modified the teleconferencing requirements under the Brown Act (California Government Code Section 54950 et seq.) so that local legislative bodies can hold public meetings via teleconference (with audio or video communications, without a physical meeting location), as long as the meeting agenda identifies the teleconferencing procedures to be used; and

WHEREAS, on June 11, 2021, the Governor issued Executive Order N-08-21, which extended the provision of N-29-20 concerning the conduct of public meetings through September 30, 2021, and the Governor subsequently signed legislation revising Brown Act requirements for teleconferenced public meetings (Assembly Bill 361, referred to hereinafter as "AB 361"); and

WHEREAS, as of the date of this Resolution, neither the Governor nor the Legislature have exercised their respective powers pursuant to California Government Code section 8629 to lift the state of emergency either by proclamation or by concurrent Resolution in the state Legislature; and

WHEREAS, the Sacramento Regional Transit District (SacRT) Retirement Boards' meeting space does not allow for adequate social distancing between members of the Board, SacRT staff and the public; and

WHEREAS, a substantial number of new COVID-19 cases was still reported for employees of SacRT in August 2022; and

WHEREAS, this Board concludes that there is a continuing threat of COVID-19 to the community, and that Board meetings have characteristics that give rise to risks to health and safety of meeting participants (such as the increased mixing associated with bringing together people from across the community, the need to enable those who are immunocompromised or unvaccinated to be able to safely continue to participate fully in public governmental meetings, and the challenges with fully ascertaining and ensuring compliance with vaccination and other safety recommendations at such meetings); and

WHEREAS, to help protect against the spread of COVID-19 and its variants, and to protect the health and safety of the public, the Board desires to take the actions necessary to comply with AB 361 and to continue to hold its Board meetings remotely.

NOW, THEREFORE, BE IT RESOLVED AND FOUND as follows:

1. The Retirement Board hereby finds that the facts set forth in the above recitals are true and correct, and establish the factual basis for the adoption of this Resolution.
2. There is an ongoing proclaimed state of emergency relating to the novel coronavirus causing the disease known as COVID-19 and the state of emergency continues to impact the ability of the attendees and Board members to meet safely in person, as a result of that emergency, meeting in person would present imminent risks to the health or safety of attendees of in-person meetings of this legislative body within the meaning of California Government Code section 54953(e)(3).
3. The Retirement Board has reconsidered the circumstances of the state of emergency and determined that the present circumstances, including the risks mentioned in the preceding paragraph, authorize teleconferenced public meetings consistent with Assembly Bill 361.
4. Staff are directed to take all actions necessary to implement this Resolution in accordance with the foregoing provisions and the requirements of Government Code section 54953, as amended by Assembly Bill 361, including but not limited to returning for ratification of this Resolution every 30 days after teleconferencing for the first time pursuant to Assembly Bill 361 for so long as either of the following circumstances exists: (a) the state of emergency continues to directly impact the ability of this legislative body to meet safely in person; and/or (b) state or local officials, including but not limited to the

County Health Officer, continue to impose or recommend measures to promote social distancing.

**Sacramento Regional Transit District
Quarterly Retirement Board Meeting (ATU)
Wednesday, June 8, 2022
MEETING MINUTES**

This meeting was held as a common meeting of the Sacramento Regional Transit District Retirement Boards (AEA, AFSCME, ATU, IBEW, MCEG).

The meeting was conducted via teleconference in accordance with Government Code Section 54953, as amended by Assembly Bill 361.

The Retirement Board was brought to order at 9:07 a.m. A quorum was present and comprised as follows: Alternate Valenton, Director McGee Lee, and Alternate Land. Directors Kennedy, Li, and Niz were absent.

With the consent and approval of the attending Director(s) and/or Alternate(s), Alternate Valenton served as the presiding Chair for this meeting of the ATU Retirement Board.

RESOLUTION TO MEET VIA TELECONFERENCE

1. Resolution: Authorize the Boards to Conduct Their Meetings for the Next 30 Days Via Teleconference as Authorized under the Brown Act pursuant to Government Code Section 54953, as Amended by Assembly Bill 361, during the COVID-19 Pandemic (All). (Gobel)

John Gobel, Manager of Pension and Retirement Services, presented a brief overview of Assembly Bill 361 (AB 361), which authorizes local legislative bodies to continue to meet remotely during the COVID-19 pandemic when certain conditions are met. Mr. Gobel explained that, under AB 361, the Retirement Boards must determine that the circumstances of the COVID-19 state of emergency continue to directly impact the ability of the Boards to meet safely in person in order to meet via teleconference during the next 30 days. Mr. Gobel explained that current circumstances related to the COVID-19 state of emergency include that the number of COVID-19 cases reported for employees of the Sacramento Regional Transit District (SacRT) in May 2022 was more than seven times the number from the prior month and that the Boards' meeting space does not allow for adequate social distancing between members of the Board, staff and the public. There were no questions from the Board nor public comment on the item.

Director McGee Lee moved to Adopt Agenda Item 1. The motion was seconded by Alternate Land. Agenda Item 1 was carried unanimously by roll call vote: Ayes – McGee Lee, Land, Valenton; Noes – None.

June 8, 2022 Meeting Minutes – Continued

CONSENT CALENDAR

- 3. Motion: Approving the Minutes for the March 14, 2022 Retirement Board Meeting (ATU). (Gobel)
- 8. Motion: Receive and File Administrative Reports for the Quarter Ended March 31, 2022 for the ATU Pension Plan (ATU). (Adelman)
- 11. Motion: Authorize Execution of Second Amendment to Extend Actuarial Services Contract (ALL). (Gobel)
- 12. Information: Update on Roles and Responsibilities Related to Pension Administration (ALL). (Gobel)

Director McGee Lee moved to adopt Agenda Items 3, 8, 11 and 12. The motion was seconded by Alternate Land. Agenda Items 3, 8, 11, and 12 were carried unanimously by roll call vote: Ayes – McGee Lee, Land, and Valenton; Noes – None.

NEW BUSINESS

- 13. Information: Investment Performance review by Met West for the ATU, IBEW and Salaried Funds for the Domestic Fixed Income Asset Class for the Quarter Ended March 31, 2022. (ALL) (Adelman)

Jamie Adelman, Acting VP, Finance/CFO, introduced Victoria Vogel from the TCW Group, who reviewed the performance of the Retirement Plans' Domestic Fixed Income manager, Metropolitan West Asset Management. As indicated in the written materials distributed for the MetWest portfolio, TCW manages approximately \$89 million for the Retirement Plans, which is benchmarked to the Bloomberg U.S. Aggregate Bond Index. For the measurement period ended March 31, 2022, the portfolio reported the following annualized returns (gross of fees): 1-Year of (3.72%), 3-Year of 2.97%, 5-Year of 3.14%, and 10-Year of 3.20%.

During the discussion of the fund and its performance, Ms. Vogel noted that fixed income delivered negative total returns for the past quarter, as had many other asset classes. Ms. Vogel ascribed the negative performance to rising interest rates, which she illustrated by noting that the yield on two-year Treasury bonds increased nearly 160 basis points from the beginning of the calendar year to the end of March. For context, however, Ms. Vogel stated that the portfolio began the year in a more defensive position and was underweight to corporate credit.

In response to a question from Uvan Tseng of Callan Associates about the defensive positioning of the portfolio, Ms. Vogel referenced the allocation to consumer non-cyclical issues (like food and beverage, and pharmaceuticals) and a minimal allocation to high

June 8, 2022 Meeting Minutes – Continued

yield bonds. In response to a question from AEA Director Devorak regarding the possible benefit of providing the manager with additional “headway” for security selection, Ms. Vogel noted that the portfolio’s core-plus mandate already enabled the manager to increase the allocation in certain areas (like high yield) if asset prices became more attractive going forward.

14. Information: Investment Performance Review by AQR for the ATU, IBEW and Salaried Retirement Funds for the International Small Capitalization Equity Asset Class for the Quarter Ended March 31, 2022 (ALL). (Adelman)

Ms. Adelman introduced Greg Keenan and Dave Kershner from AQR, who reviewed the firm’s performance as the Retirement Plans’ International Small Cap Equity manager. As indicated in the written materials distributed for the presentation, AQR manages a portfolio of approximately \$19 million for the Retirement Plans, which is benchmarked to the MSCI EAFE Small Cap Net Index. For the measurement period ended April 30, 2022, the manager reported the following annualized returns (gross of fees): 1-Year of (4.95%), 3-Year of 7.08%, 5-Year of 5.21%, and 10-Year of 8.17%.

In discussing performance and market conditions for the measurement period, Mr. Kershner explained that AQR emphasizes fundamentals in their stock selection, but applies a systematic, quantitative approach to managing the portfolio. To provide context for recent returns, Mr. Kershner reported that the portfolio outperformed the benchmark by 1.9% in April 2022 and by 8.5% for the period from January to May 2022. Mr. Kershner also explained that, based on the Retirement Boards’ initial investment in 2016, the portfolio’s inception-to-date performance was .5% lower than the benchmark through April 2022, but higher than the benchmark as of the presentation date.

In response to a question from ATU Director McGee regarding AQR’s placement on the Retirement Plans’ watch list two years ago and the case for moving forward, Mr. Kershner noted that the Retirement Plans’ investment horizon overlapped with the most significant draw-down of assets in AQR’s history. Mr. Kershner explained that, in contrast to the period from 2018 to 2020 – where AQR underperformed the benchmark for three out of four years – AQR now is well-positioned for a market emphasizing stock fundamentals, as supported by the fact that the Retirement Plans’ portfolio had outperformed the benchmark in three of the last four quarters.

In response to a question from AEA Director Devorak regarding de-globalization and the potential impact on the Retirement Plans’ international small cap equity portfolio, Mr. Kershner explained that AQR’s international investments tend to be country-specific -- partially because it is not cost-effective to trade in and out of stock positions across borders. Mr. Kershner also noted that small cap stocks tend to have less of a global

June 8, 2022 Meeting Minutes – Continued

footprint than large cap stocks. For those reasons, Mr. Kershner does not feel that de-globalization was likely to impact this particular strategy.

15. Motion: Receive and File Investment Performance Results for the ATU, IBEW and Salaried Employee Retirement Plans for the Quarter Ended March 31, 2022. (ALL) (Adelman)

Ms. Adelman introduced Anne Heaphy and Uvan Tseng from Callan. In addition to discussing market conditions and total fund performance for the period ended March 31, 2022, Ms. Adelman asked Callan to review the watch list and discuss the AQR's status with the Retirement Boards.

During the market update, Mr. Tseng noted that the U.S. economy contracted during the quarter ended March 31, 2022 and noted that all of the asset classes held by the Retirement Plans experienced negative returns – with the lone exception of real estate. Mr. Tseng also discussed ongoing concerns regarding inflation and activity by the Federal Reserve, which increased the federal funds benchmark rate by 25 basis points in March and by 50 basis points in May. Despite those challenges, Mr. Tseng noted that the Retirement Plans' investments performed relatively well.

In response to a question from AEA Director McGoldrick regarding quantitative tightening by the Federal Reserve, Mr. Tseng explained that the process involved selling prior bond purchases back into the market. Mr. Tseng also explained it was difficult to gauge the impact of the change because the process had just started on June 1st.

During the performance review, Mr. Tseng reported that total assets were \$382 million for the period ended March 31, 2022, which represented a return of approximately -2.8%. However, the Retirement Plans' investments had outperformed their policy target by almost 1.7% for the latest quarter and still returned 7.0% for the trailing one-year period, which placed the plans in the top 12% of their peer group for the last twelve months. As Mr. Tseng further discussed the performance of the active managers hired by the Retirement Boards, he noted that all had outperformed their benchmarks for the quarter (except for the real estate managers for which is no benchmark). For context, Ms. Adelman commented that outperformance in down markets was part of the downside protection that the Retirement Boards had sought when selecting many of their current managers.

Following the discussion of performance, AEA Director Devorak opined that some of the performance issues that had led to the placement of DFA on the watch list were related to the manager's underweighting of China relative to the benchmark. Based on the current investing environment and the rolling performance data for the past two years,

June 8, 2022 Meeting Minutes – Continued

Director Devorak indicated that he was very comfortable with DFA and AQR, and with the firms' investment philosophies.

With regard to the two managers on the watch list, Mr. Tseng noted that DFA's performance was significantly ahead of the benchmark on a three-year and a five-year basis, and that Callan was recommending their removal from the watch list. Although AQR had weathered organizational changes and their performance had also improved considerably, Mr. Tseng observed that five-year performance was still a bit lower than the benchmark. Accordingly, Mr. Tseng recommended keeping AQR on watch for now and reviewing their status after another quarter or two. There were no questions from the Retirement Boards regarding the recommended change to the watch list.

Director McGee Lee moved to adopt Agenda Item 15. The motion was seconded by Alternate Land. Agenda Item 15 was carried unanimously by roll call vote: Ayes –McGee Lee, Land, and Valenton; Noes – None.

16. Motion: Receive and File Asset Allocation Study, and Review Statement of Investment Objectives and Policy Guidelines (ALL). (Adelman)

Ms. Adelman introduced Gary Chang from Callan's Capital Markets Research group to discuss the 2022 asset allocation review for the Retirement Plans, and reminded the Retirement Boards that the annual asset allocation review is different than the formal asset allocation study, which was last conducted in 2019 and is conducted only every three to five years.

Mr. Chang explained that the annual asset allocation study focuses on the current return objective, time horizon and liquidity needs of the Retirement Plans. Mr. Chang reviewed the current asset allocation for the Retirement Plans and described the Plans as invested in three basic asset classes: 65% public equity, 25% core fixed income, and 10% private real estate. For that particular allocation, Mr. Chang noted that the Retirement Plans could expect an average annual return of 5.8% over a ten-year period, which is lower than the current discount rate of 6.75%. Mr. Chang explained, however, that the expected return of 5.8% does not include additional outperformance by active managers, which could close the assumption gap. Mr. Tseng advised that Callan continues to recommend a 25% allocation to fixed income.

As part of the presentation, Mr. Chang also contrasted the Retirement Plans' current allocation and expected returns with several alternative allocations or "mixes" -- and noted that some of these mixes offered higher expected returns, with corresponding increased risk levels. Mr. Chang explained that, in comparison to Mix 3 (which is most comparable to the Retirement Plans' current allocation), mixes with higher expected returns carried higher levels of risk. During this discussion, AEA Director McGoldrick also commented

June 8, 2022 Meeting Minutes – Continued

on the higher standard deviation numbers presented for alternate mixes and noted that the added risk was greater than the added expected returns.

Ms. Heaphy reviewed graphics depicting the asset allocations and corresponding risk projections required to achieve a return of 6.75%, and discussed the consideration of adding an allocation to private equity, which would create additional risk, complexity and cost in staff oversight. Following the presentation of other possible investment mixes, Mr. Tseng explained that Callan is comfortable with the Retirement Plans' current asset allocation and is not recommending any changes. In response to these comments, AEA Director Devorak expressed support for the current asset allocation, which the Retirement Boards had established and implemented after many years of careful consideration, and shared his reservations about the risk-return profile presented for other asset classes like private equity. In response to a question from AEA Director McGoldrick, Mr. Tseng explained that very large pension plans, such as CalPERS, are able to withstand the volatility of private credit investments, and operate under conditions that do not apply to the Retirement Plans, and that require heavier allocations to alternative investments.

Director McGee Lee moved to adopt Agenda Item 16. The motion was seconded by Alternate Land. Agenda Item 16 was carried unanimously by roll call vote: Ayes –McGee Lee, Land, and Valenton; Noes – None.

17. Motion: Adopt Updated Policy for Correcting Retirement Plan Overpayments and Underpayments (ALL). (Gobel)

John Gobel, Manager of Pension and Retirement Services, presented a Revised Policy for Correcting Retirement Plan Overpayments and Underpayments (Revised Policy) for adoption by the Retirement Boards. Mr. Gobel explained that the Retirement Boards are responsible for operating all three Retirement Plans in accordance with the plan documents and that plan administrators are encouraged to adopt policies that provide further specificity regarding key processes. Mr. Gobel explained that updating the Policy, which was last adopted in 2015, to align with recent IRS updates to the Employee Plans Compliance Resolution System (EPCRS), would promote operational consistency for the correction of benefit payment errors by Staff.

At Mr. Gobel's request, the Retirement Boards' Legal Counsel, Liz Masson, confirmed that the Revised Policy reflects the latest IRS guidance for self-correction of benefit payment errors and explained that the Revised Policy has been drafted to automatically incorporate new dollar thresholds presented in future updates of EPCRS, such that the Policy will not need to be revised and re-adopted for such changes.

June 8, 2022 Meeting Minutes – Continued

Director McGee Lee moved to adopt Agenda Item 17. The motion was seconded by Alternate Land. Agenda Item 17 was carried unanimously by roll call vote: Ayes –McGee Lee, Land, and Valenton; Noes – None.

REPORT, IDEAS AND COMMUNICATION

18. Information: Manager, Pension & Retirement Services Quarterly Verbal Update (ALL). (Gobel)

Mr. Gobel recognized the addition of Administrative Assistant II Jessica Cruz Mendoza to the Retirement Services team in 2022 and formally introduced her to the Retirement Boards.

Mr. Gobel congratulated Neal Pickering on his appointment to the IBEW Retirement Board and noted that Director Pickering had previously served as an Alternate.

Mr. Gobel reminded the Directors and Alternates about the renewal of the Retirement Boards' fiduciary liability coverage and the opportunity to purchase a waiver of recourse for \$25. In doing so, Mr. Gobel noted that a few trustees had not submitted waiver of recourse payments and explained that the window for payment would be closing soon.

19. Information: Verbal Update on PEPRA Litigation by Hanson Bridgett (ALL). (Gobel)

Mr. Gobel reviewed the conversations he has had with the Retirement Boards about the Public Employees' Pension Reform Act of 2013 ("PEPRA") over the past year, including the submission of a Draft Policy on Pensionable Compensation for PEPRA Members at the quarterly Retirement Board meeting on December 8, 2021. Because the draft policy was presented as an information-only item last December and because Mr. Gobel had informed the Retirement Boards that he anticipated the resolution of the ongoing litigation between the Department of Labor and the State of California by June, Mr. Gobel explained that he had asked the Retirement Boards' legal counsel to provide a brief update on the litigation. Mr. Gobel also explained that, sometime after the conclusion of federal litigation, the Retirement Boards could expect further discussion and action regarding the draft policy prepared for the Retirement Plans.

The Retirement Boards' Legal Counsel, Ms. Masson, summarized the status of the litigation by noting that the parties (the Department of Labor and the International ATU on one side, and the State of California on the other) had made oral arguments in February 2022 to the assigned judge regarding PEPRA and a provision of the Federal Transit Act known as Section 13(c). Although the judge proposed to permit both parties to submit additional written briefs on the matter and scheduled another hearing for

June 8, 2022 Meeting Minutes – Continued

April 15, 2022 regarding the supplemental briefs, that hearing was subsequently cancelled on April 5th.

Ms. Masson reported that nothing had occurred since the cancellation of the April 15, 2022 hearing and that her firm is continuing to monitor the case. There could be one or two rulings from the court to move things forward: (1) a decision on whether to consider the supplemental written arguments from the parties and (2) a final ruling on whether or not PEPRAs conflicts with Section 13(c).

ATU Director McGee Lee reported that the ATU anticipates a ruling from the court sometime near the end of June. Ms. Masson thanked Director McGee Lee for this information and noted that counsel could address the final ruling with the Retirement Boards during a subsequent quarterly Retirement Board meeting or the next available date for a special meeting, depending on when the ruling is issued.

ADJOURN (IBEW, AEA, AFSCME, and MCEG Retirement Boards)

With no further business to discuss and no public comment on matters not on the agenda, the Retirement Board meeting was adjourned at 11:12 a.m.

At approximately 11:12, Director Niz joined the meeting, replacing Alternate Land.

ANNOUNCE CLOSED SESSION ITEM(S)

1. Information: Conference with Legal Counsel – Anticipated Litigation Pursuant to Gov. Code Section 54956.9(b)
Significant Exposure to Litigation
One Potential Case

Following announcement of the subject to be discussed, and clarification that the report out from closed session will be made at the next Board meeting, the ATU Retirement Board met in closed session until 11:40 a.m.

With no further business to discuss and no public comment on matters not on the agenda, the Retirement Board meeting was adjourned at 11:41 a.m.

	Contribution Rate	Contribution Rate	Contribution Rate
Classic	30.65%	32.36%	43.17%
Classic w/Contribution*	30.65%		
PEPRA**	22.46%	23.75%	30.08%

*Includes members hired during calendar year 2015, employee rate 3%

**PEPRA employee rates: ATU – 7.25%, IBEW 7.00% and Salary 6.50%

Unaudited Financial Statements

Attached hereto are unaudited financial statements for the quarter and the year-to-date ended June 30, 2022. The financial statements are presented on an accrual basis and consist of a Statement of Fiduciary Net Position (balance sheet) (Attachment 1), a Statement of Changes in Fiduciary Net Position (income statement) for the quarter ended June 30, 2022 (Attachment 2), and a year-to-date Statement of Changes in Fiduciary Net Position (Attachment 3).

The Statement of Fiduciary Net Position includes a summary of fund assets showing the amounts in the following categories: investments, prepaid assets, and other receivables. This statement also provides amounts due from/to the District and Total Fund Equity (net position).

The Statement of Changes in Fiduciary Net Position includes activities in the following categories: investment gains/losses, dividends, interest income, unrealized gains/losses, benefit contributions/payouts, and investment management and administrative expenses.

Asset Rebalancing

Pursuant to Section IV, Asset Rebalancing Policy of the Statement of Investment Objectives and Policy Guidelines for the ATU, IBEW and Salaried Employees' Retirement Funds, the Retirement Boards have delegated authority to manage pension plan assets in accordance with the approved rebalancing policy to the District's AVP of Finance and Treasury. The AVP of Finance and Treasury is required to report asset rebalancing activity to the Boards at their quarterly meetings. Rebalancing can occur for one or more of the following reasons:

1. The Pension Plan ended the month with an accounts receivable or payable balance due to the District. A payable or receivable is the net amount of the monthly required contribution (required contribution is the percentage of covered payroll determined by the annual actuarial valuation) less the Plan's actual expenses.
2. The Pension Plan hires or removes a Fund Manager, in which case securities must be moved to a new fund manager.
3. The Pension Plan investment mix is under or over the minimum or maximum asset allocation as defined in the Statement of Investment Objectives and Policy Guidelines.

Attached hereto as Attachment 4 is the ATU Plan's Schedule of Cash Activities for the three months ended June 30, 2022. The schedule of cash activities includes a summary of Plan activities showing the amounts in the following categories: District's pension contributions to the Plan, payments to retirees, and the Pension Plan's cash expenditures paid. This schedule also lists the rebalancing activity that occurred for the three months ended June 30, 2022. The ATU Plan reimbursed \$628,073.39, to the District as the result of the net cash activity between the pension plan expenses and the required pension contributions.

Attached hereto as Attachment 5 is the ATU Plan's Asset Allocation as of June 30, 2022. This statement shows the ATU Plan's asset allocation as compared to targeted allocation percentages as defined in the Statement of Investment Objectives and Policy Guidelines.

Attached hereto as Attachment 6 is a reconciliation between the Callan Performance Report and the ATU, IBEW and Salaried Pension Plans' unaudited financial statements. The reports differ in that the unaudited financial statements reflect both investment activities and the pension fund's inflows and outflows. Callan's report only reflects the investment activities. The "Net Difference" amounts shown are the results of Callan and Northern Trust Company using different valuations for the same securities and/or litigation settlements received by the Plans.

Included also as Attachment 7 is a reconciliation between the Callan Performance Report and the Schedule of Cash Activities for payments made from/to the District. Callan's report classifies gains from trades and litigation income as "net new investments." Finance staff classifies gains from trades and litigation income in the Pension Plan's unaudited Statement of Changes in Fiduciary Net Position as "Other Income," which is combined in the category of "Interest, Dividend, & Other Inc".

Attached hereto as Attachment 8 is a schedule reflecting Fund Managers' quarterly investment returns and their investment fees. Additionally, the schedule reflects annual rates of return on investment net of investment fees for the one-year and three-year periods ended June 30, 2022 as compared to their benchmarks.

Attached hereto as Attachment 9 is a schedule reflecting transfers of plan assets from the ATU Plan to the Salaried Plan resulting from employee transfers from one union/employee group to another, as well as all retirements, and retiree deaths during the three months ended June 30, 2022.

RETIREMENT BOARD STAFF REPORT

DATE: September 14, 2022 Agenda Item: 11
TO: Sacramento Regional Transit Retirement Board – ALL
FROM: Jamie Adelman, Acting, VP, Finance/CFO
SUBJ: APPROVING A FIVE-YEAR CONTRACT FOR RETIREMENT BOARD
LEGAL SERVICES WITH HANSON BRIDGETT LLP

RECOMMENDATION

Adopt the attached Resolution(s)

RESULT OF RECOMMENDED ACTION

Approval of this item will result in a new five-year contract, with two option years, with Hanson Bridgett for Retirement Board Legal Services.

FISCAL IMPACT

The final negotiated pricing with Hanson Bridgett for the five-year term of the agreement begins with a monthly retainer amount of \$16,000, which will be escalated annually by 5%. The contract will begin January 1, 2023, and will have the following annual retainer costs and estimated work order costs:

Year 1	\$192,000
Year 2	\$201,600
Year 3	\$211,680
Year 4	\$222,264
Year 5	<u>\$233,377</u>
Total Retainer	\$1,060,921
Non-Core tasks	<u>\$100,000</u>
Total Contract	\$1,160,921

Note that the contract does include non-core tasks that will be billed on an hourly basis, with a 10% discount off standard hourly rates, for litigation management, risk management, and tax advice. These services have not historically been used; however,

an estimate has been included for the contract total consideration for potential future use. If the services are not needed there will be no cost to the Plans.

DISCUSSION

The Retirement Boards for Sacramento Regional Transit District use the services of external legal counsel for legal expertise in the areas of public pension law, Brown Act, conflicts of interest law, fiduciary responsibility, and other areas that affect public boards in California. The current contract for Retirement Board legal services expires on December 31, 2022. In preparation for the contract expiration, Retirement Board Staff worked with SacRT's Procurement and Legal Departments to create a Request for Proposal (RFP) to seek a successor contract for legal support services.

On May 5, 2022, SacRT released an RFP for Retirement Board Legal Services via PlanetBids e-procurement system. Notification of the RFP was sent to 50 vendors, 21 prospective bidders downloaded the RFP and two responses were received. Both proposals received were deemed to be responsive and responsible. Following the requirements of the Retirement Boards' Procurement Policy, the Evaluation Committee was made up of one non-Board member representative from each of the five Retirement Boards and two Retirement Board staff: Jamie Adelman, Acting VP, Finance/CFO and John Gobel, Manager, Pension and Retirement Services.

The Evaluation Committee independently reviewed and scored the proposals received from both Hanson Bridgett LLP and Palmer Kazanjian Wohl Hodson LLP, based on the pre-established criteria in the RFP. The evaluation resulted in a unanimous decision that Hanson Bridgett was the most qualified proposer for the Retirement Board Legal Services. After completion of the evaluations, Retirement Board staff entered negotiations with Hanson Bridgett to revise the pricing proposal submitted. Staff was successful in negotiating a reduction of \$3,000 to the starting monthly retainer amount (from \$19,000 to \$16,000) and reduction of 2% in annual escalation factor (from 7% to 5%), which will result in significant savings over the life of the contract.

Based on the successful RFP process and conclusion of negotiations, Retirement Board Staff recommend that the Retirement Boards approve a five-year contract, plus two option years, with Hanson Bridgett LLP for Retirement Board Legal Services.

RESOLUTION NO. 2022-09-348

SACRAMENTO REGIONAL TRANSIT RETIREMENT BOARD RESOLUTION

Agenda Item: 11

Adopted by the Board of Directors for the Retirement Plan for the Sacramento Regional Transit District Employees who are Members of the **ATU Local Union 256** on this date:

Agenda Item: 12

TO: Sacramento Regional Transit Retirement Boards – ALL

FROM: John Gobel, Manager, Pension and Retirement Services

SUBJ: ADOPTION OF THE SACRAMENTO REGIONAL TRANSIT
RETIREMENT BOARDS MEETING CALENDAR FOR 2023

RECOMMENDATION

Adopt the attached Resolution(s)

RESULT OF RECOMMENDED ACTION

Adopt a Resolution establishing the Sacramento Regional Transit Retirement Boards Meeting Calendar for 2023.

FISCAL IMPACT

None, as a result of this action.

DISCUSSION

The Retirement Boards schedule Regular meetings each quarter to review investment performance and address issues related to retirement plan administration. The Retirement Boards also reserve several dates for Special meetings, which may be needed for items that require lengthy discussion (like actuarial valuations) or that the Retirement Boards do not wish to defer to the next scheduled quarterly meeting (like disability retirement applications).

Proposed dates for Regular meetings of the Retirement Boards during the 2023 calendar year are listed below:

- Wednesday, March 8th
- Wednesday, June 14th
- Wednesday, September 13th
- Wednesday, December 13th

To address special matters or issues that may arise during 2023, Staff is also proposing dates for four Special meetings of the Retirement Boards, should the need arise. The proposed dates for Special meetings of the Retirement Boards during the 2023 calendar year are listed below:

- Wednesday, February 15th
- Wednesday, April 26th
- Wednesday, July 26th
- Wednesday, October 25th

Prior to adopting the attached Resolution, Staff recommends that directors and alternates of the Retirement Boards consult their individual calendars and identify any potential conflicts for the 2023 calendar year. Staff also recommends that the Retirement Boards preserve the current 9:00 a.m. start time for their 2023 meetings.

Staff recommends approval of the Regional Transit Retirement Boards Meeting Calendar for 2023, which is submitted as Exhibit A.

SUBJ: UPDATE ON ROLES AND RESPONSIBILITIES RELATED TO PENSION ADMINISTRATION - QUARTER ENDED JUNE 30, 2022 (ALL). (Gobel)

RECOMMENDATION

No Recommendation - Information Only

RESULT OF RECOMMENDED ACTION

No recommended action.

FISCAL IMPACT

There is no fiscal impact associated with this action.

DISCUSSION

Every quarter, three reports are distributed to apprise the Retirement Boards of functions performed by Staff and Legal Counsel in support of the pension plans. For reference, the reports prepared for the quarter ended June 30, 2022 are attached for review and identified below:

- Attachment A – Pension Administration Staff Roles and Responsibilities
- Attachment B – RT Staff Costs Attributable and Charged to RT Pension Plans
- Attachment C – Summary of Legal Services Provided for the Quarter Ended June 30, 2022

For the latest 90-day processing period (June 11, 2022 to September 9, 2022), staff effected pensions for 8 new retirees and noted that the average wait time for initial payments was 48 days. New retirement activity was much lower than the prior quarter, but compared more favorably to the 12 retirements processed during the same period last year (period ended September 10, 2021). Average wait times, which were close to staff's 45-day target, should improve further as we work to speed up the processing of deferred, vested members and strive for more consistent turn-around times.

Pension Administration Staff Roles and Responsibilities

Pension Plan Member Relations:

Task	Primary Responsibility	Back Up Responsibility
Respond to Employee and Retiree Inquiries	Retirement Services Analyst (I & II), Administrative Assistant II	Manager - Pension & Retirement
Conduct Educational Sessions	Manager - Pension & Retirement	Retirement Services Analyst II
Create Pension Estimates	Retirement Services Analyst II	Retirement Services Analyst I
Process Disability Retirements	Retirement Services Analyst II	Manager - Pension & Retirement
Process Employee and Retiree Deaths	Retirement Services Analyst I	Retirement Services Analyst II
Administer Active and Term Vested Retirement Process	Retirement Services Analysts (I & II)	Manager - Pension & Retirement

**HANSON BRIDGETT LLP &
SACRAMENTO REGIONAL TRANSIT DISTRICT RETIREMENT BOARDS**

LEGAL SERVICES SUMMARY

Set forth below is a broad summary report of significant legal matters addressed by Hanson Bridgett LLP for the Sacramento Regional Transit District Retirement Boards during the Quarter ended June 30, 2022.

1. Weekly client conference calls and as-needed client and internal conferences on pending matters, upcoming Board meetings and follow-up from prior Board meetings.
2. Preparation for and participation in quarterly Retirement Board Meeting, including review and markup of agenda materials.
3. Review and advise on Plan participant communications with staff;
4. Prepare contract amendments for disability retirement evaluation services and actuarial services;
5. Prepare and conduct new Board member/Chair training;
6. Provide counsel on issues including, but not limited to:
 - a. revisions to overpayment and underpayment correction policy;
 - b. application of policies and procedures to retiree enrollment error;
 - c. Social Security leveling issues;
 - d. questions regarding vesting;
 - e. adjustments to benefits following death of member;
 - f. employer/employee contributions;
 - g. pending qualified domestic relations order (QDRO);
 - h. items to include in/exclude from pensionable compensation calculations;
 - i. retired annuitant requirements/limitations; and
 - j. Statement of Economic Interest (Form 700) requirements.

Respectfully Submitted,

/s/ Shayna M. van Hoften

FISCAL IMPACT

None.

DISCUSSION

Retirement funds are invested consistent with the Statement of Investment Objectives and Policy Guidelines (Policy) adopted by each Retirement Board (Board). Under the Policy, the Boards meet at least once every eighteen (18) months with each investment manager to review the performance of the manager's investment, the manager's adherence to the Policy, and any material changes to the manager's organization. The Policy also establishes the Retirement Funds' asset allocation policy and the asset classes in which the Plans funds are invested. The asset classes established by the Policy are (1) Domestic Large Capitalization Equity, (2) Domestic Small Capitalization Equity, (3) International Large Capitalization Equity, (4) International Small Capitalization Equity, (5) International Emerging Markets, (6) Domestic Fixed-Income, and (7) Real Estate.

Boston Partners is one of the Retirement Boards' Domestic Large Capitalization Equity fund managers. Boston Partners will be presenting performance results for the quarter ended June 30, 2022, shown in Attachment 1, and answering any questions.

mdonovan@boston-partners.com
+1 (617) 832-8246

Mr. Donovan is a senior portfolio manager for the Boston Partners Large Cap Value strategy, a role he has held since the firm's inception in 1995. Previously, he had served eleven years as Co-Chief Executive Officer, where he was responsible for strategic and tactical operating decisions affecting the firm. Mr. Donovan was one of the founding partners of Boston Partners Asset Management. He joined the firm from The Boston Company where he was Senior Vice President and equity portfolio manager. He also spent five years as a consulting associate with Kaplan, Smith & Associates, and two years as a securities analyst for Value Line Inc. For ten years, Mr. Donovan was a trustee at St. Sebastian's School, where he served on the Investment and Long Range Planning Committees. He holds a B.S. degree in management from Rensselaer Polytechnic Institute and the Chartered Financial Analyst® designation. He has forty-one years of investment experience.

David Cohen, CFA
Portfolio Manager
dcohen@boston-partners.com
+1 (617) 832-8253

Mr. Cohen is a portfolio manager for the Boston Partners Large Cap Value strategy. His experience at the firm included managing a portion of the Boston Partners Long/Short Research strategy focusing on security selection within the energy sector as well as the engineering & construction, and metals & mining industries. Prior to his current role, Mr. Cohen served as an equity analyst covering these same industries. He has deep experience analyzing and understanding capital intensive commodity-oriented businesses. He joined the firm from Loomis Sayles where he had over 8 years of experience as a portfolio manager for their Research Fund, as well as running a global energy hedge fund. As an equity analyst he covered the energy, materials, and industrials sectors. Prior to joining Loomis Sayles, Mr. Cohen was in consultant relations at MFS Investment Management. He received a B.A. degree from the University of Michigan and his M.S. in Finance from Brandeis University. He holds the Chartered Financial Analyst® designation. He has eighteen years of experience.

Stephanie McGirr
Portfolio Manager
smcgirr@boston-partners.com
+1 (617) 832-8245

Ms. McGirr is a portfolio manager for the Boston Partners Large Cap Value strategy. Her experience at the firm included managing a portion of the Boston Partners Long/Short Research strategy focusing on security selection within the health care services sector as well as insurance, restaurant, retail, and apparel industries. Prior to her current role, Ms. McGirr served as an equity analyst covering these same industries. Over the course of her tenure at Boston Partners, Stephanie also covered the consumer staples and business services industries. She started with Boston Partners in 2002 as a research and quantitative associate in the firm's research group. She joined the firm from Arthur Andersen where she was an operations associate. Ms. McGirr holds a bachelor's degree in English from Colgate University. She has twenty years of experience.

David J. Pyle, CFA
Portfolio Manager
dpyle@boston-partners.com
+1 (415) 464-2892

Mr. Pyle is a portfolio manager for the Boston Partners Large Cap Value strategy. Prior to assuming this role, he was a research analyst covering the utility, insurance, leisure & lodging, packaging, publishing, and computer equipment & services sectors. Mr. Pyle joined the firm from State Street Research where he was a research analyst and associate portfolio manager in their equity value group. Prior to that, he spent five years with Price Waterhouse. Mr. Pyle holds a B.S. degree in business administration from California State University, Chico, and an M.B.A. degree from the Kenan-Flagler School of Business at the University of North Carolina. Mr. Pyle holds the Chartered Financial Analyst® designation. He has twenty-seven years of investment experience.

Your Boston Partners Team

Joshua White, CFA
Portfolio Manager
jwhite@boston-partners.com
+1 (617) 832-8219

Mr. White is a portfolio manager for the Boston Partners Large Cap Value strategy. His experience at the firm included managing a portion of the Boston Partners Long/Short Research strategy while covering multiple economic sectors including basic industries, consumer durables, and capital goods. Mr. White was also a portfolio manager on Boston Partners Global Equity and International Equity strategies and before that, he was a global generalist providing fundamental research on global equities. Mr. White holds a B.A. degree in mathematics from Middlebury College. He holds the Chartered Financial Analyst® designation and has sixteen years of industry experience.

Carolyn M. Margiotti, CFA
Portfolio Research
cmargiotti@boston-partners.com
+1 (415) 464-2882

Ms. Margiotti is a senior portfolio analyst for Boston Partners and has extensive experience with all of the firm's strategies. Ms. Margiotti also serves as a member of the relationship management team managing a number of the firm's key relationships. Prior to joining the firm in 2005, Ms. Margiotti was the manager of investments for PG&E Corporation where she managed over \$12 billion in pension, 401(k) and taxable trust assets. Her primary responsibilities included strategic asset allocation, investment strategy recommendations and investment manager selection and oversight. Ms. Margiotti is a former member of the Financial Women of San Francisco, served as Scholarship Committee team leader for many years. She has been an adjunct professor at the University of San Francisco and an instructor for the CFA review program. Ms. Margiotti holds a B.S. degree in industrial management and finance from Purdue University and an M.B.A. degree from the McLaren School of Business at the University of San Francisco. She holds the Chartered Financial Analyst® designation, FINRA licenses 7 and 63, and has twenty-eight years of industry experience.

Kristin Butner
Client Service Associate
kbutner@boston-partners.com
+1 (213) 687-1676

Ms. Butner is a Client Service Associate at Boston Partners. She works with many of our key domestic and internationally focused clients. Prior to joining the firm in 2017, she was a Client Service Manager with Institutional Shareholder Services. She holds a B.A. degree in liberal arts from the University of Oklahoma. Ms. Butner has seven years of industry experience.

Boston Partners At a Glance

As of June 30, 2022

Firm Profile

- Founded in 1995; offices in Boston, New York, Los Angeles, Greenbrae and London
- One investment philosophy and process across all strategies
- All established strategies have outperformed their benchmark since inception*

Distinguishing Characteristics

- A thriving investment ecosystem that forms a merit-based culture with common purpose and low employee turnover
- A clear alpha thesis: we consistently embed attractive value, fundamentals/quality, and momentum characteristics in portfolios
- A disciplined, time-tested investment process that utilizes comprehensive fundamental analysis combined with robust quantitative tools

Three Circle Stock Selection Process

In our experience, portfolios with all three characteristics tend to outperform over time

We buy stocks where we find the intersection of the three circles

We sell stocks due to:

- Appreciation to target price
- Weakening business fundamentals
- A deterioration in business momentum

Risk management begins with:

- A value driven approach
- A well-defined sell discipline
- Portfolio diversification

Past performance is not an indication of future results.

Investment Performance

Boston Partners Global Investors, Inc. ("Boston Partners") is an Investment Adviser registered with the Securities and Exchange Commission under the Investment Advisers Act of 1940. Registration does not imply a certain level of skill or training. Boston Partners is an indirect, wholly owned subsidiary of ORIX Corporation of Japan ("ORIX"). Boston Partners updated its firm description as of November 2018 to reflect changes in its divisional structure. Boston Partners is comprised of two divisions, Boston Partners and Weiss, Peck & Greer Partners ("WPG").

Boston Partners claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS®. Boston Partners has been independently verified for the periods 2007 through 2020. Before then, Boston Partners Asset Management ("BPAM"), the previous entity name, and WPG were independently verified on an annual basis from 1995 through 2006 and 1993 through 2006, respectively. A firm that claims compliance with the GIPS® must establish policies and procedures for complying with all the applicable requirements of the GIPS®. Verification provides assurance on whether a firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS® and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report.

The composites have had a performance examination for the following periods: Boston Partners Large Cap Value Equity, 1995 to 2020; Boston Partners Premium Equity, 1995 to 2020; Boston Partners Mid Cap Value Equity, 1995 to 2006 and 2010 to 2020; Boston Partners Small/Mid Cap Value Equity, 1999 to 2020; Boston Partners Small Cap Value Equity, 1995 to 2020; Boston Partners Small Cap Value II Equity, 1998 to 2020; Boston Partners Long/Short Research, 2011 to 2020; Boston Partners Global Equity II, 2012 to 2020; Boston Partners International Equity II, 2008 to 2020; Boston Partners Global Long/Short, 2013 to 2020; Boston Partners Emerging Markets Dynamic Equity, 2016 to 2020; Boston Partners Emerging Markets Equity, 2020; and Boston Partners Global Sustainability composite, 2020. The verification and performance examination reports are available upon request. A list of composite descriptions is available upon request. GIPS® is a registered trademark of the CFA Institute. Composite Construction(s)

Performance results attained at Boston Partners are linked to the results achieved at BPAM beginning on January 1, 2007 in compliance with the GIPS® standards on performance record portability. Composites include all separately managed and commingled vehicles, fully discretionary, fee-paying accounts under management with a similar investment mandate. Prior to January 1, 2007 the minimum account size for inclusion in all the composites in existence noted above was \$5 million. After January 1, 2007, the minimum account size for composite inclusion was lowered to \$1 million for all composites, except for the Boston Partners Small Cap Value Equity and Small Cap Value II Equity composites; the account minimum for inclusion remained at \$5 million for those composites. No composites have a minimum account size for inclusion as of June 1, 2019. Some composites contain proprietary assets.

The inception and creation date of the Boston Partners Large Cap Value Equity composite is June 1, 1995. The strategy is composed of securities with market capitalizations primarily greater than \$3 billion and is benchmarked against Russell 1000® Value Index and the S&P 500 Index (secondary). Prior to December 1, 1995, there was no minimum market value requirement for inclusion in the Boston Partners Large Cap Value Equity composite. Accounts that did not meet the established minimum balance requirement on that date were removed.

The inception and creation date of the Boston Partners Large Cap Concentrated Equity composite is July 1, 2017. Under normal market conditions, the strategy is composed of 35 – 40 securities with market capitalizations primarily in the same capitalization range as the Russell 1000® Value Index. The composite is benchmarked against the Russell 1000® Value Index.

The inception and creation date of the Boston Partners Premium Equity composite is June 1, 1995. The strategy is a hybrid of Boston Partners' other equity products. It has the flexibility to invest across the capitalization spectrum and to invest in securities with equity-like return and risk profiles.

Boston Partners Premium Equity is benchmarked against the Russell 3000® Value Index and the S&P 500 Index (secondary). The inception and creation date of the Boston Partners Mid Cap Value Equity composite is May 1, 1995. Effective March 1, 2006, the Mid Cap Value Equity strategy is composed of securities primarily in the same market capitalization range, at time of purchase, as the Russell Midcap® Value Index. Effective January 1, 2005, the Boston Partners Mid Cap Value composite revised its benchmark from the Russell 2500™ Value Index to the Russell Midcap® Value Index. The Russell Midcap® Value Index has less of a bias toward smaller capitalization stocks and thus more accurately reflects the composition of Boston Partners holdings.

The inception and creation date of the Boston Partners Small/Mid Cap Value Equity composite is April 1, 1999. The strategy is generally composed of securities with market capitalizations, at the time of purchase, in the same market capitalization range as the Russell 2500™ Index. The composite is benchmarked against the Russell 2500™ Value Index. The Russell 2500™ Index is presented as supplemental information.

The inception and creation date of the Boston Partners Small Cap Value Equity composite is July 1, 1995. The strategy is generally composed of securities with market capitalizations, at the time of purchase, in the same market capitalization range as the Russell 2000® Index. The composite is benchmarked against the Russell 2000® Value Index. The Russell 2000® Index is presented as supplemental information. The inception date of the Boston Partners Small Cap Value II Equity composite is July 1, 1998. The composite was created in 2000. The strategy is generally composed of securities with market capitalizations, at the time of purchase, in the same market capitalization range as the Russell 2000® Index and in accordance with the product's selective investment in micro cap companies. The composite is benchmarked against the Russell 2000® Value Index.

The inception date and creation date of the Boston Partners Long/Short Equity composite is August 1, 1997. The strategy is an absolute return product that balances long and short portfolio strategies and seeks to achieve stable absolute returns with approximately half the risk of the S&P 500. However, this product is not risk neutral. It is exposed to style, capitalization, sector and short-implementation risks. Prior to October 1, 1998, the composite was managed on a non-fee paying basis. Participant results would have been

substantially different if fee waivers were not applied. The composite is benchmarked against the S&P 500 Index and the Russell 3000® Value/Russell 3000® Growth for comparative purposes only since the strategy is not correlated to equity market returns.

The inception and creation date of the **Boston Partners Long/Short Research Equity** composite is April 1, 2002. This strategy is an absolute return product that balances long and short portfolio strategies and seeks to achieve stable absolute returns with approximately half the risk of the S&P 500 Index. The strategy is benchmarked against the S&P 500 Index. The HFRI Equity Hedge (Total) Index is presented as supplemental information.

The inception and creation date of the **Boston Partners Global Equity II** composite is July 1, 2008. This strategy is unconstrained and primarily invests in equity securities in the global market without using hedges on currency. The strategy is benchmarked against the MSCI World Index-Net. Prior to August 1, 2017, the strategy was benchmarked to the MSCI World Index. Non-performance related statistics are measured against the MSCI World Index. The MSCI World Value Index-Net and the MSCI ACWI Index-Net are presented as supplemental information.

The inception date and creation date of the **Boston Partners International Equity II** composite is July 1, 2008. This strategy is unconstrained and primarily invests in non-U.S. markets without using currency hedges. The strategy is benchmarked against the MSCI EAFE Index-Net as of August 1, 2017. From July 1, 2008 to June 30, 2010 the primary benchmark was MSCI EAFE Value Index and on July 1, 2010 the primary benchmark changed to the MSCI EAFE Index. This change to the MSCI EAFE Index was made retroactively to July 1, 2008. Non-performance related statistics are measured against the MSCI EAFE Index. The MSCI EAFE Value Index-Net and the MSCI ACWI ex U.S. Index-Net are presented as supplemental information.

The inception and creation date of the **Boston Partners Global Long/Short Equity** composite is July 1, 2013. The strategy is composed of securities with market capitalizations primarily greater than \$50 million and is benchmarked against the MSCI World Index-Net. Non-performance related statistics are measured against the MSCI World Index. Prior to August 1, 2017, the strategy was benchmarked to the MSCI World Index. The MSCI World Value Index-Net and the HFRI Equity Hedge (Total) Index are presented as supplemental information.

The inception and creation of the **Boston Partners Emerging Markets Dynamic Equity** composite is March 1, 2015. The strategy is composed of securities with market capitalizations primarily greater than \$250 million and is benchmarked against the MSCI Emerging Markets Index-Net. Non-performance related statistics are measured against the MSCI Emerging Markets Index. Prior to August 1, 2017, the strategy was benchmarked to the MSCI Emerging Markets Index. The HFRI Equity Hedge (Total) Index is presented as supplemental information.

The inception and creation of the **Boston Partners Emerging Markets Equity** composite is July 1, 2017. The strategy is composed of securities with market capitalizations primarily greater than \$250 million and is benchmarked against the MSCI Emerging Markets Index-Net. Prior to August 1, 2017, the strategy was benchmarked to the MSCI Emerging Markets Index. Non-performance related statistics are measured against the MSCI Emerging Markets Index.

The inception date and creation date of the **Boston Partners Global Sustainability Composite** is November 1, 2019. This strategy is unconstrained and primarily invests in equity securities in the global market without using hedges on currency. The strategy is benchmarked against the MSCI World Index-Net. Non-performance related statistics are against MSCI World Index. The MSCI ACWI Index-Net is presented as supplemental information.

Benchmarks

Index returns are provided for comparison purposes only to show how the composite's returns compare to a broad-based index of securities, as the indices do not have costs, fees, or other expenses associated with their performance. In addition, securities held in indices may not be similar to securities held in the composite's accounts.

The S&P 500® Index is an unmanaged index of the common stocks of 500 widely held U.S. companies.

All Russell® Indices are registered trademarks of the Frank Russell Company. The Russell® Value Indices typically measure the performance of universes of stocks displaying low price-to-book ratios and low forecasted growth values. The Russell® Growth Indices typically measure the performance of universes of stocks displaying high price-to-book ratios and high forecasted growth values. The Russell 1000® Index measures the performance of the large-cap segment of the U.S. equity universe. It includes the 1,000 largest companies in the Russell 3000® Index. The Russell 3000® Index measures

performance of the 3,000 largest U.S. companies based on total market capitalization. The Russell 2500™ and 2000® Indices measure performance of the 2,500 and 2,000 smallest companies in the Russell 3000® Index respectively. The Russell Midcap® Index measures the performance of the 800 smallest companies in the Russell 1000® Index.

The MSCI Indices cover the full range of developed, emerging and All Country MSCI International Equity Indices across all size segmentations. MSCI style indices use a multi-factor approach, which uses three variables (book value to price, 12-month forward earnings to price and dividend yield) to define the value investment style characteristics and five variables (long-term forward earnings per share ("EPS") growth rate, short-term forward EPS growth rate, current internal growth rate and long-term historical EPS growth trend and long-term historical sales per share growth trend) to define the growth investment style characteristics. The MSCI EAFE Index captures large and mid-cap equities across developed markets around the world, excluding the U.S. and Canada. The MSCI World Index represents large and mid-cap equity performance across 23 developed markets countries, covering approximately 85% of the free float-adjusted market capitalization in each. The MSCI Emerging Markets Index captures large and mid cap representation across 27 emerging market countries covering approximately 85% of the free float-adjusted market capitalization in each country. The MSCI ACWI (All Country World Index) captures both the MSCI World and MSCI Emerging Markets Index covering approximately 85% of the global investable equity opportunity set. The MSCI ACWI ex-U.S. Index excludes the equity opportunity set within the U.S. The HFRI Equity Hedge (Total) Index constituent funds typically maintain at least 50% exposure to, and may in some cases be entirely invested in, equities or equity derivative securities, both long and short. Constituents use a wide variety of investment processes and techniques, net exposure levels, leverage employed, holding periods, market capitalizations concentrations, and valuation ranges. Data cannot be shared or distributed without written consent.

Net total return indexes reinvest dividends after the deduction of withholding taxes, using (for international indexes) a tax rate applicable to non-resident institutional investors who do not benefit from double taxation treaties.

Performance disclosures (continued)

Calculation Methodology

Composite account returns are asset value weighted using beginning of month asset values and composite account returns are calculated on a total return, time-weighted basis using trade date valuations. Composite returns are geometrically linked on a monthly basis. Effective January 1, 2011, Boston Partners adopted a significant cash flow policy. Accounts are temporarily removed from the composite when a significant external cash flow occurs, which is typically defined as a flow that is greater than or equal to 10% of the beginning market value of an account on the day of the flow; and greater than or equal to 10% of the beginning market value of the composite for that month. An account is generally added back to the composite as of the first full month following the significant cash flow. Returns reflect the reinvestment of dividends and other earnings and are expressed in U.S. Dollars unless otherwise noted. Additional information regarding policies for valuing accounts, calculating performance, and preparing compliant reports is available upon request.

Fees and Expenses

Composite returns are provided on a gross and net of fee basis. Composite account returns will be reduced by any fees and expenses incurred in the management of the account. Net of fee composite returns are asset weighted and reflect the deduction of management fees, which may include performance-based fees, commissions and transaction costs, and are calculated by deducting actual fees charged to the accounts in a composite. Gross composite returns are calculated by deducting commissions and transaction costs charged to accounts in a composite. Fees are applied to gross returns at month end. Actual fees may vary depending on the applicable fee schedule and account size. Additional information regarding policies for valuing accounts, calculating performance, and preparing compliant reports is available upon request. Investment advisory fees are listed herein and are fully described in Boston Partners' Form ADV, Part 2.

Composite Dispersion

The measurement of composite dispersion is calculated by the weighted average standard deviation of the annual account gross-of-fee returns within the composite. Dispersion in composites with less than five accounts included for the entire year is not considered meaningful and is denoted with "N/A". Prior to January 1, 2007, the measurement of composite

dispersion was calculated by determining the difference between the highest and lowest annual account returns within the composite. The three-year annualized standard deviation measures the variability of the composite and the benchmark returns over the preceding 36-month period. This calculation has been adopted effective with the period ended December 31, 2011.

Other Disclosures

GICS (Global Industry Classification Standard) sector classification is used. All product characteristics and sector weightings are calculated using a representative account. Risk statistics are calculated using composite data. Account composition is subject to change and information contained in this publication may not be representative of the current account. Foreign investors may have taxes withheld. Investing involves risk including the risk of loss of principal. Value investing involves buying the stocks of companies that are out of favor or are undervalued. This may adversely affect an account's value and return. Stock values fluctuate in response to issuer, political, regulatory, market or economic developments. The value of small and mid-capitalization securities may be more volatile than those of larger issuers, but larger issuers could fall out of favor. Investments in foreign issuers may be more volatile than in the U.S. market, and international investing is subject to special risks including, but not limited to, currency risk associated with non - U.S. dollar denominated securities, which may be affected by fluctuations in currency exchange rates, political, social or economic instability, and differences in taxation, auditing and other financial practices. Investments in emerging markets may increase risks.

For those composites that utilize short selling, short sales theoretically involve unlimited loss potential since the market price of securities sold short may continuously increase. This may have the effect of increased leverage and constitutes the use of leverage. For those composites that utilize derivatives, derivative investments may involve risks such as potential

illiquid markets and additional risk of loss of principal. For those composites that utilize a sustainability criterion, that criterion may cause avoidance of certain industries or issuers causing over (under)weights relative to the benchmark and varying sensitivities to such industries and issuers.

Boston Partners participates in Initial Public Offerings (IPOs) as described in its Form ADV, Part 2. IPO contributions to performance vary from year to year depending on availability and prevailing market conditions. IPO contributions may have a significant positive effect on performance when initially purchased. Such positive performance should not be expected for future performance periods.

TO: Sacramento Regional Transit Retirement Boards – ALL

FROM: Jamie Adelman, Acting, VP, Finance/CFO

SUBJ: Investment Performance Review by Dimensional Fund Advisors (DFA) for the ATU, IBEW and Salaried Retirement Funds for the International Emerging Markets Asset Class for the Quarter Ended June 30, 2022 (ALL). (Adelman)

RECOMMENDATION

No Recommendation – For Information Only.

RESULT OF RECOMMENDED ACTION

Information Only

FISCAL IMPACT

None.

DISCUSSION

Retirement funds are invested consistent with the Statement of Investment Objectives and Policy Guidelines (Policy) adopted by each Retirement Board (Board). Under the Policy, the Boards meet at least once every eighteen (18) months with each investment manager to review the performance of the manager's investment, the manager's adherence to the Policy, and any material changes to the manager's organization. The Policy also establishes the Retirement Funds' asset allocation policy and the asset classes in which the Plans funds are invested. The asset classes established by the Policy are (1) Domestic Large Capitalization Equity, (2) Domestic Small Capitalization Equity, (3) International Large Capitalization Equity, (4) International Small Capitalization Equity, (5) International Emerging Markets, (6) Domestic Fixed-Income, and (7) Real Estate.

DFA is the Retirement Boards' International Emerging Markets fund manager. DFA will be presenting performance results for the quarter ended June 30, 2022, shown in Attachment 1, and answering any questions.

About Dimensional

Dimensional at a Glance

As of June 30, 2022

Assets in US dollars.

"Dimensional" refers to the Dimensional separate but affiliated entities generally, rather than to one particular entity. These entities are Dimensional Fund Advisors LP, Dimensional Fund Advisors Ltd., Dimensional Ireland Limited, DFA Australia Limited, Dimensional Fund Advisors Canada ULC, Dimensional Fund Advisors Pte. Ltd., Dimensional Japan Ltd., and Dimensional Hong Kong Limited. Dimensional Hong Kong Limited is licensed by the Securities and Futures Commission to conduct Type 1 (dealing in securities) regulated activities only and does not provide asset management services.

Dimensional Investing

“It’s 10% having a good idea and 90% implementing that idea and making it work. Dimensional has been making it work for decades.”

Robert Merton
Nobel laureate, 1997

Dimensional Evolves as Financial Science Progresses

Key breakthroughs in finding and capturing dimensions of higher expected returns

Company Size

Dimensional offers investors diversified, cost-efficient access to small companies.

1981

Relative Price

Fama/French research identifies market, size, and price factors as the principal drivers of equity returns.

1992

Total Market Solutions

Advancement in portfolio design provides value-added, efficient, diversified, all-cap equity solutions focused on dimensions of higher expected returns.

2004

Profitability

Research identifies profitability as a robust proxy for a new investable dimension of higher expected returns.

2012

1983

Term Structure

Dimensional applies variable maturity approach to fixed income, using research that shows implied forward interest rates provide information on expected term premiums.

2009

Credit Spreads

Dimensional applies variable credit approach to fixed income based on research that shows credit spreads provide information on expected credit premiums.

Investment risks include loss of principal and fluctuating value. Small cap securities are subject to greater volatility than those in other asset categories. Profitability is a measure of current profitability, based on information from individual companies' income statements. Relative price is the price of a security as it compares to another.

Emerging Markets Relative to Global Market Capitalization

January 1990–June 2022

In US dollars.
Market cap data is free-float adjusted and meets minimum liquidity and listing requirements. Data provided by Bloomberg.

Country Returns

Second quarter 2022 index returns

Past performance is no guarantee of future results.

Country returns are the country component indices of the MSCI All Country World IMI Index for all countries except the United States, where the Russell 3000 Index is used instead. Global is the return of the MSCI All Country World IMI Index. MSCI index returns are net dividend. Indices are not available for direct investment. Their performance does not reflect the expenses associated with the management of an actual portfolio. Frank Russell Company is the source and owner of the trademarks, service marks and copyrights related to the Russell Indexes. MSCI data © MSCI 2022, all rights reserved.

Value Premiums by Country

Value outperformed growth in 14 out of 21 emerging markets during 2nd Quarter 2022

Past performance is no guarantee of future results. Value and growth designations are not made in Egypt and Peru.

Market Returns are computed from MSCI Emerging Markets IMI Index published security weights, Dimensional computed security returns and Dimensional classification of securities based on value parameters. Designations between value and growth are based on price to book ratios. Value is defined as the 50% of market cap with the lowest price to book ratios by size category and growth is the highest 50%. REITs and utilities, identified by GICS code, and stocks without size, relative price, or profitability metrics are excluded from this analysis. GICS was developed by and is the exclusive property of MSCI and S&P Dow Jones Indices LLC, a division of S&P Global. Countries not in the Dimensional investable universe are excluded from the analysis. Indices are not available for direct investment. Their performance does not reflect the expenses associated with the management of an actual portfolio. MSCI data © MSCI 2022, all rights reserved.

Applying Flexibility in Response to Market Changes

Dimensional Emerging Markets Core Funds vs. Market Weight in Russia: September 2007–April 2022

Holdings subject to change.

Equity Market Overview

Emerging Markets Returns (USD), 1 Year as of June 30, 2022

Past performance is no guarantee of future results.

Market Returns are computed from MSCI Emerging Markets IMI Index published security weights, Dimensional computed security returns and Dimensional classification of securities based on size, value, and profitability parameters. Within the US, Large Cap is defined as approximately the largest 90% of market capitalization in each country or region; Small Cap is approximately the smallest 10%. Within the non-US developed markets, Large Cap is defined as approximately the largest 87.5% of market capitalization in each country or region; Small Cap is approximately the smallest 12.5%. Within emerging markets, Large Cap is defined as approximately the largest 85% of market capitalization in each country or region; Small Cap is approximately the smallest 15%. Designations between value and growth are based on price to book ratios. Value is defined as the 50% of market cap with the lowest price to book ratios by size category and growth is the highest 50%. Profitability is measured as operating income before depreciation and amortization minus interest expense scaled by book. High profitability is defined as the 50% of market cap with the highest profitability by size category and low profitability is the lowest 50%. REITs and utilities, identified by GICS code, and stocks without size, relative price, or profitability metrics are excluded from this analysis. GICS was developed by and is the exclusive property of MSCI and S&P Dow Jones Indices LLC, a division of S&P Global. Countries not in the Dimensional investable universe are excluded from the analysis. Indices are not available for direct investment. Their performance does not reflect the expenses associated with the management of an actual portfolio. MSCI data © MSCI 2022, all rights reserved.

Historical Valuations: Emerging Markets

Price-to-book ratio, June 1989–June 2022

In USD.

Source: CRSP and Compustat data calculated by Dimensional. Fama/French data provided by Fama/French. Value stocks represented by the Fama/French Emerging Markets Value Research Index. Growth stocks represented by the Fama/French Emerging Markets Growth Research Index. Monthly aggregate price-to-book ratios are computed as the inverse of the weighted average book-to-market value as of month-end, where book equity is the book equity for the last fiscal year-end as of 6 months prior to each month-end, and market equity is as of month-end for each month. Book-to-market ratios above 10 are winsorized as the cutoff value. Firms with negative book value are excluded. Eugene Fama and Ken French are members of the Board of Directors of the general partner of, and provide consulting services to, Dimensional Fund Advisors LP. See "Index Descriptions" in the appendix for descriptions of Fama/French index data.

Historical Performance of Premiums over Rolling Periods

Emerging Markets

Overlapping Periods: July 1989–December 2021

MARKET beat T-BILLS

Market is Fama/French Emerging Markets Index.
T-Bills is One-Month US Treasury Bills.

There are 271 overlapping 10-year periods, 331 overlapping 5-year periods, and 379 overlapping 1-year periods.

Overlapping Periods: July 1989–December 2021

VALUE beat GROWTH

Value is Fama/French Emerging Markets Value Index.
Growth is Fama/French Emerging Markets Growth Index.

There are 271 overlapping 10-year periods, 331 overlapping 5-year periods, and 379 overlapping 1-year periods.

Overlapping Periods: January 1989–December 2021

SMALL beat LARGE

Small is Dimensional Emerging Markets Small Index.

Large is MSCI Emerging Markets Index (gross div.).

There are 277 overlapping 10-year periods, 337 overlapping 5-year periods, and 385 overlapping 1-year periods.

Overlapping Periods: July 1991–December 2021

HIGH PROFITABILITY beat LOW PROFITABILITY

High is Fama/French Emerging Markets High Profitability Index.

Low is Fama/French Emerging Markets Low Profitability Index.

There are 247 overlapping 10-year periods, 307 overlapping 5-year periods, and 355 overlapping 1-year periods.

Past performance is no guarantee of future results. Actual returns may be lower.

In USD. Based on monthly rolling differences in annualized returns over the periods listed. Rolling multiyear periods overlap and are not independent. Indices are not available for direct investment. Index returns are not representative of actual portfolios and do not reflect costs and fees associated with an actual investment. "One-Month Treasury Bills" is the IA SBBI US 30 Day TBILL TR USD, provided by Morningstar. MSCI data © MSCI 2022, all rights reserved. See "Index Descriptions" in the appendix for descriptions of Dimensional and Fama/French index data.

Appendix

Fees

	Net Expense Ratio ¹ (%)	Total (Gross) Expense Ratio ¹ (%)	Management Fee ¹ (%)
Emerging Markets Core Equity Portfolio	0.39	0.39	0.33

1. Fee and expense information as of the prospectus date 02/28/22.

Certain portfolios have entered into fee waiver and/or expense assumption arrangements with the advisor. In these cases, the advisor has contractually agreed, under certain circumstances, to waive certain fees and/or assume certain expenses of the portfolio. Unless otherwise stated in the prospectus, the advisor may amend or discontinue these arrangements at any time, one year from the date of the prospectus. The net expense ratio reflects the total annual fund operating expenses of the portfolio after taking into account any such fee waiver and/or expense assumption arrangements. Please read the portfolio's prospectus for details and more information.

"Dimensional" refers to the Dimensional separate but affiliated entities generally, rather than to one particular entity. These entities are Dimensional Fund Advisors LP, Dimensional Fund Advisors Ltd., Dimensional Ireland Limited, DFA Australia Limited, Dimensional Fund Advisors Canada ULC, Dimensional Fund Advisors Pte. Ltd., Dimensional Japan Ltd., and Dimensional Hong Kong Limited. Dimensional Hong Kong Limited is licensed by the Securities and Futures Commission to conduct Type 1 (dealing in securities) regulated activities only and does not provide asset management services. All assets in US dollars. Numbers may not total 100% due to rounding.

Trading Costs Matter

Dimensional's flexible approach helps reduce the total costs of trading

Balancing Differences Between Long- and Short-Term Expected Returns

Stock A

- Migrates from growth to value
- Down momentum and expensive to borrow

Stock B

- Migrates from growth to value

There Is More to Managing Portfolios

While a strong buy and sell discipline is critical, we also put the stocks we hold to work for shareholders

Securities Lending

Generating income for portfolios and gathering information on expected returns

Investment Stewardship

Advocating for investors to enhance shareholder value

Corporate Actions

Maximizing the value of corporate action elections

Standardized Performance Data and Disclosures

Performance data shown represents past performance. Past performance is no guarantee of future results, and current performance may be higher or lower than the performance shown. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. To obtain performance data for Dimensional portfolios current to the most recent month-end, visit us.dimensional.com.

Consider the investment objectives, risks, and charges and expenses of the Dimensional funds carefully before investing. For this and other information about the Dimensional funds, please read the prospectus carefully before investing. Prospectuses are available by calling Dimensional Fund Advisors collect at (512) 306-7400 or at us.dimensional.com/prospectus. Dimensional funds are distributed by DFA Securities LLC.

Dimensional Fund Advisors LP is an investment advisor registered with the Securities and Exchange Commission.

Disclosure regarding Dimensional ETFs:

ETFs trade like stocks, fluctuate in market value and may trade either at a premium or discount to their net asset value. ETF shares trade at market price and are not individually redeemable with the issuing fund, other than in large share amounts called creation units. ETFs are subject to risk similar to those of stocks, including those regarding short-selling and margin account maintenance. Brokerage commissions and expenses will reduce returns.

For ETFs, the market price return is calculated from closing prices as determined by the fund's listing exchange. If you trade your shares at another time, your return may differ.

Risks include loss of principal and fluctuating value. Investment value will fluctuate, and shares, when redeemed, may be worth more or less than original cost.

Small and micro cap securities are subject to greater volatility than those in other asset categories.

International and emerging markets investing involves special risks, such as currency fluctuation and political instability. Investing in emerging markets may accentuate these risks.

Sector-specific investments focus on a specific segment of the market, which can increase investment risks.

Fixed income securities are subject to increased loss of principal during periods of rising interest rates. Fixed income investments are subject to various other risks, including changes in credit quality, liquidity, prepayments, call risk, and other factors. Municipal securities are subject to the risks of adverse economic and regulatory changes in their issuing states.

Real estate investment risks include changes in real estate values and property taxes, interest rates, cash flow of underlying real estate assets, supply and demand, and the management skill and creditworthiness of the issuer.

Sustainability funds use environmental and social screens that may limit investment opportunities for the fund.

Commodities include increased risks, such as political, economic, and currency instability, and may not be suitable for all investors. The portfolio may be more volatile than a diversified fund because the portfolio invests in a smaller number of issuers and commodity sectors.

The fund prospectuses contain more information about investment risks.

1. Performance information as of 6/30/22.

2. Fee and expense information as of the prospectus dated 02/28/22.

Certain portfolios have entered into fee waiver and/or expense assumption arrangements with the advisor. In these cases, the advisor has contractually agreed, under certain circumstances, to waive certain fees and/or assume certain expenses of the portfolio. Unless otherwise stated in the prospectus, the advisor may amend or discontinue these arrangements at any time, one year from the date of the prospectus. The net expense ratio reflects the total annual fund operating expenses of the portfolio after taking into account any such fee waiver and/or expense assumption arrangements. Please read the portfolio's prospectus for details and more information.

Index Descriptions

Dimensional US Small Cap Index was created by Dimensional in March 2007 and is compiled by Dimensional. It represents a market-capitalization-weighted index of securities of the smallest US companies whose market capitalization falls in the lowest 8% of the total market capitalization of the eligible market. The eligible market is composed of securities of US companies traded on the NYSE, NYSE MKT (formerly AMEX), and Nasdaq Global Market. Exclusions: non-US companies, REITs, UITs, and investment companies. From January 1975 to the present, the index excludes companies with the lowest profitability and highest relative price within the small cap universe. The index also excludes those companies with the highest asset growth within the small cap universe. Profitability is measured as operating income before depreciation and amortization minus interest expense scaled by book. Asset growth is defined as change in total assets from the prior fiscal year to current fiscal year. Source: CRSP and Compustat. The index monthly returns are computed as the simple average of the monthly returns of 12 subindices, each one reconstituted once a year at the end of a different month of the year. The calculation methodology for the Dimensional US Small Cap Index was amended on January 1, 2014, to include profitability as a factor in selecting securities for inclusion in the index.

Dimensional International Small Cap Index was created by Dimensional in April 2008 and is compiled by Dimensional. July 1981–December 1993: It includes non-US developed securities in the bottom 10% of market capitalization in each eligible country. All securities are market capitalization weighted. Each country is capped at 50%. Rebalanced semiannually. January 1994–present: Market-capitalization-weighted index of small company securities in the eligible markets, excluding those with the lowest profitability and highest relative price within their country's small cap universe. The index also excludes those companies with the highest asset growth within their country's small cap universe. Profitability is measured as operating income before depreciation and amortization minus interest expense scaled by book. Asset growth is defined as change in total assets from the prior fiscal year to current fiscal year. The index monthly returns are computed as the simple average of the monthly returns of four subindices, each one reconstituted once a year at the end of a different quarter of the year. Prior to July 1981, the index is 50% UK and 50% Japan. The calculation methodology for the Dimensional International Small Cap Index was amended on January 1, 2014, to include profitability as a factor in selecting securities for inclusion in the index.

Dimensional International Market Index is compiled by Dimensional from Bloomberg data. Market capitalization-weighted index of all securities in the eligible markets. The index monthly returns are computed as the simple average of the monthly returns of four sub-indices, each one reconstituted once a year at the end of each quarter of the year. Maximum index weight of any one company is capped at 5%. Countries currently included are Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Hong Kong, Ireland, Israel, Italy, Japan, Netherlands, New Zealand, Norway, Portugal, Singapore, Spain, Sweden, Switzerland, and United Kingdom. Exclusions: REITs and Investment Companies. The index has been retrospectively calculated by Dimensional Fund Advisors and did not exist prior to April 2008.

Dimensional Emerging Markets Small Index was created by Dimensional in April 2008 and is compiled by Dimensional. January 1989–December 1993: Fama/French Emerging Markets Small Cap Index. January 1994–present: Dimensional Emerging Markets Small Cap Index composition: Market-capitalization-weighted index of small company securities in the eligible markets, excluding those with the lowest profitability and highest relative price within their country's small cap universe. The index also excludes those companies with the highest asset growth within their country's small cap universe. Profitability is measured as operating income before depreciation and amortization minus interest expense scaled by book. Asset growth is defined as change in total assets from the prior fiscal year to current fiscal year. The index monthly returns are computed as the simple average of the monthly returns of four subindices, each one reconstituted once a year at the end of a different quarter of the year. Source: Bloomberg. The calculation methodology for the Dimensional Emerging Markets Small Cap Index was amended on January 1, 2014, to include profitability as a factor in selecting securities for inclusion in the index.

Global Performance of the Premiums

Past performance, including hypothetical performance, is no guarantee of future results. Actual investment returns may be lower. Filters were applied to data retroactively and with the benefit of hindsight. Groups of stocks and their returns are hypothetical, are not representative of indices, actual investments or actual strategies managed by Dimensional, and do not reflect costs and fees associated with an actual investment. One-Month US Treasury Bill is the IA SBBI US 30 Day TBill TR USD, provided by Morningstar. The market is the eligible universe for each country. REITs, tracking stocks, and investment companies are excluded from the universe. In addition, stocks need to meet certain minimum market capitalization and liquidity requirements. Profitability is measured as operating income before depreciation and amortization minus interest expense scaled by book.

Presenters' Biographies

Misa Takada

Portfolio Manager

Misa Takada, a Santa Monica-based Portfolio Manager, is responsible for the management of developed and emerging markets equity and real estate portfolios. She also oversees the Portfolio Management department's account setup process to ensure robust implementation and global consistency. Prior to joining Dimensional in 2018, she worked at the Bank of Japan for five years as bank examiner and international relationship manager.

Misa earned an MBA from the Stanford Graduate School of Business with a Certificate in Public Management and Social Innovation. She received a bachelor's degree in economics from the University of Tokyo.

Ted Simpson, CFA

Regional Director and Vice President

Ted Simpson, a Vice President in Dimensional's Global Client Group, is responsible for developing and maintaining relationships with public pension funds, foundations, endowments, Taft-Hartley plan sponsors, and corporate pension and defined contribution plans.

Since joining Dimensional in 2002, Ted has held a number of positions within the firm. He began as a marketing consultant before taking a leadership role in the firm's defined contribution market initiative. Later, Ted got involved with Dimensional's consultant relations effort and eventually helped manage the group. Most recently, he has shifted his attention to working directly with clients.

Prior to joining Dimensional, Ted worked for Salomon Brothers, Legal & General, Mattel, Lion Nathan, and a fee-only RIA. He earned an MBA in marketing, strategy, and organizational behavior from the Kellogg School of Management at Northwestern University and a BA in politics and economics from Princeton University. Ted is a CFA® charterholder and holds FINRA licenses 24, 7, and 63.

Presenters' Biographies

David Hu

Regional Director

David Hu, an Austin-based Regional Director in Dimensional's Global Client Group, is responsible for developing and maintaining relationships with the firm's institutional clients, including corporate and public pension funds, foundations, endowments, Taft-Hartley plan sponsors, and defined contribution plans.

Prior to joining Dimensional in 2022, David held a variety of leadership positions at AQR Capital Management, most recently as head of institutional client relationship management for the firm's EMEA business and head of investment stewardship. David began his career at AQR working with institutional clients in North America before moving to London in 2012 to establish and scale the firm's business in the UK, Europe, and the Middle East. He has also worked at Barclays Bank and Corbin Capital Partners.

David has a BA in economics from Middlebury College, where he co-led the school's student endowment fund, served as an economics department teaching assistant, and was a member of the varsity track and field team.

RETIREMENT BOARD STAFF REPORT

DATE: September 14, 2022 Agenda Item: 16
TO: Sacramento Regional Transit Retirement Boards – ALL
FROM: Jamie Adelman, Acting, VP, Finance/CFO
SUBJ: RECEIVE AND FILE INVESTMENT PERFORMANCE RESULTS FOR THE ATU, IBEW AND SALARIED EMPLOYEE RETIREMENT PLANS FOR THE QUARTER ENDED JUNE 30, 2022 (ALL). (ADELMAN)

RECOMMENDATION

Motion to Approve

RESULT OF RECOMMENDED ACTION

Motion: Receive and File Investment Performance Results for the ATU, IBEW and Salaried Employee Retirement Plans for the Quarter Ended June 30, 2022 (ALL). (Adelman)

FISCAL IMPACT

None.

DISCUSSION

Pension funds are invested consistent with the Statement of Investment Objectives and Policy Guidelines adopted by each Retirement Board. Attached are the two investment performance reports prepared by the Boards' pension investment consultants. The first report is the Second Quarter 2022 Market Update (Attachment 1) and the second is the Investment Measurement Service Quarterly Review as of June 30, 2022 (Attachment 2). These reports provide a detailed analysis of the performance of each of the investment managers retained by the Retirement Boards to manage the Retirement Funds for the quarter ended June 30, 2022. The second report compares the performance of each investment manager with benchmark indices, other fund managers of similarly invested portfolios and other indices.

Investment Compliance Monitoring

In accordance with the Statement of Investment Objectives and Policy Guidelines for the Sacramento Regional Transit District Retirement Plans (Investment Policy), Northern Trust Company performs daily investment compliance monitoring on the Plans' three (3) actively managed funds. As of June 30, 2022, there was a compliance breach reported; however the report was investigated and it was determined that the breach report was due to restructuring of a company held by the Plans' fixed income manager (Intelsat, held by Metwest/TWC) as part of a corporate action. Northern Trust's compliance monitoring settings were set to flag equity common stock, equity rights and other sundry assets as compliance breaches. The

Intelsat investments were originally purchased as Corporate Bonds so this incident is not a violation of the investment policy. The current equity common stock, equity rights and other sundry assets will continue to be monitored until MetWest/TCW disposes of the securities. The final attached report includes the monitoring summary (Attachment 3).

The table below provides an overview of the quarter performance, quarter ending June 30, 2022 – gross of investment management fees:

Investment Manager - Description - Benchmark	Benchmark Index	ATU, IBEW & Salaried Fund	Investment Gains/ (Losses)	Pension Fund Contributions/ (Withdrawals)

Economic Commentary

Quarterly Real GDP Growth

U.S. Treasury Yield Curves

Economic data show growth hit “pause” in the U.S.

- GDP fell 0.9% in 2Q22, after dropping 1.6% in 1Q22.
- Forecasters have cut growth estimates for 2022 to 0%, or lower, and to 1.5% for 2023.
- Global equity markets down sharply following the invasion of Ukraine.

Fixed income down with sharply higher inflation and interest rates

- Bloomberg Aggregate: -10.4% year-to-date
- CPI-U: +9.1% for the year ended 2Q22

Inflation spiked to highest rate in decades (+9.1%)

Bloomberg Aggregate:

Bloomberg TIPS:

U.S. Equity Performance: 2Q22

Worst first half since 1970

- Rising interest rates and inflation along with geopolitical headlines all contributed to a volatile and risk-averse environment.
- The S&P 500 dropped by 16.1% in 2Q22; all major U.S. indices across styles and market cap ranges were negative in the quarter.
- All sectors posted negative returns over the quarter. Energy continues to be the best-performing sector, and it is the only sector that has posted positive returns YTD 2022.
- Large cap stocks nominally outpaced smaller cap stocks in the quarter. The performance spread between the Russell 1000 and the Russell 2000 Index was around 50 basis points.
- Value stocks have outperformed growth stocks across the market capitalization spectrum.
- Consumer Discretionary (-26%), Communication Services (-21%), and Information Technology (-20%) were the worst-performing sectors.

U.S. Equity: Quarterly Returns

U.S. Equity: One-Year Returns

Global/Global ex-U.S. Equity Performance: 2Q22

Fears of recession

- The war in Ukraine pushed an already fragile supply chain, energy demand/supply imbalances, and inflationary environment into fears of a recession.
- Slowing global growth and recession risk became clearer toward quarter-end, leading investors toward higher-quality and lower-volatility areas of the market to offer protection.

Wide divergence in country returns

- Optimism that the worst is behind China's COVID-19 lockdown buoyed the country to the only positive return in the quarter.
- Meanwhile Japan suffered from a weak yen, slowing growth, and continued supply chain disruptions.

Growth vs. value

- Value continues to outperform growth as most monetary policies focus on tightening.
 - *Energy was the only sector with positive year-to-date results.*
- Information Technology had the worst sector return as interest rate increases dampened long duration growth attractiveness.

U.S. dollar vs. other currencies

- The U.S. dollar strengthened further against other major currencies given its global dominance and perceived safety.

U.S. Fixed Income Performance: 2Q22

Bonds hit hard as rates rose sharply (again)

- Worst six-month return for Bloomberg US Aggregate in history
- Yield curve flirted with inversion but 2-year/10-year yield spread was slightly positive at quarter-end.
- TIPS underperformed nominal Treasuries, and 10-year breakeven spreads fell to 2.33% from 2.84% at 3/31/22.
- Fed raised rates by 75 bps, the largest increase since 1994, with further hikes expected.
 - *Market pricing reflects Fed Funds rate of 3.4% at year-end.*

Spread sectors underperformed

- Investment grade corporates underperformed like-duration U.S. Treasuries by 205 bps, RMBS by 98 bps.
- High yield underperformed as spreads widened; excess return vs. U.S. Treasuries was -792 bps.
 - *Hurt by equity market performance and worries over the impact of higher rates on the economy*
 - *Yield-to-worst 8.9%*
- Leveraged loans held up relatively well with lower-quality credits generally underperforming.

Securitized sectors continue to hang in

- Agency RMBS spreads widened in response to increased rate volatility.
- ABS spreads tightened, led by credit cards.

Sources: Bloomberg, S&P Dow Jones Indices

U.S. Private Real Estate Performance: 2Q22

Positive returns across sectors

Another strong quarter for real estate

- Income returns were positive across sectors.
- Valuations are reflective of strong fundamentals in Industrial and Apartment and continued uncertainty despite a modest recovery in Office and Retail.
- Return dispersion by manager within the ODCE Index was due to the composition of underlying portfolios, and increased borrowing costs are impacting values.
- Niche sectors such as self-storage and life sciences continued to be accretive.

Brackets indicate performance linked with manager's composite

Watch List

AQR and DFA were added to the watchlist in 1Q20. In recent periods, both managers have generated strong relative returns to warrant their removal from the watch list. DFA was removed in 1Q22 and AQR was removed this quarter.

* Current Quarter Target = 32.0% S&P 500 Index, 25.0% Blmbg Aggregate, 14.0% MSCI EAFE, 10.0% NCREIF NFI-ODCE Val Wt Gr, 8.0% Russell 2000 Index, 6.0% MSCI EM and 5.0% MSCI EAFE Small.

** Domestic Equity Benchmark = 80.95% S&P500 + 19.05% Russell 2000 until 6/30/2010, 80.95% S&P500 + 19.05% Russell 2500 until 6/30/2013, 81.08% S&P500 + 18.92% Russell 2000 until 4/30/2015, and 80% S&P500 + 20% Russell 2000 thereafter.

*** International Benchmark = MSCI EAFE until 6/30/2013, 78.26% MSCI EAFE + 21.74% MSCI EM until 4/30/2015, 76% MSCI EAFE + 24% MSCI EM until 7/31/2016, and 56% MSCI EAFE + 24% MSCI EM + 20% MSCI EAFE Small Cap thereafter.

U.S. EQUITY

All major indices fall

- The S&P 500 plunged 16.1% in 2Q22; all major U.S. indices across styles and market cap ranges fell in the quarter.
- All sectors posted negative returns in the quarter. Energy continued to be the best-performing sector, and the only sector that has posted a gain year-to-date (YTD).
- Large cap stocks nominally outpaced smaller cap stocks. The performance spread between the Russell 1000 and the Russell 2000 Index was around 50 basis points.
- Value stocks have outperformed growth stocks across the market capitalization spectrum.
- Consumer Discretionary (-26%), Communication Services (-21%), and Information Technology (-20%) were the worst-performing sectors.

Volatile environment hits equity markets

- Rising interest rates and inflation along with geopolitical headlines all contributed to a volatile and risk-averse environment.
- Macroeconomic headlines and data releases will continue to impact equity markets.
- Inflation, rising interest rates, and supply-chain disruptions are all headwinds for equity markets.
- Active large cap growth managers have underperformed the Russell 1000 Growth Index meaningfully recently.
- Large tech firms that have sold-off (e.g., Meta) have become an increasingly large proportion of the value index.
- Federal Reserve interest rate hikes may derail the economy, resulting in lower corporate earnings in the near- to intermediate-term.
- With a potential economic slowdown, sell-side analysts have been cutting corporate earnings estimates.
- Longer-duration growth assets, such as growth stocks, are vulnerable during periods of high inflation because of higher interest rates discounting way-out future earnings.

S&P Sector Returns, Quarter Ended 6/30/22

Source: S&P Dow Jones Indices

GLOBAL EQUITY

- The war in Ukraine tested an already fragile supply chain, led to energy demand/supply imbalances, and created an inflationary environment that sparked fears of a recession.
- Slowing global growth and recession risk became clearer toward quarter-end, leading investors toward higher-quality and lower-volatility areas of the market to offer protection.

Wide divergence in country returns

- Optimism that the worst is behind China’s COVID-19 lockdown buoyed the country to the only gain in 2Q22.
- Japan suffered from a weak yen, slowing growth, and continued supply chain disruptions.

Growth vs. value

- Value continues to outperform growth as most monetary policies focus on tightening.
- Energy was the only sector with positive YTD results.
- Information Technology had the worst sector return as interest rate increases dampened long duration growth attractiveness.

U.S. dollar vs. other currencies

- The U.S. dollar strengthened further against other major currencies given its global dominance and perceived safety.

The rise of the dollar

- The dollar hit a 20-year high after rising roughly 10% YTD.
- The dollar hit parity with the euro; first time since 2002.
- The yen dipped to a 24-year low against the dollar.

Strong dollar may burden global ex-U.S. markets

- Strong currency yields purchasing power.
- Dollar-denominated debt compounded by depreciating local currencies weighs on the economy.
- The dollar and global ex-U.S. equity have exhibited negative correlation over the past four decades.

EM has fared better relative to prior downturns

- EM historically declined 26% during prior S&P 500 drawdowns greater than 10%.
- As of 2Q22, EM has corrected by 18% YTD.

China presents upside opportunity

- Although divergence of China and EM ex-China is notable, China may support EM should fears of a U.S. recession fuel further drawdown.
- China offers favorable growth and valuation relative to other emerging markets.

U.S. FIXED INCOME

Bonds hit hard as rates rise sharply (again)

- Bloomberg US Aggregate Bond Index posted its worst six-month return in its history.
- Yield curve flirted with inversion, but 2-year/10-year yield spread was slightly positive at quarter-end.
- TIPS underperformed nominal Treasuries, and 10-year breakeven spreads fell to 2.33% from 2.84% at 3/31/22.
- Fed raised rates by 75 bps, the largest increase since 1994, with further hikes expected.
- Market pricing reflects Fed Funds rate of 3.4% at year-end.

Spread sectors underperformed

- Investment grade corporates underperformed like-duration U.S. Treasuries by 205 bps; RMBS by 98 bps.
- High yield underperformed as spreads widened; excess return vs. U.S. Treasuries was -792 bps, hurt by equity market performance and worries over the impact of higher rates on the economy
- Leveraged loans held up relatively well with lower-quality credits generally underperforming.

Securitized sectors continue to hang in

- Agency RMBS spreads widened in response to interest rate volatility.
- ABS spreads tightened, led by credit cards.

MUNICIPAL BONDS

Returns hurt by rising rates

- Lower quality continued to underperform
- BBB: -4.5%; AAA: -2.5% (YTD BBB: -11.3%; AAA: -8.5%)
- Munis outperformed U.S. Treasuries (Bloomberg US Treasury: -3.8%)

Valuations relative to U.S. Treasuries at fair value

- 10-year AAA Muni/10-year U.S. Treasury yield ratio roughly 90%; in line with 10-year average
- Municipal Bond Index after-tax yield = 5.4% (source: Eaton Vance)

Supply/demand

- Outflows of \$76 billion YTD; highest cycle outflow since data series began in 1992
- YTD supply down 14% vs. last year

U.S. Fixed Income: Quarterly Returns

U.S. Fixed Income: One-Year Returns

U.S. Treasury Yield Curves

Sources: Bloomberg, Credit Suisse

GLOBAL FIXED INCOME

Negative returns driven by broad interest rate increases

- U.S. dollar continued to appreciate vs. yen, euro, and pound.
- Double-digit negative returns were widespread across developed markets.

Inflation and global recession fears drag on EMD

- All countries in the USD-denominated JPM EMBI Global Diversified Index posted negative returns, hurt by rising rates in the U.S.
- Local currency markets across the JPM GBI-EM Global Diversified were down only slightly, but USD strength eroded returns for U.S. investors.

Interest rates significantly increased

- First-half returns worst since inflation of 1970s
- Global phenomenon driven by recent inflationary pressure
- All fixed income asset classes negatively impacted
- Developed market duration becoming more compelling after broad repricing

Quarterly Total Fund Relative Attribution - June 30, 2022

The following analysis approaches Total Fund Attribution from the perspective of relative return. Relative return attribution separates and quantifies the sources of total fund excess return relative to its target. This excess return is separated into two relative attribution effects: Asset Allocation Effect and Manager Selection Effect. The Asset Allocation Effect represents the excess return due to the actual total fund asset allocation differing from the target asset allocation. Manager Selection Effect represents the total fund impact of the individual managers excess returns relative to their benchmarks.

Asset Class Under or Overweighting

Current Holdings Based Style Analysis

Domestic Equity

As of June 30, 2022

This page analyzes the current investment style of a portfolio utilizing a detailed holdings-based style analysis to determine actual exposures to various market capitalization and style segments of the domestic equity market. The market is segmented quarterly by capitalization and style. The capitalization segments are dictated by capitalization decile breakpoints. The style segments are determined using the "Combined Z Score", based on the eight fundamental factors used in the MSCI stock style scoring system. The upper-left style map illustrates the current market capitalization and style score of the portfolio relative to indices and/or peers. The upper-right style exposure matrix displays the current portfolio and index weights and stock counts (in parentheses) in each capitalization/style segment of the market. The middle chart illustrates the total exposures and stock counts in the three style segments, with a legend showing the total growth, value, and "combined Z" (growth - value) scores. The bottom chart exhibits the sector weights as well as the style weights within each sector.

Current Holdings Based Style Analysis

Large Cap

As of June 30, 2022

This page analyzes the current investment style of a portfolio utilizing a detailed holdings-based style analysis to determine actual exposures to various market capitalization and style segments of the domestic equity market. The market is segmented quarterly by capitalization and style. The capitalization segments are dictated by capitalization decile breakpoints. The style segments are determined using the "Combined Z Score", based on the eight fundamental factors used in the MSCI stock style scoring system. The upper-left style map illustrates the current market capitalization and style score of the portfolio relative to indices and/or peers. The upper-right style exposure matrix displays the current portfolio and index weights and stock counts (in parentheses) in each capitalization/style segment of the market. The middle chart illustrates the total exposures and stock counts in the three style segments, with a legend showing the total growth, value, and "combined Z" (growth - value) scores. The bottom chart exhibits the sector weights as well as the style weights within each sector.

Boston Partners Historical Cap/Style Exposures

Boston Partners Historical Style Only Exposures

Atlanta Capital Period Ended June 30, 2022

Investment Philosophy

Atlanta Capital Managements approach with its small cap product is to focus on high quality companies with an overall portfolio risk exposure tied to the Russell 2000 Index. Key characteristics of this portfolio include: (1)stocks rated B+ or better by S&P, (2) equally weighting 75 stocks, (3) sector concentrations similar to that of the benchmark. A group of ten analysts is in charge of screening the Russell 2000 to identify companies they believe have strong price appreciation potential and good business fundamentals. These analysts present the ideas to the portfolio management team, led by Chip Reed, who makes the final decisions on the inclusion of stocks. In general, stocks are sold from the portfolio if the B+ or better financial rating is no longer met, there is an adverse change in the fundamental business, or because of regular portfolio maintenance to ensure broad diversification. Returns prior to 6/30/2010 are linked to a composite history.

Quarterly Summary and Highlights

- Atlanta Capital's portfolio posted a (8.99)% return for the quarter placing it in the 2 percentile of the Callan Small Capitalization group for the quarter and in the 7 percentile for the last year.
- Atlanta Capital's portfolio outperformed the Russell 2000 Index by 8.20% for the quarter and outperformed the Russell 2000 Index for the year by 18.86%.

Historical Holdings Based Style Analysis

Atlanta Capital

For Five Years Ended June 30, 2022

This page analyzes the historical investment style of a portfolio utilizing a detailed holdings-based style analysis to determine average actual exposures to various market capitalization and style segments of the domestic equity market. The market is segmented quarterly by capitalization and style. The capitalization segments are dictated by capitalization decile breakpoints. The style segments are determined using the "Combined Z Score", based on the eight fundamental factors used in the MSCI stock style scoring system. The upper-left style map illustrates the average historical market capitalization and style score of the portfolio relative to indices and/or peers. The upper-right style exposure matrix displays the average historical portfolio and index weights and stock counts (in parentheses) in each capitalization/style segment of the market. The next two style exposure charts illustrate the actual quarterly cap/style and style only segment exposures of the portfolio through history.

Country Allocation

International Equity VS Intl Eq - Benchmark Characteristics

Country Allocation

The chart below contrasts the portfolio's country allocation with that of the index as of June 30, 2022. This chart is useful because large deviations in country allocation relative to the index are often good predictors of tracking error in the subsequent quarter. To the extent that the portfolio allocation is similar to the index, the portfolio should experience more "index-like" performance. In order to illustrate the performance effect on the portfolio and index of these country allocations, the individual index country returns are also shown.

Pyrford

Period Ended June 30, 2022

Investment Philosophy

Pyrford's investment strategy is based on a value-driven, absolute return approach, with both top-down and bottom-up elements. At the country level they seek to invest in countries that offer an attractive market valuation relative to their long-term prospects. At the stock level they identify companies that offer excellent value relative to in-house forecasts of long-term (5 years) earnings growth. This approach is characterized by low absolute volatility and downside protection. Returns prior to 6/30/2017 are linked to a composite history.

Quarterly Summary and Highlights

- Pyrford's portfolio posted a (7.78)% return for the quarter placing it in the 1 percentile of the Callan Non-US Developed Core Equity group for the quarter and in the 1 percentile for the last year.
- Pyrford's portfolio outperformed the MSCI EAFE Index by 6.73% for the quarter and outperformed the MSCI EAFE Index for the year by 8.85%.

Historical Holdings Based Style Analysis

Pyrford

For Five Years Ended June 30, 2022

This page analyzes the historical investment style of a portfolio utilizing a detailed holdings-based style analysis to determine average actual exposures to various region and style segments of the international/global equity market. The market is segmented quarterly by region and style. The style segments are determined using the "Combined Z Score", based on the eight fundamental factors used in the MSCI stock style scoring system. The upper-left style map illustrates the average historical market capitalization and style score of the portfolio relative to indices and/or peers. The upper-right style exposure matrix displays the average historical portfolio and index weights and stock counts (in parentheses) in each region/style segment of the market. The next two style exposure charts illustrate the actual quarterly region/style and style only segment exposures of the portfolio through history.

Country Allocation

Pyrford VS MSCI EAFE Index

Country Allocation

The chart below contrasts the portfolio's country allocation with that of the index as of June 30, 2022. This chart is useful because large deviations in country allocation relative to the index are often good predictors of tracking error in the subsequent quarter. To the extent that the portfolio allocation is similar to the index, the portfolio should experience more "index-like" performance. In order to illustrate the performance effect on the portfolio and index of these country allocations, the individual index country returns are also shown.

AQR Equity Characteristics Analysis Summary

Portfolio Characteristics

This graph compares the manager's portfolio characteristics with the range of characteristics for the portfolios which make up the manager's style group. This analysis illustrates whether the manager's current holdings are consistent with other managers employing the same style.

Portfolio Characteristics Percentile Rankings Rankings Against Callan International Small Cap as of June 30, 2022

Sector Weights

The graph below contrasts the manager's sector weights with those of the benchmark and median sector weights across the members of the peer group. The magnitude of sector weight differences from the index and the manager's sector diversification are also shown. Diversification by number and concentration of holdings are also compared to the benchmark and peer group. Issue Diversification represents by count, and Diversification Ratio by percent, the number of holdings that account for half of the portfolio's market value.

Current Holdings Based Style Analysis

AQR

As of June 30, 2022

This page analyzes the current investment style of a portfolio utilizing a detailed holdings-based style analysis to determine actual exposures to various regional and style segments of the international/global equity market. The market is segmented quarterly by region and style. The style segments are determined using the "Combined Z Score", based on the eight fundamental factors used in the MSCI stock style scoring system. The upper-left style map illustrates the current market capitalization and style score of the portfolio relative to indices and/or peers. The upper-right style exposure matrix displays the current portfolio and index weights and stock counts (in parentheses) in each region/style segment of the market. The middle chart illustrates the total exposures and stock counts in the three style segments, with a legend showing the total growth, value, and "combined Z" (growth - value) scores. The bottom chart exhibits the sector weights as well as the style weights within each sector.

DFA Emerging Markets Equity Characteristics Analysis Summary

Portfolio Characteristics

This graph compares the manager's portfolio characteristics with the range of characteristics for the portfolios which make up the manager's style group. This analysis illustrates whether the manager's current holdings are consistent with other managers employing the same style.

Portfolio Characteristics Percentile Rankings Rankings Against Callan Emerging Markets Equity Mut Funds as of June 30, 2022

	Weighted Median Market Cap	Price/Forecasted Earnings	Price/Book	Forecasted Earnings Growth	Dividend Yield	MSCI Combined Z-Score
10th Percentile	58.02	17.56	3.20	22.07	6.31	0.71
25th Percentile	41.40	15.54	2.30	17.67	4.58	0.47
Median	28.79	11.26	1.78	15.00	2.89	0.19
75th Percentile	11.91	8.67	1.33	12.37	2.01	(0.31)
90th Percentile	9.97	6.55	1.03	10.09	1.58	(0.67)

Sector Weights

The graph below contrasts the manager's sector weights with those of the benchmark and median sector weights across the members of the peer group. The magnitude of sector weight differences from the index and the manager's sector diversification are also shown. Diversification by number and concentration of holdings are also compared to the benchmark and peer group. Issue Diversification represents by count, and Diversification Ratio by percent, the number of holdings that account for half of the portfolio's market value.

Sector Allocation June 30, 2022

Diversification June 30, 2022

	Number of Securities	Issue Diversification
10th Percentile	547	36
25th Percentile	163	28
Median	102	19
75th Percentile	79	17
90th Percentile	69	15

Current Holdings Based Style Analysis

DFA Emerging Markets

As of June 30, 2022

This page analyzes the current investment style of a portfolio utilizing a detailed holdings-based style analysis to determine actual exposures to various regional and style segments of the international/global equity market. The market is segmented quarterly by region and style. The style segments are determined using the "Combined Z Score", based on the eight fundamental factors used in the MSCI stock style scoring system. The upper-left style map illustrates the current market capitalization and style score of the portfolio relative to indices and/or peers. The upper-right style exposure matrix displays the current portfolio and index weights and stock counts (in parentheses) in each region/style segment of the market. The middle chart illustrates the total exposures and stock counts in the three style segments, with a legend showing the total growth, value, and "combined Z" (growth - value) scores. The bottom chart exhibits the sector weights as well as the style weights within each sector.

Country Allocation

DFA Emerging Markets VS MSCI Emerging Markets Index

Country Allocation

The chart below contrasts the portfolio's country allocation with that of the index as of June 30, 2022. This chart is useful because large deviations in country allocation relative to the index are often good predictors of tracking error in the subsequent quarter. To the extent that the portfolio allocation is similar to the index, the portfolio should experience more "index-like" performance. In order to illustrate the performance effect on the portfolio and index of these country allocations, the individual index country returns are also shown.

Country Weights as of June 30, 2022

Metropolitan West Period Ended June 30, 2022

Investment Philosophy

Metropolitan West Asset Management (MWAM) attempts to add value by limiting duration, managing the yield curve, rotating among bond market sectors and using proprietary quantitative valuation techniques.

Quarterly Summary and Highlights

- Metropolitan West's portfolio posted a (5.54)% return for the quarter placing it in the 43 percentile of the Callan Core Plus Fixed Income group for the quarter and in the 45 percentile for the last year.
- Metropolitan West's portfolio underperformed the Bloomberg Aggregate Index by 0.84% for the quarter and underperformed the Bloomberg Aggregate Index for the year by 0.45%.

Quarterly Asset Growth

Risk/Reward Statistics

The risk statistics used in this report examine performance characteristics of a manager or a portfolio relative to a benchmark (market indicator) which assumes to represent overall movements in the asset class being considered. The main unit of analysis is the excess return, which is the portfolio return minus the return on a risk free asset (3 month T-Bill).

Alpha measures a portfolio's return in excess of the market return adjusted for risk. It is a measure of the manager's contribution to performance with reference to security selection. A positive alpha indicates that a portfolio was positively rewarded for the residual risk which was taken for that level of market exposure.

Beta measures the sensitivity of rates of portfolio returns to movements in the market index. A portfolio's beta measures the expected change in return per 1% change in the return on the market. If a beta of a portfolio is 1.5, a 1 percent increase in the return on the market will result, on average, in a 1.5 percent increase in the return on the portfolio. The converse would also be true.

Downside Risk stems from the desire to differentiate between "good risk" (upside volatility) and "bad risk" (downside volatility). Whereas standard deviation punishes both upside and downside volatility, downside risk measures only the standard deviation of returns below the target. Returns above the target are assigned a deviation of zero. Both the frequency and magnitude of underperformance affect the amount of downside risk.

Excess Return Ratio is a measure of risk adjusted relative return. This ratio captures the amount of active management performance (value added relative to an index) per unit of active management risk (tracking error against the index.) It is calculated by dividing the manager's annualized cumulative excess return relative to the index by the standard deviation of the individual quarterly excess returns. The Excess Return Ratio can be interpreted as the manager's active risk/reward tradeoff for diverging from the index when the index is mandated to be the "riskless" market position.

Information Ratio measures the manager's market risk-adjusted excess return per unit of residual risk relative to a benchmark. It is computed by dividing alpha by the residual risk over a given time period. Assuming all other factors being equal, managers with lower residual risk achieve higher values in the information ratio. Managers with higher information ratios will add value relative to the benchmark more reliably and consistently.

R-Squared indicates the extent to which the variability of the portfolio returns are explained by market action. It can also be thought of as measuring the diversification relative to the appropriate benchmark. An r-squared value of .75 indicates that 75% of the fluctuation in a portfolio return is explained by market action. An r-squared of 1.0 indicates that a portfolio's returns are entirely related to the market and it is not influenced by other factors. An r-squared of zero indicates that no relationship exists between the portfolio's return and the market.

Relative Standard Deviation is a simple measure of a manager's risk (volatility) relative to a benchmark. It is calculated by dividing the manager's standard deviation of returns by the benchmark's standard deviation of returns. A relative standard deviation of 1.20, for example, means the manager has exhibited 20% more risk than the benchmark over that time period. A ratio of .80 would imply 20% less risk. This ratio is especially useful when analyzing the risk of investment grade fixed-income products where actual historical durations are not available. By using this relative risk measure over rolling time periods one can illustrate the "implied" historical duration patterns of the portfolio versus the benchmark.

Residual Portfolio Risk is the unsystematic risk of a fund, the portion of the total risk unique to the fund (manager) itself and not related to the overall market. This reflects the "bets" which the manager places in that particular asset market. These bets may reflect emphasis in particular sectors, maturities (for bonds), or other issue specific factors which the manager considers a good investment opportunity. Diversification of the portfolio will reduce or eliminate the residual risk of that portfolio.

Risk/Reward Statistics

Rising Declining Periods refer to the sub-asset class cycles vis-a-vis the broader asset class. This is determined by evaluating the cumulative relative sub-asset class index performance to that of the broader asset class index. For example, to determine the Growth Style cycle, the S&P 500 Growth Index (sub-asset class) performance is compared to that of the S&P 500 Index (broader asset class).

Sharpe Ratio is a commonly used measure of risk-adjusted return. It is calculated by subtracting the "risk-free" return (usually 3 Month Treasury Bill) from the portfolio return and dividing the resulting "excess return" by the portfolio's risk level (standard deviation). The result is a measure of return gained per unit of risk taken.

Sortino Ratio is a downside risk-adjusted measure of value-added. It measures excess return over a benchmark divided by downside risk. The natural appeal is that it identifies value-added per unit of truly bad risk. The danger of interpretation, however, lies in these two areas: (1) the statistical significance of the denominator, and (2) its reliance on the persistence of skewness in return distributions.

Standard Deviation is a statistical measure of portfolio risk. It reflects the average deviation of the observations from their sample mean. Standard deviation is used as an estimate of risk since it measures how wide the range of returns typically is. The wider the typical range of returns, the higher the standard deviation of returns, and the higher the portfolio risk. If returns are normally distributed (ie. has a bell shaped curve distribution) then approximately 2/3 of the returns would occur within plus or minus one standard deviation from the sample mean.

Total Portfolio Risk is a measure of the volatility of the quarterly excess returns of an asset. Total risk is composed of two measures of risk: market (non-diversifiable or systematic) risk and residual (diversifiable or unsystematic) risk. The purpose of portfolio diversification is to reduce the residual risk of the portfolio.

Tracking Error is a statistical measure of a portfolio's risk relative to an index. It reflects the standard deviation of a portfolio's individual quarterly or monthly returns from the index's returns. Typically, the lower the Tracking Error, the more "index-like" the portfolio.

Treynor Ratio represents the portfolio's average excess return over a specified period divided by the beta relative to its benchmark over that same period. This measure reflects the reward over the risk-free rate relative to the systematic risk assumed.

Note: Alpha, Total Risk, and Residual Risk are annualized.

Quarterly Highlights

The Callan Institute provides research to update clients on the latest industry trends and carefully structured educational programs to enhance the knowledge of industry professionals. Visit www.callan.com/research-library to see all of our publications, and www.callan.com/blog to view our blog. For more information contact Barb Gerraty at 415-274-3093 / institute@callan.com.

New Research from Callan's Experts

[Research Cafe: ESG Interview Series](#) | Mark Wood of Callan discusses with Jon Hale, Director of ESG Strategy at Morningstar, the evolving definition of sustainable investments.

[Research Cafe: Private Equity](#) | In this session, private equity experts Ashley Kahn and Jonathan Farr provide actionable insights for institutional investors to help them negotiate with private equity managers, and offer private equity managers crucial information about how their peers determine fees and terms. This session also includes a special feature on credit line usage.

[Investing in Data Centers: The Real Assets of the Digital Age](#) | Lauren Sertich discusses investing in data centers, a growing sector in which institutional investors have more investment options as the universe of qualified managers/operators rapidly expands.

[Do Active Fixed Income Managers Add Value With Sector Rotation?](#) | Kevin Machiz analyzes whether institutional investors could take a DIY approach to strategic sector allocations and forego sector rotation within fixed income and still achieve results comparable to active managers. Our study found that the average manager has added value with sector rotation.

Blog Highlights

[SEC Proposes Rule to Enhance and Standardize Climate-Related Disclosures](#) | The U.S. Securities and Exchange Commission unveiled its proposed rule amendments designed to improve and standardize disclosures around climate change risks for public companies.

[Unprecedented Territory—and the Inherent Limits of Diversification](#) | Stock and bond markets around the globe were down together for the first four months of 2022. How often does that happen? Did diversification fail us?

[Rising Interest Rates Spur Look at Structured Credit](#) | Structured credit has seen increased interest from institutional investors as they explore ways to adapt their fixed income portfolios for an expected environment of rising rates.

[Hedge Fund Strategies: A Guide for Institutional Investors](#) | Hedge fund strategies are beginning to see renewed interest from institutional investors seeking diversification benefits and downside protection. But these strategies can be complex; this explainer educates investors about investing in these strategies.

Quarterly Periodicals

[Private Equity Update, 1Q22](#) | A high-level summary of private equity activity in the quarter through all the investment stages

[Active vs. Passive Charts, 1Q22](#) | A comparison of active managers alongside relevant benchmarks over the long term

[Market Pulse Flipbook, 1Q22](#) | A quarterly market reference guide covering trends in the U.S. economy, developments for institutional investors, and the latest data on the capital markets

[Capital Markets Review, 1Q22](#) | Analysis and a broad overview of the economy and public and private markets activity each quarter across a wide range of asset classes

[Hedge Fund Update, 1Q22](#) | Commentary on developments for hedge funds and multi-asset class (MAC) strategies

[Real Assets Update, 1Q22](#) | A summary of market activity for real assets and private real estate during the quarter

[Private Credit Update, 1Q22](#) | A review of performance and fundraising activity for private credit during the quarter

Events

Please mark your calendar and look forward to upcoming invitations:

October Regional Workshop

Oct. 18, 2022 – Denver, CO

Oct. 20, 2022 – San Francisco, CA

2023 National Conference

April 2-4, 2023 – Scottsdale, AZ

For more information about events, please contact Barb Gerraty: 415-274-3093 / gerraty@callan.com

Education: By the Numbers

50+

Unique pieces of research the Institute generates each year

525

Attendees (on average) of the Institute's annual National Conference

3,700

Total attendees of the "Callan College" since 1994

Education

Founded in 1994, the "Callan College" offers educational sessions for industry professionals involved in the investment decision-making process.

Introduction to Investments

September 20-22 – Virtual

This program familiarizes institutional investor trustees and staff and asset management advisers with basic investment theory, terminology, and practices. Our virtual session is held over three days with virtual modules of 2.5-3 hours, while the in-person session lasts one-and-a-half days. This course is designed for individuals with less than two years of experience with asset-management oversight and/or support responsibilities. Virtual tuition is \$950 per person and includes instruction and digital materials. In-person tuition is \$2,350 per person and includes instruction, all materials, breakfast and lunch on each day, and dinner on the first evening with the instructors.

Additional information including registration can be found at: callan.com/events/

"Research is the foundation of all we do at Callan, and sharing our best thinking with the investment community is our way of helping to foster dialogue to raise the bar across the industry."

Greg Allen, CEO and Chief Research Officer

List of Callan's Investment Manager Clients

Confidential – For Callan Client Use Only

Callan takes its fiduciary and disclosure responsibilities to clients very seriously. We recognize that there are numerous potential conflicts of interest encountered in the investment consulting industry, and that it is our responsibility to manage those conflicts effectively and in the best interest of our clients. At Callan, we employ a robust process to identify, manage, monitor, and disclose potential conflicts on an ongoing basis.

The list below is an important component of our conflicts management and disclosure process. It identifies those investment managers that pay Callan fees for educational, consulting, software, database, or reporting products and services. We update the list quarterly because we believe that our fund sponsor clients should know the investment managers that do business with Callan, particularly those investment manager clients that the fund sponsor clients may be using or considering using. Please note that if an investment manager receives a product or service on a complimentary basis (e.g., attending an educational event), they are not included in the list below. Callan is committed to ensuring that we do not consider an investment manager's business relationship with Callan, or lack thereof, in performing evaluations for or making suggestions or recommendations to its other clients. Please refer to Callan's ADV Part 2A for a more detailed description of the services and products that Callan makes available to investment manager clients through our Institutional Consulting Group, Independent Adviser Group, and Fund Sponsor Consulting Group. Due to the complex corporate and organizational ownership structures of many investment management firms, parent and affiliate firm relationships are not indicated on our list.

Fund sponsor clients may request a copy of the most currently available list at any time. Fund sponsor clients may also request specific information regarding the fees paid to Callan by particular fund manager clients. Per company policy, information requests regarding fees are handled exclusively by Callan's Compliance department.

Compliance Summary

Sponsor Code:SACRT
Count Of Warning:0

ReferenceDate:30-Jun-2022
Count Of Info Only:0

Count Of Passes:30

Count Of Fail:1

Note: The compliance breach is a carry forward from March 2022 and was caused by a restructuring of Intelsat, a global provider of satellite communications services (original holdings Intelsat Jackson CUSIPs 45824TAY1 and 45824TBA2 and current holdings CUSIPs L5217E120, L5137X109, L5137X117, 458ESCAB6 and 458ESCAC4); which are part of MetWest/TCW's portfolio holdings. As a result of the restructuring, there will be an equity line item in the portfolio for some period as MetWest/TCW seeks an opportunistic disposition to maximize the realized value. In time, execution on Intelsat's business plan should improve the liquidity and value of Intelsat common shares, leading to a full liquidation from the portfolio. Northern Trust's compliance monitoring settings were set to flag equity common stock, equity rights and other sundry assets as compliance breaches. The Intelsat investments were originally purchased as Corporate Bonds so this incident is not a violation of the investment policy. The current equity common stock, equity rights and other sundry assets will continue to be monitored until MetWest/TCW disposes of the securities.
